RESOLUTION

LOUISIANA STATE MINERAL AND ENERGY BOARD

RESOLUTION #16-01-007
(AUDIT COMMITTEE)

WHEREAS, the State Mineral and Energy Board, through the Office of Mineral Resources, regularly conducts audits of lessees, payors, and other obligees of the State of Louisiana to ensure the proper payment of mineral royalties; and

WHEREAS, the State Mineral and Energy Board has previously adopted resolutions pertaining to the payment of royalties and recoupments or adjustments; and

WHEREAS, pursuant to La. Const. Art. VII, Sec. 9, payments received by the State Mineral and Energy Board or the Office of Mineral Resources in the form of royalties or other payments for mineral production or extraction on lands or water bottoms claimed by the State of Louisiana are State Funds that are required to be deposited with the state treasury within the time limits prescribed by law; and

WHEREAS, pursuant to La. R.S. 30:129, the State Mineral and Energy Board, to ensure compliance with obligations under mineral leases and other mineral agreements issued pursuant to its authority, "has general authority to take any action for the protection of the interests of the State;" and

WHEREAS, pursuant to La. R.S. 30:136(A)(1)(b), the State Mineral and Energy Board is charged to hold royalty payments or other payments for mineral production or extraction on lands or water bottoms claimed by the State of Louisiana until such time as it can determine that it has been paid properly according to the terms of its leases and the law; and

WHEREAS, the State Mineral and Energy Board has long interpreted La. R.S. 30:136(A)(1)(b) as a legislative embodiment of the prohibition against the donation, loan, or pledge of public credit contained in La. Const. Art. VII, Sec. 14(A), thus prohibiting any automatic return of royalty payments or other payments for mineral production or extraction on lands or water bottoms claimed by the State of Louisiana that are alleged by the lessee, payor, or obligee of the State of Louisiana to represent overpayments until such time as it can determine that it has been paid properly according to the terms of its leases and the law; and

WHEREAS, pursuant to this constitutional and statutory authority and obligations, the State Mineral and Energy Board has long interpreted such legal charges to mandate the withholding of alleged royalty overpayments from any single lessee, payor, or other obligee of the State of Louisiana from any lease or attributable to any LUW code until the completion of audits and verifications of amounts owed in order to ensure that the State is properly paid; and

WHEREAS, this interpretation has led to the longstanding policy by which recoupment requests for alleged overpayment by lessees, payors, or other obligees of the State of Louisiana are denied until the Office of Mineral Resources has completed open audits and has determined the actual amounts owed by such lessees, payors, or other obligees in order to offset future royalty payments; and

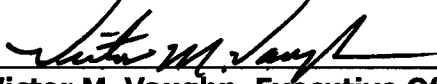

WHEREAS, such policy and interpretation was embodied in a resolution adopted by the State Mineral Board on April 11, 2007.

On motion of Mr. Segura, seconded by Mr. Haik, the following Resolution was offered and unanimously adopted by the State Mineral and Energy Board:

NOW, BE IT THEREFORE RESOLVED, without modifying or rescinding the Resolution adopted on April 11, 2007, and made a part hereof as Exhibit A, that the State Mineral and Energy Board officially and explicitly expresses its longstanding interpretation of La. R.S. 30:136(A)(1)(b) to require the Office of Mineral Resources and the State Mineral and Energy Board to deny recoupment requests for alleged overpayments and to withhold such alleged overpayments from any particular lease or attributable to any LUW code as an offset against future royalty payments until the completion of open audits of lessees, payors, and other obligees of the State of Louisiana. Only after the completion of such open audits shall the Office of Mineral Resources and the State Mineral and Energy Board consider recoupment requests for alleged overpayments and, if such allegations are found to be valid, allow the appropriate party or parties to offset overpayment against future royalties for the balance of the verified overpayments.

RESOLUTION # 16-01-016

(LEGAL & TITLE CONTROVERSY COMMITTEE)

WHEREAS, pursuant to La. R.S. 30:121, the State Mineral and Energy Board (Board) shall administer the State of Louisiana's (State) proprietary interest in the minerals in and upon the lands and water bottoms belonging to the State or the title to which is in the public trust; and

WHEREAS, pursuant to La. R.S. 30:124, the Board has authority to lease such lands and water bottoms for the development and production of minerals, oil, gas or alternative energy sources; and

WHEREAS, pursuant to La. R.S. 30:129, the Board has full supervision over all mineral leases granted by the State, and is authorized to take any action necessary to protect the interests of the State and enter into agreements or amend leases in the manner most beneficial to the State; and

WHEREAS, disputes regarding the ownership of minerals to which the State claims title periodically occur and Lessees are required to promptly notify the Office of Mineral Resources (OMR) of adverse claims by any individual or entity not a party to a State Lease; and

WHEREAS, by Resolution #15-06-016, dated June 10, 2015, the Board continued the practice of permitting Lessees to request authority to escrow royalties on title disputed lands under lease by the State; and

WHEREAS, on December 1, 2015, Shoreline Southeast LLC notified OMR that a *bona fide* dispute exists due to an adverse claim regarding the ownership or title to all or a portion of the premises under lease by the State related to the Shoreline-LL&E No. 1 Well: Upper Discorbis 12 RA SUA, Bastian Bay Field, Plaquemines Parish, Louisiana, including water bottoms covered by State Lease No. 21436 that are owned of record, and are claimed adversely to the State by The Louisiana Land and Exploration Company, LLC and Plaquemines Parish Government. Shoreline Southeast LLC requested authorization to deposit the royalty payments due on the production attributable to the disputed acreage into an escrow account in lieu of making such payments directly to OMR as required by the State Lease; and

WHEREAS, it is advantageous to the State for the Board to grant this request for escrow authority for a fixed duration of time, as an alternative to litigation, during which the adverse claim will be evaluated by the interested parties and effort made to negotiate an amicable resolution; and

WHEREAS, in response to this request for escrow authority, OMR Staff offered the following recommendation for consideration by the Legal & Title Controversy Committee:

That the State Mineral and Energy Board approve Lessee's request for escrow authority, commencing December 1, 2015 and continuing through the June 8, 2016 Board Meeting (or the date of the next meeting of the Board thereafter, should it not meet that month), to allow the interested parties time to evaluate and resolve the adverse claim, which authority should be granted subject to the standard escrow procedure and requirements established by OMR.

ON MOTION of Mr. Brouillette, seconded by Mr. Cordaro, after discussion and careful consideration, the foregoing OMR Staff recommendation was offered and unanimously accepted by the Legal & Title Controversy Committee.

Resolution #16-01-016
(Legal & Title Controversy Committee)

WHEREAS, in response to the foregoing OMR Staff recommendation and action of the Legal & Title Controversy Committee;

ON MOTION of Mr. Brouillette, seconded by Mr. Haik, after discussion and careful consideration, the following Resolution was offered and unanimously adopted by the Board:

NOW THEREFORE, BE IT RESOLVED that Lessee's request for escrow authority is hereby granted:

BE IT FURTHER RESOLVED:

- 1) Lessee is hereby authorized to suspend the direct payment of royalties to OMR on the disputed acreage related to the Shoreline-LL&E No. 1 Well: Upper Discorbis 12 RA SUA, Bastian Bay Field, Plaquemines Parish, State of Louisiana including water bottoms covered by State Lease No. 21436 that are owned of record, and are claimed adversely to the State by The Louisiana Land and Exploration Company, LLC and Plaquemines Parish Government;
- 2) The escrow authority granted hereby is effective December 1, 2015 and continuing through the June 8, 2016 Board meeting (or the date of the next meeting of the Board thereafter, should it not meet that month), to allow the interested parties time to evaluate and resolve the adverse claim;
- 3) The escrow authority granted hereby is contingent upon Lessee's compliance with the standard escrow procedure and requirements established by OMR;
- 4) The deposit of royalties into the escrow account shall be accepted by the Board as the royalty payments required by the State Lease, and Lessee shall not be held in default of payment of its royalty obligation owed the State as long as deposits are timely and properly made as required by the State Lease into the escrow account; and
- 5) The Board reserves the right to audit the royalty payments deposited into the escrow account and further reserves all audit rights authorized by the State Lease.

BE IT FURTHER RESOLVED:

- 1) Within fifteen (15) calendar days of adoption of this Resolution, Lessee shall open and maintain a separate, interest bearing escrow account at a FDIC insured financial institution having a presence in the State of Louisiana, and provide satisfactory documentary proof of having done so to OMR;
- 2) Throughout the authorized escrow period, Lessee shall continue to timely provide fully completed SR-9 Reports (and any other requested documents) to OMR;
- 3) Throughout the authorized escrow period, Lessee shall timely deposit the properly calculated and reported royalty payments attributable to the disputed acreage into the escrow account;
- 4) Throughout the authorized escrow period, Lessee shall provide documentation (copies of deposited checks, deposit receipts or monthly bank statements) of the timely deposit of royalty payments into the escrow account;
- 5) Throughout the authorized escrow period, Lessee shall in good faith cooperate with OMR's efforts to negotiate a royalty sharing agreement or other amicable resolution of the title dispute with the adverse claimant(s);
- 6) If the ownership/title dispute is amicably resolved prior to expiration of the authorized escrow period, the royalty payments on deposit and interest thereon accumulating in the escrow account shall be timely distributed in accordance with the negotiated resolution;

Resolution #16-01-016
(Legal & Title Controversy Committee)

- 7) If the ownership/title dispute is not amicably resolved prior to expiration of the escrow period or any authorized extension thereof, Lessee shall, within fifteen (15) calendar days of expiration:
 - a) Resume direct payment of royalties to OMR and transfer all royalty payments, including interest, on deposit in the escrow account to OMR; or
 - b) Invoke a concursus proceeding, transfer all royalty payments, including interest, on deposit in the escrow account into the Registry of the Court and continue the direct payment of royalties into the Registry of the Court through adjudication of the dispute;
- 8) Lessee shall not transfer nor release any funds, including interest, on deposit in the escrow account authorized by this Resolution without the knowledge and written approval of OMR; and
- 9) All charges and expenses in connection with the creation and maintenance of the escrow account authorized hereby are to be borne by Lessee.

BE IT FURTHER RESOLVED that Lessee is obligated to strictly comply with the requirements applicable to this escrow authority as set forth herein and as required by OMR. Lessee's failure to:

- 1) Timely create the escrow account; or
- 2) Timely deposit royalty payments into the escrow account; or
- 3) Timely provide required reports and documentary proof of deposits; or
- 4) Timely invoke a concursus proceeding or resume direct payment of royalties to OMR upon expiration of the escrow authority;

may result in the escrow authority granted hereby being rendered null and void *ab initio* by the Board, thus subjecting Lessee to the penalties and interest authorized by law and the State Lease.

RESOLUTION

LOUISIANA STATE MINERAL AND ENERGY BOARD

Resolution #16-01-18 (DOCKET REVIEW COMMITTEE)

On motion of Mr. Arnold seconded by Mr. Segura, the following Resolution was offered and adopted

BE IT RESOLVED by the State Mineral and Energy Board that Docket Item No 1 from the January 13, 2016 Meeting be approved, said instrument being an Assignment from Allen & Kirmse, Ltd. of all of Assignor's right, title and interest to the following in the proportions set out below:

Shoreline Southeast LLC	60%
White Marlin Oil and Gas Company, LLC	40%

in and to State Lease Nos. 21367, 21368 and 21369, Lafourche Parish, Louisiana, with further particulars being stipulated in the instrument.

Shoreline Southeast LLC is designated as the joint account Lessee (contact person) pursuant to State Mineral and Energy Board Resolution dated September 10, 1975.

This approval is expressly granted and accepted subject to certain conditions in the absence of which conditions approval of said instrument would not have been given as follows:

1) That all terms and conditions of the basic lease will be fulfilled, including but not limited to the full payment of rentals and royalties, regardless of the division of leasehold interests resulting from the instrument;

2) That failure to comply with the terms and conditions of the basic lease by the original lessee, or by any assignee, sublessor or sublessee, prior or subsequent hereto, shall not be deemed waived by the approval of said instrument by the State Mineral and Energy Board for the State of Louisiana, it being distinctly understood that the State Mineral and Energy Board for the State of Louisiana does not recognize said instrument as creating a novation, as regards any right or interest of the State or Board;

3) That in the event ownership of the basic mineral lease is or becomes vested in two or more lessees responsible to the lessor for compliance with indivisible obligations to maintain the lease, then said lessees shall designate in writing to the State Mineral and Energy Board the lessee representing the joint account of all lessees, who shall be accountable to the Board for discharge of indivisible obligations under the lease for all lessees or for release in lieu of compliance therewith, provided that in the event of failure of said lessees to comply with such condition, then the Board may withhold approval of and thereby deny validity to any pending or future assignment or transfer of an interest in the lease, and, provided further, that if any lessee should agree to release the lease or any segregated portion thereof in lieu of complying with an indivisible lease obligation to maintain the lease and no other lessee desires to assume and undertake the indivisible obligation, then all lessees agree to join in a release or to otherwise execute a similar release of their rights to lessor, relegating any nonsignatory lessee to such remedy, if any, as such party may have against the lessee or lessees, who may execute a release purporting to cover the entirety of the lease or of a segregated portion thereof;

4) That this approval is given merely for the purpose of validating the assignment or transfer under the provisions of R.S. 30.128, but by giving its approval, the Board does not recognize the validity of any other instrument referred to therein that has not also been considered and approved by the Board in its entirety nor of any descriptions nor adopt any of the terms and conditions in the assignment or transfer, including but not limited to any election to convert an overriding royalty interest to a working interest, and any such election shall not be effective until written notice thereof is given to the Board and assignment or transfer of such working interest in recordable form is docketed for approval and approved by the Board, and, furthermore, that this approval may not operate as the Board's approval of any sales contract, which may have been entered into by the parties to the assignment or transfer, inasmuch as the Board specifically reserves the right to take its royalty oil, gas and other minerals in kind;

5) That for purposes of recordation and notice, certified copies of this Resolution be attached to all docketed copies of the instrument approved hereby, and

6) That nothing herein shall be construed as approval for any assignment, sublease or transfer to or from any individual, partnership, corporation or other legal entity who has filed bankruptcy proceedings unless such status is specifically recognized in this resolution

BE IT FURTHER RESOLVED that either the Chairman, Vice-Chairman, Secretary, Deputy Assistant Secretary, Chief Landman or any other authorized person be and he is hereby authorized to reflect the approval of the State Mineral and Energy Board by affixing his signature to the aforesaid instrument.

LOUISIANA STATE MINERAL AND ENERGY BOARD

Resolution #16-01-26 (DOCKET REVIEW COMMITTEE)

On motion of Mr. Arnold seconded by Mr. Segura, the following Resolution was offered and adopted:

BE IT RESOLVED by the State Mineral and Energy Board that Docket Item No. 9 from the January 13, 2016 Meeting be approved, said instrument being an Assignment from Long Petroleum, L.L.C. to Winchester Production Company of an undivided 54.0% interest in and to State Lease No 6760, DeSoto Parish, Louisiana, with further particulars being stipulated in the instrument

Winchester Production Company is designated as the joint account Lessee (contact person) pursuant to State Mineral and Energy Board Resolution dated September 10, 1975

This approval is expressly granted and accepted subject to certain conditions in the absence of which conditions approval of said instrument would not have been given as follows:

1) That all terms and conditions of the basic lease will be fulfilled, including but not limited to the full payment of rentals and royalties, regardless of the division of leasehold interests resulting from the instrument;

2) That failure to comply with the terms and conditions of the basic lease by the original lessee, or by any assignee, sublessor or sublessee, prior or subsequent hereto, shall not be deemed waived by the approval of said instrument by the State Mineral and Energy Board for the State of Louisiana, it being distinctly understood that the State Mineral and Energy Board for the State of Louisiana does not recognize said instrument as creating a novation, as regards any right or interest of the State or Board;

3) That in the event ownership of the basic mineral lease is or becomes vested in two or more lessees responsible to the lessor for compliance with indivisible obligations to maintain the lease, then said lessees shall designate in writing to the State Mineral and Energy Board the lessee representing the joint account of all lessees, who shall be accountable to the Board for discharge of indivisible obligations under the lease for all lessees or for release in lieu of compliance therewith, provided that in the event of failure of said lessees to comply with such condition, then the Board may withhold approval of and thereby deny validity to any pending or future assignment or transfer of an interest in the lease, and, provided further, that if any lessee should agree to release the lease or any segregated portion thereof in lieu of complying with an indivisible lease obligation to maintain the lease and no other lessee desires to assume and undertake the indivisible obligation, then all lessees agree to join in a release or to otherwise execute a similar release of their rights to lessor, relegating any nonsignatory lessee to such remedy, if any, as such party may have against the lessee or lessees, who may execute a release purporting to cover the entirety of the lease or of a segregated portion thereof,

4) That this approval is given merely for the purpose of validating the assignment or transfer under the provisions of R.S. 30.128, but by giving its approval, the Board does not recognize the validity of any other instrument referred to therein that has not also been considered and approved by the Board in its entirety nor of any descriptions nor adopt any of the terms and conditions in the assignment or transfer, including but not limited to any election to convert an overriding royalty interest to a working interest, and any such election shall not be effective until written notice thereof is given to the Board and assignment or transfer of such working interest in recordable form is docketed for approval and approved by the Board, and, furthermore, that this approval may not operate as the Board's approval of any sales contract, which may have been entered into by the parties to the assignment or transfer, inasmuch as the Board specifically reserves the right to take its royalty oil, gas and other minerals in kind,

5) That for purposes of recordation and notice, certified copies of this Resolution be attached to all docketed copies of the instrument approved hereby, and

6) That nothing herein shall be construed as approval for any assignment, sublease or transfer to or from any individual, partnership, corporation or other legal entity who has filed bankruptcy proceedings unless such status is specifically recognized in this resolution.

2) That failure to comply with the terms and conditions of the basic lease by the original lessee, or by any assignee, sublessor or sublessee, prior or subsequent hereto, shall not be deemed waived by the approval of said instrument by the State Mineral and Energy Board for the State of Louisiana, it being distinctly understood that the State Mineral and Energy Board for the State of Louisiana does not recognize said instrument as creating a novation, as regards any right or interest of the State or Board,

3) That in the event ownership of the basic mineral lease is or becomes vested in two or more lessees responsible to the lessor for compliance with indivisible obligations to maintain the lease, then said lessees shall designate in writing to the State Mineral and Energy Board the lessee representing the joint account of all lessees, who shall be accountable to the Board for discharge of indivisible obligations under the lease for all lessees or for release in lieu of compliance therewith, provided that in the event of failure of said lessees to comply with such condition, then the Board may withhold approval of and thereby deny validity to any pending or future assignment or transfer of an interest in the lease, and, provided further, that if any lessee should agree to release the lease or any segregated portion thereof in lieu of complying with an indivisible lease obligation to maintain the lease and no other lessee desires to assume and undertake the indivisible obligation, then all lessees agree to join in a release or to otherwise execute a similar release of their rights to lessor, relegating any nonsignatory lessee to such remedy, if any, as such party may have against the lessee or lessees, who may execute a release purporting to cover the entirety of the lease or of a segregated portion thereof;

4) That this approval is given merely for the purpose of validating the assignment or transfer under the provisions of R.S. 30:128, but by giving its approval, the Board does not recognize the validity of any other instrument referred to therein that has not also been considered and approved by the Board in its entirety nor of any descriptions nor adopt any of the terms and conditions in the assignment or transfer, including but not limited to any election to convert an overriding royalty interest to a working interest, and any such election shall not be effective until written notice thereof is given to the Board and assignment or transfer of such working interest in recordable form is docketed for approval and approved by the Board, and, furthermore, that this approval may not operate as the Board's approval of any sales contract, which may have been entered into by the parties to the assignment or transfer, inasmuch as the Board specifically reserves the right to take its royalty oil, gas and other minerals in kind;

5) That for purposes of recordation and notice, certified copies of this Resolution be attached to all docketed copies of the instrument approved hereby, and

6) That nothing herein shall be construed as approval for any assignment, sublease or transfer to or from any individual, partnership, corporation or other legal entity who has filed bankruptcy proceedings unless such status is specifically recognized in this resolution.

RESOLUTION

LOUISIANA STATE MINERAL AND ENERGY BOARD

Resolution #16-01-42 (DOCKET REVIEW COMMITTEE)

On motion of Mr. Arnold seconded by Mr. Segura, the following Resolution was offered and adopted.

BE IT RESOLVED by the State Mineral and Energy Board that Docket Item No. 25 from the January 13, 2016 Meeting be approved, said instrument being an Assignment from Cypress Energy Corporation to Talos Energy Offshore LLC of all of Assignor's right, title and interest in and to State Lease No 21624, Terrebonne Parish, Louisiana, with further particulars being stipulated in the instrument

Talos Energy Offshore LLC is designated as the joint account Lessee (contact person) pursuant to State Mineral and Energy Board Resolution dated September 10, 1975

This approval is expressly granted and accepted subject to certain conditions in the absence of which conditions approval of said instrument would not have been given as follows.

1) That all terms and conditions of the basic lease will be fulfilled, including but not limited to the full payment of rentals and royalties, regardless of the division of leasehold interests resulting from the instrument,

2) That failure to comply with the terms and conditions of the basic lease by the original lessee, or by any assignee, sublessor or sublessee, prior or subsequent hereto, shall not be deemed waived by the approval of said instrument by the State Mineral and Energy Board for the State of Louisiana, it being distinctly understood that the State Mineral and Energy Board for the State of Louisiana does not recognize said instrument as creating a novation, as regards any right or interest of the State or Board,

3) That in the event ownership of the basic mineral lease is or becomes vested in two or more lessees responsible to the lessor for compliance with indivisible obligations to maintain the lease, then said lessees shall designate in writing to the State Mineral and Energy Board the lessee representing the joint account of all lessees, who shall be accountable to the Board for discharge of indivisible obligations under the lease for all lessees or for release in lieu of compliance therewith, provided that in the event of failure of said lessees to comply with such condition, then the Board may withhold approval of and thereby deny validity to any pending or future assignment or transfer of an interest in the lease, and, provided further, that if any lessee should agree to release the lease or any segregated portion thereof in lieu of complying with an indivisible lease obligation to maintain the lease and no other lessee desires to assume and undertake the indivisible obligation, then all lessees agree to join in a release or to otherwise execute a similar release of their rights to lessor, relegating any nonsignatory lessee to such remedy, if any, as such party may have against the lessee or lessees, who may execute a release purporting to cover the entirety of the lease or of a segregated portion thereof;

4) That this approval is given merely for the purpose of validating the assignment or transfer under the provisions of R.S. 30.128, but by giving its approval, the Board does not recognize the validity of any other instrument referred to therein that has not also been considered and approved by the Board in its entirety nor of any descriptions nor adopt any of the terms and conditions in the assignment or transfer, including but not limited to any election to convert an overriding royalty interest to a working interest, and any such election shall not be effective until written notice thereof is given to the Board and assignment or transfer of such working interest in recordable form is docketed for approval and approved by the Board, and, furthermore, that this approval may not operate as the Board's approval of any sales contract, which may have been entered into by the parties to the assignment or transfer, inasmuch as the Board specifically reserves the right to take its royalty oil, gas and other minerals in kind,

5) That for purposes of recordation and notice, certified copies of this Resolution be attached to all docketed copies of the instrument approved hereby; and

6) That nothing herein shall be construed as approval for any assignment, sublease or transfer to or from any individual, partnership, corporation or other legal entity who has filed bankruptcy proceedings unless such status is specifically recognized in this resolution

BE IT FURTHER RESOLVED that either the Chairman, Vice-Chairman, Secretary, Deputy Assistant Secretary, Chief Landman or any other authorized person be and he is hereby authorized to reflect the approval of the State Mineral and Energy Board by affixing his signature to the aforesaid instrument.

BE IT RESOLVED by the State Mineral and Energy Board that Docket Item No. 26 from the January 13, 2016 Meeting be approved, said instrument being an Assignment from Hilcorp Energy I LP to McGowan Working Partners, Inc of all of Assignor's right, title and interest in and to State Lease Nos 17265, 17714, 17716, 17717, 17718, 17720 and 18233, Plaquemines Parish, Louisiana, with further particulars being stipulated in the instrument

McGowan Working Partners, Inc is designated as the joint account Lessee (contact person) pursuant to State Mineral and Energy Board Resolution dated September 10, 1975

This approval is expressly granted and accepted subject to certain conditions in the absence of which conditions approval of said instrument would not have been given as follows.

1) That all terms and conditions of the basic lease will be fulfilled, including but not limited to the full payment of rentals and royalties, regardless of the division of leasehold interests resulting from the instrument;

2) That failure to comply with the terms and conditions of the basic lease by the original lessee, or by any assignee, sublessor or sublessee, prior or subsequent hereto, shall not be deemed waived by the approval of said instrument by the State Mineral and Energy Board for the State of Louisiana, it being distinctly understood that the State Mineral and Energy Board for the State of Louisiana does not recognize said instrument as creating a novation, as regards any right or interest of the State or Board;

3) That in the event ownership of the basic mineral lease is or becomes vested in two or more lessees responsible to the lessor for compliance with indivisible obligations to maintain the lease, then said lessees shall designate in writing to the State Mineral and Energy Board the lessee representing the joint account of all lessees, who shall be accountable to the Board for discharge of indivisible obligations under the lease for all lessees or for release in lieu of compliance therewith, provided that in the event of failure of said lessees to comply with such condition, then the Board may withhold approval of and thereby deny validity to any pending or future assignment or transfer of an interest in the lease, and, provided further, that if any lessee should agree to release the lease or any segregated portion thereof in lieu of complying with an indivisible lease obligation to maintain the lease and no other lessee desires to assume and undertake the indivisible obligation, then all lessees agree to join in a release or to otherwise execute a similar release of their rights to lessor, relegating any nonsignatory lessee to such remedy, if any, as such party may have against the lessee or lessees, who may execute a release purporting to cover the entirety of the lease or of a segregated portion thereof;

4) That this approval is given merely for the purpose of validating the assignment or transfer under the provisions of R.S. 30.128, but by giving its approval, the Board does not recognize the validity of any other instrument referred to therein that has not also been considered and approved by the Board in its entirety nor of any descriptions nor adopt any of the terms and conditions in the assignment or transfer, including but not limited to any election to convert an overriding royalty interest to a working interest, and any such election shall not be effective until written notice thereof is given to the Board and assignment or transfer of such working interest in recordable form is docketed for approval and approved by the Board, and, furthermore, that this approval may not operate as the Board's approval of any sales contract, which may have been entered into by the parties to the assignment or transfer, inasmuch as the Board specifically reserves the right to take its royalty oil, gas and other minerals in kind,

5) That for purposes of recordation and notice, certified copies of this Resolution be attached to all docketed copies of the instrument approved hereby, and

6) That nothing herein shall be construed as approval for any assignment, sublease or transfer to or from any individual, partnership, corporation or other legal entity who has filed bankruptcy proceedings unless such status is specifically recognized in this resolution

RESOLUTION

LOUISIANA STATE MINERAL AND ENERGY BOARD

Resolution #16-01-49 (DOCKET REVIEW COMMITTEE)

On motion of Mr. Arnold seconded by Mr. Segura, the following Resolution was offered and adopted:

BE IT RESOLVED by the State Mineral and Energy Board that Docket Item No. 2 from the January 13, 2016 Meeting be approved, said instrument being an Assignment from BG US Production Company LC to EXCO/HGI JV Assets, LLC, of all of Assignor's right, title and interest in and to State Lease Nos. 18764 and 19779, DeSoto and Red River Parishes, Louisiana, **INSOFAR AND ONLY INSOFAR AS** said leases cover or relate to depths from the surface of the earth down to the stratigraphic equivalent of the base of the Cotton Valley formation at a measured depth of 9,650', as identified by the Jonesville North A-17 Well, with further particulars being stipulated in the instrument

EXCO/HGI JV Assets, LLC is designated as the joint account Lessee (contact person) pursuant to State Mineral and Energy Board Resolution dated September 10, 1975

This approval is expressly granted and accepted subject to certain conditions in the absence of which conditions approval of said instrument would not have been given as follows.

1) That all terms and conditions of the basic lease will be fulfilled, including but not limited to the full payment of rentals and royalties, regardless of the division of leasehold interests resulting from the instrument;

2) That failure to comply with the terms and conditions of the basic lease by the original lessee, or by any assignee, sublessor or sublessee, prior or subsequent hereto, shall not be deemed waived by the approval of said instrument by the State Mineral and Energy Board for the State of Louisiana, it being distinctly understood that the State Mineral and Energy Board for the State of Louisiana does not recognize said instrument as creating a novation, as regards any right or interest of the State or Board,

3) That in the event ownership of the basic mineral lease is or becomes vested in two or more lessees responsible to the lessor for compliance with indivisible obligations to maintain the lease, then said lessees shall designate in writing to the State Mineral and Energy Board the lessee representing the joint account of all lessees, who shall be accountable to the Board for discharge of indivisible obligations under the lease for all lessees or for release in lieu of compliance therewith, provided that in the event of failure of said lessees to comply with such condition, then the Board may withhold approval of and thereby deny validity to any pending or future assignment or transfer of an interest in the lease, and, provided further, that if any lessee should agree to release the lease or any segregated portion thereof in lieu of complying with an indivisible lease obligation to maintain the lease and no other lessee desires to assume and undertake the indivisible obligation, then all lessees agree to join in a release or to otherwise execute a similar release of their rights to lessor, relegating any nonsignatory lessee to such remedy, if any, as such party may have against the lessee or lessees, who may execute a release purporting to cover the entirety of the lease or of a segregated portion thereof;

4) That this approval is given merely for the purpose of validating the assignment or transfer under the provisions of R.S. 30:128, but by giving its approval, the Board does not recognize the validity of any other instrument referred to therein that has not also been considered and approved by the Board in its entirety nor of any descriptions nor adopt any of the terms and conditions in the assignment or transfer, including but not limited to any election to convert an overriding royalty interest to a working interest, and any such election shall not be effective until written notice thereof is given to the Board and assignment or transfer of such working interest in recordable form is docketed for approval and approved by the Board, and, furthermore, that this approval may not operate as the Board's approval of any sales contract, which may have been entered into by the parties to the assignment or transfer, inasmuch as the Board specifically reserves the right to take its royalty oil, gas and other minerals in kind;

5) That for purposes of recordation and notice, certified copies of this Resolution be attached to all docketed copies of the instrument approved hereby, and

6) That nothing herein shall be construed as approval for any assignment, sublease or transfer to or from any individual, partnership, corporation or other legal entity who has filed bankruptcy proceedings unless such status is specifically recognized in this resolution.

BE IT FURTHER RESOLVED that either the Chairman, Vice-Chairman, Secretary, Deputy Assistant Secretary, Chief Landman or any other authorized person be and he is hereby authorized to reflect the approval of the State Mineral and Energy Board by affixing his signature to the aforesaid instrument

CERTIFICATE

I hereby certify that the above is a true and correct copy of a Resolution adopted at a meeting of the State Mineral and Energy Board held in the City of Baton Rouge, Louisiana, on the 13th day of January, 2016, pursuant to due notice, at which meeting a quorum was present, and that said Resolution is duly entered in the Minute Book of said Board and is now in full force and effect

RESOLUTION

LOUISIANA STATE MINERAL AND ENERGY BOARD

**Resolution #16-01-50
(DOCKET REVIEW COMMITTEE)**

On motion of Mr. Arnold seconded by Mr. Segura, the following Resolution was offered and adopted

BE IT RESOLVED by the State Mineral and Energy Board that Docket Item No. 3 from the January 13, 2016 Meeting be approved, said instrument being an Assignment from EXCO Operating Company, LP to EXCO/HGI JV Assets, LLC, of all of Assignor's right, title and interest in and to State Lease No. 19779, DeSoto Parishes, Louisiana, **INSOFAR AND ONLY INSOFAR AS** said leases cover or relate to depths from the surface of the earth down to the stratigraphic equivalent of the base of the Cotton Valley Formation as found on the electric log at the measured depth of 10,418' for the Winchester Prod-Means No. 16 Well, with further particulars being stipulated in the instrument.

EXCO/HGI JV Assets, LLC is designated as the joint account Lessee (contact person) pursuant to State Mineral and Energy Board Resolution dated September 10, 1975.

This approval is expressly granted and accepted subject to certain conditions in the absence of which conditions approval of said instrument would not have been given as follows.

1) That all terms and conditions of the basic lease will be fulfilled, including but not limited to the full payment of rentals and royalties, regardless of the division of leasehold interests resulting from the instrument;

2) That failure to comply with the terms and conditions of the basic lease by the original lessee, or by any assignee, sublessor or sublessee, prior or subsequent hereto, shall not be deemed waived by the approval of said instrument by the State Mineral and Energy Board for the State of Louisiana, it being distinctly understood that the State Mineral and Energy Board for the State of Louisiana does not recognize said instrument as creating a novation, as regards any right or interest of the State or Board;

3) That in the event ownership of the basic mineral lease is or becomes vested in two or more lessees responsible to the lessor for compliance with indivisible obligations to maintain the lease, then said lessees shall designate in writing to the State Mineral and Energy Board the lessee representing the joint account of all lessees, who shall be accountable to the Board for discharge of indivisible obligations under the lease for all lessees or for release in lieu of compliance therewith, provided that in the event of failure of said lessees to comply with such condition, then the Board may withhold approval of and thereby deny validity to any pending or future assignment or transfer of an interest in the lease, and, provided further, that if any lessee should agree to release the lease or any segregated portion thereof in lieu of complying with an indivisible lease obligation to maintain the lease and no other lessee desires to assume and undertake the indivisible obligation, then all lessees agree to join in a release or to otherwise execute a similar release of their rights to lessor, relegating any nonsignatory lessee to such remedy, if any, as such party may have against the lessee or lessees, who may execute a release purporting to cover the entirety of the lease or of a segregated portion thereof;

4) That this approval is given merely for the purpose of validating the assignment or transfer under the provisions of R.S. 30.128, but by giving its approval, the Board does not recognize the validity of any other instrument referred to therein that has not also been considered and approved by the Board in its entirety nor of any descriptions nor adopt any of the terms and conditions in the assignment or transfer, including but not limited to any election to convert an overriding royalty interest to a working interest, and any such election shall not be effective until written notice thereof is given to the Board and assignment or transfer of such working interest in recordable form is docketed for approval and approved by the Board, and, furthermore, that this approval may not operate as the Board's approval of any sales contract, which may have been entered into by the parties to the assignment or transfer, inasmuch as the Board specifically reserves the right to take its royalty oil, gas and other minerals in kind.

5) That for purposes of recordation and notice, certified copies of this Resolution be attached to all docketed copies of the instrument approved hereby, and

6) That nothing herein shall be construed as approval for any assignment, sublease or transfer to or from any individual, partnership, corporation or other legal entity who has filed bankruptcy proceedings unless such status is specifically recognized in this resolution

BE IT FURTHER RESOLVED that either the Chairman, Vice-Chairman, Secretary, Deputy Assistant Secretary, Chief Landman or any other authorized person be and he is hereby authorized to reflect the approval of the State Mineral and Energy Board by affixing his signature to the aforesaid instrument.
