Discussion of Board of Review.

1015 The Board is in receipt of a set of proposed guidelines drawn up by Venture Global pertaining to LNG vessels transiting the Southwest Pass of the Mississippi River.

The Board acknowledges that Bar Pilots are required to act as prudent pilots on all types of vessels that transit through the entrances of the Mississippi River and have done so throughout their history.

At the appropriate time the Board will issue a policy requiring all Bar Pilots complete a continuing education course specific to LNG vessels.
