Dotd states gates are closed as of yesterday, and will open back up July 1st each year to try to control aquatic growth. The lake will not completely drain.

Robert Tomasac?? Of DOTD of District 4, states he just surveyed the dam area. The spillway needs to be rebuilt with new piling and gates. The integrity of the spillway is good. The P.J. will look into putting up a gate to the dam. They will build a pole gate if the DOTD will set the concrete barriers.

Plans for the P.J. are being drawn for a pier, floating dock and walkway for fishing. Recycle bins are ordered
