

ADDENDUM 1
August 28, 2017

Furnish and Install a Digital Sign
Bid #50018-180003

Bid Due Date:

September 5, 2017 @ 2:00 P.M.

Questions and Answers

- Software communication methods – Cellular communication option must be available.
- A website must be available for updating the content on the board. No software should have any requirement for installation on a specific computer/laptop.
- Removal of existing structure (pole and sign) and storage in a new location on the campus (in the Facilities department).
- The completed sign must include double-sided LED illuminated panels on the on the top and bottom of the digital sign (top – 3’0”; bottom – 2’0”). The text included on the panels will be decided in consultation with the customer after award.
- Any permits required will be the responsibility of the bidder.
- Installation must be completed within 10 weeks of the issuance of the PO.
- Pole cladding should be included in the structure.
- Overall height from ground to top of sign (including top panel) is 21’7”.
- The new structure must be stamped by a licensed engineer and is the responsibility of the bidder.
- Are the “As Builts” for the existing structure available? No
- Are there photos of the existing structure available? There was a Pre-Bid Conference held on August 22, 2017 at 10:00am in the Purchasing Office on the campus of Grambling State University. It is the responsibility of the interested Vendor to visit the job site prior to become familiar with the work that is to be performed. All site visits are handled by the Information Technology Department to schedule prior to the bid opening email peggy@gram.edu or cjones@gram.edu or 318-274-6349.
- State Insurance requirements. (1) Certificate of Liability Insurance for \$1,000,000, (2) Commercial General Liability Insurance, (3) Workman Compensation, (4) Employee Liability.
