ADDENDUM # 2

Bid No.: 50-0116930

Bid Opening Date: 08/04/2016

For: Labor, equipment & materials necessary to remove existing, furnish and install HVAC system for Lapalco Headstart.

Answering questions:

1. Question #1: Is there a competition time and liquidated damages associated with this project? The completion time is as soon as possible but not more than 90 days, since this is an open school. No liquidated damages.
2. Question #2: Who is the current Fire Alarm Contractor for the building? APS systems.
3. Question #3: After demolition of the existing Aeon roof top units, what is to be done with existing roof top duct work, supports, curbs etc? The roof top support and duct work is to be demolished and roof patching would be required as needed. As well as hauling away all old equipment.
4. Question #4: If the roof top curbs, duct supports and penetrations are to be demolished then roof patching would be required. Is there an existing warranty on the current roofing system? There is no current roof warranty on this building as there is no warranty associated with anything that was installed by the initial contractor.

Sincerely,

Donna Reamey

Donna Reamey, Buyer II
