Q: Addendum #3 from the ALEX BOX CLEANING section. This is the last bullet point on page 2.

- The top of pads around the field must be wiped down during cleanings and free of any debris at all times.-

Where are these pads located and what is their function? How much of the length of the field do they go around? Are any pads higher than 6 feet off the ground?

A: The pads wrap the field in its entirety. During a game, we do not expect the pads to be maintained, however, any debris blown onto the pads must be wiped off and all pads must be wiped down in general during a cleaning. The pads along the outfield fence are approximately 10ft tall, the rest are approximately 3-4ft tall.

Q: Outside of the West Plaza Landings and the escalator glass, is there any other glass that needs to be cleaned associated with the Pre clean, game day, BCS, Spring Clean, and post clean times in Tiger Stadium?

A: No
