

CONTRACT DOCUMENTS, SPECIFICATIONS  
FOR  
TWO YEAR CONTRACT FOR RESTORATION OR  
REPLACEMENT OF EXISTING SEWER MAINS (GRAVITY OR  
FORCE) BY POINT REPAIR

JEFFERSON PARISH  
BID NO. 50-00116631

---

ADDENDUM NO. 1

DATE ISSUED: June 22, 2016

---

BID DATE: June 28 at 2:00 PM  
BID LOCATION: Jefferson Parish General Government Building  
Jefferson Parish Purchasing Dept., Suite 4400  
200 Derbigny St., Gretna, LA 70053

---

This addendum shall be part of the Contract Documents as provided in the Instructions to Bidders.

The following items are issued to add to, modify, and clarify the Contract Documents. These items shall have full force and effect as the Contract Documents, and the cost involved shall be included in the bid prices.

Acknowledge receipt of the addendum by inserting its number and date on the Bid Form of the Bid Documents. Failure to do so may subject the bidder to rejection.

This Addendum No. 1 consists of 35 pages including the title sheet and all attachments.

**General**

1. Replace bid form with the new bid form included in this addendum. Quantities have been changed on multiple items and New Items Nos 247 and 248 have been added. Submit bid on revised form which has footer stating “Revised per Addendum #1”.
2. Contractor will be required to complete and submit monthly a work order status spreadsheet. The required format and details are included in the work order status spreadsheet attached to this addendum.

**Specifications**

1. General Conditions Section 1.08, Liquidated Damages. Replace existing section with the following:

1.08: Liquidated damages:

Liquidated damages will be assessed in the amount of \$500 per day if the restoration is not complete within forty five days upon completion of the repair. If the Contractor should fail to complete the repair and restoration in a timely manner and to the satisfaction of the Parish, liquidated damages will be assessed, and the issuance of additional work orders will be withheld. If Contractor continually fails to perform work to the satisfaction of Jefferson Parish, the Parish reserves the right to terminate the contract, re-advertise, and re-bid the contract.

2. General Conditions Section 2.04, Work Sequence. Replace existing section with the following:

2.04: Work Sequence

The work orders shall be prioritized by the Parish.

The time requirements for the commencement and completion of repair work ordered are as follows:

	<i>Work to Commence</i>	<i>Repair to be Completed</i>
Emergency Repairs	within 1 hr. of notification	work as required until repair is complete
Priority Repairs	within 24 hrs. of notification	within 5 working days
Non-Priority Repairs	within 10 days of notification	within 30 calendar days

Upon completion of the repairs above the Contractor shall place and maintain a 6-inch thick temporary asphalt patch on the ground surface. This temporary asphalt patch shall remain in place for thirty (30) day following completion of the repair to allow for a settling period. Once the thirty (30) day settling period is complete the Contractor will have fifteen (15) days to complete the permanent restoration work. If the restoration work is not complete within fifteen (15) days following the settlement period (45 days following completion of the repair) the Contractor will be assessed liquidated damages as described in Section 1.08 of the General Conditions for every day the repair is not complete.

If the Contractor does not complete the repair properly the first time and has to return to complete the repair again the original schedule as described above will be enforced. The Contractor will still have to allow for a thirty (30) day settling period with a temporary asphalt patch however the days will continue to be enforced from the original day the initial repair was started. Any days the Contractor does not have the repair and restoration complete beyond the original schedule will be assessed liquidated damages as described in Section 1.08 of the General Conditions.

NOTE: Pay requests for work orders shall not be submitted until all repair work and restoration is complete. Any pay requests that include work orders that are not complete (including restoration) will be rejected until all work is complete for the work order. The Emergency Mobilization Cost item is intended to cover any and all compensation for premium time, overtime, etc.

Failure of the Contractor to meet the above specified time constraints will result in the following:

A. Have the work performed by others and back charged to the Contractor

OR

B. Persistent failure of the Contractor to meet the response deadlines (3 occurrences or more) may lead to contract termination. Notification of deficient performance will be by certified mail.

OR

C. Liquidated damages in the amount of \$500 per day for each day the work order is not complete within the specified time frame.

The failure of Jefferson Parish to assert a breach for the failure of the Contractor to perform at any time shall not be construed to be a waiver of Jefferson Parish's rights hereunder.

Each work order will designate a work order number and work item number (specific for each address). All correspondence, billing, etc. pertaining to the work shall reference this job number designation.

If, in the opinion of the Owner and Engineer, the Contractor does not diligently proceed with the work, or does not complete restoration within the time limits specified, the issuance of additional work orders will be withheld.

3. Section 01025, Measurement and Payment. Replace Section 2.05 with the following:

**2.05: Additional Granular Material** (Item 49)

**A. MEASUREMENT:**

The measurement for Granular Material will be by the cubic yard.

**B. PAYMENT:**

Where specific site conditions dictate, and at the discretion and direction of the Engineer, the use of additional granular material (pumped river sand), above that specifically required by the Contract, will be supplied and placed as directed. The actual quantity of granular material supplied and placed, when directed by the Engineer will be paid for at the unit bid price. This price and payment will constitute full compensation for furnishing all labor, equipment, and materials to perform the work.

4. Section 01025, Measurement and Payment. Replace Section 2.06 with the following:

**2.06: Additional Limestone** (Item 50)

**A. MEASUREMENT:**

The measurement for Limestone will be by the cubic yard.

**B. PAYMENT:**

Where specific site conditions dictate, and at the discretion and direction of the Engineer, the use of additional limestone, above that specifically required by the Contract, will be supplied and placed as directed. The actual quantity of limestone supplied and placed, when directed by the Engineer, will be paid at the unit bid price. This price and payment will constitute full compensation for furnishing all labor, equipment, and materials to perform the work.

5. Section 01025, Measurement and Payment. Replace Section 2.28 with the following:

**2.28: Furnish and Install New Restrained Joint Force Main Pipe** (Items 111 through 120)

**A. MEASUREMENT:**

New force main pipe of any material in the various sizes required in these specifications when furnished and installed, excavated and backfilled, tested and accepted, will be measured for payment by the Engineer. Measurement for length will be along the centerline of pipe. Such price shall include labor, materials, and equipment to furnish a complete and accepted repair by the Owner. Removal of all abandoned pipe and debris shall be included in the bid price.

**B. PAYMENT:**

Payment for furnishing and installing the various materials and sizes of new force main pipe under this section will be made on a linear foot of pipe installed and accepted to provide for satisfactory repair. All lumber, bedding material, excavation, pipe restraints, concrete blocking, as required, and testing shall be included in the bid price per linear foot for the required various force main diameters.

6. Section 01025, Measurement and Payment, add the following Sections.

**2.48: Secure Utility Pole** (Item 247)

**A. MEASUREMENT:**

Measurement for payment for securing a utility pole shall be made on a per hour basis for each utility pole secured, as directed by the Project Manager or Director of the Department of Sewerage.

**B. PAYMENT:**

Payment for Securing Utility Poles shall be made at the unit bid price per hour. The unit price shall be considered full compensation for this item. It shall include all labor and materials required for securing a utility pole.

**2.49: Air Release Valve Replacement** (Item 248)

**A. MEASUREMENT:**

Measurement for payment for air release valve replacement shall be made on a per each basis for each air release valve replaced, as directed by the Project Manager or Director of the Department of Sewerage.

**B. PAYMENT:**

Payment for Air Release Valve Replacement shall be made at the unit bid price per each. The unit price shall be considered full compensation for this item. It shall include all labor and materials required for air release valve replacement.

7. The following shall be added to the end of Section 2.03 Work Orders.

Before work commences on a work order the Contractor is responsible for measuring the diameter of the pipe to confirm the size of the repair. The Contractor is also responsible for verifying whether the mainline has an existing liner installed before work commences on a work order.

8. Section 15100, Air Release Valves has been added to the specifications.

NOTE: The following items are attached and are hereby made part of this addendum:

1. Work Order Status Spreadsheet
2. Revised Bid Form
3. Specification Section 15100 – Air Release Valves
4. BLD Services Questions and Answers

LOUISIANA UNIFORM PUBLIC WORK BID FORM

TO: Jefferson Parish Purchasing Department
200 Derbigny Street, Suite 4400
Gretna, LA 70053

BID FOR: Two Year Contract for Restoration or
Replacement of Existing Sewer Mains (gravity or force)
by Point Repair, for the Jefferson Parish Department of
Sewerage

(Owner to provide name and address of owner)

(Owner to provide name of project and other identifying information)

The undersigned bidder hereby declares and represents that she/he; a) has carefully examined and understands the Bidding Documents, b) has not received, relied on, or based his bid on any verbal instructions contrary to the Bidding Documents or any addenda, c) has personally inspected and is familiar with the project site, and hereby proposes to provide all labor, materials, tools, appliances and facilities as required to perform, in a workmanlike manner, all work and services for the construction and completion of the referenced project, all in strict accordance with the Bidding Documents prepared by: Jefferson Parish Department of Sewerage and dated:

(Owner to provide name of entity preparing bidding documents.)

Bidders must acknowledge all addenda. The Bidder acknowledges receipt of the following ADDENDA: (Enter the number the Designer has assigned to each of the addenda that the Bidder is acknowledging)

**SECTION 15100**  
**AIR RELEASE VALVES**

**PART 1 - GENERAL**

**1.01 SCOPE OF WORK**

- A. Furnish all labor, materials, equipment and incidentals required to install, complete and ready for operation, air release valves as specified herein.

**1.02 DESCRIPTION OF SYSTEMS**

All of the equipment and materials specified herein are intended to be standard for use in controlling the flow of wastewater.

**1.03 QUALIFICATIONS**

All valves shall be products of well established reputable firms who are fully experienced, reputable and qualified in the manufacture of the particular equipment to be furnished. The equipment shall be designed, constructed and installed in accordance with standard practices and methods and shall comply with these specifications as applicable.

**1.04 TOOLS**

Special tools, if required for normal operation and maintenance, shall be supplied with the equipment.

**PART 2 - PRODUCTS**

**2.01 MATERIALS AND EQUIPMENT**

A. Air Release Valves

1. Sewage air and vacuum release valve to be short pattern design with an overall height not to exceed 19 inches and have a conical shape body with interior volume that prevents liquid contact with the air release mechanism. The body material shall be of corrosion resistant reinforced nylon or 316 stainless steel with 316 stainless steel body clamp to provide quick disassembly for cleaning or repair. Internal float to be constructed of foamed polypropylene with stainless steel shaft and fasteners.
2. The air release mechanism shall be a non shock type resilient roll seal that provides positive open and close operation with leak free sealing. The air release device with intergral flush connection shall be constructed of corrosion resistant reinforced plastics. The air and vacuum release valve working

pressure shall be rated to 145 psi and tested to 230 psi.

3. Valve shall be equipped with a ¼" ball valve to drain valve body and back-flushing during maintenance.
4. The air release shall be the following A.R.I. models or approved equal:
  - a. Force Mains 4"-16" Dia.: D-025
  - b. Force Mains 18"-24" Dia.: D-023
  - c. Force Mains 30" or greater: D-026
  - d. Or as recommended by the manufacture

### PART 3 - EXECUTION

#### 3.01 INSTALLATION

- A. After installation, all valves shall be tested at least one (1) hour at the working pressure corresponding to the class of pipe, unless a different test pressure is specified. If any joint proves to be defective, it shall be repaired to the satisfaction of the Engineer.

END OF SECTION

## Questions for Jefferson Parish 2 Year Sewer Point Repair Contract

1. Question:

There seems to be some bid items that are similar. These items are as follows:

(111 – 120) “Furnish and Install Restrained Joint Pipe”

(186 – 193) “Force Main Point Repair Any Material”

(194 – 201) “Force Main Point Repair with Clamp Any Material”

(202 – 209) “Force Main Point Repair with Restrained Joints Any Material”

Can you please clarify the difference in these items as they seem a bit redundant?

Answer:

Items 111-120 are for new force main installation.

Items 186-193 are for force main repair on any type of material existing force main.

Items 194-201 are for force main repair on any type of material existing force main utilizing a clamp.

Items 202-209 are for force main repair on any type of material existing force main utilizing restrained joints.

2. Question:

Can you please clarify the difference between items?

(75 – 90) “Set-Up/Operation of By-Pass Pumps”

(91 – 94) “Set-Up/Rental of Standby By-Pass Pumps”

Answer:

Item Numbers 75-78 and 91-94 include the following: Set up for By-Pass Pumps and Standby By-Pass pumps includes pump, all level controls, installation of up to 100 feet of discharge force main, up to 60 feet of suction piping and a full tank of fuel.

Item Numbers 79-90 include the following: Operation of By-Pass Pumps Includes rental cost of the pump and equipment, supplying fuel on a 24 hour basis and supplying a technician to check the pump daily and fuel the pump as necessary.

Item Numbers 95-106 include the following: Rental of Standby By-Pass Pumps includes rental cost of the pump and equipment and one full tank of fuel. These pumps will be set at high level of the wet well and will not operate unless there is a failure at the station or wet weather flow exceeds the lead pump capacity. When a standby pump begins to operate payment will be made under item numbers 79-90 - Operation of By-Pass Pumps.

3. Question:

Please clarify LD's per work order and how this intended to work... would like to have 45 days after repair is completed to complete restoration.

Answer:

Liquidated damages have been clarified and the clarifications are included in this addendum.
