

MINUTES OF THE
SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY – WEST
SPECIAL BOARD MEETING
Wednesday, August 12, 2015

The Special Board Meeting of the Southeast Louisiana Flood Protection Authority - West ("Authority" or "SLFPA-W") was held on Wednesday, August 12, 2015, at the offices of the Authority, 7001 River Road, Marrero, Louisiana, after due legal notice of the meeting was sent to each Board member and the news media and posted.

Ms. Maclay called the meeting to order at 5:30 p.m. and led all in the pledge of allegiance.

PRESENT:

Ms. Susan H. Maclay, Mr. Jim Wilkinson, Mr. Edward L. Camnetar, Mr. Paul R. Dauphin, Mr. Kendall Gaddy, Mr. Michael L. Merritt, Mr. Kerwin E. Julien Sr.

ABSENT:

None.

OPENING COMMENTS:

Ms. Maclay advised that on-going discussions have been held concerning a tax election that the SLFPA-W, on behalf of the West Jefferson Levee District, is requesting to be placed on the November 21, 2015 ballot.

PUBLIC COMMENTS:

Mr. Robert Thomas, an applicant for the SLFPA-W Board, introduced himself.

NEW BUSINESS:

Ms. Maclay explained that the Constitution permits the governing authority of a levee district to levy an annual tax on the dollar amount of the assessed valuation of all taxable property situated within the district and to raise additional funds through millage increases subject to voter approval for the purpose of constructing and maintaining levees, levee drainage, flood protection, hurricane flood protection, and for all other purposes incidental thereto.

For a levee district created prior to January 1, 2006, such as the West Jefferson Levee District ("WJLD"), the general ad valorem tax authorized is 5 mills. However, due to roll-forwards, the number of mills levied on the 2014 tax rolls was 5.03, which generated revenues of \$5,119,588 for the year ended June 30, 2014.

For a levee district created after January 1, 2006, such as the Algiers Levee District ("Algiers" or "ALD"), the general millage is not fixed. However, when Algiers was carved out of the Orleans Levee District and placed within SLFPA-W, the legislature provided that Algiers would have the same taxing authority as the Orleans Levee District on July 12, 2007.

As a result, Algiers has the general ad valorem tax at the rate of 5.46 mills; a general maintenance ad valorem tax at the rate of 0.75 mills pursuant to the authority of the special election held on November 19, 1983; and a special levee improvement ad valorem tax originally authorized by special election on March 4, 1974 at the rate of 3 mills pursuant to the authority of Article 6, Section 39(B) of the Louisiana Constitution, which was extended for a period of thirty years through the year 2015 and increased to 6.07 mills pursuant to authority of a special election held on November 19, 1983, and which had been levied at the rate of 6.35 mills, due to roll-forwards.

In Orleans Parish, ad valorem taxes are assessed for the calendar year and become due on January 1. Accordingly, this year is the last year that Algiers can levy and collect the special levee improvement ad valorem tax of 6.35 mills.

For the year ended June 30, 2014, the millages in Algiers resulted in revenues of approximately \$2,455,144. Without the special levee improvement ad valorem tax, it is expected that levee millages in Algiers will total approximately \$1,231,000.

In addition to millages needed to maintain the levees within the jurisdiction of Algiers, Ms. Maclay reminded the Board that the Army Corps of Engineers transferred the West Closure Complex ("WCC") to the Coastal Protection and Restoration Authority ("CPRA").

The WCC is a major feature of the Hurricane and Storm Damage Risk Reduction System ("HSDRRS") for southeast Louisiana which reduces risk for residences and businesses in three parishes on the west bank of the Mississippi River: Orleans, Jefferson and Plaquemines parishes. The structural features of the project reduce the risk associated with a storm surge event that has a one percent chance of occurring in any given year, or a 100-year storm surge.

Ms. Maclay reminded the Board that it had previously approved an interim intergovernmental agreement that apportions operations and maintenance cost of the WCC with Plaquemines Parish and CPRA and that R.S. 38:301.1(D) permits levee districts located wholly or partially in the coastal area to expend funds for projects and programs outside of their normal jurisdictional bounds on the condition that the funds are used consistent with the purposes and intent expressed in R.S. 49:214.1 and will benefit the jurisdiction from which the funds are derived, if specially provided for by the CPRA and CPRA Board in a cooperative endeavor agreement.

The WJLD has been operating off of the same level of mills since its founding in 1980. It was able to save several million dollars while its hurricane protection system was under construction in anticipation of levee lifts that it knew would be necessary in several sections of the newly constructed levees not long after they were completed. These lifts, which will begin in 2015, will exhaust the savings accrued during the construction of the system. Further, now that the system is complete, the West Jefferson Levee District is responsible for the costs of Operation, Maintenance, Repair, Replacement and Rehabilitation ("OMRR&R") of a vastly expanded system including pump stations.

The Southeast Louisiana Flood Protection Authority - West ("SLFPAW" or "Authority") was established as a levee district pursuant to Article VI, Sections 38 and 38.1 of the Constitution of Louisiana. The Authority exercises all authority over and has management, oversight, and control of the territories under the WJLD and the ALD, as provided by law for the boards of commissioners of such levee districts to which the authority is a successor and to the extent provided for in LA R.S. 38:330.1.

At the end of fiscal year 2014, the Authority spent \$5.2M to operate and maintain the levees and flood protection systems including salaries, benefits, and insurance. In 2015, the Authority will incur an additional \$1.6M to operate and maintain the West Closure Complex through an interim agreement with Plaquemines Parish and CPRA. Last year President Obama signed the Water Resources Reform and Development Act ("WRRDA") of 2014 into law. The bill stipulates that the cost to operate and maintain (no mandate for RR&R) the West Closure Complex shall be cost shared with the state at a 65% federal and 35% state cost share. Thus, when the funds are appropriated the cost share to the Authority will be \$1.2M per year.

The Westbank and Vicinity Projects ("WBV") are now complete and have been turned over to the Authority for OMRR&R. Most of the earthen sections on the west bank will require a lift prior to armoring. In order to maintain the 10 year certification that FEMA granted in 2014, the levee Authority will perform maintenance lifts in years 2015 and 2016 at an estimated cost of \$26 Million. The next round of lifts, armoring, repair, rehabilitation and replacement will occur between 2023 and 2033. It is estimated that the cash on hand required will be \$34.8 Million.

As of December 2014, the Authority has approximately \$17 Million available on hand for operation and maintenance of the levee system. \$13.9 Million comes from the WJLD and \$3.2 Million from the ALD. The Authority is scheduled to collect \$8.2M in 2015; \$5.1M from WJLD, \$2.4M from Algiers and \$700k miscellaneous income.

However, the Authority will lose \$1.224M in revenue from an expiring 6.35 mills special levee district improvement tax in Algiers. Based on current obligations the Authority will begin to run on a deficit by 2016 and will be in a \$55M hole by 2024.

Based on these projections it is estimated that the Authority will need to seek an additional \$5.5 Mills from WJLD to have enough cash on hand to maintain the next 10 year cycle beginning in 2023.

Ms. Maclay explained that the resolutions before the Board were to seek to reimpose the special levee improvement ad valorem tax at 6.35 mills for Algiers for purposes of providing revenue to support levee maintenance operations in Algiers and for purposes of providing revenue to support Algiers' share of the operation and maintenance of the WCC, and to seek to levy a millage increase for WJLD for purposes of providing revenue to support WJLD's share of the operation and maintenance of the WCC and levee maintenance operations in West Jefferson, and to meet the needs of additional future RR&R needs.

The following resolution was offered by Mr. Paul R. Dauphin and seconded by Mr. Kendall Gaddy:
