

**DOTD SPECIFICATION FOR  
INFLATABLE BUOYANT APPARATUS (IBA)  
MARINE OPERATIONS**

The case or body shall be constructed of polyurethane coated nylon fabric.

The IBA shall be 50 man, certified for passenger vessels upon the inland waters with Coast Guard approval number: 46 CFR 160.010/B102/0.

The IBA shall be outfitted with applicable government specified equipment for lifesaving in Inland waters, in accordance with 46 CFR 160.151-31.

This equipment will be mounted on existing roll off style cradles for deploying the IBA.

The vendor shall verify the dimensions of the existing cradle prior to providing the IBA.

The vendor will provide and certify the equipment to the DOTD Representative.

The following minimum equipment shall be contained within the IBA: two (2) paddles, one (1) working flashlight with one (1) set of spare batteries and one (1) set of spare bulb(s), one (1) whistle, two (2) sponges, one (1) repair kit, and (4) leak stoppers.

Standard manufacturer 5 year warranty.

Suggested brands: Elliot, Zodiac, or approved equal.
