VII. POLICY, PROCEDURE, AND RULES

A. General Update.

- 1. No action taken.

B. Policy and Procedure.

- 1. No action taken.

C. Practice Act, Rules/Related Matters/Declaratory Statements.

- 1. The Board received several practice queries. The following queries were discussed with the resultant opinions, to-wit
 - a. In February of 2019, a practice act query was received from a veterinarian concerning whether the artificial insemination of canines constitutes the “practice of veterinary medicine” within the meaning of the Louisiana Veterinary Practice Act. A decision was not rendered and was deferred pending the opportunity for research by general counsel. Upon further consideration and with the advice of counsel it was decided that the artificial insemination of canines does constitute the practice of veterinary medicine within the meaning of the Practice Act. The practitioner will be advised accordingly.
 - b. Another query involved the question of whether under the Practice Act or Rules the use of a catheter in a small animal veterinary clinic is mandatory. The discussion centered on the absence of specific rules addressing the issue and variables and professional judgment required in deciding whether the use of a catheter is indicated. The opinion of the Board is that the use of a catheter in the scenario presented is determined on a case by case basis and it is not, therefore, mandatory.
 - c. The Board was asked whether it was unlawful or unethical for a layperson working for the Vermillion Parish Animal Shelter, a facility owned and operated by the parish police jury and the employer of the

layperson, to draw blood and perform heartworm testing on dogs up for adoption. The Board’s discussion centered on the statutory definition and exceptions to the “practice of veterinary medicine” in the Louisiana Veterinary Practice Act—La. R.S.37:1511 et seq. and its jurisdiction over licensees. An exception under the act is found at La. R.S. 37:1514 (1), which excludes from the provisions of the Practice Act “an employee of the federal, state or local government performing his official duties”. Accordingly, under the circumstances as presented it is neither unlawful nor unethical under the Practice Act, the Rules and the principles of Veterinary Ethics as set out by the AVMA. The licensee presenting the query will be so notified.
