RS 40:2019:

§2019. Child death investigation

A. Findings and purpose.

(1) The legislature hereby finds and declares that:

(a) Protection of the health and welfare of the children of this state is a goal of its People, and the unexpected death of infants and children is an important public health concern that requires legislative action.

- (b) Collecting data on the causes of unexpected deaths will better enable the state To protect some infants and children from preventable deaths and will help reduce the Incidence of such deaths.
- (c) Identifying persons responsible for abuse or neglect resulting in unexpected death will better enable the state to protect other children who may be under the care of the same persons and will help reduce the incidence of such deaths.
- (d) Multidisciplinary and multiagency reviews of child deaths can assist the state in the investigation of child deaths, in the development of a greater understanding of the incidence and causes of child deaths and the methods for preventing such deaths, and in identifying gaps in services to children and families.
