

State of Louisiana

Office of the Governor

JOHN BEL EDWARDS
GOVERNOR

Louisiana Commission on Law Enforcement and Administration of Criminal Justice

JIM CRAFT
EXECUTIVE DIRECTOR

INTEGRATED CRIMINAL JUSTICE INFORMATION SYSTEM POLICY BOARD MEETING

AGENDA

May 19, 2016
10:00 A.M.

Galvez Building, Pollock Conference Room
1st Floor
Baton Rouge, LA

1. **CALL TO ORDER**

2. **INTRODUCTION**

3. **APPROVAL OF AGENDA, May 19, 2016**

4. **OLD BUSINESS**

A. Approval of minutes, February 22, 2016 meeting

5. **NEW BUSINESS**

A. Demonstration - Chief Judge LeBlanc; 17th Judicial District Court (Lafourche Parish)
A Judicial eSolution that Closes the Loop: a demonstration of aiSmartBench™.

The goal of this project was to provide a judge access to necessary court information and records from disparate sources in a timely and efficient manner through an electronic support system, or judicial dashboard. Using this dashboard to integrate information from all of the appropriate law enforcement and judicial partners, a judge can more effectively and efficiently perform their judicial duties because they have full information about the defendant standing before them in the courtroom.

B. Demonstration - Michael Geerken; New Orleans Police and Justice Foundation
The *Data Exchange Server* and *Justice View*: a foundation for comprehensive integration in New Orleans.

An eleven year collaborative effort by New Orleans courts, police, sheriff, district attorney, the City, and the indigent defender's office has resulted in creation of the New Orleans Data Exchange Server. The Server is both a data warehouse and information exchange hub for all New Orleans criminal justice agencies. This platform is used in a wide variety of exchanges, including e-mail notifications of important events, web services for integration with criminal justice-related organizations, and statistics for both agency and public use. It is the source for aiSmartBench data. It allows the creation of applications and reports that require combination of information from multiple agencies.

The most recently created application, *Justice View*, will allow all courts and related agencies to access event and case status information from other New Orleans courts, as well as incarceration status, probation status and outstanding warrants of defendants appearing in court. Justice View will be accessible through aiSmartBench and also as a separate application for those with no access to aiSmartBench.

6. **CALL FOR OTHER NEW BUSINESS**
7. **DATE FOR NEXT MEETING**
8. **ADJOURN**
