2	MR. MOSS:	2	website so that anybody who wants to look at
3	Present.	3	that spreadsheet, you're welcome to do so. If
4	MS. SIMMONS:	4	you want to see if the public or the
5	We have a quorum.	5	committee wants to see all of the comments that
6	CHAIRMAN JONES:	6	we actually received and read them verbatim,
7	Thank you very much.	7	those are accessible as well. You can contact
8	I believe you had an opportunity to review	8	LED and we can make those available to you.
9	or receive and review the minutes from our	9	Today what I would like to do is open the
10	July 10 meeting. I will entertain a motion to	10	floor. Again, we have heard from industry. We
11	approve.	11	have heard from LED. I would like to open the
12	We have a motion from Mr. Moss. I have a	12	floor today for the committee to take comments
13	second from Mr. Polozola.	13	from any other stakeholders. This is your
14	Any questions or comments from the	14	opportunity. If you submitted written comments,
15	committee? Any comments from the public?	15	if you haven't submitted written comments, it
16	Hearing none, all in favor say "Aye."	16	doesn't matter. If you have comments that you
17	ALL:	17	want to share with the committee today, we want
18	Aye.	18	to give you that opportunity.
19	CHAIRMAN JONES:	19	All right. Any questions about the
20	Any opposition?	20	process from the committee this morning? All
21	(No response.)	21	right. Are we ready to rock and roll? Let's
22	There is none. The motion carries.	22	go.
23	Welcome everyone. Since our last meeting		I know that we have gotten requests to
24	in July we have received "we," LED has	24	speak from Together Louisiana, Ms. Hansen. Are
25	received a number of written comments from	25	you ready to proceed?
	Page 6		Page 8
1	people and we appreciate very much that input	1	MS. HANSEN:
2	from stakeholders. That's what we needed. Just	2	Yes.
3	as a reminder and perhaps a way to set the table	3	CHAIRMAN JONES:
4	on where we have been and perhaps where we are	4	Please come forward. Hello, Mr. Bagert.
5	going, we started this process by hearing from	5	All right. Ms. Hansen, if you could just
6	representatives of industry as to what in the	6	state your name and your position with the
7	perfect world they would like to see this	7	organization and then proceed to fill us in.
8	rewrite of the rules look like. Similarly, we	8	MS. HANSEN:
9	have had that kind of analysis from LED. They	9	Good morning, Board of Commerce and
10	have presented to this committee what they	10	Industry Committee. My name is Erin Hansen. I
11	believe a rewrite of these rules need to be.	11	am State Policy Director for Together Louisiana.
12	Frankly, surprisingly, they are not that	12	Together Louisiana is a network of
13	far apart. There are some differences that this	13	nonprofit organizations around Louisiana mostly
14	committee is going to have to reconcile, but	14	comprised of houses of faith, churches, with
15	then we also wanted to hear from any other	15	some other nonprofit members as well. We have
16	stakeholders. We were approached from local	16	been deeply interested in the industrial tax
17	were approached from food		
	officials. We heard from economic development	17	exemption program for a decade. And so glad to
18	officials. We heard from economic development organizations. We heard from other citizens	17 18	exemption program for a decade. And so glad to be here and thank you for giving us the

With that, I will turn it over to my colleague, Mr. Bagert. CHAIRMAN JONES: Mr. Bagert, state your full name for the

1 Broderick Bagert. I am an organizer with 1 you are replacing something new, then you deduct 2 Together Louisiana. And it is good to be back. 2 the value of the original investment. 3 **CHAIRMAN JONES:** 3 In practice, that standard of kind of 4 Did you miss us? 4 looking piece by piece creates a vague and 5 5 MR. BAGERT: subjective criteria for what is a new investment In a certain matter of speaking, no. 6 and what is an upgrade. You know, is this a 6 7 Just a context -- especially for those who 7 replacement cracker or is this a Cracker 3.0. 8 8 have been a part of this journey. When we So this vagueness has created a loophole where a lot of investments that, in fact, are not adding 9 started researching industrial tax exemption 9 10 program, most of us didn't know what it was. It 10 net new value are being exempted. 11 was sort of a What is this going on here? 11 Texas has dealt with a similar problem, 12 Right. 12 the same problem, and it addresses it in a 13 And it's been a meaningful engaging thing 13 different way. They established the baseline of 14 to try to figure out how in an arena where 14 the standard for eligible property is a net citizens had typically not been a part of a 15 15 increase over the value that was in place when 16 discussion and often elected officials do that. 16 the investment was made. And that seemed both 17 And it seems to us that we are at a point where 17 sensible and wise. And it gets around some of 18 now what happens here for the long-term. There 18 the things about which people disagree, you 19 is a lot about which people disagree. There is 19 know, whether jobs are created, whether the 20 a lot about which people agree. So our goals 20 investments ought -- exemptions ought to be 21 here are kind of to establish not what the --21 given at all. Everybody can agree if you wanted 22 22 our ideal program rules will be, but what to incentivize something that's new investment, 23 23 sustainable program rules will be that establish that is the proposal. 24 a baseline that helps to keep these exemptions 24 Why do we need this? Just two slides on 25 as incentives. 25 the percent of property. This is industrial Page 10 Page 12 1 It is called safeguarding the tax base 1 property in ten parishes, the top ten parishes 2 2 from the replacement value loophole. Let me in terms of the median exemption per year. So 3 3 just point by point say what we are going to that's Rapides, Jefferson, East Baton Rouge, 4 say. The core premise of ITEP is that you give 4 St. James, Calcasieu, St. Charles, Iberville, 5 an exception to a thing of value in part because 5 Ascension, West Baton Rouge, and St. John the 6 after 10 years the property rolls back on to the 6 Baptist. This is from 2006 to 2016 and it's the 7 7 tax rolls, but the extent to which that happens Percent Taxable Graph. is very uneven. And one thing we have heard 8 And you see Jefferson is up in the 80s for 8 9 again and again from assessors, from 9 a while and then drops into the 70s. But other 10 10 than that, the range is from 19 percent to superintendents, elected officials is, you know, 11 it just doesn't seem like the property ever 11 60 percent, okay. And in 2016 on average across 12 12 these parishes, 43 percent of the industrial rolls back on. That's not quite true either. 13 Sometimes it does, sometimes it doesn't. 13 property was taxable. 57 percent was tax 14 Usually it does to some degree. But having 14 exempt. 15 looked really closely at the tax commission's 15 **CHAIRMAN JONES:** 16 kind of longitudinal records, there is pretty 16 Can I ask you a question so I can make 17 strong evidence that it doesn't roll back on the 17 sure that I understand? When you say 18 rolls in full as you would expect. And we think 18 "percentage of industrial property," what are 19 19 the problem at its core has to do with you -- you're talking about the value of the 20 replacement investments or investments that are 20 property? Or the number of properties? Or what 21 21 replacing the existing value. are we talking about? 22 22 LED's intent really since before the MR. BAGERT: 23 reforms is to encourage new investments, not 23 This is talking about the value of the 24 24 property. The percent that is exempted replacing value. And there are -- that intent 25 is clear in the rules. It says, you know, if 25 including depreciation. It has a numerator and Page 11 Page 13

1 a denominator as fair market value. And it's 1 that Mr. Bagert laid out at the beginning, what 2 2 all of the ITEP properties in that parish. The we are hearing is the property is supposed to 3 3 come back on the tax rolls and sometimes it does total number is the average of the percent 4 taxable across those ten parishes, okay. 4 but sometimes it doesn't seem to. So I wanted 5 5 Calcasieu -- well, there are some really to look at what happened in one parish looking 6 big ones that kind of skew it otherwise, but it at investments that were made in one decade and 6 7 is still a similar story. 7 what happened to the tax roll in the next 8 8 decade. Now that was 2016. If you go to the next 9 slide. Here are the reforms that were in 2016 9 Okay. So looking at St. Charles Parish 10 but really were implemented in 2018. That is to 10 from 1999 to 2008, so a 10-year period. The 11 say had a material effect on exemptions between eight companies in St. Charles that represent 11 12 2018, 2019. And you see we are starting to see 12 the largest share of ITEP exemptions granted 13 a -- the thing that we are supposed to see, 13 were granted \$2.4 billion exemptions over those 14 property going back on the rolls. There is a 14 ten years. substantial increase in almost every single 15 15 **CHAIRMAN JONES:** I'm sorry, Ms. Hansen. That's 1999 to 16 parish. Calcasieu was the exception but that's 16 17 because of the giant LNG investments which are 17 2008 or 2010? 18 new capital that were approved before the 18 MS. HANSEN: 19 executive order anyway. 19 2008. So I am looking at a 20-year 20 So across now, you know, we have got 20 period. I am looking at the exemptions that 21 Rapides at 86 percent, Jefferson at 80, St. 21 were granted in the first 10 years. 22 Charles, 51 percent, I believe. St. Charles 22 **CHAIRMAN JONES:** 23 23 Parish has reduced their millage three years in Got it. Sorry. 24 24 MS. HANSEN: a row. I think it was from 111 mills to now it 25 might be in the 80s. This is improving services 25 So that's 2.4 billion. You would expect Page 14 Page 16 1 1 to see, like even if you depreciate those and giving people a tax cut including these very 2 2 companies are getting tax cuts because when you investments, you would expect to see over the 3 3 lower the millage, it affects -- it broadens the following 10 years \$3 billion of taxable value 4 base and allows you to lower the rate for 4 on the tax rolls because those exemptions would 5 5 everybody. roll off and it would come back on to the rolls. 6 6 So we are making progress. Our concern is In fact, what we saw is that \$2.5 billion 7 7 that how this happened is a sort of challenging of property came back on to the rolls. So there 8 8 combination of things. Was it the clear is \$500 million that's unaccounted for that 9 language around miscellaneous capital issues, 9 should have come back on according to a normal 10 probably to some extent. The jobs criteria, 10 depreciation schedule but didn't. I'm calling 11 maybe. But, you know, after a while you start 11 that the mystery of the disappearing property. 12 12 Okay. That's the problem that we are here to realizing the jobs criteria could -- you could 13 retain jobs. Was it the hue and cry over 13 try to solve. 14 exemptions that maybe had a chilling effect? 14 **CHAIRMAN JONES:** 15 And for us, as you know, that might be a good 15 I'm sorry. You thought about this a lot more than I have obviously. So when you say --16 thing. 16 17 It's hard to know exactly what resulted in 17 and I don't know which slide we are on -- I am 18 this, but there is a way to get at the heart 18 looking at the slide that says, "Each year two 19 which is to prohibit or more clearly define 19 things happen that affect the plant's property 20 replacement value so that we are targeting 20 value." 21 exemptions for new value alone. And that's what 21 MS. HANSEN: 22 22 we want to present today. I am about to get to that. Do you want me 23 Erin will take it from here. 23 to keep going? 24 24 **CHAIRMAN JONES:** MS. HANSEN: 25 Okay. So just to go back to the problem 25 Go ahead. Page 15 Page 17

1 MS. HANSEN: 1 taxing bodies often don't see that revenue 2 2 Just some level settings. Each year two materialize in the way they expect to. That things happen that affect miscellaneous property 3 3 makes, you know, budgeting, providing new 4 value. On one hand there is depreciation. So 4 services challenging to say the least. 5 5 there is existing property that reduces in The third problem is it puts Louisiana out 6 value. And there is capital involvement. New 6 of step with Texas. We are competing with Texas 7 spending that increases the value of the 7 for the majority of the big projects that, you 8 8 facility. If capital investment exactly equals know, big manufacturing facilities that we are 9 depreciation and then the plant's property value 9 talking about here that we see, you know, 10 stays the same. So if you have \$20 million 10 receiving exemptions over the last 20 years. 11 depreciation and \$20 million of capital 11 Texas is very clear -- has a very clear 12 investment, well, the net value of the facility 12 objective methodology that says you are eligible 13 is the same as it was before any of that took 13 for the net basis. We do it different and that 14 place. If capital investment is greater than 14 means that we have ten times more exempt 15 depreciation, then the plant's overall value 15 properties in Louisiana than exist in Texas. 16 increases. If depreciation exceeds capital 16 Four, it's risky. We have an intent to 17 investment, then the property value decreases. 17 prohibit exemptions on replacement value, but 18 In Texas, the eligible basis for an 18 because there are no objective standard for that 19 exemption is the net increase in the facility's 19 in the rules, it means that companies can abuse 20 property value. So, in other words, you 20 the rules to receive exemptions on what are, in 21 subtract depreciation from the new capital 21 fact, exemptions for replacements. 22 22 investment and that's your eligible basis. The last big problem, it raises tax for 23 23 In Louisiana, the eligible basis is for everybody else. When these facilities don't --24 the total capital investment. So in Louisiana 24 property doesn't come on to the tax rolls in 25 if you invest \$25 million, you get a \$25 million 25 year 11 and going forward, it means that other Page 18 Page 20 1 exemption even if you had \$50 million of 1 businesses that aren't eligible and residents 2 2 depreciation. and other people end up making the difference 3 3 In Texas, if you invest \$25 million and and it means higher rates. It's a narrow base 4 you have \$15 million of depreciation, then your 4 and higher rates for everybody else. 5 net is 10 million and that's what you are 5 I am just going to pause there. 6 6 eligible for an exemption on. **CHAIRMAN JONES:** 7 7 **CHAIRMAN JONES:** I will go ahead and jump in. This is the 8 8 Okay. thing that I am wrestling with. I mean, you are 9 MS. HANSEN: 9 basically talking about a -- and this is 10 So the consequences of Louisiana's method, 10 something that I have had to struggle with and 11 this replacement capital loophole, are 11 understand as we walk through this. And y'all 12 five-fold. I'm just going to time tick through 12 stop me when I start going down the wrong path. 13 them really quickly. 13 Because as I tell folks in this part of the 14 The first problem is this gives companies 14 world, I am about an inch deep and a mile wide 15 15 in understanding it myself. I am getting to a reverse incentive and that incentive is to 16 seek exemptions on new investments as additions 16 where I am close to 2 inches deep. If I get 3 17 or expansions even when the overall value of the 17 inches deep, everyone is in real trouble. 18 facility is staying the same or even decreasing. 18 But what I am learning is that in 19 19 So moving on. The second problem is it Louisiana when we talk about values of 20 means that local taxing authorities expect in 20 properties for purposes of the tax assessors, it 21 year 11 to see a boost in their tax revenue 21 is essentially cost-based accounting; is that 22 because those properties should be coming on to 22 right? So if it cost me a million dollars to 23 the tax rolls. In reality, because companies 23 build something, I have got a million-dollar 24 can apply for exemptions and receive exemptions 24 taxable value; is that reasonably fair? And I 25 even if the taxable value is decreasing, local 25 don't know why it's that way and it doesn't Page 19 Page 21

1 matter to me at the end of the day. 1 them up. And after a while, they became so 2 2 But the thing I struggle with is -- and I dirty that people wouldn't put their kids in 3 made some comments to this effect before and I 3 them so universities had to tear them down. 4 think -- and I think this is relevant to your 4 Why? Because they didn't take care of the 5 5 discussion because this is what I struggle with. maintenance. They deferred the maintenance 6 To me, the value of ITEP for purposes of the 6 because they couldn't afford to pay for it. And as a result, the buildings became obsolete and 7 State -- and I'm basing this on drawing 7 8 conclusions from the fact that it was included 8 unuseful. 9 9 in the Constitution in '74. It was there To me, if an industry -- if a facility is 10 before. It's been around for a long time. And 10 kept up -- and I am pre-supposing that the 11 at some point in time, the State made the policy product that it makes is still a marketable 11 12 decision that we wanted to incentivize 12 product, you have to assume that as well -- but 13 manufacturing. 13 if the facility is not kept up and maintenance 14 And so then the obvious question is why? 14 is deferred, it gets to a point where it falls 15 Why manufacturing? Why not retail? Why not 15 so far down that -- the maintenance falls so far something else, you know? And the only -- and 16 16 behind that they can't afford to catch up. See 17 going back and reading the Constitution 17 the dormitories. It's too expensive to get them 18 Convention of '72, which I have on this issue, 18 back up to liveable standards. 19 to me becomes clear is that the State was making 19 In my mind, if we incentivize companies to 20 20 the decision that if we can get companies to put do maintenance when it needs to be done, we 21 substantial assets into the ground, concrete in 21 prolong the life of that facility. So if the 22 22 the ground, they are less likely to walk away original goal was to put concrete in the ground 23 23 from that than other industries, retail and and create industry in the state that will be other kind of commercial enterprises because of 24 24 here for a long time and then we come along and 25 the amount of capital investment required to put 25 we can incentivize the companies to continue to Page 22 Page 24 1 a facility into the ground and the commitments 1 put money into that facility to upgrade it or 2 that it makes there are much less likely to go 2 even to keep it maintained the same level. 3 away in a short period of time; therefore, let's 3 Pipes rust. Stuff happens. And if we can keep 4 incentivize. Hence, the 10-year -- up to the 4 the investment going into that facility, we have 5 10-year exemption. And I get all of that. I 5 a better likelihood of prolonging the life of 6 can wrap my head around that. that facility; thereby, meeting the original 7 7 But here is the problem to me. As we have goal of ITEP of putting assets in the ground 8 8 seen with industry that has gone -- because even that may stay here for a long time. 9 manufacturing goes away. It sometimes takes 9 So I am trying to understand where -- I 10 10 some years, but it goes away. And we don't have a huge pushback against what you are 11 hate when -- I saw it in Shreveport when I was 11 saying except to the extent it may cross and 12 in Shreveport. We saw an AT&T plant that had 12 divide purposes with what I believe is an 13 been there for decades leave and take 10.000 13 underlying program part of ITEP and that is 14 jobs away. In 2008, we saw General Motors which 14 promoting ongoing maintenance and not deferring 15 had 5,000 jobs go away literally overnight, 15 that maintenance and upkeep. 16 literally, six months go away. And so it can 16 MR. BAGERT: 17 happen. 17 So you run into a challenge if you think 18 And then the question becomes why does it 18 about a company that's making investment 19 happen? And I know there is a lot of 19 decisions based on these programs, as we know 20 geopolitical stuff that goes into that. But one 20 it's hard to exactly know what role they play. 21 thing that had does have an impact, I think, is 21 But, you know, at some point there are tax 22 22 that analogize, if you will, dormitories on people who are looking at programs, and if you 23 university campuses. Why do we no longer see 23 imagine a scenario where two states specialize 24 dormitories like we used to? Because we built 24 in a certain kind of program; one, say, in data 25 dormitories and we never had the money to keep 25 centers and the other one, I don't know, airline

Page 23

Page 25

1 1 hangars. Well, you are more likely to put the And then the other reason is if we are 2 2 airline hangar in a place that caters its just incentivizing companies to keep up their 3 3 equipment and keeping value stable, then when incentive program to airline hangars and more 4 likely to put a data center in a place that 4 and where does -- is there a benefit other than 5 5 caters its incentive program to data centers. to come. I mean, it does go against this core What we have done in Texas is we have set framework which is it's I am supposed to roll 6 6 7 up a program that specializes in replacement 7 on. 8 8 So this will not say you absolutely can't capital or at least is exceedingly more 9 permissible. And so if you are saying, well, we 9 do any exemptions unless it's a brand-new thing. 10 got, you know, a billion and a half of capital 10 It doesn't have a job standard. It just sort o 11 sets a prophylactic to say we are not going to 11 this year, what's the best value for our buck. 12 We are going to do the new stuff in Texas 12 go into the red and allow an exemption when the 13 because you get no exemption otherwise. And the 13 value of the whole facility is going down. We recycled stuff from Louisiana because we will 14 are only going to allow it if there is some net 14 15 15 give it to you anyway. increase in value and that's it. **CHAIRMAN JONES:** 16 Most of the literature we have seen 16 17 17 And I think that's where -- that is where suggests that the upgrade and investments are 18 already incentivized because they are able to 18 I start struggling. Because on the one hand, 19 become more efficient, they become more capital 19 you got cost-benefit -- excuse me, cost-based 20 intensive. Usually, you know, saving the cost 20 accounting, but yet you are talking about the 21 21 value of the facility. The value of the on labor and, you know, things are constantly 22 changing in the market. 22 facility is not necessarily reflected in its 23 23 One difference between a university dorm cost. If the value of the facility goes up 24 24 and, you know, the refinery is there is a simply because it has a longer life -- it's one 25 25 of the things I struggle, the reason I don't competitive market driving dynamics in a Page 26 1 1 like cost-based accounting. If you have a refinery and a university dorm does not have 2 2 that. So our biggest concern with the program factory that produces geese that lay golden eggs 3 3 that we have got is that we are basically saying and you have the factory that makes nails, I 4 give us your stuff that doesn't create jobs or 4 think the value -- if you spend the same amount 5 put new capital in the ground because we see 5 of money on both factories, I think the one that 6 that as distinguishable. We have just as much 6 produces the goose with the golden eggs is much 7 7 incentive to treat it just the same way, and more valuable than the one that produces the 8 8 that ends up putting us not that it's a nails. 9 disadvantage, it just ends up saying to 9 So when I say "value," and that is when I 10 companies, send your new project to Texas 10 read your summary, you said, "A net increase in 11 because their program is set up for that 11 value over a baseline value," I agree with that 12 12 concept. I agree that we need to be able to purpose. 13 **CHAIRMAN JONES:** 13 incentivize that in which increases value. But 14 We still incentivize the new project as 14 to me, increasing value is not just a black and 15 15 white compare the numbers. It does -- to me we well. 16 MR. BAGERT: 16 ought to find a way to articulate in the rules 17 Right. But there is only so much capital, 17 if this truly adds life to a facility that gives 18 right. So if you have to choose where to do 18 it longer -- if the GM plant could have lasted 19 which one, there really is a discretion going 19 another 10 years at 5,000 jobs in Shreveport, I 20 on, it seems like we have set up the program 20 guarantee there would have been a great value 21 that says there is no loss to doing replacement 21 even the value of the plant -- the dollar value 22 stuff here. If there is ever a moment where you 22 of the plant went down. It just would. 23 got to decide where to put new stuff, the only 23 So I think we have to -- we have to 24 24 way you get an exemption in Texas is they are recognize that in today's market, especially 25 doing it. 25 companies that practice across state lines, when

Page 27

Page 29

Page 28

1 they have to make decisions and make investments 1 We now replaced -- not every parish looks 2 and they are going to make a decision to make an 2 just like Lake Charles or a place where the 3 investment in Lake Charles or Beaumont, I want 3 percentage of exempt is higher. What companies 4 that decision -- I want the barometer to lean 4 most need, they always tell us, is certainty and 5 5 towards Beaumont -- excuse me, Lake Charles clarity, right. And this would be a way to have 6 rather than Beaumont. And so I -- this is the 6 a really clear objective standard. And if there 7 thing I am struggling with is I agree with your 7 is a way to have exceptions for something that's 8 8 concept -facing departure, we have always been in favor 9 9 MR. BAGERT: of that. 10 Yes. 10 But if we go the direction that some of **CHAIRMAN JONES:** 11 11 the proposals or even just kind of continue with 12 -- of net value. I am just struggling 12 the idea that we are for any capital investment 13 with how strictly you define what net value is. 13 regardless of whether it increases value, I am 14 Does that -- am I communicating that at all? 14 worried we are going to start heading back and 15 15 MR. BAGERT: end up in a place where, you know, for every one 16 It does. Let me just make one more point. 16 company that it has an effect in a positive way, 17 This is not saying this is a spiritual value or 17 we have got 99 where we just give away public 18 even its market value. It's saying this is the 18 dollars and increased taxes on everybody else in 19 value insofar as it affects other taxpayers and 19 order to give something that frankly they don't 20 20 tax base of that jurisdiction. ask for in other places and usually don't say 21 21 they use them. All right. Just skip ahead. Here is the 22 challenge. If we start moving back to giving 22 **CHAIRMAN JONES:** 23 23 replacement value willy-nilly, an exemption, not Let me shift gears a little bit. And I 24 24 just if it is in a situation like GM, I mean I don't mean to monopolize, other members have 25 think we would all be for that. We do not want 25 questions because these are -- you raised issues Page 30 1 a major employer -- or even a minor employer to 1 and made some representations I want to again 2 2 leave, right. But if the way that we handle understand. 3 that is to give every company an exemption on 3 The other -- one of the other 4 every dime of their routine capital investment, 4 representations in your package was something 5 then this progress that has been made will start 5 about raising taxes for everybody else. I am to shift again, and for every time you happen to 6 going to explore that just a little bit. And I 7 7 know we heard at the last meeting from the folks have somebody who's making a discretion -- a 8 8 discretionary choice about where to make an in Calcasieu --9 investment, you have got 8- to 900 other 9 MR. MORRIS: 10 companies that are just making their capital 10 Cameron. 11 investments and getting public subsidies for 11 **CHAIRMAN JONES:** 12 12 that. Cameron Parish, thank you. And I am doing 13 So to start to have some bar that says we 13 this just from, you know, my weird logic. It 14 are not going to give everybody a subsidy every 14 seems to me that when the exemptions roll off for the LNG facilities in Cameron Parish, I 15 time they make an investment, if we do, then we 15 16 end up with the situation that we were in in don't see how in any shape, fashion, or form, 16 17 2016 where two-thirds of the industrial property 17 taxes are going to go up on the people of 18 in the entire state is tax exempt like they are 18 Cameron Parish. To me, they ought to go way, 19 19 hospitals and public services. way, way down. Because -- and I kind of kidded 20 You know, it's not the company's fault 20 with my friends in Cameron Parish and said when 21 that if we create rules that they are so vague 21 those exemptions roll off, they are going to be 22 that they allow that, they pursued it, you know, 22 the Dubai of Louisiana. They are going to have 23 they will be crazy not to. But at this point, 23 a budget that looks more like the state of 24 24 it is much easier to protect something that Louisiana than the Parish of East Baton Rouge. 25 already is in place than it is to forge ahead. 25 And so when you say that these systems Page 31 Page 33

1 tend to affect the lower or raise taxes for 1 Sure. 2 2 other people, on a case-by-case parish-by-parish MS. HANSEN: 3 analysis, I don't think that's going to be true 3 Just one clarifying point on just to 4 because especially -- I mean, let's face it. 4 narrow what we are talking about. Companies can 5 5 The ITEP Program is most relevant probably in still get -- we are not suggesting that 6 the parishes that you have identified. And I companies shouldn't be eligible for ITEP. We 6 7 wouldn't put Rapides in there, but at one time 7 are not even suggesting that they shouldn't be 8 8 again some of the northern parishes were more eligible for ITEP. In cases like if General 9 active in the manufacturing space than they are 9 Motors came and said we want a new exemption so 10 10 that we can do some deferred -- perform some 11 But by and large it is the river parishes, 11 maintenance that we have been deferring on our 12 it's up and down the river between Lake Charles 12 facility and their property was valued at, say, 13 and anywhere there is deep water there is big 13 \$200 million, they are eligible for the full 14 manufacturing. But I think that if you look 14 exemption that they ask for. As long as the 15 15 parish by parish, the prevailing rule taxable part of their property doesn't dip below 16 is where there is industry taxes are lower for 16 200. To the extent that it does, the eligible 17 the citizenry than they are everywhere else 17 bases just drops by that amount. So the 18 because industry bears the biggest share of the 18 exemption is still on the table. In fact, it 19 tax burden for every parish. Whether it's 19 can still -- they can still get the exact same 20 20 school board, police jury, sheriff, whatever. around under the current rules but what we are 21 And if I am wrong on that, y'all can 21 saying is only to the extent that their taxable 22 22 correct me. But that's my instinct because I value increases; otherwise, the taxable part --23 23 believe that's -- that's the impact of reason the part that represents the benefit to 24 coming back to where we put -- why do we give 24 Shreveport is degrading and they're still 25 incentives to manufacturing? Because putting 25 receiving full exemptions on that. Page 34 Page 36 1 1 **CHAIRMAN JONES:** assets in the ground creates value and then 2 2 those industries bear the crux of the biggest Well, that would be great if that would 3 3 share of the tax burden. So help me understand happen, but I think the practicality of that is 4 what you mean when you say that if we don't fix 4 it's a slow fade. Companies -- what happens, I 5 this replacement value thing, it is going to 5 believe -- and I sat around some these tables 6 6 raise tax for other people. before where these discussions have gone on, but 7 7 MS. HANSEN: what happens is a company gets to a point where 8 Yes. Just to be clear about what we're 8 they say, okay, guys, we have got to make a call 9 talking about when we say this loophole will 9 here. And for many of our industries in 10 10 Louisiana that have industries across state raise taxes for everybody else. What we meant 11 is when the eligible bases for an exemption is 11 lines, they have to then go to their bosses and 12 12 the full amount not netted out for depreciation, they have to get an allocation of funds to spend it means that less property would be taxable 13 13 that money here rather than Beaumont, for 14 which means the company simply has more exempt 14 example. And that has to be based on a lot of 15 property and less taxable property. And so in 15 different things. They may go and make a budget 16 16 that year to the extent that the budget stays request this year and didn't get it. Next year, 17 the same in the parish, it's because other 17 didn't get it. Third year, didn't get it. 18 taxpayers are proportionally paying more. 18 Well, now the plant manager knows he is behind 19 **CHAIRMAN JONES:** 19 an 8 ball. And he knows that if he doesn't get 20 Well, yes, I don't think that plays out 20 the company to make a reversal on how it's going 21 21 practically, but I understand your point now. to support this facility, this facility is going 22 22 Now I get what you are trying to say. to get past the point of no return. 23 MS. HANSEN: 23 And so where I am coming from is I want to 24 Can I just add? 24 give a plant manager every opportunity, every 25 **CHAIRMAN JONES:** 25 benefit so that when he goes to his bosses and Page 35 Page 37

1 makes the case for I need to make this 1 to pay property taxes on 2 percent of the 2 2 investment in my facility to keep it upgraded or overall investment. That would be about \$12 3 put in, I want to give him every bullet in his 3 million in revenue that would largely handle 4 belt that he needs to make the case. So that --4 Cameron Parish's fiscal issues or a tax cut 5 5 because I don't know what the bosses -- what is of -- Cameron has the largest per capita going to flip the switch for the bosses. I just 6 property tax base as far as we can tell in the 6 7 don't want to create a problem for the plant 7 entire country and one of the highest millages 8 8 manager. I want to give him the best argument in all of Louisiana. It doesn't have to be 9 possible. That is where I am coming from. 9 either or and an extreme. A tiny, tiny sliver 10 MS. HANSEN: 10 would increase property tax revenue, lower the 11 And nothing that we have proposed 11 millage, and give a tax cut to Cameron LNG 12 constitute a penalty or any -- any problem for 12 itself because the millage is lower now. Does 13 that manager in the situation you just 13 it offset it entirely? Not entirely, but I 14 described. 14 think we looked at this a couple of years ago, it's like 75 percent, right. So it's -- we are 15 **CHAIRMAN JONES:** 15 16 Well, I don't know. And I guess that's 16 not -- the room for yes ends here where the 17 what I am concerned about. Because it may be 17 things that are new investments and is still 18 clear in your minds, it's not clear in mine how 18 just preventing the extremes where you have made 19 it wouldn't. So you may -- we may be able to 19 an exemption automatic. The idea this affects 20 20 this do offline sometime. But I want -- that's the tax base or the tax rates is not academic at 21 the reason I am having this discussion because I 21 this point. It was our hope that there will be 22 want you to understand what my mental block is 22 some places that would use, one, the overall tax 23 23 and what my mental model is. And if y'all base would increase because of reforms and some 24 24 can -- because, again, to your general language, places would use it not just to increase 25 it needs to be increase net value, I agree with 25 spending on services, but lower millages. That Page 38 Page 40 1 that. But what I am struggling with is how do 1 is happening across the river parishes. 2 you define that net value and how you get there. 2 And it is direct and concrete and factual 3 3 And I think in your slide you said as a higher percent of the property has come 4 something about -- I think your slide said 4 back on the rolls that has broadened the base. 5 5 "subjective," I think you meant objective --They are able to lower the rate which lowers there needs to be an objective standard and I 6 6 taxes for everybody including those companies. 7 7 agree with that as well. But how do you do that And we think that as a principle that is worth 8 8 to me is the messy middle. the challenge of the finding net new in serious 9 MR. BAGERT: 9 and subjective ways. It's going to be a 10 10 And that -- we do have the example of how pittance literally within the margin of most 11 Texas has done it for as long as their 312 --11 projects -- what do you call it -- the 12 12 miscellaneous category, but it has a substantial 311 program. 13 Just to go back to Cameron Parish to get a 13 impact on taxpayers. And it is not a time where 14 sense of what impact this would have there. 14 we think this is -- we think it's a 15 Cameron got its exemptions on the initial 15 nonideological proposal. 16 16 investments, right. Gigantic, unprecedented I think we agree with everything that 17 historic changing capital investments. What 17 you're saying about at the end of the day is 18 this would do would be to say these much, much 18 industry good to have? Does it create jobs? Is 19 19 smaller maintenance investments that they have there a net benefit? But where we are talking 20 gotten here or there since then -- and I'm not 20 about places where the amount is too small to 21 21 looking at the numbers right now -- but let's affect a decision in a substantial way, but it 22 say those are 2 percent of the total, right. 22 does have a substantial increase or impact on 23 Those wouldn't be eligible for exemptions unless 23 the tax base. We should have this basic 24 they are adding value to that, like as we are 24 protection that Texas gives so we don't get into 25 saying, increasing the book. So they may need 25 extremes like Cameron, which honestly I think Page 39 Page 41

1 they are going to be living large in four or 1 is IEEFA, which is the Institute for Energy 2 2 five years, right. They did not have to suffer Economics -- did a formal analysis of this and 3 3 the way they have in the last 10 years with a really kind of did an analysis of the different 4 tiny, tiny margin percentage. 1 percent of that 4 changes that were made and whether they made a 5 5 exemption which, you know, is hard to believe difference and what difference they seemed to 6 that would have tenure in the project, right. 6 have made. And it compared for past trends for 7 But that would have substantially addressed 7 property coming back on to the rolls and often 8 it wouldn't. 8 their problems. 9 9 **CHAIRMAN JONES:** And what we are arguing is one of the 10 All right. Any other questions from the 10 driving reasons why it wouldn't is if you have 11 committee for Together Louisiana? got a warehouse full of Nike tennis shoes with a 11 12 Yes, Ms. Ardoin. 12 10-year tax exemption, right, and your value is 13 MS. ARDOIN: 13 in those tennis shoes, well, you are going to 14 I don't want to get too down in the weeds. 14 start claiming ad valorem on those Nike tennis 15 15 shoes because they are not going to make it for I do teach accounting at the LSU. I just need 16 to understand how are y'all calculating 16 10 more years. So it is year 8, you buy new 17 depreciation? Are y'all calculating it as a 17 shoes. You get the exemptions on the new shoes 18 decline in value? Or is it just based on a 18 and the snake keeps on eating its tail. 19 depreciation schedule? 19 There is -- obviously, we don't have 20 20 MS. HANSEN: 8-year property, but we do have, you know, 15-21 21 and 20-year property and the portion that is We are using the depreciation schedule or 22 a composite multiplier that is published by the 22 just replacing value here has been exempted. 23 Louisiana Tax Commission and the most recent one 23 Now, the reforms didn't directly address 24 24 which is 2023. So it's the same treatment that that, but they did signal pretty clearly with 25 the assessors told us they use to perform their 25 the change in MCAs that we weren't interested in Page 42 Page 44 1 calculations on the taxable property. 1 replacement value. They did with the jobs. And 2 2 MS. ARDOIN: we think the local control provision, messy as 3 3 Thank you. it was or is, had a bar. Right now if you 4 MR. MILLER: 4 wanted an exemption, it wasn't just a matter of 5 5 Thank you for being here. You are somebody filing paperwork. You had to go to 6 6 indicating the change that the reforms caused your local officials and make a case for it. 7 7 the major shift particularly in St. Charles. And a combination of those things means that You have it if the changes had not taken effect 8 factually a substantial fewer number of 8 9 because there were a lot of big projects in 9 exemption requests and a smaller amount, except 10 St. Charles that weren't on the rolls. The only 10 for the big giant projects, it also by the way 11 real significant change that I presume or I 11 had no negative impact on capital investment. 12 12 Capital investment increased year after year. think that were made were basically on capital 13 issues. So that would have been the only part 13 It was one of the best periods for overall 14 that was going to go off the rolls early on that 14 capital investment. 15 could have made a changeable difference. Was it 15 So it, for sure, was not only the reforms 16 that miscellaneous capital addition? Because 16 in any instance that added value to the rolls, 17 the project -- again, the main project was 17 it's a complex process, but there is a formal 18 coming on the rolls. So can you really -- you 18 study which we could send to you that pieces it 19 19 have stated that the rules changed to make that out and it finds that a substantial part of why 20 significant difference and I just don't see how. 20 there is more value was the reforms and that's 21 21 MR. BAGERT: why we think it would be a real shame to go kind 22 22 First of all, it's not one single thing of back or to intentionally or not signal in the 23 and it varies parish by parish. There was a 23 opposite direction refine with replacement 24 substantial investment that came back on to the 24 investments, which we have with us, you know, rolls in St. Charles. A group -- their acronym 25 25 that trend reversing and putting additional Page 43 Page 45

1 pressure on other businesses that don't get 1 is actually a precedent for this already in the 2 2 exemptions or homeowners. rules in Section 511, Exemption of Capital. So 3 MR. POLOZOLA: 3 we would just apply the same logic to the 4 Mr. Bagert, your proposal in the later 4 definition for an addition to the manufacturing 5 5 part, page 10 and 11 of the slides. Why don't establishment saying an installation or physical 6 you go through specifically what you are asking 6 change made to a manufacturing establishment 7 for the rule to be changed. How you would like 7 that increases its value above the baseline will 8 8 to see it changed? be the assessed value of the facility where the 9 9 MS. HANSEN: investment is made. 10 I will take this one. So we are proposing 10 So this is our attempt at an objective that we follow the Texas model and allow 11 standard that says that is what an increase of 11 12 exemptions only on capital investments that 12 value means. increase the value of the facility. So this 13 13 MR. POLOZOLA: 14 is -- this is the statute for -- what's the word 14 So when Mr. Bagert was saying he wants to 15 that I am looking -- Section 310 which is the 15 say define net new, is this your proposal for 16 corollary to the initial taxes that you earn in 16 defining that? 17 Texas. 17 MS. HANSEN: 18 Just reading from their rule they say, "An 18 It sure is. 19 extremely accepting taxable real property or 19 CHAIRMAN JONES: 20 leasehold interest or improvements on tax exempt 20 Any other questions from the committee? 21 21 real property may provide for the exemption of Anything else? 22 such taxable interests in each year covered by 22 MR. BAGERT: 23 23 the agreement only to the extent its value for Just backing out. The conditions for 24 24 predictable clear absence of bickering -- I that year exceeds its value for the year in 25 which the agreement is executed." 25 don't mean bickering, because these are no Page 46 Page 48 1 1 bickering, sometimes it's a real question So that's a fancy way of saying you can 2 only get an exemption on the new value. The 2 whether to do an exemption or not, right. But 3 3 value, you know, the new value on your property. it's when we go to one extreme or another that 4 The investments that increase the value of the 4 we create the conditions in which that 5 facility. 5 contestation gets escalated. When it starts to 6 6 Just by way of an example, this is from, feel like there is an automatic process, you 7 7 you know, the rules in Texas. They say, "A know, it's 30 minutes time -- I'm not talking 8 8 business owns property valued at \$500,000 as of about this board generally, I mean, this board 9 January 1 of the year the tax abatement 9 has wrenched this out of that practice. But for 10 agreement is executed. The business agrees to 10 years and years, this board would meet for 30 11 submit to the surety increasing its valuation to 11 minutes and, you know, approve things in a 12 \$800,000. The taxing unit may abate from 12 perfunctory way because that had been the 13 taxation up to \$300,000 of property value. The 13 standard practice. That felt and feels like 14 portion of the value that exceeds the base value 14 unacceptable to people because there is not 15 of \$500,000." 15 discretion and ignores the fact that it's 16 possible to do harm by granting unused So the way that this works in practice is 16 17 if the taxable value decreases from that base 17 exemptions. 18 value, say, for instance, the value of the 18 If an exemption is not needed, it means 19 19 facility then dropped below \$800,000, the that other people are paying and that is a 20 eligible basis of that \$300,000 would decrease 20 reality. Establishing something that is not 21 proportionally. 21 what people want, not even close to that, but 22 22 So our proposal is to do what Texas does. that has some minimal protections. We think it 23 The eligible basis would be the net increase in 23 really could get us to a place where there is 24 value of the facility over the baseline value. 24 not a hue and cry and fight over this. 25 We think we can do this pretty clearly. There 25 We have got some basic protection which is Page 47 Page 49

1	that an aromation could be sent and 1.4.1	1	to be very clear about that We and are I ED!
1	that an exemption could be contemplated as	1	to be very clear about that. We endorse LED's
2	something new if there is something new, if it's	2	approach here. And I think this is in we are
3	adding value. And a much clearer and more	3	calling this nothing but net. We think nothing
4	enforceable mechanism around that mainly is	4	but net is in line with LED's FTF that we should
5	value.	5	keep ITEP connected very connected to a
6	So we hope, you know, you take into some	6	project approach to investments and that every
7	consideration and look forward to engaging in	7	dollar is on the table. So this is a way in an
8	this process with you, and we do think it could	8	objective way and giving companies very clear
9	create genuinely stronger, better conditions for	9	direction what they can and can't be exempted
10	the business community because there will not be	10	for. And we have been really good about the
11	an ongoing question about, well, what will	11	80/20 split. We feel really good about how this
12	happen with ITEP under this governor or that	12	is played out. This is just a way of putting a
13	governor. There will be a sort of basic	13	guardrail up around replacement capital that
14	standard which says, you know, they made	14	defines it mathematically rather than by
15	preferences one way or the other but we are not	15	category.
16	going to dig a hole the way we did the last time	16	Thank you.
17	and ended up with 60 to 70 percent of the tax	17	CHAIRMAN JONES:
18	base of the entire industrial sector off the tax	18	Thank you very much.
19	rolls.	19	All right. I know Ms. Mandi Mitchell had
20	So we thank you for your consideration and	20	indicated a desire to speak. Ms. Mitchell.
21	very generous time today.	21	State your name and your position, please,
22	CHAIRMAN JONES:	22	for the record.
23	I want to say. Again, this is just one	23	MS. MITCHELL:
24	member of the committee, one member of the	24	Good morning. Mandi Mitchell. Day job
25	board, but what my goal is as we reach the end	25	day job number one, president and CEO of the

Our transition team was comprised of 30 people, 30-plus individuals, mostly private sector economic driver executive leaders as it should have been. Those are the voices we want at the table helping us to set strategy and policy for economic development. We also had
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Neither this board nor, I think, the governor's office nor anyone else, and I am sure industry, doesn't want this program subject to change every four years. That's not good for anybody. So I am hoping that we arrive at a place that is makes everybody reasonably happy. It may make them reasonably unhappy, but it's something that everybody can live with over the course of the next couple of decades perhaps. And so I think that our goals are aligned. And I think that's a good thing. So I appreciate your time this morning. I appreciate your thoughtfulness. And what we will do is we will plug that in. And I will talk later about how this process is going to evolve over the course of the next few weeks and thank you for you time this morning. Thank y'all. MS. HANSEN: If I can just add one more thought. Sorry. Just to say that we haven't commented on every aspect of the proposed rule from LED or	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	proud to serve as the economic development practitioner at the local levels. So I am here to give you that viewpoint as well as the historical knowledge that I have having served as assistant secretary at LED. The other hats that I am wearing today, I am the chairperson of the Regional Economic Alliance of Louisiana that is an association of the eight regional economic development organizations. And I serve on the board of the International Economic Development Council and the Southern Economic Development Council which covers 17 states as well as our state association. And I served as the co-chair of the governor's Governor Landry's economic and fiscal policy transition council. So I wanted to give you-all that bit of background on me. Our transition team was comprised of 30 people, 30-plus individuals, mostly private sector economic driver executive leaders as it should have been. Those are the voices we want at the table helping us to set strategy and

1 work very closely with the local and municipal 1 exemption. 2 2 transition team chair, Mr. Guy Cormier, in So I was around -- I served in two 3 3 different administrations and I have been collaborating on the number of initiatives. 4 Additionally, we had economic development through a couple of rounds of the incentive tax 5 5 practitioners at the table. Practitioners, the reform. And I, you know, I hold high -- in high 6 6 individuals who are boots on the ground working regard Richard Nelson and what he is trying to 7 with LED day in and day out to, number one, 7 accomplish and I hope he is able to accomplish 8 8 market Louisiana so that we do get more that. He and everyone else in the legislature. investment from manufacturers and other types of 9 9 But during those times of re-evaluating 10 companies, but working with our existing 10 our tax structure, tax code, incentives, 11 companies to help them expand and utilizing 11 exemptions, we took a close look twice at 12 tools like ITEP very, very frequently when we 12 economic development. And this whole what I am 13 find ourselves on the short list, and we're 13 bringing up is a from a competitive standpoint. 14 there to show these companies how our state is 14 So both under Governor Jindal and Edwards, LED 15 more competitive than who else is on that short 15 conducted what we would call a sensitivity 16 list. 16 analysis on the industrial tax exemptions. So 17 Anytime you make a policy change -- let me 17 if we were to change or tweak the percentage, 18 back up. The industrial tax exemption program, 18 what would that do to our ranking as a state for 19 as we all know, it's been around in Louisiana 19 cost of doing business for a labor-intensive 20 20 since 1936. So that program is designed as a company, manufacturer, and a capital incentive 21 21 tool to enhance our state's competitiveness. company. 22 22 And I will say this, post-pandemic, we are Under those analyses, we found that you 23 23 seeing an increase of re-shoring of really could reduce the exemption down to about 24 24 manufacturing of all types. Across the U.S. 70 percent and Louisiana would still be highly 25 south last year, \$200 billion of capital 25 competitive. And it's for a number of other Page 54 Page 56 1 investments came to the south. We want 1 reasons that I will share with you in a moment. 2 2 Louisiana to get our fair share of those What the policy decision was was to land at 3 3 80 percent for a number of reasons. Number one, investments. 4 We have to set ourselves apart from our 4 to ensure Louisiana remains among the topmost 5 neighbors. And I am sure that individuals 5 competitive states for manufacturers. 6 outside of the economic development, they are 6 Companies, executives, site selectors, they 7 7 doing their part with education, insurance start looking at locations on paper. 8 8 issues, the coast, et cetera. In economic I mean, obviously they have to take into 9 9 the account their own factors, supply chain, et development, we are focusing on our level of 10 10 competitiveness and from the economics cetera, labor laws, et cetera, for state to 11 standpoint and what we know is from 11 state. But they look on paper and that's before 12 12 manufacturers. For every one manufacturing job they do the visits. So it does matter that you 13 that is created, anywhere from six to eight 13 have competitive incentives. So we did that 14 additional jobs outside of that company are 14 sensitivity analysis and we felt comfortable at 15 15 landing at the 80 percent. created in the community. So there is a reason 16 that communities that economic developers clamor 16 Looked at some other things. We found 17 all over themselves for investments by 17 that many other states exclude school millages 18 manufacturers. The proof is in the pudding of 18 from property tax exemption program. Louisiana 19 19 manufacturing investments are significant and does not. We found that in most other states, 20 they result in significant direct and indirect 20 local governments at the county level has sole 21 and induce effects for communities. 21 discretion over the eligible criteria. In 22 22 I do want to give some background and Louisiana, we chose uniformity and I think 23 context on Louisiana's competitiveness when it 23 that's the right decision. Many other states 24 24 rarely offered 100 percent or anything near 100 comes to our incentive toolkit and toolbox 25 specifically with regard to the investor tax 25 exemption. Page 55 Page 57

1 We chose to have the mega projects 1 department's proposal as presented at the last 2 2 exemption at 93 percent. And I am going to come meeting is in alignment with the executive order. It streamlines and simplifies the 3 3 back to mega projects in a moment, because I do 4 think it's wise to have that handy especially 4 process. I believe from some 15 steps down to 5 5 when you have projects in the billions looking five. If the proposal preserves that 6 to come to the south. 6 80 percent, which protects revenues sorely 7 We found that many other states that had 7 needed by local governments. And I have the 8 8 minimal thresholds for capital investment and pleasure of working with state and local 9 job creation; we do not. We also found that 9 officials when you are doing economic 10 some other states set minimal local hiring 10 development projects. 11 And there are times we get down to the 11 threshold; we do not. The Texas Chapter 312 12 Program, which we looked at closely, both times 12 wire to the end and the locals are looking 13 that we were considering altering the program, 13 around saying, well, we don't have an access 14 and we found that locals, especially in Texas 14 road. Where are we going to find the money to 15 15 invest and put in an access road? Or there is because their entire governing funding model 16 between state and local is different here, but 16 no rail spur. These are real issues that pop up 17 their locals always have full autonomy. And 17 during the course of trying to do a project. 18 some of them do use what -- well, actually not 18 And so what I am pausing there to state is 19 some, all of them use the net increase 19 I do hope that the committee holds the line on 20 20 abatement, which I have no position on that the 80 percent level of the exemption and resist 21 21 the attempt to -- the temptation to in any way, but -- not at this time because I am still 22 digesting it. 22 shape, or form erode what that 80 percent value 23 23 But I wanted to share all of that with is doing for local governments today at this point in time. 24 24 this group, with you-all, the committee, so that 25 you have some sense of the context of where 25 A couple of other things about the Page 58 Page 60 1 1 department's proposal. It preserves local Louisiana stands currently competitively with 2 2 the program at 80 percent and with the design input. While the vast majority of local 3 features we have in the program to streamline 3 governments under the previous administration's 4 the process, streamline the efficiency, reforms chose not to hold hearings and hold a 5 streamline the compliance. And so I think 5 vote on the program. The vast majority of 6 that's critically important for you to have in 6 locals opted in -- for lack of a better term. 7 7 mind as you're contemplating the path forward on Basically concurred with the decisions coming 8 8 out of the Board of Commerce and Industry. We the program rules. 9 So the other point I want -- I would like 9 had a few situations where locals had gone and 10 10 to make is in reaction to the department's created separate rules and that created 11 rules. So I have worked hard to encourage local 11 confusion. So there were multiple amendments if 12 12 you look at the executive orders. As a matter and regional organizations to submit their feedback to the department. I do believe they 13 13 of fact. I think this is the third reform to the 14 14 reform that we are talking about now. 15 15 And I will just share just a few So, Mr. Chairman, what you just closed 16 high-level thoughts. First of all, we do 16 with, I 100 percent agree. I hope that this is 17 believe it's a solid proposal because that 17 the last iteration of any changes to the program 18 framework honors the executive order, and it 18 because uncertainty is one clear way to chase 19 honors many of the recommendations from the 19 business away. The lack of predictability is 20 transition team which again was a -- it included 20 one clear way to chase away investments from our 21 private sector -- I'm sorry -- private sector 21 state. 22 22 practitioners, and we also had some local So the economic development department's 23 officials and collaborated with the local 23 reform also encourage support for locals through 24 24 municipal affairs committee. bringing the assessors to the table who have all 25 So upon our reading these, the 25 of the data, and bringing at their choice, at Page 59 Page 61

1 their option, the nearest economic development 1 want to be able to show manufacturers we want 2 2 practitioner. Bringing those people to the that investment in Louisiana and that we can 3 3 table as resources. help effectively reduce their cost in doing 4 And let me say on the local committee, 4 business in our state. 5 5 they have a new idea. Several of the And, of course, we have to keep all of communities under the previous reforms already 6 6 this in context with the conversation about tax 7 had established a local committee for the 7 reform, which is critically important. 8 8 standpoint of being able to dive deeper into an So I am going to summarize. From a policy 9 analysis on their decisions. 9 perspective, we are appreciative for the 10 And so I would just encourage the 10 department's proposal which preserves it at 11 department to reach out and offer support to 11 80 percent. And it streamlines the programs 12 local governments who are grappling with how to 12 from an administrative standpoint. It gives establish their local ITEP committee. There are 13 13 compliance for the participating companies. It 14 a couple of parishes that already have very 14 maintains our level of certainty and 15 active ITEP committees. I believe Calcasieu has 15 predictability and takes out the guesswork for already approved a couple of projects under the 16 16 what a company needs to do to earn the ITEP. 17 new framework. 17 And it provides locals with the revenues that 18 All right. And then on mega projects, I 18 they have been enjoying and benefitted from and 19 do strongly believe we should have that option 19 that locals sorely need. I know now that I am 20 20 for the department and for the board. The size on the ground with them at the local level. So 21 of the projects nowadays, the impact they are 21 I have a heightened awareness of needs at the 22 having with these projects varying in different 22 local level. 23 23 states is significant. And you do -- we should The last thing that I would suggest that I 24 have in our tool belt an increased level of 24 know that LED is going to probably throw rocks 25 exemption available at our disposal should we 25 at me. But I would suggest allowing companies, Page 62 1 end up in a shooting match with another state 1 regardless of which set of rules they are under, 2 2 over a transformational project. And so I do at the time of renewal the option to switch them 3 3 think the level for the mega projects should be to the current -- what the progressed rules are bumped up. I don't know that we have it in 4 4 coming from the department. And the reason I 5 there now it is still -- is relevant to the size 5 say that is because I know there are four or 6 6 of the projects that are coming today. So 500 five different frameworks right now and, I mean, 7 7 jobs, 500 million or half billion in investments one company could very well be under two or 8 8 is a number I would recommend, but I am sure the three different frameworks. And if you're a CFO 9 department is going to run some analysis on that 9 or if you have other people at your department, 10 10 because I think right now it's 100 or 200 that has to be confusing and it also has to be 11 million. 11 burdensome of the staff. 12 **CHAIRMAN JONES:** 12 So it's easier said than done because I 13 It's small. 13 know these are all contracts. So that means 14 MR. POLOZOLA: 14 that at the time of renewal, it is not just cut 15 Ms. Mitchell, do you have any proposal 15 and paste and sent to the board for renewal 16 now? You don't have an proposal for mega right 16 approval. You got to rework that contract, so. 17 now? 17 But that is something that I would suggest to 18 MS. MITCHELL: 18 get us to a place where hopefully soon we will 19 500 jobs and a half-billion dollars is 19 be uniformed in how we are treating companies 20 what I would suggest. And that's just based on 20 under the program. And that's it. 21 21 the size of projects that we are seeing landing **CHAIRMAN JONES:** 22 22 in other states, even in Louisiana as well. But Thank you, Ms. Mitchell. I am going to 23 the beauty of the mega project is again it is 23 start. A few questions. I am going to start at 24 that tool that will get you to the next level if 24 the end. I agree with you 100 percent on 25 you end up in -- down to the final two. We do 25 switching to the new rules at renewal. We might Page 63 Page 65

1 have to thread a lot of necelles to figure how to make that happen, but I think if we can achieve that, that will be a net benefit long-term. 4 Lef's go back up to the mega project. 1 5 was in a meeting with the tax assessors a few were sage and Mr. Cormier was there. And he indicated that — and I cloud think that he's here today, I haven't seen him in the audience. 9 And if I misrepresent what he said, I am going to to apologize at the front cnd. 11 But what I understood him to say is that he did not believe that the mega project concept was included in the executive order. 13 Was included in the executive order. 14 MS. MITCHELL: 15 And I thought they did. 16 CHAIRMAN JONES: 17 If so no specific. 18 MS. MITCHELL: 19 I don't know if that's an oversight or what. 20 what. 21 CHAIRMAN JONES: 22 Well, that's what I am asking, because we meet to know that. Because if it was not mentioned in the executive order, and we are going to meet to get some clarification from the fourth floor. 25 In some of the mega project—and we are going to MS. MITCHELL: 26 That's not a hill I want to die on, but I want to know. I want to know if that's in the mits or not. 27 Well, that's what I am asking, because we meet to know that. Because if it was not mentioned in the executive order, and so I don't know if that's in the mits or not. 27 Well, that's what I am asking, because we meet to get some clarification from the fourth floor. 28 MS. MITCHELL: 39 need to get some clarification from the fourth floor. 40 NS. MITCHELL: 41 need to get some clarification from the fourth floor. 42 Yes, we should. 43 transition, we didn't get that granular. So we were the deep rogram components were — we all understood those would stay the same, the other program and compliance. 42 was understood. Those things are staying the same, the was understood. Those things are staying the same, the was understood. Those things are staying the same to whe have got to streamline decisions. 45 CHAIRMAN JONES: 46 Page 69 47 That's not a hill be varied to the prog				
that, that will be a net benefit long-term. Let's go back up to the mega project. I was in a mecting with the tax assessors a few weeks ago and Mr. Cormier was there. And he here today, I haven't seen him in the audience. And if I misrepresent what he said, I am going to apologize at the front end. But what I understood him to say is that he did not believe that the mega project concept was included in the executive order. MS. MITCHELL: And I thought they did. CHAIRMAN JONES: If so t specific. MS. MITCHELL: IS need to know that. Because if it was not mentioned in the executive order, and so I don't converted to know that. Because if it was not mentioned in the executive order, and so I don't converted to know that because if it was not mentioned in the executive order, and so I don't converted to know that because if it was not mentioned in the executive order, and so I don't converted to know that because if it was not mentioned in the executive order, and so I don't converted to know that because if it was not mentioned in the executive order, and so I don't converted to know that because if it was not mentioned in the executive order, and so I don't converted to know that because if it was not mentioned in the executive order, and so I don't converted to know that because if it was not mentioned in the executive order, and so I don't to know if the mega project. We were it alking about the administrative foot the economic development organization - regional economic development organization - regional economic development organization - regional conomitice. Do you have any thoughts admittantles. I be local committee. Do you have any thoughts admittantles. I book I know that every parish is exemptioned to feedback that I have getten from regional committee. Do you have any thoughts and locals is the local in the feedback that I have getten from regionals and locals is they	1	=	1	Okay. Let me get it while I got them all
4 Let's go back up to the mega project. I 5 was in a meeting with the tax assessors a few 6 weeks ago and Mr. Cormier was there. And he 7 indicated that and I don't think that he's 8 here today, I haven't seen him in the audience. 9 And if I misrepresent what he said, I am going 10 to apologize at the front end. 11 But what I understood him to say is that 12 he did not believe that the mega project concept 13 was included in the executive order. 14 MS. MITCHELL: 15 And I thought they did. 16 CHAIRMAN JONES: 17 If short specific. 18 MS. MITCHELL: 19 I don't know if that's an oversight or 40 what. 10 CHAIRMAN IONES: 11 need to get some clarification from the fourth 12 noor. 11 need to get some clarification from the fourth 12 noor. 12 want to know. I want to know if that's in the 3 mix or not. 14 want to know. I want to know if that's in the 3 mix or not. 15 chairman and compliance. 16 weers ago and Mr. Cormier was there. And he 17 indicated that and I don't think that he's 18 here today, I haven't seen him in the audience. 19 And if I misrepresent what he said, I am going 10 to apologize at the front end. 11 But what I understood thin to say is that 12 be did not believe that the mega project concept 13 doubt that? 14 MS. MITCHELL: 15 And I thought they did. 16 That's move get read to was undered. 17 the general manual they decisions on property tax 18 exemptions. So the feedback that I have gotten from regionals and locals is they ought to be the quarterback of the local ITEP committee process. 18 process. 19 In other words, number one, we have used the program to lure companies to the state or to help existing companies to expand, so we were there from the beginning. But at the time we have to organize the time we have to organize the time we have to organize the seminary to the program to urgin gour committee, assemble information, but it in layman's term terms and call the committee order, owe were there from the beginning. But at the time we have to organize	2	• •	2	fresh in my head. We had some comments that we
5 was in a meeting with the tax assessors a few indicated that and I don't think that he's her today, I haven't seen him in the audience. 5 her today, I haven't seen him in the audience. 5 her today, I haven't seen him in the audience. 5 her today, I haven't seen him in the audience. 6 noe of the economic development organization, be the local committee. Do you have any thoughts about that? 10 to apologize at the front end. 11 But what I understood him to say is that he did not believe that the mega project concept was included in the executive order. 12 MS. MITCHELL: 13 And I thought they did. 14 MS. MITCHELL: 15 And I thought they did. 16 CHAIRMAN JONES: 17 If's not specific. 18 MS. MITCHELL: 19 I don't know if that's an oversight or what. 20 what. 21 CHAIRMAN JONES: 22 Well, that's what I am asking, because we need to know that. Because if it was not mentioned in the executive order, and so I don't know if the mega project and we are going to Page 68 1 need to get some clarification from the fourth floor. 1 we need to get some clarification from the fourth floor. 1 mead to get some clarification from the fourth floor. 2 man to know. I want to know if that's in the mix or not. 3 MS. MITCHELL: 4 Yes, we should. 2 CHAIRMAN JONES: 5 That's not a hill I vant to die on, but I want to know. I want to know if that's in the mix or not. 9 MS. MITCHELL: 10 During our conversations during transition, we didn't get that granular. So we weren't talking about the administrative program and compliance. Really none of the program and compliance. Health of the program and compliance. Send the program in a making about the administrative awas understood. Those things are staring the administration and compliance. 2 ame but we have got to streamline ambients and compliance. 2 CHAIRMAN JONES: 2 real fewater program and compliance. 3 chall full evaluate the flocal of		_		
6 weeks ago and Mr. Cormier was there. And he indicated that - and I don't think that he's here today, I haven't seen him in the audience. And if I misrepresent what he said, I am going to apologize at the front end. 7 indicated that—and I don't think that he's 8 here today, I haven't seen him in the audience. 9 And if I misrepresent what he said, I am going 10 to apologize at the front end. 11 But what I understood him to say is that 12 he did not believe that the mega project concept 13 was included in the executive order. 14 MS. MITCHELL: 15 And I thought they did. 16 CHAIRMAN JONES: 17 If so t specific. 18 MS. MITCHELL: 18 MS. MITCHELL: 19 Idon't know if that's an oversight or 19 What. 20 Well, that's what I am asking, because we 21 need to know that. Because if it was not 22 well, that's what I am asking, because we 23 need to know that. Because if it was not 24 mentioned in the executive order, and so I don't 25 know if the mega project — and we are going to 26 Page 66 1 need to get some clarification from the fourth 27 want to know. I want to know if that's in the 28 mix or not. 29 MS. MITCHELL: 30 my in the administrative 40 my and to know. I want to know if that's in the 41 mix or not. 42 mant to know. I want to know if that's in the 42 mix or not. 43 mix or not. 44 mant to know. I want to know if that's in the 45 mix or not. 46 mix or not. 47 want to know. I want to know if that's in the 47 mix or not. 48 mix or not. 49 MS. MITCHELL: 40 Thorm regionals and locals is they ought to be 40 the questraback of the local ITEP committee, 41 the regional conomitiee. Do you have any thoughts 42 about that? 41 Look, I know that every parish is 41 different. Some parishes, the citizenry would 42 officent. Some parishes, the citizenry would 43 officent. Some parishes, the citizenry would 44 on "such heavy decisions on property tax 45 on "such heavy decisions on property tax 46 on "such heavy decisions on property tax 47 on "such heavy decisions on property tax 48 on "such heavy decisions on property tax 49 on "such heavy decisions on property tax 40 on "such heavy decisions on property tax 40 on "such heavy decisions on property tax 40 on "such heavy decisions on property tax 41 on "such heavy decisions on property tax 41 on		<u> </u>	5	•
8 here today, I haven't seen him in the audience. 9 And if I misrepresent what he said, I am going 10 to apologize at the front end. 11 But what I understood him to say is that 12 he did not believe that the mega project concept 13 was included in the executive order. 14 MS. MITCHELL: 15 And I thought they did. 16 CHAIRMAN JONES: 17 If snot specific. 18 MS. MITCHELL: 19 I don't know if that's an oversight or 20 what. 21 CHAIRMAN JONES: 22 Well, that's what I am asking, because we 23 need to know that. Because if it was not 25 know if the mega project — and we are going to 26 meet to get some clarification from the fourth 17 floor. 18 need to get some clarification from the fourth 18 of MS. MITCHELL: 21 need to get some clarification from the fourth 22 floor. 23 MS. MITCHELL: 34 process. 35 here to day a decision so not. 36 MS. MITCHELL: 37 look, I know that every parish is a different. Some parishes, the citizenry would object to nonelected people making decisions on — such heavy decisions on property tax exemptions. So the feedback that I have gotten from regionals and locals is they ought to be from regionals and locals is they ought to be from regionals and locals is they ought to be the quarterback of the local ITEP committee process. 10 to the quarterback of the local ITEP committee process. 11 to other words, number one, we have used the program to lure companies to the state or to help regional or the regionaling. But at the time we have to organize the committee, assemble information, digest the information	6	•	6	
9 And if I misrepresent what he said, I am going to apologize at the front end. 10 to apologize at the front end. 11 But what I understood him to say is that 12 he did not believe that the mega project concept 13 was included in the executive order. 14 MS. MITCHELL: 15 And I thought they did. 16 CHAIRMAN JONES: 17 It's not specific. 18 MS. MITCHELL: 19 I don't know if that's an oversight or 20 what. 21 CHAIRMAN JONES: 22 Well, that's what I am asking, because we 23 need to know that. Because if it was not 24 mentioned in the executive order, and so I don't 25 know if the mega project and we are going to 26 how. 24 That's not a hill I want to die on, but I 3 want to know. I want to know if that's in the 3 mix or not. 25 MS. MITCHELL: 26 That's not a hill I want to die on, but I 4 want to know. I want to know if that's in the 3 mix or not. 27 Use what to know if that's in the 4 mix or not. 28 MS. MITCHELL: 39 I don't know if the mega project and we are going to 27 how and to know if the mega project and we are going to 28 how event the program components were we all 15 trief committee, assemble 16 information, gut it in 16 want to know. I want to know if that's in the 4 mix or not. 40 MS. MITCHELL: 41 Yes, we should. 52 CHAIRMAN JONES: 42 Weren't talking about the administrative 16 heavily talking about the administrative 27 heavily talking about the administrative 28 a heavy, heavy focus with administration of the 50 order, program components were we all 16 order program components were we all 17 trief committee. And I say that 22 amb two have got to streamline 24 administration and compliance. 42 CHAIRMAN JONES: 45 And I will tell you before the executive order, several parishes had already organized the efficiency order, several parishes had laready organized the messelves in that way. And honestly, as the person going around trying to coach local governments how to get ready to make their decision. And sol don't know if I can give you an answer or an opinion on the regional or being the deci				
to apologize at the front end. But what I understood him to say is that be did not believe that the mega project concept was included in the executive order. MS. MITCHELL: And I thought they did. CHAIRMAN JONES: It's not specific. MS. MITCHELL: But what I understood him to say is that CHAIRMAN JONES: It's not specific. CHAIRMAN JONES: It's not specific. CHAIRMAN JONES: It's not swashing, because we ment to know if the mega project — and we are going to med to know that. Because if it was not page 66 The dot get some clarification from the fourth CHAIRMAN JONES: I need to get some clarification from the fourth CHAIRMAN JONES: I need to get some clarification from the fourth CHAIRMAN JONES: I need to get some clarification from the fourth CHAIRMAN JONES: I need to get some clarification from the fourth CHAIRMAN JONES: I need to get some clarification from the fourth CHAIRMAN JONES: I need to get some clarification from the fourth CHAIRMAN JONES: I need to get some clarification from the fourth CHAIRMAN JONES: I need to get some clarification from the fourth CHAIRMAN JONES: I nother words, number one, we have used the program to lure companies to expand, so we were the program to lure companies to the state or to help existing companies to expand, so we were the program to lure companies to expand, so we were the program of the committee assemble information, digest the information, put it in layman's term — terms and call the committee have to organize the committee, assemble information, digest the information, put it in layman's term — terms and call the committee and the were an open discussion about it, the regional or the local, we have already been behind the scenes anyhow helping with a lot of that have a not an open discussion about it, the regional or the local, we have already been behind the scenes anyhow helping with a lot of that have a not an open discussion about it, the regional or the local, we have already been behind the scenes anyhow helping with a lot of the regional or the local		· · · · · · · · · · · · · · · · · · ·	8	, , ,
But what I understood him to say is that 12 be did not believe that the mega project concept 13 was included in the executive order. 14 30 30 30 30 30 30 30 3		1		
12 he did not believe that the mega project concept was included in the executive order. 13 was included in the executive order. 14 MS. MITCHELL: 15 And I thought they did. 16 CHAIRMAN JONES: 16 If ont is to specific. 17 It so to specific. 18 MS. MITCHELL: 18 MS. MITCHELL: 18 MS. MITCHELL: 19 I don't know if that's an oversight or what. 20 what. 21 CHAIRMAN JONES: 22 Well, that's what I am asking, because we need to know that. Because if it was not meed to know that. Because if it was not meed to know that. Because if it was not meed to know that. Because if it was not meed to know if the mega project and we are going to Page 68 1 need to get some clarification from the fourth force. 25 CHAIRMAN JONES: 26 That's not a hill I want to die on, but I want to know, I want to know, I want to know if that's in the mix or not. 26 MS. MITCHELL: 27 Well, that's was I am asking, because we now if the mega project and we are going to Page 68 28 The did not believe that granular. So we weren't talking about the administrative to rough in the fourth of the program on complance. Really none of the other program components were we wall understood those would stay the same, the other program components were we all understood those would stay the same, the other program components were we all understood. Those things are staying the same but we have got to streamline and compliance. 28 CHAIRMAN JONES: 29 CHAIRMAN JONES: 20 In other words, number one, we have used the program to lure companies to expand, so we were there from the beginning. But at the time we have there from the local pexisting companies to expand, so we were there from the beginning. But at the time we have or organized the committee, assemble the program to lure companies to expand, so we were there from the beginning. But at the time we have organized the committee, assemble the program or one munitied, assemble the position, gigest the information, digest the information, digest the information, digest the information, digest the informatio	10	= =		MS. MITCHELL:
was included in the executive order. MS. MITCHELL: And I thought they did. CHAIRMAN JONES: It's not specific. If's not specific. It's not was not not be state or to the program to lure companies to the state or to the program to lure companies to expand, so we were the program is to expand, so we were the program is to expand, so we were the program is to expand, so we were the program of the nount it in the secans and the imformation, digest the imformation, digest the imformation, digest the imformation, digest t	11	-	11	· -
14 MS. MITCHELL: 15 And I thought they did. 16 CHAIRMAN JONES: 17 It's not specific. 18 MS. MITCHELL: 18 MS. MITCHELL: 19 I don't know if that's an oversight or 20 what. 21 CHAIRMAN JONES: 22 Well, that's what I am asking, because we need to know that. Because if it was not 23 need to know that Because if it was not 24 mentioned in the executive order, and so I don't 25 know if the mega project and we are going to 26 most of the mega project and we are going to 27 floor. 28 MS. MITCHELL: 29 MS. MITCHELL: 20 weren't alking about mega projects. We were mix or not. 20 manufactor that's in the program to mother that the program and compliance. Really none of the other program and compliance. Really none of the other program and compliance. Really none of the other program and compliance. 20 manufactor in the executive of mixed and not pellog and not react the program components were we all understood those would stay the same, the contact of the program compliance. 20 manufactor in the analysing to exampt the committee program components were we all understood those would stay the same, the contact of the program compliance. 21 manufactor in the executive of the program components were we all understood those would stay the same, the contact of the program and compliance. 22 manufactor in the state or to the program and compliance. 23 med to know the landed on the local information put it in 25 layman's term terms and call the committee and the committee may be prage for the program of the program and compliance. 24 mean to know the landed on the local information in the executive order, Governor Landry's current executive order, Governor Landry's current executive order, several parishes had already organized order, Governor Landry's current executive order, several parishes had already organized order, Governor Landry's current executive order, several parishes had already organized order, Governor Landry's current executive order, several parishes had already organized order, Governor Landry's cur				= -
And I thought they did. CHAIRMAN JONES: 16 CHAIRMAN JONES: 17 If son specific. 18 MS. MITCHELL: 19 I don't know if that's an oversight or 20 what. 21 CHAIRMAN JONES: 22 Well, that's what I am asking, because we need to know that. Because if it was not 23 mentioned in the executive order, and so I don't 25 know if the mega project and we are going to 26 floor. 27 Hoo the mega project and we are going to 28 MS. MITCHELL: 29 Well, that's what I am asking, because we 20 mentioned in the executive order, and so I don't 20 there from the beginning. But at the time we 21 heed to get some clarification from the fourth 22 floor. 23 MS. MITCHELL: 24 The median of the mega project and we are going to 25 Page 66 26 That's not a hill I want to die on, but I 26 want to know. I want to know if that's in the 27 mix or not. 28 MS. MITCHELL: 29 MS. MITCHELL: 30 behind the scens anyhow helping with a lot of 40 that. 41 The vorder, several parishes had already organized 42 the median of the local 43 that. 44 The mega project and we are going to 45 Page 68 46 The mega project and we are going to 47 Page 68 48 The median of the local 49 The metioned in the executive order, and so I don't 40 The metioned in the executive order, and so I don't 41 The mix or not. 42 The metioned in the executive order, and so I don't 42 The metioned in the executive order, and we are going to 44 The metioned in the executive order, and we are going to 45 The metion of the order order order organized the committee. 46 The metion of the order order order organized the committee order order, and so I don't and the committee. 47 Page 68 48 The metion of the local order order. 49 Was mix or not. 40 But at the time we there to the regional or the local order order order. 40 The metion of the order order order order order order order order order. 41 The metion order				
16 CHAIRMAN JONES: 17 It's not specific. 18 MS. MITCHELL: 19 I don't know if that's an oversight or 20 what. 21 CHAIRMAN JONES: 22 Well, that's what I am asking, because we need to know that. Because if it was not 23 mentioned in the executive order, and so I don't 24 more than a manifer and we are going to Page 68 1 need to get some clarification from the fourth 2 floor. 2 MS. MITCHELL: 3 need to get some clarification from the fourth 2 floor. 3 MS. MITCHELL: 4 Yes, we should. 5 CHAIRMAN JONES: 6 That's not a hill I want to die on, but I 7 want to know. I want to know if that's in the 8 mix or not. 9 MS. MITCHELL: 9 person going around trying to coach local 10 During our conversations during 11 transition, we didn't get that granular. So we weren't talking about mega projects. We were heavily talking about mega projects. We were the program and compliance. Really none of the other program components were – we all understood those would stay the same, the other program components were – we all understood those would stay the same, the other program components were – we all understood those would stay the same, the other program components were – we all understood those would stay the same, the other program components were – we all understood those would stay the same, the so of the maintenance, that was understood. Those things are staying the same but we have got to streamline and institation and compliance. 20 CHAIRMAN JONES: 21 the quarterback of the local tree quarterback of the local to het programs to mere same under one, we have used the programs to more, we have used the programs to the state or to help existing companies to expansies to expansion to the state or to help existing companies to expansion to the state or to help existing companies to expansion to the state or to help existing companies to expansion the state or to help existing companies to expansion to het state or to help existing companies to expansion the state or to help existing companies to expansion the state or to help existing				
It's not specific. MS. MITCHELL: Total the quarterback of the local ITEP committee MS. MITCHELL: Total the quarterback of the local ITEP committee MS. MITCHELL: Total the quarterback of the local ITEP committee MS. MITCHELL: Total the quarterback of the local ITEP committee The program to lure companies to the state or to the pregram to lure companies to the state or to the pregram to lure companies to the state or to the pregram to lure companies to the state or to the pregram to lure companies to the state or to the pregram to lure companies to the state or to the pregram to lure companies to the state or to the pregram to lure companies to the state or to the pregram to lure companies to the state or to the pregram to lure companies to the state or to the pregram to lure companies to the state or to the pregram to lure companies to expand, so we were there from the beginning. But at the time we there from the beginning. But at the time we there from the beginning. But at the time we there from the beginning. But at the time we there from the beginning. But at the time we there from the beginning. But at he time we there from the beginning. But at he t		• •		•
18 MS. MITCHELL: 19 I don't know if that's an oversight or 20 what. 21 CHAIRMAN JONES: 22 Well, that's what I am asking, because we need to know that. Because if it was not 23 need to know if the mega project and we are going to Page 66 24 mentioned in the executive order, and so I don't 25 know if the mega project and we are going to Page 66 26 Page 66 27 need to get some clarification from the fourth 28 floor. 29 MS. MITCHELL: 20				
If on't know if that's an oversight or what. CHAIRMAN JONES: Well, that's what I am asking, because we need to know that. Because if it was not mentioned in the executive order, and so I don't know if the mega project and we are going to have to organize the committee, assemble information, put it in layman's term terms and call the committee Page 68 need to get some clarification from the fourth floor. MS. MITCHELL: Many JONES: That's not a hill I want to die on, but I want to know. I want to know if that's in the mix or not. MS. MITCHELL:		•		
20 what. 21 CHAIRMAN JONES: 22 Well, that's what I am asking, because we need to know that. Because if it was not mentioned in the executive order, and so I don't show if the mega project and we are going to Page 66 23 MS. MITCHELL: 24 Yes, we should. 25 CHAIRMAN JONES: 26 That's not a hill I want to die on, but I want to know. I want to know if that's in the mix or not. 27 MS. MITCHELL: 28 MS. MITCHELL: 39 During our conversations during transition, we didn't get that granular. So we were there from the beginning. But at the time we have to organize the committee, assemble information, digest the information, put it in layman's term terms and call the committee Page 68 10 the program to lure companies to the state or to belip existing companies to expand, so we were there from the beginning. But at the time we have or organize the committee, assemble information, digest the information, put it in layman's term terms and call the committee or Page 68 11 the program to lure companies to the state or to belip existing companies to expand, so we were there from the beginning. But at the time we have or organize the committee, assemble information, digest the information, put it in layman's term terms and call the committee or page 68 12 there from the beginning. But at the time we have or organize the committee, assemble information, digest the information, put it in layman's term terms and call the committee or page 68 11 the program is to expand, so we were there from the beginning. But at the time we have to organize the committee, assemble information, digest the information, digest he information, di				-
21 CHAIRMAN JONES: Well, that's what I am asking, because we 23 need to know that. Because if it was not 24 mentioned in the executive order, and so I don't 25 know if the mega project and we are going to 26 Page 66 1 need to get some clarification from the fourth 27 floor. 28 MS. MITCHELL: 39 behind the scenes anyhow helping with a lot of 40 that. 41 Want to know. I want to die on, but I 42 wart to know. I want to know if that's in the 43 mix or not. 44 mentioned in the executive order, and so I don't 45 the regional or the local, we have already been 46 behind the scenes anyhow helping with a lot of 47 that. 48 mix or not. 49 MS. MITCHELL: 40 During our conversations during 41 transition, we didn't get that granular. So we 42 weren't talking about mega projects. We were 43 heavily talking about the administrative 44 a mentioned in the executive order, and so I don't to have an open discussion about it, 45 the regional or the local, we have already been 46 behind the scenes anyhow helping with a lot of 47 that. 48 the regional or the local, we have already been 49 behind the scenes anyhow helping with a lot of 49 that. 50 And I will tell you before the executive 51 order, Governor Landry's current executive 52 order, several parishes had already organized 53 themselves in that way. And honestly, as the 54 person going around trying to coach local 55 governments how to get ready to make their 56 decisions on ITEP, I know that several parishes 57 themselves in that way. And honestly, as the 58 person going around trying to coach local 59 governments how to get ready to make their 50 decisions on ITEP, I know that several parishes 51 the mega projects. 50 the making sout the administration of the 51 transmany, Ascension, there are several 51 parishes that have a process that works and it's 51 nobody is surprised. There is no guesswork. 51 Nobody is confused. The information is there. 52 that local ITEP committee made their 53 decision. And so I don't know if I can give you 54 and mix or not. 55 and I will te		I don't know if that's an oversight or		
22 Well, that's what I am asking, because we need to know that. Because if it was not mentioned in the executive order, and so I don't know if the mega project and we are going to Page 66 1 need to get some clarification from the fourth floor. 3 MS. MITCHELL: 4 Yes, we should. 5 CHAIRMAN JONES: 6 That's not a hill I want to die on, but I want to know. I want to know if that's in the mix or not. 9 MS. MITCHELL: 10 During our conversations during transition, we didn't get that granular. So we weren't talking about the administrative process. And that's how we landed on the local ITEP committee, that one-stop shop. So that was a heavy, heavy focus with administration of the program and compliance. Really none of the other program components were we all understood those would stay the same, the was understood. Those things are staying the administration and compliance. 22 there from the beginning. But at the time we have to organize the committee, assemble information, digest the information, put it in layave to organize the committee, assemble information, digest the information, put it in layave to organize the committee, assemble information, digest the information, put it in layave to organize the committee, assemble information, digest the information, put it in layave to organize the committee, assemble information, digest the information to layura by all the committee mayer before the executive order, Governor Landry's current executive order, Governor Landry's current executive order, Governor Landry's current executive order, G				
23 need to know that. Because if it was not mentioned in the executive order, and so I don't know if the mega project and we are going to Page 66 1 need to get some clarification from the fourth floor. 2 floor. 3 MS. MITCHELL: 4 Yes, we should. 5 CHAIRMAN JONES: 6 That's not a hill I want to die on, but I want to know. I want to know if that's in the mix or not. 9 MS. MITCHELL: 9 person going around trying to coach local tensily talking about the administrative labeling about the administration of the other program and compliance. Page 18 have to organize the committee, assemble information, digest the information it payman's term terms and call the committee made their the alayman's term terms and call the committee meade their of the the vare and pen discussion about it, the regional or the local, we have already been behind the scenes anyhow helping with a lot of that. And I will tell you before the executive order, Governor Landry's current executive order, governor band vinal transition, we didn't get the against way. And honestly, as t				
mentioned in the executive order, and so I don't know if the mega project and we are going to Page 66 need to get some clarification from the fourth floor. Indeed to get some clarification from the fourth floor. MS. MITCHELL: Yes, we should. CHAIRMAN JONES: That's not a hill I want to die on, but I want to know. I want to know if that's in the mix or not. MS. MITCHELL: That's not a hill I want to die on, but I or order, several parishes had already organized themselves in that way. And honestly, as the person going around trying to coach local governments how to get ready to make their decisions on ITEP, I know that several parishes had heavy, heavy focus with administrative a heavyl, heavy focus with administration of the program and compliance. Really none of the other program components were we all understood those would stay the same, the was understood. Those things are staying the administration and compliance. Languan's term terms and call the committee Page 68 together to have an open discussion about it, together to have an open discussion about it, together to have an open discussion about it, the regional or the local, we have already been behind the scenes anyhow helping with a lot of that. And I will tell you before the executive order, Governor Landry's current		_		
25 know if the mega project and we are going to Page 66 1 need to get some clarification from the fourth floor. 2 floor. 3 MS. MITCHELL: 4 Yes, we should. 5 CHAIRMAN JONES: 6 That's not a hill I want to die on, but I want to know. I want to know if that's in the mix or not. 9 MS. MITCHELL: 10 During our conversations during transition, we didn't get that granular. So we weren't talking about mega projects. We were heavily talking about the administrative program and compliance. Really none of the other program components were we all understood those would stay the same, the was understood. Those things are staying the administration and compliance. 2 layman's term terms and call the committee Page 68 1 layman's term terms and call the committee Page 68 1 together to have an open discussion about it, the regional or the local, we have already been behind the scenes anyhow helping with a lot of that. 2 the regional or the local, we have already been behind the scenes anyhow helping with a lot of that. 3 there regional or the local, we have already been behind the scenes anyhow helping with a lot of that. 4 that. 5 And I will tell you before the executive order, Governor Landry's current executive order, several parishes had already organized themselves in that way. And honestly, as the person going around trying to coach local governments how to get ready to make their decisions on ITEP, I know that several parishes had already been behind the scenes anyhow helping with a lot of that. 5 And I will tell you before the executive order, Governor Landry's current executive or	l			
1 need to get some clarification from the fourth 2 floor. 3 MS. MITCHELL: 4 Yes, we should. 5 CHAIRMAN JONES: 6 That's not a hill I want to die on, but I 7 want to know. I want to know if that's in the 8 mix or not. 9 MS. MITCHELL: 10 During our conversations during 11 transition, we didn't get that granular. So we weren't talking about mega projects. We were heavily talking about mega projects. We were heavily talking about the administrative 13 ITEP committee, that one-stop shop. So that was a heavy, heavy focus with administration of the other program components were we all understood those would stay the same, the soften the didnother of the didnother of the capital additions and routine maintenance, that was understood. Those things are staying the administration and compliance. 25 CHAIRMAN JONES: 1 together to have an open discussion about it, the regional or the local, we have already been behind the scenes anyhow helping with a lot of that. 2 the regional or the local, we have already been behind the scenes anyhow helping with a lot of that. 3 behind the scenes anyhow helping with a lot of that. 4 that. 4 that. 5 And I will tell you before the executive order, Governor Landry's current executive order, Several parishes had already organized themselves in that way. And honestly, as the person going around trying to coach local governments how to get ready to make their decisions on ITEP, I know that several parishes has these are the best practices model. 1 I mean Calcasieu is one of them. 2 St. Tammany, Ascension, there are several parishes that have a process that works and it's nobody is surprised. There is no guesswork. 1 Nobody is confused. The information is there. 1 It's made public and the committee made their decision. And so I don't know if I can give you an answer or an opinion on the regional or being that local ITEP committee. And I say that because in some parishes people are, you know, they do not react very well to nonelected people making such significant decisions. 2 CHAIR				
1 need to get some clarification from the fourth 2 floor. 3 MS. MITCHELL: 4 Yes, we should. 5 CHAIRMAN JONES: 6 That's not a hill I want to die on, but I 7 want to know. I want to know if that's in the 8 mix or not. 9 MS. MITCHELL: 10 During our conversations during 11 transition, we didn't get that granular. So we 12 weren't talking about mega projects. We were 13 heavly talking about the administrative 14 process. And that's how we landed on the local 15 ITEP committee, that one-stop shop. So that was 16 a heavy, heavy focus with administration of the 17 other program and compliance. Really none of the 18 other program components were we all 19 understood those would stay the same, the 20 80 percent. The disallowance of miscellaneous 21 capital additions and routine maintenance, that 22 was understood. Those things are staying the 23 same but we have got to streamline 24 administration and compliance. 25 CHAIRMAN JONES: 1 together to have an open discussion about it, the regional or the local, we have already been behind the scenes anyhow helping with a lot of that. 2 the regional or the local, we have already been behind the scenes anyhow helping with a lot of that. 3 the regional or the local, we have already been behind the scenes anyhow helping with a lot of that. 4 that. 5 And I will tell you before the executive order, Governor Landry's current executive order, G	25		25	
2 the regional or the local, we have already been 3 MS. MITCHELL: 4 Yes, we should. 5 CHAIRMAN JONES: 6 That's not a hill I want to die on, but I 7 want to know. I want to know if that's in the 8 mix or not. 9 MS. MITCHELL: 10 During our conversations during 11 transition, we didn't get that granular. So we 12 weren't talking about mega projects. We were 13 heavily talking about the administrative 14 process. And that's how we landed on the local 15 ITEP committee, that one-stop shop. So that was 16 a heavy, heavy focus with administration of the 17 program and compliance. Really none of the 18 other program components were we all 19 understood those would stay the same, the 20 September 19 capital additions and routine maintenance, that 21 was understood. Those things are staying the 22 same but we have got to streamline 23 the regional or the local, we have already been behind the scenes anyhow helping with a lot of that. 4 that. 4 that. 5 And I will tell you before the executive order, Governor Landry's current executive order, Gove		Page 66		Page 68
MS. MITCHELL: 4 Yes, we should. 5 CHAIRMAN JONES: 6 That's not a hill I want to die on, but I 7 want to know. I want to know if that's in the 8 mix or not. 9 MS. That was kind of my reaction, but I didn't know if there was a strong feeling out there in the community on that issue or not, because I agree. I think the EEOs are going to be on the ground floor of whatever is going on. And just in my world and I don't play in this world because my job as you do, but it seems to me that you guys are the facilitators and providers of information rather than the decision makers. MS. MITCHELL: Yes. So I think that is the appropriate role, but if I was missing something, I wanted to hear about that. MS. MITCHELL: Yes. So I think that I she appropriate role, but if I was missing something, I wanted to hear about that. MS. MITCHELL: Yes. So I think that I she appropriate role, but if I was missing something, I wanted to hear about that. MS. MITCHELL: Yes. So I shank MAN JONES: So I think that I she appropriate role, but if I was missing something, I wanted to hear about that. MS. MITCHELL: Yes. CHAIRMAN JONES: So I think that I she appropriate role, but if I was missing something, I wanted to hear about that. MS. MITCHELL: Yes. Well, today in the current rules, it follows the same process except the exemption rate is higher. It is 93 percent. CHAIRMAN JONES: CHAIRMAN JONES: Right. MS. MITCHELL: So as I was driving over, I actually was thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are going to do that thinking about I you are				
agree. I think the EEOs are going to be on the ground floor of whatever is going on. And just in my world — and I don't play in this world because my job — as you do, but it seems to me that you guys are the facilitators and providers of information rather than the decision makers. MS. MITCHELL: Yes. MS. MITCHELL: Yes. Well, today in the current rules, it follows the same process except the exemption rate is higher. It is 93 percent. CHAIRMAN JONES: So I think that is the appropriate role, that if I was missing something, I wanted to hear about that. MS. MITCHELL: Yes. The folks that I have spoken to, the majority, feel like just like what you said. MS. MITCHELL: Yes. The folks that I have spoken to, the majority, feel like just like what you said. The EEOs should take the role of convenor, and I know Ms. Porter and other members of the staff and I have talked about this at length, and I have been all over the members of the staff and I have talked about this at length, and I have been all over the staff and I have talked about this at length, and I have been all over the staff and I have talked about this at length, and I have been all over the staff and I have talked about this at length, and I have been all over the staff and I have talked about this at length, and I have talked about the staff and I have talked about this at length, and I have talked about the length a	1	That was kind of my reaction, but I didn't	1	ITEP committee. Would the mega project also go
4 agree. I think the EEOs are going to be on the 5 ground floor of whatever is going on. And just in my world — and I don't play in this world 5 because my job. — as you do, but it seems to me 5 that you guys are the facilitators and providers of information rather than the decision makers. 9 of information rather than the decision makers. 10 MS. MITCHELL: 11 Yes. 12 CHAIRMAN JONES: 13 So I think that is the appropriate role, 5 but if I was missing something, I wanted to hear 15 about that. 14 MS. MITCHELL: 15 So as I was driving over, I actually was thinking about if you are going to do that 1 higher threshold, what would be fair to make 18 majority, feel like just like what you said. 15 The EEOs should take he role of convenor, 20 facilitator, the provider of information. 16 The AIRMAN JONES: 17 CHAIRMAN JONES: 18 MS. MITCHELL: 18 MS. MITCHELL: 19 So as I was driving over, I actually was thinking about if you are going to do that 1 higher threshold, what would be fair to make 18 sure local government — make sure their voice 18 heart in the process. And the reason I say 1 that is because some of those same parishes that 22 concentration of investment from industry and 23 manufacturers also struggle with local 24 manufacturers also struggle with local 25 migration out there, like the Louisiana 25 was the pred of dime that is predicated in the 26 EO, the one thing that I would suggest — and I 27 don't know the right way to do this — but there 28 are organizations out there, like the Louisiana 29 Municipal Association and the Police Dury Association, all of them say, guys, here's the 27 problem. There is — and it so — like you 28 say, it's not that complicated once they think 29 throught on that. 12 Back to the mega project. One other 29 question on that. And I don't know how it works 20 to the cetuplates for the local government is my 21 thought on that. 21 Back to the mega project. One other 29 question on that. And I don't know how it works 20 to the cetup and faculty and proper in the problem.	2	know if there was a strong feeling out there in	2	to the local committee?
5 ground floor of whatever is going on. And just in my world and I don't play in this world because my job as you do, but it seems to me that you guys are the facilitators and providers of information rather than the decision makers. 10 MS. MITCHELL: 11 Yes. 12 CHAIRMAN JONES: 13 So I think that is the appropriate role, but if I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear ali was missing something, I wanted to hear about it I was missing something, I wanted to hear about it I was missing something, I wanted to hear ali was missing something, I wanted to hear a like hit I was missing something, I wanted to hear a like hit I was missing something, I wanted to hear a like hit I was missing something, I wanted to hear a like hit I was missing something, I wanted to hear a like hit I was missing something, I wanted to hear a like hit I was missing something, I wanted to hear a like hit I was missing something, I wanted to hear a like hit I was missing something, I wanted to hear a like hit I was missing something, I wanted to hear a like hit I was missing somethi	3	·	3	MS. MITCHELL:
6 in my world — and I don't play in this world 7 because my job — as you do, but it seems to me 8 that you guys are the facilitators and providers 9 of information rather than the decision makers. 10 MS. MITCHELL: 11 Yes. 11 12 CHAIRMAN JONES: 13 So I think that is the appropriate role, 14 but if I was missing something, I wanted to hear 15 about that. 16 MS. MITCHELL: 17 Yes. The folks that I have spoken to, the 18 majority, feel like just like what you said. 18 The EEOs should take the role of convenor, 20 facilitator, the provider of information. 21 CHAIRMAN JONES: 22 Okay, On the issue of the local ITEP 23 committee, and I have bene all over the 24 members of the staff and I have talked about 25 this at length, and I have been all over the 26 communities who get it. They understand what 27 they need to do. Others haven't quite figured 28 of only know the right way to do this — but there 29 are organizations out there, like the Louisiana 29 Municipal Association and the Police Jury 20 Association, that I think are better positioned 21 to coach the local governments on how to do this 22 rather than — I don't remember LED telling 23 people how to do it. But I think that if we can 24 figure out some way to communicate with LMA and 25 the Police Jury Association and the School Board 26 Association, that I think that if we can 27 figure out some way to communicate with LMA and 28 figure out some way to communicate with LMA and 29 figure out some way to communicate with LMA and 20 the Police Jury Association and the School Board 21 Association, that I think that if we can 22 figure out some way to communicate with LMA and 23 the Police Jury Association and the School Board 24 Association, that I think are better positioned 25 to to cote the local government is my 26 those templates for the local government is my 27 to the facilitators and provider of their basic infrastructure 28 gettle that be a bettle provider 29 those the folice Jury Association and the School Board 29 that the School Board 20 Association, that	4	•	4	
because my job — as you do, but it seems to me that you guys are the facilitators and providers of information rather than the decision makers. MS. MTCHELL: CHAIRMAN JONES: So I think that is the appropriate role, but if I was missing something, I wanted to hear about that. MS. MTCHELL: The folks that I have spoken to, the majority, feel like just like what you said. The EEOs should take the role of convenor, facilitator, the provider of information. CHAIRMAN JONES: CHAIRMAN JONES: So as I was driving over, I actually was thinking about if you are going to do that higher threshold, what would be fair to make sure local government — make sure their voice is heard in the process. And the reason I say that is because Some of those same parishes that higher threshold, what would be fair to make sure local government — make sure their voice is heard in the process. And the reason I say that is because Some of those same parishes that higher threshold, what would be fair to make sure local government — make sure their voice is heard in the process. And the reason I say that is because Some of those same parishes that higher threshold, what would be fair to make sure local government — make sure their voice is heard in the process. And the reason I say that is because Some of those same parishes that higher threshold, what would be fair to make sure local government — make sure their voice is heard in the process. And the reason I say that is because Some of those same parishes that higher threshold, what would be fair to make sure local government — make sure their voice is heard in the process. And the reason I say that is because Some of those same parishes that higher threshold, what would be fair to make sure local government — make sure their voice is heard in the process. And the reason I say that is because Some of those same parishes that higher threshold, what would be fair to make sure local government — make sure their voice is heard in the process. And the reason I say that is because Some of those s	5	9 9	5	CHAIRMAN JONES:
8 that you guys are the facilitators and providers 9 of information rather than the decision makers. 10 MS. MITCHELL: 11 Yes. 12 CHAIRMAN JONES: 13 So I think that is the appropriate role, 14 but if I was missing something, I wanted to hear 15 about that. 16 MS. MITCHELL: 17 Yes. The folks that I have spoken to, the 18 majority, feel like just like what you said. 19 The EFOs should take the role of convenor, 20 facilitator, the provider of information. 21 CHAIRMAN JONES: 22 Okay. On the issue of the local ITEP 23 committee, and I know Ms. Porter and other 25 members of the staff and I have talked about 25 this at length, and I have been all over the 26 committee, and I know Ms. Porter and other 27 committee, and I know Ms. Porter and other 28 down on this because I agree there are some 29 committee, and I know Ms. Porter and other 20 committee, and I know Ms. Porter and other 21 don't his because I agree there are some 22 committee, and I know Ms. Porter and other 23 down on this because I agree there are some 24 out how to spread this meal. And because of the 25 short period of time that is predicated in the 26 EO, the one thing that I would suggest — and I don't know the right way to do this — but there are organizations out there. Ike the Louisiana Municipal Association and the Police Jury 26 Association, all of them say, guys, here's the problem. There is — and it's not — like you say, it's not that complicated once they think it if through that. 27 I thought on that. 28 Back to the mega project. One other question on that. And I don't know how it works the folice Jury but only also lave to get or the local government is my though on that. 29 Under the executive order that goes to the local convention and the Police Jury and the people who are already there that you can provide for their basic infrastructure meets. 29 CHAIRMAN JONES: 20 And so, you know, it's a fine line. You want to be competitive but you also have to get creative at making sure for those same new companies — those companies that are inves	6	* *	6	Or would it have an extended review by
9 of information rather than the decision makers. 10 MS. MITCHELL: 11 Yes. 12 CHAIRMAN JONES: 13 So I think that is the appropriate role, 14 but if I was missing something, I wanted to hear 15 about that. 16 MS. MITCHELL: 17 Yes. The folks that I have spoken to, the 18 majority, feel like just like what you said. 19 The EEOs should take the role of convenor, 19 The EEOs should take the role of convenor, 21 CHAIRMAN JONES: 22 Okay. On the issue of the local ITEP 23 committee, and I know Ms. Porter and other 24 members of the staff and I have talked about 25 this at length, and I have been all over the 26 communities who get it. They understand what 27 don't know the right way to do this - but ther 28 are organizations out there, like the Louisiana 29 Municipal Association and the Police Jury 20 Association, that I think are better positioned 31 to coach the local governments on how to do this 32 today and I apologize for that. But the 8020 33 under the executive order that goes to the local 34 out how the mega project. One other 35 appeals how to do it. But think that if we can 36 the Police Jury Association and the Police Jury 36 the police Jury Association and the Police Jury 37 those templates for the local government is my 38 thought on that. 39 Municipal Association and the School Board 40 the police Jury Association and the Police Jury 41 thought on that. 42 Back to the mega project. One other 43 question on that. And I don't know how it works 44 today and I apologize for that. But the 8020 45 today and I apologize for that. But the 8020 46 under the executive order that goes to the local 57 the Dear that for the Police Jury 58 today and I apologize for that. But the 8020 59 under the executive order that goes to the local 50 under the executive order that goes to the local 50 under the executive order that goes to the local 50 under the executive order that goes to the local 50 under the executive order that goes to the local 50 under the executive order that goes to the local 50 under the executive order			7	local government?
10 MS. MITCHELL: 11 Yes. 12 CHAIRMAN JONES: 13 So I think that is the appropriate role, 14 but if I was missing something, I wanted to hear 15 about that. 16 MS. MITCHELL: 17 Yes. The folks that I have spoken to, the 18 majority, feel like just like what you said. 19 The EEOs should take the role of convenor, 20 facilitator, the provider of information. 21 CHAIRMAN JONES: 22 Okay. On the issue of the local ITEP 23 committee, and I know Ms. Porter and other 24 members of the staff and I have talked about 25 this at length, and I have been all over the 26 romunuities who get it. They understand what 27 they need to do. Others haven't quite figured 28 out how to spread this meal. And because of the 29 short period of time that is predicated in the 29 don't how the right way to do this - but there 30 Association, that I think are better positioned 11 to coach the local government so nhow to do this 12 rather than – I don't remember LED telling 13 people how to do it. But I think that if we can 14 figure out some way to communicate with LMA and 15 the Police Jury Association and the School Board 15 the Police Jury Association and the School Board 16 Association, all of thems say, usy, shere's the 17 problem. There is – and it's not – like you 28 under the executive order that goes to the local 29 under the executive order that goes to the local 20 und how to me map a project. One other 21 under the executive order that goes to the local 22 today and I apologize for that. But the 8020 23 under the executive order that goes to the local 24 today and I apologize for that. But the 8020 24 under the executive order that goes to the local 25 under the executive order that goes to the local 26 under the executive order that goes to the local 27 under the executive order that goes to the local 28 under the executive order that goes to the local 39 under the executive order that goes to the local 30 under the executive order that goes to the local 30 under the executive order that goes to the local 31 that locals would play.	l		8	
11 rate is higher. It is 93 percent. 12 CHAIRMAN JONES: 13 So I think that is the appropriate role, 14 but if I was missing something, I wanted to hear 15 about that. 16 MS. MITCHELL: 17 Yes. The folks that I have spoken to, the 18 majority, feel like just like what you said. 18 majority, feel like just like what you said. 19 The EEOs should take the role of convenor, 20 facilitator, the provider of information. 21 CHAIRMAN JONES: 22 Okay. On the issue of the local ITTEP 23 committee, and I know Ms. Porter and other 24 members of the staff and I have talked about 25 this at length, and I have been all over the 26 communities who get it. They understand what 27 they need to do. Others haven't quite figured 28 out how to spread this meal. And because of the 29 Short period of time that is predicated in the 20 EO, the one thing that I would suggest — and I of on't know the right way to do this — but there 29 are organizations out there, like the Louisiana Municipal Association and the Police Jury 20 Association, that I think that if we can figure out some way to communicate with LMA and the Police Jury Association and the School Board 21 figure out some way to communicate with LMA and the Police Jury Association, and it's not — like you said. 22 figure out some way to communicate with LMA and the Police Jury Association, and the School Board 23 question on that. And I don't know how it works a say, it's not that complicated once they think it it through. But they should be able to provide those templates for the local government is my thought on that. 24 Lod Ag and I applogize for that. But the 80/20 under the executive order that goes to the local 25 today and I applogize for that. But the 80/20 under the executive order that goes to the local 25 today and I applogize for that. But the 80/20 under the executive order that goes to the local 25 today and I applogize for that. But the 80/20 today and I applogize for that. But the 80/20 today and I applogize for that. But the 80/20 today and I applogize for that. Bu	9		9	•
12 CHAIRMAN JONES: 13 So I think that is the appropriate role, 14 but if I was missing something, I wanted to hear 15 about that. 16 MS. MITCHELL: 17 Yes. The folks that I have spoken to, the 18 majority, feel like just like what you said. 19 The EEOs should take the role of convenor, 20 facilitator, the provider of information. 21 CHAIRMAN JONES: 22 Gazilitator, the provider of information. 23 committee, and I know Ms. Porter and other 24 members of the staff and I have talked about 25 this at length, and I have been all over the 26 communities who get it. They understand what 27 don't know the right way to do this – but there 28 are organizations out there, like the Louisiana 29 Municipal Association and the Police Jury 10 Association, that I think are better positioned 11 to coach the local governments on how to do this 12 rather than – I don't remember LED telling 13 people how to do it. But I think that if we can 14 figure out some way to communicate with LMA and 15 the Police Jury Association and the School Board 16 Association, that I think are better positioned 16 Association, that I think are better positioned 17 to roach the local governments on how to do this 18 majority, feel like just like what you said. 18 might. 19 MS. MITCHELL: 10 So as I was driving over, I actually was thinking about if you are going to do that higher threshold, what would be fair to make sure their voice is heard in the process. And the reason I say that is because some of those same parishes that higher threshold, what would be fair to make sure their voice is heard in the process. And the reason I say that is because some of those same parishes that higher threshold, what would be fair to make sure their voice is heard in the process. And the reason I say that is because some of those same parishes that higher threshold, what would be fair to make sure their voice is heard in the process. And the reason I say that is because some of those same parishes that higher threshold, what would be fair to make sure their voice is he	10	MS. MITCHELL:	10

the but if I was missing something, I wanted to hear bount that. Most MITCHELL: Yes. The folks that I have spoken to, the majority, feel like just like what you said. The EEOs should take the role of convenor, factually was thinking about if you are going to do that higher threshold, what would be fair to make sure their voice is heard in the process. And the reason I say facilitator, the provider of information. CHAIRMAN JONES: Okay. On the issue of the local ITEP committee, and I know Ms. Porter and other members of the staff and I have talked about this at length, and I have been all over the members of the staff and I have talked about this at length, and I have been all over the communities who get it. They understand what they need to do. Others haven't quite figured out how to spread this meal. And because of the short period of time that is predicated in the short period of time that is predicated in the short period of time that is predicated in the graphical strains are providered are organizations out there, like the Louisiana may municipal Association and the Police Jury are organizations, that I think are better positioned to coach the local governments on how to do this training and the police Jury Association and the School Board figure out some way to communicate with LMA and the Police Jury Association and the School Board figure out some way to communicate with LMA and the Police Jury Association and the School Board figure out some way to communicate with LMA and the Police Jury Association and the School Board figure out some way to communicate with LMA and the Police Jury Association and the School Board figure out some way to communicate with LMA and the Police Jury Association and the School Board figure out some way to communicate with LMA and the Police Jury Association and the School Board figure out some way to communicate with LMA and the Police Jury Association and the School Board figure out some way to communicate with LMA and the Police Jury Association and the School Board				
15 about that. 16 MS. MITCHELL: 17 Yes. The folks that I have spoken to, the 18 majority, feel like just like what you said. 19 The EEOs should take the role of convenor, 20 facilitator, the provider of information. 21 CHAIRMAN JONES: 22 Okay. On the issue of the local ITEP 23 committee, and I know Ms. Porter and other 24 members of the staff and I have talked about 25 this at length, and I have been all over the 26 communities who get it. They understand what 27 they need to do. Others haven't quite figured 28 out how to spread this meal. And because of the 29 short period of time that is predicated in the 20 foot throw the right way to do this - but there 21 are organizations out there, like the Louisiana 22 manufactures also struggle with local 23 infrastructure needs. 24 increase (CHAIRMAN JONES: 25 CHAIRMAN JONES: 26 Like one thing that I would suggest - and I 27 don't know the right way to do this - but there 28 are organizations out there, like the Louisiana 29 Municipal Association and the Police Jury 30 Association, that I think that if we can 31 figure out some way to communicate with LMA and 32 figure out some way to communicate with LMA and 33 figure out some way to communicate with LMA and 34 figure out some way to communicate with LMA and 35 figure out some way to communicate with LMA and 36 figure out some way to communicate with LMA and 37 figure out some way to communicate with LMA and 38 figure out some way to communicate with LMA and 39 figure out some way to communicate with LMA and 40 figure out some way to communicate with LMA and 41 figure out some way to communicate with LMA and 42 figure out some way to communicate with LMA and 43 figure out some way to communicate with LMA and 44 figure out some way to communicate with LMA and 45 figure out some way to communicate with LMA and 46 kinking about if you are going to dot dead and 1 apologize for that. But the 80/20 47 to do way and 1 apologize for that. But the 80/20 48 under the executive order that goes to the local 49 under the exec				•
MS. MITCHELL:				
Yes. The folks that I have spoken to, the majority, feel like just like what you said. The EEOs should take the role of convenor, facilitator, the provider of information. CHAIRMAN JONES: Okay. On the issue of the local ITEP committee, and I know Ms. Porter and other members of the staff and I have talked about this at length, and I have been all over the committee, and I have been all over the members of the staff and I have talked about this at length, and I have been all over the communities who get it. They understand what they need to do. Others haven't quite figured to thow to spread this meal. And because of the EO, the one thing that I would suggest — and I for the coach the local governments on how to do this to coach the local governments on how to do this figure out some way to communicate with LMA and figure out some way to communicate with LMA and figure out some way to communicate with LMA and figure out some way to communicate with LMA and figure out some way to communicate with LMA and figure out some way to communicate with LMA and figure out some way to communicate with LMA and figure out some way to communicate with LMA and figure out some way to communicate with LMA and the Police Jury Association and the School Board to Polem. There is — and it's not — like you thoose templates for the local government is my thooght on that. Association, all of them say, guys, here's the problem. There is — and it's not — like you thoose templates for the local government is my thooght on that. Association and the Police Jury Association and the Police Jury thought on that. Association, all of them say, guys, here's the problem. There is — and it's not — like you thought and the police Jury thought on that. Back to the mega project. One other the problem. There is — and it's not — like you thought on that. Back to the majority, feel like in the easo I say that is because some of those templates for that. But the 80/20 turned the executive order that goes to the local to the local government is my thou				
18 majority, feel like just like what you said. 19 The EEOs should take the role of convenor, 21 GAIRMAN JONES: 22 Okay. On the issue of the local ITEP 23 committee, and I know Ms. Porter and other 24 members of the staff and I have talked about 25 this at length, and I have been all over the 26 communities who get it. They understand what 27 don't know the right way to do this role of the short period of time that is predicated in the 28 short period of time that is predicated in the 29 don't know the right way to do this role to coach the local governments on how to do this 21 to coach the local governments on how to do this 22 rather than I don't remember LED telling 23 people how to do it. But I think that if we can 24 figure out some way to communicate with LMA and 25 through of them say, guys, here's the 26 problem. There is and if's not - like you 27 through of them say, guys, here's the 28 problem. There is and if's not - like you 29 those templates for the local government is my 20 tit. They local government is my 21 thought on that. 29 Back to the mega project. One other 29 question on that. And I don't know how it works 20 under the executive order that gots to the local 20 provide those templates for that But the 80/20 21 under the executive order that gots to the local 22 pesign on that. And I don't know how it works 23 question and the Police Jury 24 under the executive order that gots to the local 25 pesign of the sagin in the process. And the reavies the at a that it is because some of those same parishes that have the heaviest level and heaviest 24 chara that the process. And the reaviest level and have the heaviest level and have the heaviest level and have the heaviest level and heaviest 25 concentration of investment from industry and manufacturers also struggle with local manufacturers also				
19 The EEOs should take the role of convenor, 20 facilitator, the provider of information. 20 that is because some of those same parishes that 21 have the heaviest level and heaviest 22 concentration of investment from industry and 23 committee, and I know Ms. Porter and other 24 members of the staff and I have talked about 25 this at length, and I have been all over the 26 this at length, and I have been all over the 27 communities who get it. They understand what 3 they need to do. Others haven't quite figured 4 out how to spread this meal. And because of the 25 short period of time that is predicated in the 25 short period of time that is predicated in the 26 short period of time that is predicated in the 27 don't know the right way to do this - but there 28 are organizations out there, like the Louisiana 29 Municipal Association and the Police Jury 30 Association, that I think are better positioned 31 to coach the local governments on how to do this 31 figure out some way to communicate with LMA and 32 figure out some way to communicate with LMA and 33 the Police Jury 45 Association, all of them say, guys, here's the 36 problem. There is - and it's not - like you 41 though. But they should be able to provide 42 those templates for the local government is my 41 though. But they should be able to provide 42 those templates for the local government is my 42 thought on that. And I don't know how it works 42 today and I apologize for that. But the 80/20 under the executive order that gove to the local 32 that is not - police Jury 4 association and the Police Jury 4 should be able to provide 4 those templates for that. But the 80/20 under the executive order that gove to the local 32 that is not not police Jury 4 association and the Police Jury 4		*		=
CHAIRMAN JONES: CHAIRMAN JONES: CHAIRMAN JONES: CHAIRMAN JONES: CONET STATE OF THE PAGE TO SHARE AND INCHEST OR SHARE AND CHEAIRMAN JONES: CHAIRMAN JONES: CHAIRMAN JONES: CONET STATE OF THE PAGE TO SHARE AND S	l	· ·		
CHAIRMAN JONES: Okay. On the issue of the local ITEP committee, and I know Ms. Porter and other members of the staff and I have talked about this at length, and I have been all over the Page 70 Doard on this because I agree there are some communities who get it. They understand what to ut how to spread this meal. And because of the short period of time that is predicated in the EO, the one thing that I would suggest and I don't know the right way to do this but there manufacturers also struggle with local infrastructure needs. CHAIRMAN JONES: Page 72 Right. Right. Ms. MITCHELL: A And so, you know, it's a fine line. You want to be competitive but you also have to get creative at making sure for those same new companies those companies that are investing and the people who are already there that you are organizations out there, like the Louisiana Municipal Association and the Police Jury Association, that I think are better positioned to coach the local governments on how to do this rather than I don't remember LED telling people how to do it. But I think that if we can figure out some way to communicate with LMA and figure out some way to communicate with LMA and figure out some way to communicate with LMA and the Police Jury Association and the School Board Association, all of them say, guys, here's the problem. There is and it's not like you say, it's not that complicated once they think it through. But they should be able to provide those templates for the local government is my throught on that. And so, you know, it's a fine line. You want to be competitive but you also have to get creative at making sure for those same new companies those companies that are investing and the people who are already there that you can provide for their basic infrastructure needs. So, you know, I do think some thought needs to be put into the mega project. The level it takes to achieve it and also the role level it takes to achieve it and also the role level it takes to achieve it and also the r		·		÷
22 Okay. On the issue of the local ITEP 23 committee, and I know Ms. Porter and other 24 members of the staff and I have talked about 25 this at length, and I have been all over the 26 members of the staff and I have talked about 27 this at length, and I have been all over the 28 communities who get it. They understand what 30 they need to do. Others haven't quite figured 41 out how to spread this meal. And because of the 42 short period of time that is predicated in the 43 don't know the right way to do this — but there 44 are organizations out there, like the Louisiana 45 Municipal Association and the Police Jury 46 Association, that I think are better positioned 47 It to coach the local governments on how to do this 48 rather than — I don't remember LED telling 49 figure out some way to communicate with LMA and 40 the Police Jury Association and the School Board 41 figure out some way to communicate with LMA and 41 the Police Jury Association and the School Board 42 manufacturers also struggle with local 42 infrastructure needs. 43 CHAIRMAN JONES: 40 And so, you know, it's a fine line. You 44 want to be competitive but you also have to get 45 creative at making sure for those same new 46 companies — those companies that are investing 46 and the people who are already there that you 47 can provide for their basic infrastructure 48 needs. 40 MS. MITCHELL: 41 MS. MITCHELL: 42 MS. MISTCHELL: 43 Man to be competitive but you also have to get 44 creative at making sure for those same new 45 companies — those companies that are investing 46 and the people who are already there that you 47 can provide for their basic infrastructure 48 needs. 49 David Romanies — those companies that are investing 49 and the people who are already there that you 40 and the people who are already there that you 40 and the people who are already there that you 40 and people who are already there that you 41 the people who are already there that you 41 the people who are already there that you 42 that locals would play. 43 the local gov		=		
23 committee, and I know Ms. Porter and other 24 members of the staff and I have talked about 25 this at length, and I have been all over the 26 Page 70 Page 70 Page 72 1 board on this because I agree there are some 2 communities who get it. They understand what 3 they need to do. Others haven't quite figured 4 out how to spread this meal. And because of the 5 short period of time that is predicated in the 6 EO, the one thing that I would suggest and I 7 don't know the right way to do this but there 8 are organizations out there, like the Louisiana 9 Municipal Association and the Police Jury 10 Association, that I think are better positioned 11 to coach the local governments on how to do this 12 rather than I don't remember LED telling 13 people how to do it. But I think that if we can 14 figure out some way to communicate with LMA and 15 the Police Jury Association and the School Board 16 Association, all of them say, guys, here's the 17 problem. There is and it's not like you 18 say, it's not that complicated once they think 19 it through. But they should be able to provide 20 those templates for the local government is my 21 thought on that. 23 manufacturers also struggle with local 24 infrastructure needs. 25 CHAIRMAN JONES: 26 WAS. MITCHELL: 3 And so, you know, it's a fine line. You 4 want to be competitive but you also have to get 5 creative at making sure for those same new 6 companies those companies that are investing and the people who are already there that you 26 can provide for their basic infrastructure 27 needs. 28 So, you know, I do think some thought 29 needs. 29 So, you know, I do think some thought 20 the police Jury Association and the School Board 21 that locals would play. 21 CHAIRMAN JONES: 22 Not necessarily the new ITEP committee, 23 higher project. 24 MS. MITCHELL: 25 MS. MITCHELL: 26 MS. MITCHELL: 27 MS. MISMAN JONES: 28 Not necessarily the new ITEP committee, 29 Perhaps a more expanded approval process for the 29 higher project. 20 MS. MITCHELL: 21 CHAIRMAN JON				
24 members of the staff and I have talked about 25 this at length, and I have been all over the Page 70 1 board on this because I agree there are some 2 communities who get it. They understand what 3 they need to do. Others haven't quite figured 4 out how to spread this meal. And because of the 5 short period of time that is predicated in the 6 EO, the one thing that I would suggest and I 7 don't know the right way to do this but there 8 are organizations out there, like the Louisiana 9 Municipal Association and the Police Jury 10 Association, that I think are better positioned 11 to coach the local governments on how to do this 12 rather than I don't remember LED telling 13 people how to do it. But I think that if we can 14 figure out some way to communicate with LMA and 15 the Police Jury Association and the School Board 16 Association, all of them say, guys, here's the 17 problem. There is and it's not like you 18 say, it's not that complicated once they think 19 it through. But they should be able to provide 20 those templates for the local government is my 21 thought on that. 24 infrastructure needs. 25 CHAIRMAN JONES: Right. 26 Ws. MITCHELL: 3 And so, you know, it's a fine line. You 4 want to be competitive but you also have to get 6 creative at making sure for those same new 6 companies those companies that are investing and the people who are already there that you 8 can provide for their basic infrastructure 9 needs. 10 So, you know, I do think some thought 11 needs to be put into the mega project. The 12 level it takes to achieve it and also the role 13 that locals would play. 14 CHAIRMAN JONES: 15 Not necessarily the new ITEP committee, 16 perhaps a more expanded approval process for the 17 higher project. 18 MS. MITCHELL: 19 it through. But they should be able to provide 19 Yes. This is one way or to think about 10 it. 11 CHAIRMAN JONES: 11 CHAIRMAN JONES: 12 Okay. All right. Any other questions? 13 MR. MILLER: 14 Okay and I apologize for that. But the 80/20 15 Association an	l			•
this at length, and I have been all over the bard on this because I agree there are some communities who get it. They understand what they need to do. Others haven't quite figured out how to spread this meal. And because of the 5 short period of time that is predicated in the 6 EO, the one thing that I would suggest and I 7 don't know the right way to do this but there 8 are organizations out there, like the Louisiana 9 Municipal Association and the Police Jury 10 Association, that I think are better positioned 11 to coach the local governments on how to do this 12 rather than I don't remember LED telling 13 people how to do it. But I think that if we can 14 figure out some way to communicate with LMA and 15 the Police Jury Association and the School Board 16 Association, all of them say, guys, here's the 16 problem. There is and it's not like you 18 say, it's not that complicated once they think 19 it through. But they should be able to provide 10 those templates for the local government is my 10 thought on that. And I don't know how it works 10 to and 14 pologize for that. 1 board on this because I agree there are some 2 communities who get it. They understand what 3 they need to do. Others haven't quite figured 4 out how to spread this meal. And because of the 5 short period of time that is predicated in the 6 EO, the one thing that I would suggest and I don't know the right way to do this but there 8 are organizations out there, like the Louisiana 9 Municipal Association and the Police Jury 9 needs. 10 Association, that I think are better positioned 10 So, you know, I do think some thought 11 to coach the local governments on how to do this 12 rather than I don't remember LED telling 13 people how to do it. But I think that if we can 14 figure out some way to communicate with LMA and 15 the Police Jury Association and the School Board 15 Not necessarily the new ITEP committee, 16 perhaps a more expanded approval process for the 17 problem. There is and it's not like you 18 say, it's not that complicated once they think 19 it through. But they should be able to provide 19 those templates for the local government is my 10 those templates for the local government is my 12 thought on that. And I don't know how it works 10 to do it. But I think know how it works 10 to do it. But I think that if we can 17 higher project. 19 Yes. This is one way or to think about 10 tit. 10 CHAIRMAN JONES: 10 CHAIRMAN JONES: 11 CHAIRMAN JONES: 12 Okay. All right. Any other questions? 12 MR. MILLER: 13 Back to the mega project. One other 14 Okay and I apologize for that. But the 80/20 15 Association and the Parish Presidents of 15 Association and the Paris	25		25	
2 communities who get it. They understand what 3 they need to do. Others haven't quite figured 4 out how to spread this meal. And because of the 5 short period of time that is predicated in the 6 EO, the one thing that I would suggest and I 7 don't know the right way to do this but there 8 are organizations out there, like the Louisiana 9 Municipal Association and the Police Jury 10 Association, that I think are better positioned 11 to coach the local governments on how to do this 12 rather than I don't remember LED telling 13 people how to do it. But I think that if we can 14 figure out some way to communicate with LMA and 15 the Police Jury Association and the School Board 16 Association, all of them say, guys, here's the 17 problem. There is and it's not like you 18 say, it's not that complicated once they think 19 it through. But they should be able to provide 20 those templates for the local government is my 21 thought on that. 22 Back to the mega project. One other 23 question on that. And I don't know how it works 24 today and I apologize for that. But the 80/20 25 under the executive order that goes to the local		Page 70		Page 72
they need to do. Others haven't quite figured dout how to spread this meal. And because of the short period of time that is predicated in the EO, the one thing that I would suggest and I don't know the right way to do this but there may be municipal Association and the Police Jury Municipal Association and the Police Jury Association, that I think are better positioned to coach the local governments on how to do this people how to do it. But I think that if we can figure out some way to communicate with LMA and the Police Jury Association and the School Board Association, all of them say, guys, here's the problem. There is and it's not like you say, it's not that complicated once they think it through. But they should be able to provide those templates for the local government is my today and I apologize for that. But the 80/20 under the executive order that goes to the local And so, you know, it's a fine line. You want to be competitive but you also have to get creative at making sure for those same new companies those companies that are investing and the people who are already there that you can provide for their basic infrastructure needs. So, you know, I do think some thought 10 So, you know, I do think some thought 11 needs to be put into the mega project. The level it takes to achieve it and also the role level it takes to achieve it and also the role level it takes to achieve it and also the role level it takes to achieve it and also the role level it takes to achieve it and also the role level it takes to achieve it and also the role level it takes to achieve it and also the role level it takes to achieve it and also the role level it takes to achieve it and also the role level it takes to achieve it and also the role level it takes to achieve it and also the role level it takes to achieve it and also the role level it takes to achieve it and also the role level it takes to achieve it and also the role level it takes to achieve it and also the ro	1	board on this because I agree there are some	1	Right.
4 out how to spread this meal. And because of the 5 short period of time that is predicated in the 6 EO, the one thing that I would suggest and I 7 don't know the right way to do this but there 8 are organizations out there, like the Louisiana 9 Municipal Association and the Police Jury 10 Association, that I think are better positioned 11 to coach the local governments on how to do this 12 rather than I don't remember LED telling 13 people how to do it. But I think that if we can 14 figure out some way to communicate with LMA and 15 the Police Jury Association and the School Board 16 Association, all of them say, guys, here's the 17 problem. There is and it's not like you 18 say, it's not that complicated once they think 19 it through. But they should be able to provide 20 those templates for the local government is my 21 thought on that. 22 Back to the mega project. One other 23 question on that. And I don't know how it works 24 today and I apologize for that. But the 80/20 25 under the executive order that goes to the local 4 want to be competitive but you also have to get 5 creative at making sure for those same new 6 companies those companies that are investing 7 and the people who are already there that you 6 companies those companies that are investing 7 and the people who are already there that you 6 companies those companies that are investing 7 and the people who are already there that you 6 companies those companies that are investing 7 and the people who are already there that you 6 companies those companies that are investing 7 and the people who are already there that you 6 companies those companies that are investing 7 and the people who are already there that you 6 can provide for their basic infrastructure 8 can provide for their basic infrastructure 9 needs. So, you know, I do think some thought 11 needs to be put into the mega project. The 12 level it takes to achieve it and also the role 13 that locals would play. 14 CHAIRMAN JONES: 15 Ms. MITCHELL: 16 Yes.	2	communities who get it. They understand what	2	MS. MITCHELL:
5 short period of time that is predicated in the 6 EO, the one thing that I would suggest and I 7 don't know the right way to do this but there 8 are organizations out there, like the Louisiana 9 Municipal Association and the Police Jury 10 Association, that I think are better positioned 11 to coach the local governments on how to do this 12 rather than I don't remember LED telling 13 people how to do it. thought on that. 21 CHAIRMAN JONES: 22 Back to the mega project. One other 23 question on that. And I don't know how it works 24 today and I apologize for that. But the 80/20 25 under the executive order that goes to the local 26 CHAIRMAN JONES: 27 Okay. All right. Any other questions? 28 MR. MILLER: 29 Being that I sit on the Police Jury 29 Association and the Parish Presidents of	19	it through. But they should be able to provide	19	Yes. This is one way or to think about
22 Back to the mega project. One other 23 question on that. And I don't know how it works 24 today and I apologize for that. But the 80/20 25 under the executive order that goes to the local 26 Okay. All right. Any other questions? 27 MR. MILLER: 28 Being that I sit on the Police Jury 29 Association and the Parish Presidents of	20	those templates for the local government is my	20	it.
23 question on that. And I don't know how it works 24 today and I apologize for that. But the 80/20 25 under the executive order that goes to the local 26 MR. MILLER: 27 Being that I sit on the Police Jury 28 Association and the Parish Presidents of	21	thought on that.	21	CHAIRMAN JONES:
24 today and I apologize for that. But the 80/20 25 under the executive order that goes to the local 26 Being that I sit on the Police Jury 27 Association and the Parish Presidents of	22	Back to the mega project. One other	22	Okay. All right. Any other questions?
25 under the executive order that goes to the local 25 Association and the Parish Presidents of	23	question on that. And I don't know how it works	23	MR. MILLER:
25 under the executive order that goes to the local 25 Association and the Parish Presidents of	24		24	Being that I sit on the Police Jury
Page 71 Page 73	25	under the executive order that goes to the local	25	Association and the Parish Presidents of

1	Louisiana, and I am here representing local	1	Yes. Just to your point on mega projects.
2	government, on Friday we had an objective board	2	I would say this. That the department in the
3	meeting with the Police Jury Association. And	3	old days had a mega project development fund
4	the mega projects was one of the discussion	4	that the department needed to close the gap to
5	points. And it is just kind of cut to the	5	seal the deal, the department had a fund at its
6	bottom line.	6	disposal. To my knowledge, that fund has not
7	We would rather just see the mega projects	7	been replaced. I hope it does get replenished.
8	not at all. The definition has moved	8	Governor Landry, if you're listening in
9	dramatically and will continue to move	9	legislature, but it's not. And so we begin to
10	dramatically. So every time you label one, the	10	think about every little possible tool or trick
11	next project blows it out of the water. The	11	we can have up our sleeves to get ourselves over
12	next three or four projects could blow it out of	12	that finish line, so.
13	the water as far as \$100 million, \$500 million,	13	But I 100 percent understand where you're
14	\$600 million. It's going to continue to be a	14	coming from and I am not even going to disagree
15	moving target which then leverages into the idea	15	with you. I will just say that hopefully the
16	of uncertainty which you spoke about which in	16	department will have other tools at its
17	2016 I spoke about.	17	disposal.
18	So as a group and kind of it might not	18	MR. MILLER:
19	be as fully thought out as it needs to be, why	19	And on these bigger projects, like I said,
20	don't we just not have them. The 80/20 mega	20	in Tangipahoa, I am specifically talking about,
21	project can be defined by most parts are	21	we had a couple of projects that were \$60
22	governed anyway by Constitution, right. So if	22	million, \$80 million, and there are three of
23	he sees this project is considered mega	23	them. In each of the cases we asked we
24	because in Tangipahoa Parish a \$600 million	24	locally asked for something specific from that
25	project might be mega. Obviously, in Calcasieu	25	company to help us improve the infrastructure in
20	Page 74	20	Page 76
1	or Plaquemines, 20 billion is getting kind of	1	that area. They usually include it in their
2	the number, right.	2	project. We didn't have to add property tax.
2 3	the number, right. MS. MITCHELL:	2 3	project. We didn't have to add property tax. We need X number. We need you do to this,
2 3 4	the number, right. MS. MITCHELL: Right.	2 3 4	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage,
2 3 4 5	the number, right. MS. MITCHELL: Right. MR. MILLER:	2 3 4 5	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a
2 3 4	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we	2 3 4 5 6	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And
2 3 4 5	the number, right. MS. MITCHELL: Right. MR. MILLER:	2 3 4 5 6 7	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project
2 3 4 5 6 7 8	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that.	2 3 4 5 6 7 8	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished.
2 3 4 5 6 7	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed	2 3 4 5 6 7 8 9	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project
2 3 4 5 6 7 8	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that.	2 3 4 5 6 7 8 9	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators.
2 3 4 5 6 7 8 9	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the	2 3 4 5 6 7 8 9 10 11	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER:
2 3 4 5 6 7 8 9	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic	2 3 4 5 6 7 8 9 10 11 12	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar
2 3 4 5 6 7 8 9 10	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic development or the organization, EEO, should be	2 3 4 5 6 7 8 9 10 11	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar project adding \$15 million to build a road is
2 3 4 5 6 7 8 9 10 11 12	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic development or the organization, EEO, should be creating and giving the information to the	2 3 4 5 6 7 8 9 10 11 12	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar
2 3 4 5 6 7 8 9 10 11 12 13	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic development or the organization, EEO, should be creating and giving the information to the locals. We take the responsibility and we	2 3 4 5 6 7 8 9 10 11 12 13	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar project adding \$15 million to build a road is
2 3 4 5 6 7 8 9 10 11 12 13 14	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic development or the organization, EEO, should be creating and giving the information to the locals. We take the responsibility and we shouldn't be helping making those decisions for	2 3 4 5 6 7 8 9 10 11 12 13 14	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar project adding \$15 million to build a road is going to change it.
2 3 4 5 6 7 8 9 10 11 12 13 14 15	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic development or the organization, EEO, should be creating and giving the information to the locals. We take the responsibility and we shouldn't be helping making those decisions for them. So I agree with that.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar project adding \$15 million to build a road is going to change it. MS. MITCHELL:
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic development or the organization, EEO, should be creating and giving the information to the locals. We take the responsibility and we shouldn't be helping making those decisions for them. So I agree with that. And both The Police Jury Association and	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar project adding \$15 million to build a road is going to change it. MS. MITCHELL: All of those could be in the benefit
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic development or the organization, EEO, should be creating and giving the information to the locals. We take the responsibility and we shouldn't be helping making those decisions for them. So I agree with that. And both The Police Jury Association and the Parish Presidents of Louisiana are working	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar project adding \$15 million to build a road is going to change it. MS. MITCHELL: All of those could be in the benefit agreements.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic development or the organization, EEO, should be creating and giving the information to the locals. We take the responsibility and we shouldn't be helping making those decisions for them. So I agree with that. And both The Police Jury Association and the Parish Presidents of Louisiana are working on helping the parishes develop their plans.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar project adding \$15 million to build a road is going to change it. MS. MITCHELL: All of those could be in the benefit agreements. MR. MILLER: That's right. And I am telling the locals
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic development or the organization, EEO, should be creating and giving the information to the locals. We take the responsibility and we shouldn't be helping making those decisions for them. So I agree with that. And both The Police Jury Association and the Parish Presidents of Louisiana are working on helping the parishes develop their plans. It's not a completed work yet, still work needs	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar project adding \$15 million to build a road is going to change it. MS. MITCHELL: All of those could be in the benefit agreements. MR. MILLER:
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic development or the organization, EEO, should be creating and giving the information to the locals. We take the responsibility and we shouldn't be helping making those decisions for them. So I agree with that. And both The Police Jury Association and the Parish Presidents of Louisiana are working on helping the parishes develop their plans. It's not a completed work yet, still work needs to be done, but it is in the discussion with	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar project adding \$15 million to build a road is going to change it. MS. MITCHELL: All of those could be in the benefit agreements. MR. MILLER: That's right. And I am telling the locals sitting in front of them, we are fighting for
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic development or the organization, EEO, should be creating and giving the information to the locals. We take the responsibility and we shouldn't be helping making those decisions for them. So I agree with that. And both The Police Jury Association and the Parish Presidents of Louisiana are working on helping the parishes develop their plans. It's not a completed work yet, still work needs to be done, but it is in the discussion with some suggestions having gone out already. So with that being said, I think we are	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar project adding \$15 million to build a road is going to change it. MS. MITCHELL: All of those could be in the benefit agreements. MR. MILLER: That's right. And I am telling the locals sitting in front of them, we are fighting for you to get here. We need to help us deal with
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic development or the organization, EEO, should be creating and giving the information to the locals. We take the responsibility and we shouldn't be helping making those decisions for them. So I agree with that. And both The Police Jury Association and the Parish Presidents of Louisiana are working on helping the parishes develop their plans. It's not a completed work yet, still work needs to be done, but it is in the discussion with some suggestions having gone out already.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar project adding \$15 million to build a road is going to change it. MS. MITCHELL: All of those could be in the benefit agreements. MR. MILLER: That's right. And I am telling the locals sitting in front of them, we are fighting for you to get here. We need to help us deal with this issue. MR. POLOZOLA:
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic development or the organization, EEO, should be creating and giving the information to the locals. We take the responsibility and we shouldn't be helping making those decisions for them. So I agree with that. And both The Police Jury Association and the Parish Presidents of Louisiana are working on helping the parishes develop their plans. It's not a completed work yet, still work needs to be done, but it is in the discussion with some suggestions having gone out already. So with that being said, I think we are kind of clear on what local governments need to	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar project adding \$15 million to build a road is going to change it. MS. MITCHELL: All of those could be in the benefit agreements. MR. MILLER: That's right. And I am telling the locals sitting in front of them, we are fighting for you to get here. We need to help us deal with this issue.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	the number, right. MS. MITCHELL: Right. MR. MILLER: So, I mean, again that's kind of where we are and there is a lot more to be discussed about that. We agree that the local government on the economic development, either the local economic development or the organization, EEO, should be creating and giving the information to the locals. We take the responsibility and we shouldn't be helping making those decisions for them. So I agree with that. And both The Police Jury Association and the Parish Presidents of Louisiana are working on helping the parishes develop their plans. It's not a completed work yet, still work needs to be done, but it is in the discussion with some suggestions having gone out already. So with that being said, I think we are kind of clear on what local governments need to do.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	project. We didn't have to add property tax. We need X number. We need you do to this, whatever that means. Improve the drainage, improve this road in front of it, build out a wider road coming out of the backside. And industry included it and did it. So the project got finished. MS. MITCHELL: You guys are good negotiators. MR. MILLER: So I don't see where a billion-dollar project adding \$15 million to build a road is going to change it. MS. MITCHELL: All of those could be in the benefit agreements. MR. MILLER: That's right. And I am telling the locals sitting in front of them, we are fighting for you to get here. We need to help us deal with this issue. MR. POLOZOLA: So I think we're getting into a lot of

MS. MITCHELL: 1 probably outside of the scope of what we are 1 2 2 prepared to discuss today. Thank you. And I appreciate the way 3 3 you-all are running the process being thoughtful I would just request that LED, Ms. Porter, 4 I would request that we get some input from LED, and deliberate and making sure everybody gets 5 5 their input in. So thank y'all. Hopefully for some positions from LED on the mega project the last time. 6 concept, any changes that might be considered by 6 7 this committee to include levels of, you know, 7 **CHAIRMAN JONES:** 8 8 Ms. Mitchell mentioned 500 jobs, \$500 million, All right. Those are the only two that 9 but I think the entire -- the entire section we 9 indicated an opportunity to speak, but if 10 need to talk about in-depth. And, in 10 anybody else would like to come and make 11 comments. 11 particular, compare this with other states. I 12 am sure there are models and guides from other 12 Yes. Mr. Waguespack first. 13 states that we can take into consideration. But 13 Mr. Waguespack, state your name and 14 I think that needs to be part of this rule 14 position for the record, please. 15 15 MR. WAGUESPACK: making. 16 Thank you. 16 Glenn Waguespack, St. James Parish 17 MR. MILLER: 17 assessor. I am here representing the assessors of the ITEP committee, I'm the chairman. 18 I want to add. We need to start to think 18 19 of competitiveness of other states. We need to 19 I feel sometimes like our tax policies are 20 do it. We need to be careful about looking at 20 a little bit like our Louisiana weather. You 21 21 are not happy, just wait a while and it will this in a silo. Because competitiveness for 22 Louisiana is actually a lot better than what --22 change. But this is a very complicated program 23 23 ITEPs are a whole lot better than some others, and there is no one size fits all. I heard 24 24 presentations from Together Louisiana and that's but overall -- overall, our competitiveness is 25 pretty good. It is just how we get there, 25 a lot of truth to it in the sense that let's Page 78 Page 80 1 right. The complexity of what everybody 1 assume that we have the 30 million -- we have a 2 complains about. We don't want to create any 2 company who's neglected their maintenance and 3 more complexity and/or we need to look at more 3 they are asking for -- from the assessor's 4 than just ITEP if we are going to try to make it 4 standpoint, asking for a 30 percent economic or 5 most competitive. 5 functional obsolescence which may be real. So 6 MS. MITCHELL: 6 now they are vying for a \$30 million industrial 7 7 Absolutely. I mean, it's our education exemption. 8 outcomes, you know, quality of life, quality of 8 Well, you can't have both. And that's the 9 place, different -- crime, regulatory 9 way I see it. There has got to be a little bit 10 10 environment. You know, the company looks at all of a guideline. And believe me, I am all for 11 of that. Honestly, they probably looked first 11 our industrial partners, our manufacturers. 12 at workforce. And then they start looking at 12 St. James Parish is one that is highly dependent 13 cost of doing business. And they get down into 13 upon, you know, the investments from industry. 14 the weeds. And part of cost of doing business 14 But I just think it's got to be a good balance. 15 is what incentives are out there to help the 15 Sometimes I feel like that balance is a little 16 company reduce its costs compared to your 16 bit lacking. 17 competitive states. 17 One of the things from the assessor's 18 So you are right. It is multiple factors, 18 standpoint, we agree that the 80 percent --19 but I will tell, ITEP put us on the map for 19 80/20 is a very good incentive. Everyone I 20 manufacturers. 20 spoke to would just like to see 80/20. I 21 **CHAIRMAN JONES:** 21 imagine if a mega project comes and the governor 22 Any other questions for Ms. Mitchell? 22 wanted, he could override it, right. So that 23 Ms. Mitchell, thank you for your time this 23 comes down to just one person making a decision. 24 morning. I appreciated your comments and your 24 That's fine. 25 input. 25 The other thing is from the local Page 79 Page 81

1 standpoint, I think it's very important that we 1 **CHAIRMAN JONES:** 2 2 continue to have local input on these projects. Mr. Waguespack, thank you for the 3 It makes everybody feel like they got a stake in 3 opportunity to come and being part of your 4 it and they got some say so. And in St. James committee's meeting. And I heard a lot of 5 5 Parish in the very beginning in 2016, we did things that -- that to me were enlightened. One 6 that. But in some incidences, you know, if the 6 of the things that I think I took away from that 7 parish president is not talking to the sheriff 7 meeting as much as anything is that it's --8 or if the sheriff or if the sheriff is not 8 we're doing a good thing to rewrite the rules, 9 talking to the superintendent, it gets -- it 9 no doubt about it. But I think some of the 10 could be politically a problem sometimes. So 10 efforts, the continuing efforts, and I think the 11 there's no way to get around that one. 11 governor's ego as well as the transition 12 I also feel like we just need -- again, 12 committee, as we heard from Ms. Mitchell, one of 13 the rules, I am glad that you-all are hearing 13 the goals was to make this a more streamlined, 14 everybody's opinion on it. Of course, there is 14 easier to administer system. And I think 15 15 a lot of opinions. But again, I want to thank that's -- that is everyone's goals -- goal. But 16 y'all for at least taking the time to listen to 16 I believe that re-writing the rules is only 17 17 going to be one step. I think we also have to us. 18 One other thing is the reporting. I just 18 we -- not "we," the Board of Commerce and 19 thought about that before I close. Reporting 19 Industry, but LED is going to have to take a 20 from the assessor's standpoint that AFC on date 20 look at Fastlane, the software system that is 21 of final completion should include all costs. 21 used to -- in which this system is basically 22 22 You know, right now they separate the navigated today. They are going to have to look 23 23 engineering costs from the architect fees or at that system. Is there a way to take out some 24 labor. I think those need to be included in the 24 issues there. 25 cost, however they do it, because we don't have 25 I think to your point that I think that Page 82 Page 84 1 engineers on our staff. So they need to include 1 you were just speaking to, there is going to 2 2 all costs in that affidavit and it should be have to be some issues as to rewriting forms and 3 3 standardized so that with the technology today, I think there is going to have to be some 4 we can import that whole spreadsheet into our 4 coordination with Louisiana Tax Commission on 5 systems. Yes, we may have to doctor it up a 5 that to make sure -- I think we can make this 6 6 little bit, but it would save a lot of time. whole system if we are going -- if we are 7 7 I think that we are going to have to have meeting the goal of being streamlined, I think 8 8 some rules from the LTC, the Louisiana Tax is it more than just fixing the rules, I guess 9 Commission, as to how we treat -- you know, at 9 is what I am trying to say. 10 10 one point it was a 10-year exemption and It is going to be a software issue. It is 11 everybody stuck it in the file cabinets for 10 11 going to be forms issues. It's going to be 12 years. Well, things have changed. So the LAT 12 coordinating with the tax commission on making 13 forms will have to include -- the LAT forms will 13 sure all of our rules go just they way they need 14 have to include the way that they are going to 14 15 report now that it's active. All of the assets 15 So I am not asking anything of you other 16 whether they are exempt or taxable are on the 16 than that for you and your group to continue to 17 tax roll. So the company has got to realize 17 work with LED and perhaps the tax commission. 18 that they need to report those assets just like 18 There may be some more work that is -- more 19 19 they report taxable assets. lifting that has to be done even after these 20 So, again, I want to thank you-all. I 20 rules are done. 21 21 appreciate the effort that you-all have made, MR. WAGUESPACK: 22 and hopefully we can come up with a decision 22 And I think all of the positions are very 23 that's going to be -- rules that will be, like 23 close to LED already. So I might add just one 24 24 other thing. On these industrial exemptions, you said, it is going to make some people happy 25 and some people maybe not. 25 when the companies report and they have assets Page 83 Page 85

1 for two or three years, I think any asset or 1 and natural gas industry in Louisiana and the 2 2 group of assets that were given an industrial Gulf of Mexico. Our members represent some of exemption should carry that number forever until 3 3 the largest companies in the world and they have 4 it's disposed of. Because it's very hard to 4 chosen Louisiana as a place to invest their 5 5 capital. 6 My chief deputy does a lot of that 6 ITEP has long been a driving force behind 7 footwork and I get nothing but complaints. What 7 Louisiana's thriving industry, and further, it 8 are we going to do with this? How are we 8 is a vital to encouraging capital investment in 9 reconcile? There is no way to reconcile that 9 helping drive our state and local economy, as 10 exemption is what I am saying. You know we all 10 you know. 11 reconcile our bank statements, but it's hard to In 2016, former Governor John Bel Edwards 11 12 reconcile these industrial exemptions. 12 implemented the first significant changes to 13 **CHAIRMAN JONES:** 13 ITEP in 80 years through executive orders. 14 Like I say, I am not in those weeds and 14 These orders, among other changes, increased the 15 you don't want me in those weeds, but there are 15 tax burden on manufacturers by 20 percent and 16 people that will get into those weeds and 16 introduced new investment categories ineligible 17 hopefully can make that work. 17 for ITEP, thus rendering some investments 100 18 Any other questions? Mr. Polozola. 18 percent taxable. These categories included 19 MR. POLOZOLA: 19 maintenance capital, miscellaneous capital 20 I just want to clarify, Mr. Waguespack. 20 additions, requiring environmental upgrades, and 21 You had mentioned it might be a good idea to 21 replacement parts. 22 have companies report exempted assets on LAT 22 Each change created uncertainty in the 23 23 forms just like they do the taxable. Is that -process in the state with an already higher tax 24 is that the recommendation the assessors are 24 burden which made it harder for our companies to 25 making? 25 choose Louisiana as a place to invest. Page 86 Page 88 1 MR. WAGUESPACK: 1 We appreciate the proposed changes to 2 2 streamline the process and the application and Yes. 3 3 **CHAIRMAN JONES:** make Louisiana more competitive. We recognize 4 Any other questions? 4 that 20 percent reduction to the program was 5 Thank you, Mr. Waguespack. 5 implemented to foster the partnership and 6 MR. WAGUESPACK: 6 cooperation between investors and local 7 7 Thank you. jurisdictions. We recognized also, however, and 8 8 **CHAIRMAN JONES:** believe that continuing to fully tax 9 I appreciate the feedback this morning. 9 miscellaneous capital additions, maintenance 10 10 capital, this will require environmental Mr. Landry. 11 Please state your names and positions for 11 upgrades and replacement parts can stifle our 12 12 the record, please. state and local economies in an increasingly 13 MS. CAIN: 13 competitive market. We feel it's important to 14 Hi. I'm Ashley Cain, Director of Public 14 consider all capital expenditures for the ITEP 15 and Government Affairs For the Louisiana 15 program. And we believe that all investments Mid-Continent Oil & Gas Association. We are 16 16 are good for Louisiana as they help to maintain 17 also known as LMOGA. 17 stable property, tax values, increase state and 18 I just want to begin by thanking you-all 18 local tax revenues and enhance the longevity of 19 and the committee and the Board of Commerce and 19 manufacturing infrastructure. Furthermore, we do see the tax credit on 20 Industry for engaging industry stakeholders 20 21 throughout this process. We want to 21 capital investments would make Louisiana more 22 additionally recognize how open and productive 22 competitive through the ITEP program. Plant 23 the process has been. So thank you for that. 23 managers are consistently competing with other 24 24 states for the deployment of their investment. Since 1923, LMOGA has been the lead trade 25 association representing all sectors of the oil 25 By adding these changes, Louisiana is sending a Page 87 Page 89

1 strong message that it will continue to compete 1 competitiveness. 2 2 for capital investments. And so to help us along that way, we are 3 Therefore, we respectfully request that 3 looking at -- I think Together Louisiana put in 4 you consider and include all investments be 4 their presentation, something that they were 5 5 eligible for the ITEP program. striking with, increase its value and they 6 Our member companies can and do generate 6 strike through utility and competitiveness. 7 substantial revenue for the local government. 7 That's what we are talking about, the utility of 8 8 And we are confident that improving ITEP rules that plant. The competitiveness of that plant. 9 will increase investment and grow opportunities 9 How can we continue that? Technology is 10 for the people who live and work here. 10 advancing. Probably won't replace a job to job 11 To close, I just want to thank you again 11 or increase jobs, but to maintain that 12 for your efforts in promulgating new rules to 12 viability, that utility of that plant a little 13 improve the program. Your work is crucial in 13 bit longer means that those jobs stay and 14 making Louisiana a more attractive destination investment stays, expansion incur because they 14 15 15 for industry when they are looking here to are trying to get to a point of global 16 establish new projects or expand their existing 16 competitiveness. 17 operations. Thank you. 17 Competitiveness within their company that 18 **CHAIRMAN JONES:** 18 they can bring down more investment when it is 19 Thank you, Ms. Cain. 19 looking between Baytown and Baton Rouge. They 20 MR. LANDRY: 20 want to encourage that. And we have already --21 Mr. Chairman, Brian Landry, Louisiana 21 we had a large company right here in Baton Rouge 22 Chemical Association, Vice President of Local 22 lose an investment to Baytown. They wanted that 23 23 Affairs. there. They wanted that attention on their 24 24 I won't go over too much from what Ashley plant, and petrochemical plant that they want to 25 has covered. I am representing the chemical 25 put more dollars into. So when that goes away, Page 90 Page 92 1 industry. We have 70 large chemical 1 it brings that utility, you know, what's the 2 manufacturers and we represent almost 100 2 additional investment to prolong that life of 3 different sites. We also have Louisiana 3 that. 4 Chemical Industrial Alliances, all of the 4 Mandi Mitchell was here. She is from the 5 suppliers, over 850 members there that helps 5 Lafayette region; so am I. We are not talking 6 support our plants that work every day. It's a about chemical manufacturing. Fruit of the Loom 7 big impact. And between Ashley with LMOGA and in the early 2000s dismantled their plant and moved to Honduras. Tons and -- that was a 8 LCA, we represent quite a bit, billions and 9 billions of dollars in investments, and we would 9 thousand jobs. We felt it in Lafayette. My 10 10 friends felt it. Family felt it. It was a like for that to continue. 11 I want to talk about miscellaneous capital 11 significant impact on St. Martinville. That's just a little small snippet, not just the 12 12 as investments is a very important piece. I 13 think we have spoke a lot of competitiveness, 13 billions and billions of dollars investments 14 global competitiveness, not only between the 14 that we have, so. 15 15 I'll conclude, you know, I think Ashley states, but around the country. I just did a 16 site visit over two weeks ago with one of our 16 touched upon a lot of the investments, streamlining the process, the ITEP process. We 17 members, great site visit. On the way out, 17 18 talking to the plant manager. He happened to 18 appreciate that. The work that LED is putting 19 say, you know, this is a great plant. We are 19 in to make it a simpler process is very 20 doing -- it's over a \$100 million plant. And he 20 important. 21 says, you know, in China they can build this in 21 But let's just -- I'll leave it at this 22 22 six months, permitted, up and running. That's and conclude that we need to stay locally 23 23 scary to him and to those employers and competitive. It's scary out there. Especially 24 24 employees and our vendors, everybody. That's with changing of events worldwide, we need to 25 what we are talking about as far as global 25 stay as competitive as we can here in Louisiana Page 93 Page 91

members to get those to LED as well. 1 and keep those investments here and those 1 2 2 expansions here. That's what we need to do. MR. LANDRY: 3 3 And I will conclude and open for any questions. Same here. 4 CHAIRMAN JONES: 4 **CHAIRMAN JONES:** 5 5 Thank you, Mr. Landry. And I hear your I think Mr. Polozola's point is well 6 call for miscellaneous capital innovations and 6 taken. It may be even the governor's office 7 environmental upgrades. And, essentially, I 7 would be interested in specific proposals rather 8 8 agree with you on all of those. But I think than just concepts. And so that may be 9 that -- as I read this executive order, that has 9 something to do. I know that the industry, 10 been exempted out by the governor. And, 10 whenever it presented their redlines, they had 11 frankly, until I hear from the governor that he 11 some very specific matters included and we may 12 is open to re-thinking that, I am not sure this 12 want to look at that. But if there is a 13 committee or the board is going to be prepared 13 proposal to be made and then that decision is to fight on that hill, so. But, frankly, 14 going to be made above my pay grade, I believe. 14 15 15 philosophically I understand your point. MR. POLOZOLA: 16 Going back to our earlier discussion with 16 And given your companies that are members 17 Ms. Hansen and Mr. Bagert, I think there are 17 of your organizations are very involved in the 18 several MCAs that add value at the end of the 18 CCUS space, we are trying to do the best we can 19 day. And I am afraid the MCA argument, we used 19 to make a uniform rule and for it to last a long 20 an ax when we could have used a scalpel. But 20 time. So if there is -- there are things that 21 21 you believe that the rules as you are currently that may or may -- that ship may have sailed, I 22 don't know. 22 tracking through the revisions are not 23 Same thing for economic -- excuse me, 23 accounting for CCUS, then this will also be 24 24 environmental upgrades. I think there are something good to talk about now, you know. 25 certain environmental requirements that as 25 MS. CAIN: Page 94 Page 96 1 1 matters change -- I was in a very interesting Thank you. 2 2 conversation a few weeks ago about CCUS and **CHAIRMAN JONES:** 3 impact on ITEP. And that makes for -- you start 3 Any other questions? Thank you very much. 4 chasing that rabbit hole that gets really 4 Appreciate your input and appreciate you being 5 interesting real quick. But all of that to say 5 here this morning. 6 I am perhaps even sympathetic to your argument. 6 MS. CAIN: 7 7 Thank you so much. I am just not sure that the governor has given us that ability to pivot on those issues. So we 8 8 MR. LANDRY: 9 will see. We will see. 9 Thank you. 10 10 Do you have any questions or comments for **CHAIRMAN JONES:** 11 Ms. Cain or Mr. Landry? 11 Anyone else? Any other comments? 12 MR. POLOZOLA: 12 Ms. Boatner. 13 So I guess in regard to what the chairman 13 MS. BOATNER: 14 is saying if there are proposals -- I believe 14 Rhonda Boatner, DDA Consultants. I want 15 you're asking for sort of the MCA required 15 to thank the committee, the board, and LED for 16 environmental upgrades and replacement parts to all of your efforts in trying to streamline this 16 be kind of reversed the way it was before 2013. 17 17 process. I just want to make a comment about 18 If there is a middle ground, a proposal is 18 the discussions earlier with Together Louisiana 19 19 something that you will propose. I think this about the net increase in value of -- to be able 20 would be the time and in the coming weeks to 20 for the exemption. Although this program is 21 make those proposals to the extent the 21 investment driven, it's also asset specific. 22 22 governor's office would consider it. And so it's not that we can just say a \$300,000 23 23 increase in investment awards you the exemption. MS. CAIN: 24 24 Yes, sir. I know we are working on some It's based on assets. And then annually, most 25 written comments and feedback from some of our 25 of my clients either retire or dispose of assets Page 95 Page 97

1 so that's then going to reduce that \$300,000 1 process. 2 2 exemption they can get. Along those lines, we are talking about 3 filing deadlines, we recommend the 3 So I feel like, once again, we would be 4 penalizing companies if we are trying to set it implementation of email notifications from 5 based on an increase in value because there are 5 Fastlane to send reminders to companies or 6 also retirements and disposals or assets that 6 consultants for all document filing deadlines. 7 are demolished. So I just feel like again, it's 7 And that notification should be sent at least 90 8 8 an asset-based program and the assessment -- you days before the deadlines, particularly for the 9 know, we report to the assessors. We report 9 new APPR, for the Annual Project Property 10 based on a listing of assets. 10 Report, and the contract renewal. I know we 11 **CHAIRMAN JONES:** 11 discussed this a good bit in the last couple of 12 Okay. I think that I understand your 12 meetings; we just wanted to enforce our support 13 point. 13 for these points. 14 MS. BOATNER: 14 One of the second important discussion 15 15 Thank you. points I want to bring up is just revolving the 16 **CHAIRMAN JONES:** 16 local ITEP committee coordination duties. So All right. There was someone else. 17 17 the current proposed rules outline state that 18 State your name and affiliation for the 18 the local ITEP committee -- keyword -- "may" 19 record, please. 19 choose to assign coordinating duties to the EEO 20 MR. BUCKLEY: 20 of their choosing. And then again it is an 21 21 My name is Kyle Buckley and I am the outline. I am sure the rules might dictate a 22 Incentives Coordinator for St. Tammany 22 more detailed version of that. But we recommend 23 23 Corporation, EEO for St. Tammany Parish. Of that the local EEO should be the default 24 24 course, I am representing St. Tammany Economic coordinator of the -- I might be beating a dead 25 Development, but we've also partnered with 25 horse here, but the default coordinator just to Page 98 Page 100 1 Tangipahoa Economic Development, and the St. 1 ensure that there is technical capacity with the 2 Bernard Economic Development Foundation. local committee. And if a local EEO is not 3 For the last few meetings, we have available, of course, that a regional EEO should 4 submitted memos with our recommendations based 4 automatically assume these responsibilites. And 5 off of what's been brought to the table. But a 5 if neither of them are available that the local 6 follow-up on the last meeting -- for ITEP 6 ITEP committee should designate a coordinating 7 7 meeting that we had. We have this memo. I am entity. 8 just going to read it for the record. And all 8 Along the same lines, once the EEO is 9 of these recommendations are mainly coming from 9 designated as the coordinator by the local ITEP 10 the local administrative point of view of the 10 committee, we recommend that the EEO should also 11 program mainly for economic development 11 be notified immediately upon filing of an 12 organizations and the local ITEP committee. 12 application just to ensure that the timing So we suggest to basically aim to enhance 13 13 process is happening. 14 the clarity, efficiency, and effectiveness of 14 My third and last major discussion point 15 ITEP for local stakeholders and to ensure that 15 being revolving around project considerations. 16 the program continues to try economic growth and 16 This one being a little bit more nuance and not 17 investment in Louisiana. having too much discussion around it, but as far 17 18 Of these points, I am going to make these 18 as I know in this process. But for the local 19 three key discussion points. First one being 19 ITEP committee to effectively review 20 the notification protocols. For the application 20 applications, we recommend that there be 21 notifications, we're recommending that the local 21 standardized metrics. These metrics should be 22 committees must be notified once an application 22 provided by LED to be able to provide local 23 is filed just to ensure that the local economic 23 impacts and estimates of those during and after 24 development and the local authorities are 24 the incentive term for the local ITEP committee 25 properly informed and engage early in the 25 to be able to really get a feel for how Page 99 Page 101

1	impactful these projects will be. This will	1	Absolutely.
2	ensure uniformity in all project evaluation and	2	CHAIRMAN JONES:
3	help local committees make informed decisions on	3	But I think it's going to be difficult for
4	projects of all sizes.	4	the rules to mandate that for every every
5	Lastly, in terms of project size, we	5	single parish. So I think the word the
6	recommend limiting the property tax exemption	6	permissive word "may" is probably the more
7	above 80 percent to mega projects unless the	7	appropriate word.
8	project is estimated to yield significant	8	And help me with the standard of metrics
9	impacts.	9	concept. Are you asking LED to help the locals
10	With all of that being said, we believe	10	concept of formula by which they should make
11	that these recommendations will enhance the ITEP	11	their decisions? Is that what you are asking
12	rule in the process to align with the needs of	12	for?
13	local economic development. And we, of course,	13	MR. BUCKLEY:
14	appreciate the opportunity to provide input and	14	Something in the forms of like an economic
15	look forward to continuing this collaboration to	15	impact analysis, the study, if that's supplied
16	improve Louisiana's economic landscape.	16	by LED in forms of a formal study. Or, if like
17	Are there any questions on any of those	17	you are saying, it's a formula, that will be up
18	pieces?	18	to, of course, the board's own decision. But
19	CHAIRMAN JONES:	19	something that can be compared across all
20	First of all, forgive me. I didn't get	20	projects regardless of size, investment amount.
21	your last name.	21	That really gives the locals an idea of what we
22	MR. BUCKLEY:	22	are actually voting on.
23	Kyle Buckley.	23	CHAIRMAN JONES:
24	CHAIRMAN JONES:	24	I tell you, I would suggest to you that
25	Buckley, thank you. I apologize.	25	would be th perfect role for your EEO or your
	Page 102		Page 104
1	A couple of questions. So you heard our	1	regional EEO, because I think they would have as
2	earlier exchange with Ms. Mitchell concerning	2	good access to the information as LED would and
3	the EEOs. And so you are advocating that the	3	would have a better feel for what is important
4	EEO be the head of the local ITEP committee. Is	4	for your specific locality. So again, it is
5	that what you are saying?	5	difficult it's difficult for me to engage in
6	MR. BUCKLEY:	6	the one size fits all, this is what's important.
7	The nonvoting participants still just the	7	What's going to be important for Cameron is
8	designated administrators.	8	going to be different than what's important for
9	CHAIRMAN JONES:	9	Morehouse Parish. It just is. Morehouse is one
10	So you would call the meetings. You would	10	of the poorest parishes in the state and they
11	facilitate the meetings, et cetera, et cetera,	11	were excited to see a solar farm being located
12	et cetera?	12	in their parish because of the significant
13	MR. BUCKLEY:	13	impact of having agricultural property taxed as
14	Yes, sir.	14	industrial rather than agricultural.
15	CHAIRMAN JONES:	15	So for us to try to dictate to them what
16	I think that you understood the issues	16	standards they ought to use is difficult. So I
17	that Ms. Mitchell had is that some parishes that	17	think all of that information is good. I think
18	may go over very, very well. Some parishes, it	18	it's valuable, but I think it almost has to be
19	may not. And for this committee to pass a rule	19	done at least in my mind on a
20	that makes that happen, I think it's	20	parish-by-parish basis.
21	problematic. Now, that's not to say that ABC	21	Any other questions or comments from the
22	parish wouldn't designate an EEO to be its	22	committee?
23	facilitator or whatever. I mean, there is	23	Hearing none. Thank you for your time
24	nothing that says that can't happen.	24	this morning. I appreciate you being here.
25	MR. BUCKLEY:	25	MR. BUCKLEY:
	Page 103		Page 105

1 Thank you-all for your time and I really 1 That makes it a lot easier for us when we get a 2 2 appreciate y'all for taking the time during this project plan, for example, from a company. And 3 process hearing everybody out. 3 they say, okay, over the next three years, here 4 **CHAIRMAN JONES:** 4 are our ideal projects that we would like to do. 5 5 I tell you it's amazing to me as I read And some of them might need to replace, you 6 through the summary of comments that we have know, an item. And some of them might be to 6 7 gotten over the last few weeks how much -- and 7 upgrade their controls. And as we go through 8 8 please take this back to the folks that you that list for a company and we look through it, 9 report to at home, how much we appreciate the 9 it would be nice to say, look, that's an 10 thoughtfulness y'all have put in. Because we 10 environmental upgrade, we can include that. 11 didn't hold the key to the truth in this thing That's in the rules. We are going to have to 11 12 here, we really don't. And we need for -- for 12 carve that out. 13 those of you-guys that are dealing with this on 13 Because the other point I want to make is 14 a day-to-day. We need to hear how it's working 14 that Together Louisiana mentioned was limited to 15 so that we can -- we may be able to broad-brush 15 a project description. That is so difficult to concepts, but when it gets down to tweaks, that 16 16 do. That, in my opinion, that's what caused the 17 is really where we need y'all's help. So thank 17 most head-butting between LED, industry, and 18 you very much for participating. 18 consultants. It's trying to -- because, you 19 MR. BUCKLEY: 19 know, how I describe something might be 20 20 Thank you. different than how they interpret it. 21 **CHAIRMAN JONES:** 21 There are misunderstandings on what's, you 22 Anyone else? Ms. Porter. Before I get to 22 know, what's included in the project, what's not 23 23 you, Ms. Porter, let's get your name. included in the project. And so that would be 24 MR. BRODERICK: 24 an area of subjectivity that I feel like if we 25 Thank you. Jesse Broderick, Sumit 25 can somehow eliminate that. My proposal would Page 106 Page 108 1 be a timeline, a three-year timeline. And 1 Credits. We work with these programs. I have 2 been doing this for 22 years. I just wanted to 2 include in that three-year timeline, those 3 assets and those projects as long as they are 3 give you -- I brought a couple of things for you 4 4 guys to consider and to think about. not on the disallowed or the naughty list. And 5 5 that makes it in our opinion very subjective. The first is miscellaneous capital 6 **CHAIRMAN JONES:** 6 additions. We have been throwing around that 7 7 Objective. term, but really what is it. In the past, it 8 MR. BRODERICK: 8 was a process that was used to be able to take 9 9 the exemption on anything under \$5 million. And I'm sorry, objective. Thank you. Make it 10 very objective. And I feel like it would make 10 it could of -- those \$5 million projects could 11 have been legit, new assets, new projects. It's 11 it a lot easier for LED and it would make it a 12 just a term that we use for a process, and I 12 lot easier and save us a lot of time and effort feel like it's morphed into this, you know, new 13 13 back and forth. 14 concept for now but it's a bad thing or it's 14 So that would be our -- what we put in our 15 proposal is just list out the items they are not 15 something that shouldn't be allowed. And I 16 allowed. And this miscellaneous capital 16 think from our standpoint as we go through 17 addition, if you are going to put it in there, 17 dealing with companies on a day-to-day basis, it then define exactly what that means. 18 is very confusing as to what is miscellaneous 18 19 and what is not. So I feel like the use of that 19 Lastly, the last point I want to make is 20 20 term has kind of gotten -- it's become a that I don't feel like we want to be like Texas. 21 I don't feel like it's fair to look at their 21 negative term. So for us, the ideal situation program as apples to oranges. It's not the 22 22 and I believe what we proposed was tell us what 23 is not allowed. Just say if it's environmental 23 same. And the way that they incentivize their 24 projects is different. And they have other 24 upgrades, if it is this, if it is this. List 25 the items they are not going to be allowed. 25 programs, for example, you can get your Page 107 Page 109

l .			
1	inventory exempted under the freeport exemption	1	Thank you.
2	in Texas. We don't offer that at the local	2	CHAIRMAN JONES:
3	level, but Texas does. So when you factor that	3	Ms. Porter. Good morning.
4	in with the way they do their net value	4	MS. PORTER:
5	increase, it's just not apples to oranges in my	5	I am Robin Porter, Executive Counsel for
6	opinion. So we just want to throw that plug out	6	LED. First of all, I would like to just thank
7	there. I don't think that looking to Texas	7	everyone who has come out today to provide
8	would be the right thing to do in that	8	comments. It's really appreciated. It helps
9	situation.	9	this process run smoother. And I can say that,
10	CHAIRMAN JONES:	10	you know, encouraging the feedback, I'm happy
11	Going back to your MCA discussion because,	11	that people were receptive to that as well.
12	again, I think you are right. I think it's	12	But just to comment. I just wanted to
13	become a majority, but in fairness I think the	13	briefly state with Mr. Buckley who was
14	way industry used the MCA in the years past,	14	indicating that I believe he would like to see
15	it's like anything. Once you abuse a privilege,	15	more data analysis come forward and I just
16	the consequences are going to be unpleasant.	16	wanted to make you aware, Jerry, and also the
17	My momma taught me that. You know, I had	17	committee that we currently LED is currently
18	a driver's license but as soon as I got a	18	doing that. It's a community impact analysis.
19	speeding ticket, that driver's license went	19	That's done on all applications that's placed on
20	away, you know, but.	20	the agenda. So, you know, I don't want to
21	And so I think that you are right. The	21	commit anybody's team, but Tedra's team does a
22	MCAs, it's been caught up into a negative and	22	great job in doing so. So that is something
23	that goes to my earlier comment. I think we	23	that we have internally.
24	could have been more precise about MCAs that add	24	CHAIRMAN JONES:
25	value versus MCAs that don't. But right now all	25	Perfect. Good.
	Page 110		Page 112

1	on with ITEP.	1	Miscellaneous capital additions. He does
2	CHAIRMAN JONES:	2	say because miscellaneous capital projects have
3	Thank you very much. The LMA is I have	3	been removed, there is void on capital
4	been active in the LMA years and years back when	4	expenditures that now don't qualify. If the
5	I did a lot of municipal work. It is an	5	spending is indeed new capital items but simply
6	incredible organization as is the Police Jury	6	not tied to a specific project, why can't these
7	Association, School Board Association. And I	7	assets be included? The test that all should
8	hope you'll carry back my earlier comments	8	have to pass is whether the capital was actually
9	because I do believe that some some of the	9	spent. That would be easy to prove or disprove.
10	parishes when they read the executive order and	10	This is assuming these assets are new capital
11	saw this local ITEP committee, it made me	11	and would qualify for ITEP by general standards.
12	scratch. The other one that made us scratch	12	Third are mega projects. There should be
13	our heads. The others one, they already kind of	13	a job requirement on the mega project, but the
14	figured it out. So I think that for those	14	threshold should be reduced to, say, 50 or 00
15	communities who are trying to figure out how to	15	jobs plus. In addition the capital spend
16	do that, that may be something that the trade	16	thresholds should be raised to approximately
17	associations can assist with by giving them	17	750- to \$1 billion plus. In addition, the above
18	templates for ordinances on how to set those	18	should be used as a general default on mega
19	committees up in a way they can be active and	19	projects statewide, but there are many parishes
20	responsive within a short period relatively	20	who simply don't have the opportunity for
21	short period time of time that the EEO is	21	various reasons to land mega projects by the
22	provided.	22	general standard of locale.
23	It absolutely can be done. It is just a	23	In these cases, LED should review the
24	matter of writing the right ordinances and	24	history of large projects for these individual
25	putting them in place and appointing people to	25	parishes and then right size the mega project
	Page 114		Page 116
1 .	be on the committee. So thank you for the work	1	4 4 1.11

l concepts. We received LED concepts. We have been receiving public comments from 4 stakeholders and today is an opportunity to get 5 even more and all of this is valuable. 6 What I have asked LED staff to do now is 8 to basically provide us an analysis of - with 8 the industry provisions or proposal and LED 9 proposal and the stakeholders, where do we 9 agree? Where do we disagree? What are the 11 my impression is just a very, very 30,000-foot 12 impression is hat we agree more than we don't. 13 And I think it's now - I think the committee's 14 perspective now is we have got to see even the 15 matters that LED and the industry and 16 stakeholders agree on, is that still good 17 policy. We have got to make that determination. 18 On the matters we don't agree on, we have 18 got to break the tie. And figure out, okay, 19 what is this - what is this going to be? So 21 what I anticipate is our next meeting will be a 22 presentation from LED on the matters that we 23 agree and disagree on. So that everyone can 24 hear, okay, these are the issues that are in the 25 are a presention from LED on the matters that we 26 are presention from LED on the matters that we 27 are presention from LED on the matters that we 28 are not in the wear going to be dealing with. Because 29 the way this will ultimately play out, the 30 Does that make sense from a committee will 41 have to hear the arguments for and against the 42 matters in play, if you will. 43 possibly the public? 44 Again, I was kidding earlier. We are 45 going to want your input when we start arguing 46 over - not arguing, when we start debtaing the 47 poss that make sense from a committee will 48 poss that have to hear the arguments for and against the 49 matters in play, if you will. 40 more are also some dates that are in here 41 tathed the doring the properties of the day. 41 Page 120 42 have a presentation from LED on the matters in the 43 committee will basically give LED marching 44 order and industry and 45 that we are going to need to have the presentatio				
stakeholders activing public comments from 4 stakeholders and today is an opportunity to get 5 even more and all of this is valuable. 6 What I have asked LED staff to do now is 7 to basically provide us an analysis of — with 8 the industry provisions or proposal and LED 9 proposal and the stakeholders, where do we 1 agree? Where do we disagree? What are the — 10 my impression is just a very, very 30,000-foot 12 impression is inta twe agree more than we don't. 1 And I think it's now — I think the committee's 14 perspective now is we have got to see even the 15 matters that LED and the industry and 16 stakeholders agree on, is that still good 17 policy. We have got to make that determination. 18 On the matters we don't agree on, we have 19 got to break the tie. And figure out, okay, 20 what is this — what is this going to be? 21 agree and disagree on. So that everyone can 22 hear, okay, these are the issues that are in the 23 agree and disagree on. So that everyone can 24 hear, okay, these are the issues that are in the 25 air. I want everybody to understand the issues 26 the way this will ultimately play out, the 27 committee will basically give LED marching 28 orders on how to draft the final set of rules 39 that will go to the Board of Commerce and 40 Industry, but that means we as a committee will 40 have to hear the arguments for and against the 41 matters in play, if you will. 42 perspective? Any questions about that process 43 from anybody in the public? 44 Again, I was kidding earlier. We are 45 going to want your input when we start desting the 46 prosportive? Any questions about that process 47 flow have a deal of the day. 48 per 10 flow have the presentation ready for 49 use 20 flow and your input when we start desting the 40 prosportive? Any questions about that process 40 perspective? Any questions about that process 41 flow have the presentation from it have to be art from anybody in the public? 42 Again, I was kidding earlier. We are 43 going to want your i	1	concepts. We received LED concepts. We have	1	Next meeting. Do we have some ideas when
4 stakeholders and today is an opportunity to get even more and all of this is valuable. 5 What I have asked LED staff to do now is to basically provide us an analysis of — with the industry provisions or proposal and LED proposal and the stakeholders, where do we agree? Where do we disagree? What are the — my impression is just a very, very 300.00-foot impression is that we agree more than we don't. I ampression is that we are got to make that determination. I ampression is that will good to make that determination. I ampression is that we are going to be dealing with. Because the way this will ultimately play out, the committee will basically give LED marching orders on how to draft the final set of rules that will go to the Board of Commerce and I flowtry, but that means we as a committee's perspective? Any questions about that process perspe	2	been, over the course of the last five weeks, we	2	we have rooms available, Ms. Simmons?
beven more and all of this is valuable. What I have asked LED staff to do now is to basically provide us an analysis of - with the industry provisions or proposal and LED approach and the stakeholders, where do we agree? Where do we disagree? What are the my impression is just a very, very 30,000-foot impression is that we agree more than we don't. And I think it's now I think the committee's impression is that we agree more than we don't. And I think it's now I think the committee's impression is that we agree more than we don't. And I think it's now I think the committee's impression is that we agree more than we don't. And I think it's now I think the committee's impression is that we agree on, is that still good policy. We have got to make that determination. On the matters we don't agree on, we have got to break the tie. And figure out, okay, what is this what is this going to be 'S o what I anticipate is our next meeting will be a presentation from LED on the matters that we agreed disagree on. So that everyone can hear, okay, these are the issues that are in the agreed disagree on. So that everyone can hear, okay, these are the issues that are in the agreed disagree on. So that everyone can hear, okay, these are the issues that are in the agreed disagree on. So that everyone can hear, to kay, these are the issues that are in the agreed or were not or draft the final set of rules that will go to the Board of Commerce and Industry, but that means we as a committee's perspective? Any questions about that process from anybody in the public? Again, I was kidding earlier. We are going to want your input when we start desting the prova and cons of the things that industry and the way or of interest to you. It is going to be your job to keep us between the ditches because we are not in the weeds on this like so many of you are. So we value your input. We need to be artifon my ous on that hopefully we can make we are not in the weeds on this like so many of you are. So we value your input. W	3	~ ·	3	
6 What I have asked LED staff to do now is to basically provide us an analysis of with the industry provisions or proposal and LED proposal and the stakeholders, where do we agree? Where do we disagree? What are the my impression is just a very, very 30,000-foot impression is just a very, very 30,000-foot impression is his two agree more than we don't. I might be a perspective now is we have got to see even the stakeholders agree on, is that still good stakeholders agree on, is that still good policy. We have got to make that determination. On the matters we don't agree on, we have go got to break the tie. And figure out, okay, what I anticipate is our next meeting will be a presentation from LED on the matters that we are going to be dealing with. Because the way this will ultimately play out, the committee will basically give LED marching orders on how to draft the final set of rules that will go to the Board of Commerce and Industry, but that means we as a committee will have to hear the arguments for and against the matters in play, if you will. Does that make sense from a committee's perspective? Any questions about that process from anybody in the public? Again, I was kidding earlier. We are of interest to you. It is going to be your job to keep us between the diches because we are not in the weeds on this like so many of you are. So we value your input. We need to pour and good? That is where we are of a consolidated and good? That is where we are of a consolidated and good? That is where we are of a consolidated and good? That is where we are of a consolidated and good? That is where we are of a consolidated and good? That is where we are of the consultation of the day. September 3, which is on a Monday, Priday the 25th, is an Monday in the public and the final trib, where a consolidate in the search of the search of the public? Again, I was kidding carlier. We are of interest to you. It is going to be your job to keep us between the diches because we are not in the weeds on this like so many			4	
to basically provide us an analysis of with the industry provisions or proposal and LED proposal and the stakeholders, where do we agrec? Where do we disagrec? What are the my impression is just a very, very 30,000-foot impression is that we agree more than we don't. And I think it's now I think the committee's perspective now is we have got to see even the matters that LED and the industry and stakeholders agree on, is that still good policy. We have got to make that determination. On the matters we don't agree on, we have gog to break the tie. And figure out, okay, what is this what is this going to be? So what I anticipate is our next meeting will be a perspective? Any questions about that process that way this will ultimately play out, the air. I want everybody to understand the issues page 118 that we are going to be dealing with. Because the matters in play, if you will. Does that make sense from a committee's perspective? Any questions about that process from anybody in the public? Again, I was kidding earlier. We are going to want your input when we start arguing going to want your input when we start arguing over - not arguing, when we start debating the proposal and the stakeholders, where do we are not in the weeds on this like so many of you are. So we value your input, We need to proposal and the stakeholders agree? What are the mother impression is just a very, very 30,000-foot impression is that we agree were not in the weeds on this like so many of your are. So we value your input, We need to pholicy. Where got to make that determination. There are also some dates that are in here at the end of this month, too, if you want to meet again. CHAIRMAN JONES: 1 am leaning toward I am not. What is this rowal is available. CHAIRMAN JONES: 1 are also some dates that are in here at the end of this month, too, if you want to meet again. CHAIRMAN JONES: 1 and bearity to available on the state are in thee you have your analysis ready? Ms. Porter? Ms. Pollmon. 1 and the stake that	5	even more and all of this is valuable.	5	-
8 the industry provisions or proposal and LED 9 proposal and the stakeholders, where do we 10 agree? Where do we disagree? What are the e- 11 my impression is just a very, very 30,000-foot 12 impression is just a very, very 30,000-foot 13 And I think it's now - I think the committee's 14 perspective now is we have got to see even the 15 matters that LED and the industry and 16 stakeholders agree on, is that still good 17 policy. We have got to make that determination. 18 On the matters we don't agree on, we have 19 got to break the tie. And figure out, okay, 20 what is this - what is this going to be? So 21 what I anticipate is our next meeting will be a 22 presentation from LED on the matters that we 23 agree and disagree on. So that everyone can 24 bear, foxy, these are the issues that are in the 25 air. I want everybody to understand the issues 26 the way this will ultimately play out, the 37 committee will basically give LED marching 38 committee will basically give LED marching 49 orders on how to draft the final set of rules 40 that will go to the Board of Commerce and 41 fladustry, but that means we as a committee will 42 have to hear the arguments for and against the 43 matters in play, if you will. 44 prover - not arguing, when we start debating the 45 pros and cons of the things that industry and 46 LED don't agree on, we are going to be dealing with. 47 So I encourage you to be in these meetings if 48 they are of interest to you. It is going to be 49 your job to keep us between the ditches because 40 we are not in the weeds on this like so many of 40 you are. So we value your input. We need to 41 peace of interest to you. It is going to be 42 pose that make sense from a make 43 well-determined decisions at the end of the day. 44 Does that sound good? That is where we 45 are. 45 ARDOIN: 46 ARDAN JONES: 47 CHAIRMAN JONES: 48 LGRamacy the 18th. thich to an intended that this room is available at this room is a some dates that art in the eat the arguments on. 48 LGRamacy the 18th. 9 proposal and the stakeholders, where do we agree? Where do we disagree? What are the my impression is just a very, very 30,000-foot impression is intal we agree more than we don't. 13 And I think it's now I think the committee's perspective now is we have got to see even the matters that LED and the industry and stakeholders agree on, is that still good policy. We have got to make that determination. 18 On the matters we don't agree on, we have go got to break the tie. And figure out, okay, what is this what is this going to be? So what I anticipate is our next meeting will be a 22 presentation from LED on the matters that we agree and disagree on. So that everyone can agree and disagree on. We have got to make that determination. 18 On the matters we don't agree on, we have go or not LED on the matters that we agree on, is that still good to make that determination. The propers of the matters we don't agree on, we are going to be dealing with. Because the way this will ultimately play out, the agriculture of the well of the were of the matters for an against the matters in play, if you will. 10 that we are going to be dealing with. Because the way this will ultimately play out, the agriculture of the well of the well of the well agree on, we are going to mead in the state of rules are the way this will ultimately play out, the agree on we are not in the weeds on this like so many of you are. So we value your input. We need to have the presentation ready for a well-determined to find the properties of th		* *	7	
agree? Where do we disagree? What are the— In my impression is just a very, very 30,000-foot impression is that we agree more than we don't. And I think it's now — I think the committee's perspective now is we have got to see even the matters that LED and the industry and stakcholders agree on, is that still good policy. We have got to make that determination. On the matters we don't agree on, we have got to break the tie. And figure out, okay, what is this — what is this going to be? So what I anticipate is our next meeting will be a garee and disagree on. So that everyone can hear, okay, these are the issues that are in the air. I want everybody to understand the issues the way this will ultimately play out, the committee will basically give LED marching orders on how to draft the final set of rules that will go to the Board of Commerce and Industry, but that means we as a committee will have to hear the arguments for and against the matters in play, if you will. Does that make sense from a committee's perspective? Any questions about that process from anybody in the public? Again, I was kidding earlier. We are going to want your input when we start arguing over — not arguing, when we start debating the pros and cons of the things that industry and the vare of interest to you. It is going to be your job to keep us between the ditches because we are on in the weeds on this like so many of you are. So we value your input. We need to hear from on wo to draft promy our so that hopefully we can make well-determined decisions at the end of the day. Does that sound good? That is where we are. Again, I was kidding earlier. We are going to need input. So I encourage you to be in these meetings if they are of interest to you. It is going to be your job to keep us between the ditches because well-determined decisions at the end of the day. Does that sound good? That is where we take the process from on you so that hopefully we can make well-determined decisions at the end of the day. Does that sound good? That is			8	· · · · · · · · · · · · · · · · · · ·
my impression is just a very, very 30,000-foot impression is that we agree more than we don't. And I think it's now — I think the committee's perspective now is we have got to see even the matters that LED and the industry and object. MS, SIMMONS: There are also some dates that are in here als	9	• •	9	, ,
12 impression is that we agree more than we don't. 13 And I think it's now — I think the committee's perspective now is we have got to see even the matters that LED and the industry and 16 stakeholders agree on, is that still good policy. We have got to make that determination. 18 On the matters we don't agree on, we have got to break the fie. And figure out, okay, what is this — what is this going to be? So 21 what I anticipate is our next meeting will be a gree and disagree on. So that everyone can a pagere and disagree on. So that everyone can a hear, okay, these are the issues that are in the page 118 1 that we are going to be dealing with. Because the way this will ultimately play out, the committee will basically give LED marching orders on how to draft the final set of rules that will go to the Board of Commerce and lindustry, but that means we as a committee will have to hear the arguments for and against the matters in play, if you will. 9 Does that make sense from a committee's perspective? Any questions about that process from anybody in the public? 10 Again, I was kidding earlier. We are going to want your input when we start arguing of the port of interest to you. It is going to be your job to keep us between the ditches because we are not in the weeds on this like so many of you are. So we value your input. We need to hear from you so that hopefully we can make well-determined decisions at the end of the day. 10 Does that sound good? That is where we are going door of the day. 21 Does that sound good? That is where we are goined to read the end of the day. 22 Again, I was kidding earlier. We are going to be dealing the proposition committee we are of interest to you. It is going to be gour job to keep us between the ditches because we are not in the weeds on this like so many of you are. So we value your input. We need to have the presentation ready for meet again. 23 There are also soome dates that are in hee at the end of this month, too, if you want to meet again. 24 There are also soome	10	agree? Where do we disagree? What are the	10	Friday the 27th, and Monday the 30th. Those are
13 And I think it's now — I think the committee's perspective now is we have got to see even the matters that LED and the industry and stakeholders agree on, is that still good 17 policy. We have got to make that determination. 18 On the matters we don't agree on, we have got to break the tic. And figure out, okay, 20 what is this — what is this going to be? So 20 what I anticipate is our next meeting will be a 22 presentation from LED on the matters that we 23 agree and disagree on. So that everyone can 24 hear, okay, these are the issues that are in the 25 are with the air. I want everybody to understand the issues Page 118 that we are going to be dealing with. Because the way this will ultimately play out, the 3 committee will basically give LED marching 4 orders on how to draft the final set of rules 5 that will go to the Board of Commerce and 6 Industry, but that means we as a committee will have to hear the arguments for and against the matters in play, if you will. 9 Does that make sense from a committee's perspective? Any questions about that process 10 perspective? Any questions about that process 11 from anybody in the public? 12 Again, I was kidding earlier. We are 25 going to want your input when we start arguing 40 over — not arguing, when we start debating the 27 pro and cons of the things that industry and 18 they are of interest to you. It is going to be 40 hear from you so that hopefully we can make 24 we are not in the weeds on this like so many of 25 you are. So we value your input. We need to 26 hear from you so that hopefully we can make 25 are. CHAIRMAN JONES: 25 are. CHAIRMAN JONES: 26 This room is available that day. 26 September 20th. 27 Friday the 20th good for everybody? 27 you are. So we value your input. We need to 29 hear from you so that hopefully we can make 29 hope the at some that are in here at the end of the day. 27 Friday afternoon meeting during football states and of this month, too, if you want to meet again. 27 meet at the end of this month, too, if you want to meet agai	11	my impression is just a very, very 30,000-foot	11	dates that this room is available.
14 perspective now is we have got to see even the matters that LED and the industry and stakeholders agree on, is that still good policy. We have got to make that determination. 18 On the matters we don't agree on, we have what is this what is this going to be? So what I anticipate is our next meeting will be a presentation from LED on the matters that we agade agree and disagree on. So that everyone can that verybody to understand the issues air. I want everybody to understand the issues air. I want everybody to understand the issues at the way this will ultimately play out, the committee will basically give LED marching that the warters in play, if you will. 10 pose that make sense from a committee's perspective? Any questions about that process from anybody in the public? 11 Again, I was kidding earlier. We are going to want your input when we start arguing over not arguing, when we start debating the pros and cons of the things that industry and the start ear also some dates that are in here at the end of this month, too, if you want to meet again. 12 CHAIRMAN JONES: 13 Legrange? Mr. Johnson? How much time do you-all need to have the presentation ready for 20 you-all need to have the presentation ready for 20 you-all need to have the presentation ready for 20 you-all need to have the presentation ready for 21 Ms. LeGrange? Mr. Johnson? How much time do you-all need to have the presentation ready for 21 Ms. PORTER: 24 MS. PORTER: 25 All right. 26 CHAIRMAN JONES: 27 MS. PORTER: 28 All right. 29 MS. SIMMONS: 20 CHAIRMAN JONES: 21 MS. SIMMONS: 22 MS. PORTER: 23 MS. SIMMONS: 24 MS. PORTER: 25 All right. 26 CHAIRMAN JONES: 27 MS. PORTER: 28 All right. 29 MS. ARDOIN: 20 CHAIRMAN JONES: 21 MS. PORTER: 23 MS. SIMMONS: 24 MS. PORTER: 25 All right. 26 CHAIRMAN JONES: 27 MS. PORTER: 28 All right. 29 MS. ARDOIN: 20 CHAIRMAN JONES: 21 MS. PORTER: 21 MS. PORTER: 22 MS. PORTER: 23 MS. SIMMONS: 24 MS. PORTER: 25 All right in end to have the presentation ready for 29 you-all need to h		÷		CHAIRMAN JONES:
matters that LED and the industry and stakeholders agree on, is that still good 16 at the end of this month, too, if you want to 17 policy. We have got to make that determination. No the matters we don't agree on, we have 20 what is this what is this going to be? So 21 what I anticipate is our next meeting will be a 22 presentation from LED on the matters that we 23 agree and disagree on. So that everyone can 24 hear, okay, these are the issues that are in the 25 air. I want everybody to understand the issues 25 the way this will ultimately play out, the 36 committee will basically give LED marching 4 orders on how to draft the final set of rules 5 that will go to the Board of Commerce and 6 Industry, but that means we as a committee will 9 have to hear the arguments for and against the 37 matters in play, if you will. Does that make sense from a committee's 20 perspective? Any questions about that process 11 going to want your input when we start aguing 4 over not arguing, when we start debating the 57 pros and cons of the things that industry and 16 LED don't agree on, we are going to be ed ending with. Because 4 that will go to the Board of Commerce and 50 meet again. CHAIRMAN JONES: Ms. PORTER: September 16 or 18. Page 120 HALI RAMAN JONES: All right. MS. SIMMONS: September 16th is a Monday and the 18th is 5 a Wednesday. CHAIRMAN JONES: How does that look for committee members? The 16th or the 18th. MS. ARDOIN: CHAIRMAN JONES: The 16th or the 18th. MS. SIMMONS: The 20th is a Friday. This room is a calss. Okay, next. Let's go later after the 18th. MS. SIMMONS: The 20th is a Friday. This room is available on Friday, the 20th is a Friday the 20th good for everybody? Wat a not the weeds on this like so many of 20 you are. So we value your input. We need to 21 pour are. So we value your input. We need to 22 presentation ready for 22 us. September 16 or 18. CHAIRMAN JONES: The 16th or the 18th. MS. SIMMONS: The 20th is a friday. This room is available on Friday, the 20th is a Frida	13	And I think it's now I think the committee's	13	I am leaning toward I am not.
16 stakeholders agree on, is that still good 17 policy. We have got to make that determination. 18 On the matters we don't agree on, we have 19 got to break the tie. And figure out, okay, 20 what is this what is this going to be? So 21 what I anticipate is our next meeting will be a 22 presentation from LED on the matters that we 23 agree and disagree on. So that everyone can 24 hear, okay, these are the issues that are in the 25 air. I want everybody to understand the issues 26 the way this will ultimately play out, the 27 orders on how to draft the final set of rules 28 that will go to the Board of Commerce and 29 Industry, but that means we as a committee will 20 have to hear the arguments for and against the 21 matters in play, if you will. 22 matters in play, if you will. 23 going to want verybody in the public? 24 Again, I was kidding earlier. We are 25 going to want very our input when we start arguing 26 over not arguing, when we start debating the pros and cons of the things that industry and 27 the prosend of interest to you. It is going to be want your input when we start arguing 28 we are not in the weeds on this like so many of you are. So we value your input. We need to 29 presented to have the presentation ready for 29 us? 20 us? 21 Ms. LeGrange? Mr. Johnson? How much time do 22 you-all need to have the presentation ready for 23 us? 24 Ms. PORTER: 25 September 16 or 18. 26 September 16 to 18. 27 September 16 to 18. 28 September 16 to 18. 29 September 16 to 18. 30 S. SIMMONS: 31 The 16th or the 18th. 32 September 16th is a Monday and the 18th is 33 a Wednesday. 34 How does that look for committee members? 35 The 16th or the 18th. 36 MS. ARDOIN: 37 The 16th or the 18th. 38 S. SIMMONS: 38 The 16th or the 18th. 39 The 16th or the 18th. 30 MS. ARDOIN: 30 The 20th is a friday. This room is 31 available that day. 40 The Argument of the final service of the service	14	perspective now is we have got to see even the	14	MS. SIMMONS:
17		•		
18 On the matters we don't agree on, we have 19 got to break the tie. And figure out, okay, 20 what is this — what is this going to be? So 21 what I anticipate is our next meeting will be a 22 presentation from LED on the matters that we 23 agree and disagree on. So that everyone can 24 hear, okay, these are the issues that are in the 25 air. I want everybody to understand the issues 25 Page 118 1 that we are going to be dealing with. Because 26 the way this will ultimately play out, the 37 committee will basically give LED marching 48 orders on how to draft the final set of rules 59 that will go to the Board of Commerce and 61 Industry, but that means we as a committee will 59 Does that make sense from a committee will 50 perspective? Any questions about that process 11 from anybody in the public? 12 Again, I was kidding earlier. We are 21 going to want your input when we start arguing 40 over — not arguing, when we start debating the 51 pros and cons of the things that industry and 41 LED don't agree on, we are going to be ditches because 52 we are not in the weeds on this like so many of 52 you are. So we value your input. We need to 6 have the presentation ready for 22 use? 24 LED don't agree on, we are going to med input. So I encourage you to be in these meetings if 62 they are of interest to you. It is going to be 23 well-determined decisions at the end of the day. 24 Does that sound good? That is where we 25 are. 25 Friday afternoon meeting during football	16			at the end of this month, too, if you want to
19 got to break the tie. And figure out, okay, 20 what is this what is this going to be? So 21 what I anticipate is our next meeting will be a 22 presentation from LED on the matters that we 23 agree and disagree on. So that everyone can 24 hear, okay, these are the issues that are in the 25 air. I want everybody to understand the issues 26 hear, okay, these are the issues that are in the 27 air. I want everybody to understand the issues 28 hear on how to draft the final set of rules 29 the way this will ultimately play out, the 20 committee will basically give LED marching 21 that we are going to be dealing with. Because 22 the way this will ultimately play out, the 23 committee will basically give LED marching 24 orders on how to draft the final set of rules 25 that will go to the Board of Commerce and 26 Industry, but that means we as a committee will 27 have to hear the arguments for and against the 28 matters in play, if you will. 39 Does that make sense from a committee's 30 perspective? Any questions about that process 30 perspective? Any questions about that process 31 from anybody in the public? 41 over not arguing, when we start debating the 42 over not arguing, when we start debating the 43 pros and cons of the things that industry and 44 over not arguing, when we start debating the 45 pros and cons of the things that industry and 46 LED don't agree on, we are going to need input. 47 from anybody in the public? 48 matters in play, if you will. 49 Does that make sense from a committee's 40 perspective? Any questions about that process 41 from anybody in the public? 42 Again, I was kidding earlier. We are 43 going to want your input when we start arguing 44 over not arguing, when we start debating the 45 pros and cons of the things that industry and 46 LED don't agree on, we are going to need input. 47 from anybody in the public? 48 The I afternoon, you teach, that's right, in 49 a class. Okay, next. Let's go later after the 40 lateral right in the afternoon. 40 CHAIRMAN JONES: 41 The af				
20 what is this — what is this going to be? So 21 what I anticipate is our next meeting will be a 22 presentation from LED on the matters that we 23 agree and disagree on. So that everyone can 24 hear, okay, these are the issues that are in the 25 air. I want everybody to understand the issues 26 Page 118 1 that we are going to be dealing with. Because 27 the way this will ultimately play out, the 28 committee will basically give LED marching 30 committee will basically give LED marching 4 orders on how to draft the final set of rules 5 that will go to the Board of Commerce and 6 Industry, but that means we as a committee will 1 have to hear the arguments for and against the 8 matters in play, if you will. 9 Does that make sense from a committee's 10 perspective? Any questions about that process 11 from anybody in the public? 12 Again, I was kidding earlier. We are 13 going to want your input when we start arguing 14 over — not arguing, when we start debating the 15 pros and cons of the things that industry and 16 LED don't agree on, we are going to need input. 17 So I encourage you to be in these meetings if 18 they are of interest to you. It is going to be 19 your job to keep us between the ditches because 20 we are not in the weeds on this like so many of 21 you are. So we value your input. We need to 22 hear from you so that hopefully we can make 23 well-determined decisions at the end of the day. 24 Does that sound good? That is where we 25 are. 26 CHAIRMAN JONES: 27 MS. PORTER: 28 September 16 or 18. 28 All right. 38 S.SIMMONS: 38 September 16 or 18. 39 CHAIRMAN JONES: 4 How does that look for committee members? 5 The 16th or the 18th. 5 MS. SIMMONS: 5 The 16th or the 18th. 6 CHAIRMAN JONES: 10 I can't in the afternoon. 11 CHAIRMAN JONES: 12 The afternoon, you teach, that's right, in a class. Okay, next. Let's go later after the 14 SMS. SIMMONS: 15 A Briday the process of the way the same point of the day. 16 CHAIRMAN JONES: 17 The 20th is a Friday. This room is available that day. 18 A Briday the proces	18	On the matters we don't agree on, we have	18	CHAIRMAN JONES:
21 what I anticipate is our next meeting will be a 22 presentation from LED on the matters that we 23 agree and disagree on. So that everyone can 24 hear, okay, these are the issues that are in the 25 air. I want everybody to understand the issues 26 Page 118 27 MS. LeGrange? Mr. Johnson? This room is available on Fr	24	hear, okay, these are the issues that are in the	24	MS. PORTER:
that we are going to be dealing with. Because the way this will ultimately play out, the committee will basically give LED marching orders on how to draft the final set of rules that will go to the Board of Commerce and Industry, but that means we as a committee will have to hear the arguments for and against the matters in play, if you will. Does that make sense from a committee's perspective? Any questions about that process from anybody in the public? Again, I was kidding earlier. We are going to want your input when we start arguing over not arguing, when we start debating the pros and cons of the things that industry and LED don't agree on, we are going to be your job to keep us between the ditches because we are not in the weeds on this like so many of you are. So we value your input. We need to hear from you so that hopefully we can make well-determined decisions at the end of the day. Does that sound good? That is where we 1 CHAIRMAN JONES: All right. MS. Louisiana Code of Civil Procedure Article 1445 and 1446

Art. 1445. Submission to Witness; Changes; Signing When the testimony is fully transcribed the deposition shall be submitted to the witness for examination and shall be read to or by him, unless such examination and reading are waived by the witness and by the parties. Any changes in form or substance which the witness desires to make shall be entered upon the deposition by the officer with a statement of the reasons given by the witness for making them. The deposition shall then be signed by the witness unless the parties by stipulation waive the signing or the witness is ill or is absent from the parish where the deposition was taken or cannot be found or refuses to sign. If the deposition is not signed by the witness within thirty days of its submission to him, the officer shall sign it and state on the record the fact of the waiver or of the illness or absence of the witness or the fact of the refusal to sign together with the reason, if any, given therefor; and the deposition may then be used as fully as though signed unless on a motion to suppress under Article 1456 the court holds that

the reasons given for the refusal to sign require rejection of the deposition in whole or in part. A video deposition does not have to comply with the requirements of reading and signing by the deponents.

DISCLAIMER: THE FOREGOING CIVIL PROCEDURE RULES

ARE PROVIDED FOR INFORMATIONAL PURPOSES ONLY.

THE ABOVE RULES ARE CURRENT AS OF APRIL 1,

2019. PLEASE REFER TO THE APPLICABLE STATE RULES

OF CIVIL PROCEDURE FOR UP-TO-DATE INFORMATION.

VERITEXT LEGAL SOLUTIONS

COMPANY CERTIFICATE AND DISCLOSURE STATEMENT

Veritext Legal Solutions represents that the

foregoing transcript is a true, correct and complete

transcript of the colloquies, questions and answers

as submitted by the court reporter. Veritext Legal

Solutions further represents that the attached

exhibits, if any, are true, correct and complete

documents as submitted by the court reporter and/or

attorneys in relation to this deposition and that

the documents were processed in accordance with

our litigation support and production standards.

Veritext Legal Solutions is committed to maintaining the confidentiality of client and witness information, in accordance with the regulations promulgated under the Health Insurance Portability and Accountability Act (HIPAA), as amended with respect to protected health information and the Gramm-Leach-Bliley Act, as amended, with respect to Personally Identifiable Information (PII). Physical transcripts and exhibits are managed under strict facility and personnel access controls. Electronic files of documents are stored in encrypted form and are transmitted in an encrypted

fashion to authenticated parties who are permitted to access the material. Our data is hosted in a Tier 4 SSAE 16 certified facility.

Veritext Legal Solutions complies with all federal and State regulations with respect to the provision of court reporting services, and maintains its neutrality and independence regardless of relationship or the financial outcome of any litigation. Veritext requires adherence to the foregoing professional and ethical standards from all of its subcontractors in their independent contractor agreements.

Inquiries about Veritext Legal Solutions'
confidentiality and security policies and practices
should be directed to Veritext's Client Services
Associates indicated on the cover of this document or at www.veritext.com.
