Re: Lifetime Certification, LDEQ Solid Waste Certification

Dear Ms. Bordelon,

I would appreciate the favorable consideration of the Board of Certification of Solid Waste Operators to my application for a lifetime certification of all classes and all levels, as these are the certifications that I currently hold.

After all these years in the solid waste field, it is good to know there is a benefit to having so much experience! If you have any further questions, please do not hesitate to call on me.

Sincerely,

Denny Mize

RE: Solid Waste Operator Training
Certificate #0488

Dear Gary:

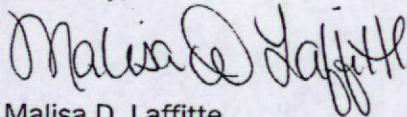

In accordance with LAC 46, Part XXIII, Chapter 11:1101(C)2 I am requesting that the Board consider approval of the following course to meet the requirements for training.

MOLO: Manager of Landfill Operations eCourse

This course is offered through the Solid Waste Association of North America (SWANA) and includes all 15 lessons of the MOLO course offered live. I have attached a copy of the course outline for your review.

I have a personal situation that makes out of town travel very difficult and appreciate the board's consideration of my request. If you should need additional information, please let me know.

Sincerely,

Malisa D. Laffitte

Manager of Landfill Operations eCourse

The Manager of Landfill Operations course provides a comprehensive study of efficient landfill operations, including site design, compliance with regulations, and issues to consider when planning, operating, and closing landfills.

Earn 30 CEUs upon completion of this course.

The course is offered by SWANA as preparation for the Manager of Landfill Operations Certification exam. With the purchase of the full SWANA eCourse, you receive logins to access the webinar recordings online along with an accompanying manual in print. Shipping of the print manual within the U.S. and Canada is included in your purchase. For delivery of the print manual outside North America please contact us directly at 1-800-GO-SWANA (467-9262) or sales@swana.org for preferred delivery method and exact shipping costs.

Course Objectives

Upon completion of this course, participants will be able to:

- Understand the scope of landfill importance, purpose, characteristics, design, equipment and compliance with regulations
- Manage daily operational procedures
- Improve landfill safety
- Understand construction and surveying practices
- Implement and manage effective monitoring systems
- Maximize your site's administration
- Improve efficiency and control costs

Who Should Attend

This course is intended for landfill owners, operators, managers, supervisors, foremen, as well as engineers and employees responsible for daily landfill operation.

Course Content

The course manual is *Manager of Landfill Operations*. This comprehensive operations manual details the following topics with supplemental images, graphs and examples for participants to discuss and serves as a must-have reference tool back on the job.
