Two questions were received and their answers are below:

“Would we be able to arrange a time to see the 5th floor conference room, as well as review any existing equipment that the new system would interface with? Would the room be available on Tuesday, September 13th?”

Answer: September 13th is OK for access to that room at 1:00pm. No verbal questions can be answered during that visit.

“Can you tell us what version of Call Manager LSU is running?”
