Approval of the Minutes of June 25, 2017

Dr. Bienemy asked if there were any changes to the minutes; the Commission reviewed the minutes. The minutes of the June 25, 2017 meeting were reviewed and edits were noted.

On motion of Joe McCulloch, seconded by Larry Tremblay, the Executive Committee of the Health Works Commission voted to approve as amended the minutes of the June 25, 2017 meeting.

Review of the 2017-18 Funding Proposal Requests

Chair Bienemy opened the discussion of the review of the 2017-18 Funding Proposal Requests and asked Dr. Tremblay to open the discussion, noting that the Commission received six proposals totaling almost \$400,000. There is \$100,000 available. Dr. Bienemy noted that she found it helpful to review the charge of the Health Works Commission to assist in healthcare workforce development in regards to the appropriateness of each budget proposal's goal.

The following project proposals were presented and discussed:

<u>Entity</u>	<u>Contact</u>	<u>Project Title</u>	<u>Budget</u>
Baton Rouge Sickle Cell Anemia Foundation	Lorri Burgess	Pilot Program: Sickle Cell Patient Navigator Program	\$211,011
LDH Office of Public Health	Marci Brewer	Helping LA's Birthing Hospitals to Become Breastfeeding-Friendly Work Places	\$2,300
UL Lafayette / LACANE	Gail Poirrier (Presented by Melinda Oberleitner)	Tuition Reimbursement for Nurse Educators	\$95,000
LSBN Center for Nursing	Cynthia Bienemy	The Nurse Faculty Challenge in Louisiana	\$16,500
SOWELA Technical Community College	Wendi Palermo	High Fidelity Simulation – Statewide Expansion of Best Practices	\$12,270
UL Lafayette	Melinda Oberleitner	Optimizing Transition of AND/ASN and Diploma Program Graduates to Online RN to BSN Programs	\$55,483
TOTAL			\$392,564

Dr. Bienemy asked Dr. Tremblay to begin the discussion. He indicated he would like to start discussion by throwing out some ideas, not by offering a formal recommendation. Dr. Tremblay stated that although all of the proposals had merit, due to the limited funding that was available, he would suggest the HWC not consider the following proposals in its deliberations: the Baton Rouge Sickle Cell Anemia proposal, the Helping LA's Birthing Hospitals Become Breastfeeding Friendly Work Places, and the project to Optimize Transition of ADN/ASN and Diploma Program Graduates to Online RN to BSN programs.

That leaves three proposals totaling approximately \$120,000, \$20,000 more than was available to distribute. The following suggestion was made: \$77,000 for tuition reimbursement, \$13,000 for the

faculty survey program and \$10,000 for the simulation project. Each entity would have a chance to agree or disagree with whether the reduced program amount made the project unfeasible.

Dr. Bienemy raised the point that the SOWELA and LSBN proposals had already cut back their proposal requests and wondered if the Commission would consider leaving them as is and reducing the tuition reimbursement proposal from \$77,000 to \$71, 230. A discussion followed.

On motion of Joe McCulloch, seconded by Laura Bonanno, the Health Works Commission voted to approve the adjusted amounts of \$12,500 to SOWELA for the High Fidelity Simulation – Statewide Expansion of Best Practices, \$12,270 to the LSBN for the Nurse Faculty Challenge in Louisiana, and \$71,230 to ULL/LACANE for Tuition Reimbursement for Nurse Educators, with any unused amounts being moved to the tuition reimbursement program.

Mary Ann Coleman then suggested that the breastfeeding initiative consider asking the LA Hospital Association for assistance in moving their project forward. Joe McCulloch suggested that the sickle cell anemia project consider doing the same. Mike Thompson agreed to further discuss these ideas.

After further discussion, Dr. Bienemy adjourned the meeting at 11:55 a.m.
