report, which I believe it is disclosed on the third page of the audit report. MR. JACKSON: Wou mentioned it in the opening letter. MR. FAIRCHILD: Right, yes. Right. MR. JACKSON: Okay. Thank you. MS. MANNING: So the SSBCI investment moving to receive the SSBCI investment moving to this was the 32 originally received. It goes to deferred revenue, and then with that revenue when it's invested, that deferred statement side. The cash, the tally, moves statement. So it's really — it's two sides. THE CHAIRMAN: Any other questions, comments? MR. DAVID: MR. DAVID: MR. DAVID: MR. DAVID: MR. DAVID: MR. DAVID: MR. JACKSON: MR. FAIRCHILD:	1	•	5	MR. KATSANIS:
third page of the audit report. MR. JACKSON: MR. FAIRCHILD: Right, yes. Right. MS. MANNING: So the SSBCI investment moving to revenue, I'm just curious, how does the provenue when it's investment bears are revenue when it's investment bears and investment funds. First, which is really essentially the summary of our analysis. As of 2024, June 2024, we performed a valuation of number of investment become revenue? MR. FAIRCHILD: It's the deferred revenue. When you receive the SSBCI funds, they're not all—this was the 32 originally received. It goes to deferred revenue, and then with that revenue when it's invested, that deferred page 14 revenue moves from the liability to the income statement side. The cash, the tally, moves from —decreases cash and increases the investment. So it's really—it's two sides. THE CHAIRMAN: MR. DAVID: MR. DAVID: MR. DAVID: MR. JACKSON: THE CHAIRMAN: Any other questions, comments? Any comments from the public? Any ofter discussion? Hearing none, all in favor, ""ye," THE COMMISSION: Aye. THE CHAIRMAN: Aye. The commission and investment banking investment banking investment backing investmently our page 44 in your packet, which is really contracted to value your — the LED's investmently be contracted to value your — the LED's investmently ont page 44 in your packet, which is realty essentially investment of unumber of investment firm the public and investment fund. This was the initial reversure when it's investment fund. This was the carbot was a slight up market adjustment, secure a decline in early years, and then you'll see Page 16 And the fund when it is investment fund. We had a market value adjustment down this year for especially BIDCO That's BIDCO loan company. There wa	1		6	•
MR. JACKSON: You mentioned it in the opening 10 You mentioned it in the opening 11 letter. South SSECI (Inc.) South Statement side. Sout		-		-
10 You mentioned it in the opening letter. 11 12 13 Right, yes. Right. 12 13 Right, yes. Right. 13 Right, yes. Right. 14 MR. JACKSON: 14 in your packet, which is really essentially 15 Okay. Thank you. 16 MS. MANNING: 16 2024. Une SSBCI investment moving to 18 revenue, I'm just curious, how does the 19 investment become revenue? 19 that's reflected in this year's audit valuation. This is a Boot 64, which is a seed investment it's invested, that deferred Page 14 25 revenue when it's invested, that deferred 25 revenue when it's invested, that deferred Page 14 26 THE CHAIRMAN: 16 Any other questions, comments? 17 Hearing none, I'll obtain a motion 18 Any other questions, comments? 19 MR. JACKSON: 11 Second by Mr. Jackson. 11 MR. JACKSON: 12 Second. 13 THE CHAIRMAN: 15 Any comments from the public? Any 16 Other discussion? Hearing none, all in favor, 17 "Aye." 18 THE COMMISSION: 18 Sciences. Had some \$44,000 of capital Page 14 19 Page 16 Page 16 Page 17 Page 18 Page 19 Page	1			
letter. 11	1			· ·
12 MR. FAIRCHILD: 13 Investments. 14 In your packet, which is really essentially the summary of our analysis. As of 2024, June 2024, we performed a valuation of number of investment become revenue? 16 2024, we performed a valuation of number of investment become revenue? 18 is, this is the only SSBCI 20 investment investment become revenue? 19 that's reflected in this year's audit valuation. This is a Boot 64, which is a seed investment fund. This was the initial investment fund. This was the initial investment in some of these early stage funds because of time horizon and liquidity, you see a decline in early years, and then you'll see Page 14 22 23 a decline in early years, and then you'll see Page 16 24 25 26 27 27 28 28 29 29 29 29 29 29	1	1 0		
Right, yes. Right. MR. JACKSON: Okay. Thank you. MS. MANNING: So the SSBCI investment moving to revenue, I'm just curious, how does the investment become revenue? MR. FAIRCHILD: It's the deferred revenue. When you receive the SSBCI funds, they're not all revenue when it's invested, that deferred revenue, and then with that reflected in this year's audit valuation. This is a Boot 64, which is a seed investment in some of these early stage funds because of time horizon and liquidity, you see a decline in early years, and then bump up in valuation in the harvesting years. There was market value adjustment down this year for Boot 64. THE CHAIRMAN: MR. DAVID: MR. JACKSON: The next fund on the list, the Catalyst Fund, which is here in Baton Rouge. Early stage investment fund. We had a market value increase of \$54,000 in 2024. The Healthcare Innovation Fund, an increase of \$59,000 for the year. Louisiana Fund, which is based throughout the state and has focused on life sciences. Had some \$47,000 of capital returned to LED this year from exits and upward market adjustment	1			
14 MR. JACKSON: 15 Okay. Thank you. 16 MS. MANNING: 17 So the SSBCI investment moving to revenue, I'm just curious, how does the investment become revenue? 19 investment become revenue? 20 MR. FAIRCHILD: 21 It's the deferred revenue. When you receive the SSBCI funds, they're not all—this was the 32 originally received. It goes to deferred revenue, and then with that revenue when it's invested, that deferred Page 14 1 revenue moves from the liability to the income statement side. The cash, the tally, moves from—checreases cash and increases the investment. So it's really—it's two sides. 2 THE CHAIRMAN: 3 on the CPA's report. 4 on the CPA's report. 5 MR. JACKSON: 10 MR. DAVID: 11 MR. JACKSON: 12 Second. 13 THE CHAIRMAN: Motion for approval. 14 Second by Mr. Jackson. 15 Any comments from the public? Any other discussion? Hearing none, all in favor, "Aye." 16 other discussion? Hearing none, all in favor, "Aye." 17 "Aye." 18 THE COMMISSION: 18 in your packet, which is really essentially the the summary of our analysis. As of 2024, June 2024, we performed a valuation of number of investment funds. First, which is I'l gour all valuation of number of investment tunds. First, which it's I'l gour all valuation. This is a Boot 64, which is a seed investment thunds. First, which it's I'l go into investment tunds. First, which it's I'l goin to investment tunds. First, which it's light and valuation. This is a Boot 64. 1 during the investment period and then bump up in valuation in the harvesting years. There was market value adjustment down this year for Boot 64. 1 during the investment period and then bump up in valuation in the harvesting years. There was market value adjustment down this	1			
15 Okay. Thank you. 16 MS. MANNING: 17 So the SSBCI investment moving to 18 revenue, I'm just curious, how does the 19 investment become revenue? 20 MR. FAIRCHILD: 21 It's the deferred revenue. When you 122 receive the SSBCI funds, they're not all—23 this was the 32 originally received. It goes 14 to deferred revenue, and then with that 25 revenue when it's invested, that deferred Page 14 revenue moves from the liability to the income 14 investment. So it's really—it's two sides. 15 THE CHAIRMAN: 16 Any other questions, comments? 17 Hearing none, I'll obtain a motion 18 on the CPA's report. 19 MR. DAVID: 19 MR. DAVID: 19 MR. DAVID: 10 Motion. 10 MR. JACKSON: 11 Second. 11 THE CHAIRMAN: 4 Second by Mr. Jackson. 4 Any comments from the public? Any other discussion? Hearing none, all in favor, 17 "Aye." 17 Other discussion? Hearing none, all in favor, 17 "Aye." 17 The CHAIRMAN: 20 THE CHAIRMAN: 21 All opposed, "Nay." 21 Minuspitality and the source investment woing to investment funds. First, which I'll go into is, this is the only SSBCI 2.0 investment investment first, which is a seed investment fund. This is a Boot 64, which is a seed investment. When you initially make an investment in some of these early stage funds because of time horizon and liquidity, you see a decline in early years, and then bump up in valuation in the harvesting years. There was a slight up dath that a decline in early years, and then bump up in valuation in the harvesting years. There was a slight up market adjustment, sepecially BIDCO. That's BIDCO loan company. There was a slight up market adjustment, sepecially BIDCO. That's BIDCO loan company. There was a slight up market adjustment, sepecially BIDCO. That's BIDCO loan company. 1 Had a slight market value increase in 2024. 2 And lastly, Themelios Ventures, which is also a life science early stage focused fund. Had a market value adjustment of upward of 61,000 in 2024. 3 Anyone have any questions I can address them. 4 THE CHAIRMAN: 5 Questions, comments? 6 MS. GLOVER: 1 J guess III ask one real quick one. 1 You said Boot 64 investments were down? 1 I L's a function of the market value of any sort of carrly stage fund because essentially, it's a really long time horizon investment and the way that the financial accounting rules view it, or what if you were to try to sell the ownership interest that 23 stage where they are right now, there is a large valuation on it, but in due time, assuming that the company does well, the assuming that the company does well, the page 18 1 valuation will increase? 2 MR. KATSANIS: 3 Yes, yes. Final investment returns but it's, like, okay, you have this money tied up for seven, ten years. I don't know. For a long period of time because the company is in a really early stage and it's really a matter of kind of that liquidity tie up that produces that value. 5 MS. MANNING: 4 Valuation will increase? 5 MR. KATSANIS: 6 MS. MANNING: 7 A really stage and it's really a matter of kind of that liquidity tie up that produces that value. 8 MS. MANNING: 9 MR. KATSANIS: 10 MR. KATSANIS: 11 What model are you using to get to market value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in the values that they're at least got a methodology for getting a fair market value in this exercise? Is there a formula you're value in the you do with regards the market value in this exer				
which is also a life science early stage focused fund. Had a market value adjustment of upward of 61,000 in 2024. Anyone have any questions I can address them. THE CHAIRMAN: Questions, comments? MS. GLOVER: 1 guess I'll ask one real quick one. 12 You said Boos of 4 investments were down? 13 MR. KATSANIS: 16 of any sort of early stage fund because essentially, it's a really long time horizon investment and the way that the financial accounting rules view it, or what if you were to try to sell the ownership interest that 12 LEDC has. 21 MS. GLOVER: 22 So I'm assuming that based on the 23 stage where they are right now, there is a large valuation on it, but in due time, assuming that the company does well, the assuming that the company does well, the page 18 1 valuation will increase? 2 valuation will increase? 3 Ves., yes. Final investment returns but it's, like, okay, you have this money tied up for seven, ten years. I don't know. For a long period of time because the company is in a really carly stage and it's really a matter of kind of that liquidity tie up that produces that value. MS. MANNING: 1 think I've asked this question 2 before, but you're valuing our holdings in the individual funds. What do you do with regards 2 to -and I see that the schedules in all the documents say company prepared or prepared by the fund. What testing, if any, do you do a ro individual investments that make it up? Do you do anything to validate that they've at least got a methodology for each one. 1 The CHAIRMAN: 1 Wa. KATSANIS: 1 Wes. Poretically, they all do. 2 Wes. Basically, we go through and inte		_	1	that considers the timing and risk associated
focused fund. Had a market value adjustment of fupward of 61,000 in 2024. Anyone have any questions I can address them. THE CHAIRMAN: Questions, comments? MS. GLOVER: I guess I'll ask one real quick one. You said Boot 64 investments were down? MR. KATSANIS: I's a function of the market value of any sort of early stage fund because escentially, it's a really long time horizon investment and the way that the financial accounting rules view it, or what if you were to try to sell the ownership interest that LEDC has. MS. GLOVER: MS. MANNING: MR. KATSANIS: MS. GLOVER: MS. MANNING: MR. KATSANIS: MS. MANNING: MR. KATSANIS: MS. MANNING: MR. MANNING: MR. MANNING: MR. KATSANIS: MR. MANNING: What would use the the more it's discounted. MR. MANNING: MR. MANNING: What would use the the more it's discounting rules on discounting rules with of the individual funds. What do you do with regards to any of		• • • • • • • • • • • • • • • • • • • •	2	with that period of illiquidity. And there's
of upward of 61,000 in 2024. Anyone have any questions I can address them. THE CHAIRMAN: Questions, comments? MS. GLOVER: 1	3	which is also a life science early stage	3	an exhibit for each of those, for each fund
describing. Anyone have any questions I can address them. THE CHAIRMAN: Questions, comments? MS. GLOVER: 1	4	·	4	•
address them. THE CHAIRMAN: Questions, comments? MS. GLOVER: Tyou said Boot 64 investments were down? MR. KATSANIS: Tik a function of the market value of any sort of early stage fund because essentially, it's a really long time horizon investment and the way that the financial accounting rules view it, or what if you were to try to sell the ownership interest that Lep Chas. MS. GLOVER: MR. KATSANIS: MR. KATSANIS: MR. KATSANIS: MR. GLOVER: MS. GLOVER: MS. GLOVER: MS. GLOVER: MS. GLOVER: MS. GLOVER: MS. GLOVER: MR. JACKSON: I think I've asked this question before, but you're valuing our holdings in the before, but you'ne valuing our before, but you'ne valuing our holdings in the before, but you'ne valuing our holdings in the before, but you'ne valuing our before, but you'ne valuing our holdings in the before, but you'ne valuing our holdings in the before, but you'ne valuing our holdings in the value was you do with regards to -and I see that the schedules in all the documents say company prepared or prepared by be fund. What testing, if any, do you do to you do any testing at all to valuidate that they be at least got a merket value that they put on those inverted the market value that they put on those inverted t	5	of upward of 61,000 in 2024.	5	underlying assumptions in that.
THE CHAIRMAN: Questions, comments? MS, GLOVER: 11	6	Anyone have any questions I can	6	And basically it accounts for
Questions, comments?	1	address them.	7	essentially well, the longer you have to
MS. GLOVER: 10	8	THE CHAIRMAN:	8	tie up the money, the riskier the investment,
Il guess I'll ask one real quick one. You said Boot 64 investments were down? IM KATSANIS: It's a function of the market value of any sort of early stage fund because essentially, it's a really long time horizon rinvestment and the way that the financial accounting rules view it, or what if you were to try to sell the ownership interest that EDC has. It's of line was ming that based on the stage where they are right now, there is a large valuation on it, but in due time, assuming that the company does well, the assuming that the company does well, the Page 18 I valuation will increase? I was kat SANIS: A Was KATSANIS: I what the company does well, the Page 18 I valuation will increase? I waluation will increase? I was well the price of kind of that liquidity tie up that produces that value. I what model are you using to get to market value in this exercise? Is there a formula you're using? I was kat SANIS: I what model are you using to get to market value in this exercise? Is there a formula you're using? I was kat SANIS: I what model are you using to get to market value in this exercise? Is there a formula you're using? I was kat Assanis: I was good question. There are two market value adjustments that are being made. I was do and a lack of marketability discount that's applied. The first, we look at market comparables of equity investment funds. We quantify that discount, which is shown on - comparables of equity investment funds. We quantify that discount, which is shown on - comparables of equity investment funds. I was do do destributed in the values that the fund has assigned to the individual investments that make they we that value. I the values that the fund has assigned to the individual investments that make it up? Do you do anything to validate that they've at least got a methodology for getting a fair market value that they put on those investments that make them up? MR. KATSANIS: Yeah. Basically, we go through an interview the fund managers and really discuss each of market ability discount	9	Questions, comments?	9	the more it's discounted.
You said Boot 64 investments were down? MR. KATSANIS: It's a function of the market value It's a fun	10	MS. GLOVER:	10	MS. MANNING:
13 MR. KATSANIS: 14 It's a function of the market value 15 of any sort of early stage fund because 16 essentially, it's a really long time horizon 17 investment and the way that the financial 18 accounting rules view it, or what if you were 19 to try to sell the ownership interest that 20 LEDC has. 21 MS. GLOVER: 22 So I'm assuming that based on the 23 stage where they are right now, there is a 24 large valuation on it, but in due time, 25 assuming that the company does well, the 26 Page 18 1 valuation will increase? 1 valuation will increase? 2 MR. KATSANIS: 3 Yes, yes. Final investment returns 4 but it's, like, okay, you have this money tied 5 up for seven, ten years. I don't know. For a 6 long period of time because the company is in 7 a really early stage and it's really a matter 8 of kind of that liquidity tie up that produces 9 that value. 10 MS. MANNING: 11 think I've asked this question 12 before, but you're valuing our holdings in the 12 documents say company prepared or prepared by 12 the values that the schedules in all the 13 documents say company prepared or prepared by 14 the fund. What testing, if any, do you do to 15 page 20 16 MS. MANNING: 17 the fund. What testing, if any, do you do with regards 18 to and I see that the schedules in all the 19 documents say company prepared or prepared by 10 the fund. What testing, if any, do you do anything to validate that they ve at 11 least got a methodology for getting a fair 12 market value: 13 market value in this exercise? Is there a 14 market value adjustments that are being made. 15 There is a kind of lack of control discount 17 There is a kind of lack of control discount 18 market value adjustments that are being made. 19 The of water value adjustments that are being made. 19 The of water value in this exercise? Is there a 19 market value adjustments that are being made. 10 market value adjustments that are being made. 11 think I've asked this question 12 the values that the schedules in all the 13 documents say company prepared or prepared by	11	I guess I'll ask one real quick one.	11	So just to summarize, you're
It's a function of the market value of any sort of early stage fund because essentially, it's a really long time horizon investment and the way that the financial accounting rules view it, or what if you were to try to sell the ownership interest that LEDC has. LEDC has. MS. GLOVER: So I'm assuming that based on the assuming that the company does well, the assuming that the company does well, the wassuming that the company does well, the assuming that the company does well, the but it's, like, okay, you have this money tied up for seven, ten years. I don't know. For a long period of time because the company is in a really early stage and it's really a matter of formula you're using? MR. KATSANIS: MS. MANNING: I think I've asked this question before, but you're valuing our holdings in the individual funds. What do you do up our holdings in the individual funds. What do you do what the grards to individual funds. What do you do who to wassuming that the company does well, the assuming that the company does well, the wassuming that the company does well, the assuming that the company is in documents say company prepared or prepared by the fund. What testing, if any, do you do to Page 20 The valuation will increase? I the values that the fund has assigned to the individual investments that make it up? Do you do anything to validate that they've at least got a methodology for getting a fair market value. Theoretically, they all do. But do you do any testing at all to validate the market value that they put on those investments that make them up? MR. KATSANIS: Yeah. Basically, we go through and interview the fund managers and really discuss eac	12	You said Boot 64 investments were down?	12	discounting based on different types of risk
15 of any sort of early stage fund because essentially, it's a really long time horizon investment and the way that the financial accounting rules view it, or what if you were to try to sell the ownership interest that 20 LEDC has. 21 MS. GLOVER: 22 So I'm assuming that based on the stage where they are right now, there is a 24 large valuation on it, but in due time, 25 assuming that the company does well, the but it's, like, okay, you have this money tied up for seven, ten years. I don't know. For a 1 a really early stage and it's really a matter of kind of that liquidity tie up that produces that value. 25 MS. MANNING: 36 Horizontal MR. KATSANIS: 37 A really a matter of kind of that liquidity tie up that produces that value. 38 MS. MANNING: 39 MR. KATSANIS: 30 MR. MANNING: 31 Wat do you do with regards to and I see that the schedules in all the documents say company prepared or prepared by the fund. What testing, if any, do you do to Page 20 where fund investments that make it up? Do you do anything to validate that they've at least got a methodology for getting a fair market value? Theoretically, they all do. But do you do any testing at all to validate the market value that they put on those investments that make them up? MR. KATSANIS: 31 MR. KATSANIS: 32 MR. KATSANIS: 33 MR. KATSANIS: 34 MR. KATSANIS: 35 MR. KATSANIS: 36 MR. KATSANIS: 37 MR. KATSANIS: 38 MR. KATSANIS: 39 MR. KATSANIS: 30 MR. KATSANIS: 31 MR. KATSANIS: 31 MR. KATSANIS: 31 MR. KATSANIS: 32 MR. KATSANIS: 34 MR. KATSANIS: 35 MR. KATSANIS: 36 MR. KATSANIS: 37 MR. KATSANIS: 38 MR. KATSANIS: 39 MR. KATSANIS: 30 MR. KATSANIS: 3	13	MR. KATSANIS:	13	from the initial value?
16 essentially, it's a really long time horizon investment and the way that the financial accounting rules view it, or what if you were to try to sell the ownership interest that LEDC has. 21 MS. GLOVER: 22 So I'm assuming that based on the stage where they are right now, there is a large valuation on it, but in due time, assuming that the company does well, the Page 18 1 valuation will increase? 2 MR. KATSANIS: 2 MR. KATSANIS: 3 Yes, yes. Final investment returns but it's, like, okay, you have this money tied up for seven, ten years. I don't know. For a long period of time because the company is in a raelly early stage and it's really a matter of kind of that liquidity tie up that produces that value. 3 MS. MANNING: 1 think I've asked this question before, but you're valuing our holdings in the individual funds. What documents say company prepared or prepared by the fund. What testing, if any, do you do to the fund. What testing, if any, do you do to Page 20 2 and 3 MS. MANNING: 3 I think I've asked this question before, but you're valuing our holdings in the individual funds. What documents say company prepared or prepared by the fund. What testing, if any, do you do to Page 20 3 Yes, yes. Final investment returns of kind of that liquidity tie up that produces that value. 4 but it's, like, okay, you have this money tied up for seven, ten years. I don't know. For a least got a methodology for getting a fair market value? Theoretically, they all do. But do you do any testing at all to validate that they've at least got a methodology for getting a fair market value? Theoretically, they all do. But do you do any testing at all to validate that they've at least got a methodology for getting a fair market value? Theoretically, they all do. But do you do any testing at all to validate that they've at least got a methodology for getting a fair market value adjustments that are being made. The market value adjustments that are being made. There is a kind of lack of control discount and a lack of marketability disc	14	It's a function of the market value	14	MR. KATSANIS:
investment and the way that the financial accounting rules view it, or what if you were to try to sell the ownership interest that 20 LEDC has. 20 LEDC has. 21 MS. GLOVER: 22 So I'm assuming that based on the 23 stage where they are right now, there is a 24 large valuation on it, but in due time, 25 assuming that the company does well, the Page 18 valuation will increase? 21 Waluation will increase? 22 MR. KATSANIS: 23 Wes, yes. Final investment returns 24 but it's, like, okay, you have this money tied 25 up for seven, ten years. I don't know. For a 26 long period of time because the company is in 27 a really early stage and it's really a matter 29 that value. 29 that value. 29 that value. 29 that value in this exercise? Is there a 21 from la lack of market value in this exercise? Is there a 21 from la lack of market value adjustments that are being made. 21 from to sure how it's labeled in your 22 exhibits, but our exhibit numbers is Exhibits 21 east got any of the before, but you're valuing our holdings in the individual funds. What do you do with regards to and I see that the schedules in all the documents say company prepared or prepared by the fund. What testing, if any, do you do to Page 20 you do anything to validate that they've at least got a methodology for getting a fair market value that they put on those investments that make them up? MR. KATSANIS: Yeah. Basically, we go through and interview the fund managers and really discuss each company and have them walk us through their methodology for each one. THE CHAIRMAN: You described the model. Is that a standard sort of model in the industry around the country for conducting that type of analysis? MR. KATSANIS: Yes, yes it is. For the liquidity. THE CHAIRMAN: Any other questions, comments? Hearing none, what is the pleasure of the board? MS. GLOVER:	15	of any sort of early stage fund because	15	Yes.
to try to sell the ownership interest that to to try to sell the ownership interest that to to try to sell the ownership interest that to to try to sell the ownership interest that to to try to sell the ownership interest that the temporary of the fore, but you're valuing our holdings in the individual funds. What do you do with regards to - and I see that the schedules in all the documents say company prepared by the fund. What testing, if any, do you do to Page 20 1 valuation will increase? 1 valuation will increase? 2 MR. KATSANIS: 3 Yes, yes. Final investment returns 4 but it's, like, okay, you have this money tied 5 up for seven, ten years. I don't know. For a 6 long period of time because the company is in 6 a really early stage and it's really a matter of kind of that liquidity tie up that produces 8 of kind of that liquidity tie up that produces 8 of kind of that liquidity tie up that produces 8 that value. 9 MR. KATSANIS: 10 MS. MANNING: 10 MS. MANNING: 11 What model are you using to get to market value in this exercise? Is there a 12 market value in this exercise? Is there a 12 market value in this exercise? Is there a 12 market value and a lack of marketability discount that's a applied. The first, we look at market 20 comparables of equity investment funds. We 20 quantify that discount, which is shown on 17 m not sure how it's labeled in your 22 exhibits, but our exhibit numbers is Exhibits 23 essentially option pricing evaluation model 25 sent all to valuation on whit is labeled in your 25 essentially option pricing evaluation on del 25 sent all to validate the individual investments that make it up? Do you do anything to validate that they be of individual investments that make it up? Do you do anything to validate that they be of analysis and an	16	essentially, it's a really long time horizon	16	MS. MANNING:
to try to sell the ownership interest that LEDC has. 19 MR. JACKSON: 11 think I've asked this question 22 So I'm assuming that based on the stage where they are right now, there is a large valuation on it, but in due time, assuming that the company does well, the Page 18 11 valuation will increase? 12 MR. KATSANIS: 13 Yes, yes. Final investment returns 14 but it's, like, okay, you have this money tied up for seven, ten years. I don't know. For a for kind of that liquidity tie up that produces of kind of that liquidity tie up that produces that value. 10 MS. MANNING: 11 What model are you using to get to market value in this exercise? Is there a formula you're valuage dups in the individual funds. What do you do with regards to — and I see that the schedules in all the documents say company prepared or prepared by the fund. What testing, if any, do you do to Page 20 12 the values that the fund has assigned to the individual investments that make it up? Do you do anything to validate that they've at least got a methodology for getting a fair market value? Theoretically, they all do. 16 long period of time because the company is in a really early stage and it's really a matter of kind of that liquidity tie up that produces that value. 19 MR. KATSANIS: 10 MS. MANNING: 11 What model are you using to get to market value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value? 10 MR. KATSANIS: 11 What model are you using to get to formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a formula you're value in this exercise? Is there a f	17	investment and the way that the financial	17	Okay. Got it. Thank you. Make
LEDC has. MS. GLOVER: So I'm assuming that based on the 23 stage where they are right now, there is a 24 large valuation on it, but in due time, 25 assuming that the company does well, the 26 Page 18 1 valuation will increase? 2 MR. KATSANIS: 3 Yes, yes. Final investment returns 4 but it's, like, okay, you have this money tied 4 long period of time because the company in 6 long period of time because the company in 6 long bear of kind of that liquidity tie up that produces 4 that value. MS. MANNING: MS. MANNING: MS. MANNING: MR. KATSANIS: MR. KATS	18	accounting rules view it, or what if you were	18	sense.
MS. GLOVER: So I'm assuming that based on the stage where they are right now, there is a large valuation on it, but in due time, assuming that the company does well, the Page 18 valuation will increase? MR. KATSANIS: Yes, yes. Final investment returns but it's, like, okay, you have this money tied up for seven, ten years. I don't know. For a of kind of that liquidity tie up that produces that value. MS. MANNING: MS. GLOVER:	19	to try to sell the ownership interest that	19	MR. JACKSON:
So I'm assuming that based on the stage where they are right now, there is a large valuation on it, but in due time, assuming that the company does well, the Page 18 1 valuation will increase? 1 valuation will increase? 2 MR. KATSANIS: 3 Yes, yes. Final investment returns 4 but it's, like, okay, you have this money tied long period of time because the company is in a really early stage and it's really a matter of kind of that liquidity tie up that produces that value. 1 MS. MANNING: 10 MS. MANNING: 11 What model are you using to get to market value in this exercise? Is there a formula you're using? 11 MR. KATSANIS: 12 market value adjustments that are being made. 13 It's a good question. There are two market value adjustments that are being made. 16 market value adjustments that are being made. 17 There is a kind of lack of control discount and a lack of marketability discount that's applied. The first, we look at market under the model. Is that a standard sort of model in the industry around the country for conducting that type of analysis? 18 and a lack of marketability discount that's applied. The first, we look at market under the model. Is that a standard sort of model in the industry around the country for conducting that type of analysis? 19 applied. The first, we look at market under the model. Is that a standard sort of model in the industry around the country for conducting that type of analysis? 19 applied. The first, we look at market under the country for conducting that type of analysis? 20 comparables of equity investment funds. We quantify that discount, which is shown on I'm not sure how it's labeled in your exhibit, but our exhibit numbers is Exhibits 2 and 3. And then the second is based upon an essentially option pricing evaluation model 25 MS. GLOVER:	20	LEDC has.	20	I think I've asked this question
stage where they are right now, there is a large valuation on it, but in due time, assuming that the company does well, the Page 18 valuation will increase? MR. KATSANIS: MR. KATSANIS: Syes, yes. Final investment returns but it's, like, okay, you have this money tied up for seven, ten years. I don't know. For a long period of time because the company is in a really early stage and it's really a matter of kind of that liquidity tie up that produces that value. MS. MANNING: MS. MANNING: MR. KATSANIS: MR.	21	MS. GLOVER:	21	before, but you're valuing our holdings in the
24 large valuation on it, but in due time, assuming that the company does well, the Page 18 1 valuation will increase? 2 MR. KATSANIS: 3 Yes, yes. Final investment returns 4 but it's, like, okay, you have this money tied 5 up for seven, ten years. I don't know. For a 6 long period of time because the company is in 7 a really early stage and it's really a matter 8 of kind of that liquidity tie up that produces 9 that value. 9 MR. KATSANIS: 10 MS. MANNING: 10 MS. MANNING: 11 What model are you using to get to 12 market value in this exercise? Is there a 13 formula you're using? 14 MR. KATSANIS: 15 It's a good question. There are two 16 market value adjustments that are being made. 17 There is a kind of lack of control discount 18 and a lack of marketability discount that's 19 applied. The first, we look at market 20 comparables of equity investment funds. We 21 quantify that discount, which is shown on 22 I'm not sure how it's labeled in your 23 exhibits, but our exhibit numbers is Exhibits 24 2 and 3. And then the second is based upon an 25 essentially option pricing evaluation model 24 documents say company prepared or prepared by the fund. What testing, if any, do you do to Page 20 4 the values that the fund has assigned to the individual investments that make it up? Do you do anything to validate that they've at least got a methodology for getting a fair market value? Theoretically, they all do. But do you do any tresting at all to validate the market value that thep' ve at least got a methodology for getting a fair market value? Theoretically, they all do. But do you do any tresting at all to validate the market value and any to validate that they've at least got a methodology for getting a fair market value? Theoretically, they all do. But do you do any tresting at all to validate the market value that thep' to a least got a methodology for getting a fair market value? Theoretically, they all do. But do you do any tresting at all to validate the market value that they've at least got a methodology	22	So I'm assuming that based on the	22	individual funds. What do you do with regards
25 assuming that the company does well, the Page 18 1 valuation will increase? 2 MR. KATSANIS: 3 Yes, yes. Final investment returns 4 but it's, like, okay, you have this money tied 5 up for seven, ten years. I don't know. For a 6 long period of time because the company is in 7 a really early stage and it's really a matter 8 of kind of that liquidity tie up that produces 9 that value. 9 MR. KATSANIS: 10 MS. MANNING: 11 What model are you using to get to 11 mort sure how it's labeled in your 12 a market value adjustments that are being made. 15 mort sure how it's labeled in your 26 and 3. And then the second is based upon an 27 essentially option pricing evaluation model 10 valuation will increase? 1 the fund. What testing, if any, do you do to Page 20 1 the values that the fund has assigned to the individual investments that make it up? Do you do anything to validate that they've at least got a methodology for getting a fair market value that they put on those investments that make them up? 10 MS. MANNING: 11 What model are you using to get to 12 each company and have them walk us through their methodology for each one. 13 formula you're using? 14 MR. KATSANIS: 15 It's a good question. There are two 16 market value adjustments that are being made. 16 mort and a lack of marketability discount that's 18 and a lack of marketability discount that's 19 applied. The first, we look at market 19 MR. KATSANIS: 20 comparables of equity investment funds. We 21 quantify that discount, which is shown on 22 I'm not sure how it's labeled in your 23 exhibits, but our exhibit numbers is Exhibits 24 2 and 3. And then the second is based upon an 25 essentially option pricing evaluation model 26 the fund. What testing, if any, do you described the individual investments that make them up? 26 the to value? Theoretically, they all do. 27 the value? Theoretically and they out do any testing at fair market value that they ve at least got a methodology for getting a fair market value that they ve at least got a methodology for ge	23	stage where they are right now, there is a	23	to and I see that the schedules in all the
valuation will increase? 1 valuation will increase? 2 MR. KATSANIS: 3 Yes, yes. Final investment returns 4 but it's, like, okay, you have this money tied 5 up for seven, ten years. I don't know. For a 6 long period of time because the company is in 7 a really early stage and it's really a matter 8 of kind of that liquidity tie up that produces 9 that value. 9 MR. KATSANIS: 10 MS. MANNING: 10 What model are you using to get to 11 mrot sure how it's labeled in your 18 and a lack of marketability discount, which is shown on— 21 exhibits, but our exhibit numbers is Exhibits 24 2 and 3. And then the second is based upon an 25 essentially option pricing evaluation model 1 the values that the fund has assigned to the individual investments that make it up? Do you do anything to validate that they've at least got a methodology for getting a fair midvidual investments that make it up? Do you do anything to validate that they've at least got a methodology for getting a fair midvidual investments that make it up? Do you do anything to validate that they've at least got a methodology for getting a fair midvidual investments that make it up? Do you do anything to validate that they've at least got a methodology for getting a fair market value? Theoretically, they all do. But do you do anything to validate that they've at least got a methodology for getting a fair market value that they put on those investments that make them up? MR. KATSANIS: Yeah. Basically, we go through and interview the fund managers and really discuss each company and have them walk us through their methodology for each one. THE CHAIRMAN: You described the model. Is that a standard sort of model in the industry around the country for conducting that type of analysis? MR. KATSANIS: Yes, yes it is. For the liquidity. THE CHAIRMAN: Yes, yes it is. For the liquidity. THE CHAIRMAN: Any other questions, comments? Any other questions, comments? Any other questions, comments? MR. 1	company, and the total investment in	1	lead in those scenarios. I've even spoken to
2	Biophoundry, Incorporated, is \$250,000.	2	people that are not in the SSBCI program like
3	The next company is Arix	3	Benson Capital, which is part of the Benson
4	Technologies. Arix Technologies is a pipe	4	family's investment portfolio. And Mike Katz,
5	corrosion inspection and maintenance company	5	who runs Benson Capital, has said very
6	with the total investment of \$250,000.	6	honestly that he now will save dry powder as
7	Tulane is also investing in KidKred,	7	they call it, or extra dollars for follow
8	Incorporated, doing business as Hilight, an	8	arounds from Boot 64. So you're starting to
9	employment engagement platform, and the total	9	see the ecosystem begin to work, and I give
10	investment amount there is \$150,000.	10	those guys a lot of credit because they're
11	Lastly, Tulane is investing in Hello	11	just moving faster than everyone else's, and
12	Gravel as well. As mentioned, Hello Gravel is	12	they've kind of upped everyone else's game.
13	a gravel and aggregates delivery company and	13	MR. JACKSON:
14	the total investment is \$100,000.	14	They actually won an award in the
15	With the exception of QiMana, all of	15	small business last year for the best startup
16	these companies that I mentioned are	16	or best fund startup. So it's something like
17	SEDI-owned businesses. And if there are no	17	that.
18	questions, comments, or concerns, that	18	MS. RANEY."
19	concludes my report for this morning.	19	They were the equity fund of the
20	MS. GLOVER:	20	year, that's correct.
21	I do have a comment, and it's, I	21	MR. JACKSON:
22	guess, it's for you or for anyone else on the	22	Equity fund of the year, yeah. John
23	staff. So since we have started this fund,	23	Roberts, good group.
24	based on the reports we've gotten each month,	24	MS. MANNING:
25	Boot 64 seems very impressive in the work that	25	I can speak to as an angel investor,
	Page 30	23	Page 32
1	they're doing. If ever there is an	1	something that and a founder, something
2	opportunity for them to present to the board	2	that's very can be very frustrating in this
3	about how they structure it, why they're able	3	ecosystem right now, is in alignment with what
4	to fund so many people, what is your strategy	4	Josh said, which is smaller angel investors
5	for it, how are they deciding to make	5	will not invest until they get that signature
6	investments, it would very much be welcome.	6	investor, that proponent of investing. And so
7	MR. FLEIG:	7	it can be a little bit of chicken and the egg,
8	Yeah, we will ask them to come	8	and people can be very risk averse, and you
9	present, and I couldn't agree more. They have	9	really need someone in the ecosystem to jump
10	set the pace for this program. What they've	10	in, and then people will follow. And you see
11	also done is they've kind of changed the	11	that here with Hello Gravel, right? There's a
12	culture a little bit, and they're just writing	12	couple that went through the funds, and it's a
13	more small checks, taking risks earlier on,	13	little bit. I don't mean this in a
14	taking pre-revenue risks. And it demonstrated	14	
15	• •		disparaging way, but like lemmings, right?
1	to the market that if they take the lead,	15	Like, once you get one, you can get some
16	others will hop on. It's a very social game,	16	momentum. So I think that's something that we
17	right? Especially, certainly when you're	17	should be aware of as a challenge with poor
18	it's hard to spreadsheet this stuff, it's	18	people in startups raising funds is that first
19	pre-revenue. And so what they've done is a	19	check is really hard to get.
20	really good job of taking the lead and	20	MR. JACKSON:
21	syndicating some of these deals.	21	They have an active presence on
22	I mean, if you look at just the deal	22	LinkedIn with ongoing commentary. If you're
23	flow activity from the partners, you're	23	on that platform, you probably would enjoy
24	hearing they're all writing smaller checks and	24	reading some of their comments.
25	syndicating. In many cases, Boot 64 is the Page 31	25	MR. FLEIG:
	Fage 31		rage 33

1	And we will absolutely ask them to	1	32,511,878, of which 4,015,000 has been
2	come present for us.	2	approved by the board. We have 2,950,000 that
3	MS. HENDERSON:	3	are under review, and we have a projected year
4	Thank you all.	4	end balance of \$25,546,878.
5	THE CHAIRMAN:	5	For capital outlay appropriation
6	Moving along to the Secretary of	6	regarding to the [inaudible] program, we have
7	Treasury's report, Ms. Villa.	7	2,010,962 that was budgeted, of which 400,000
8	MS. VILLA:	8	has been approved by the board this year. And
9	Good morning, Anne Villa, Deputy	9	we expect a balance of 1,610,962.
10	Secretary of CFO for LED. I am here this	10	We go to the next page, overall
11	morning to present the Secretary of Treasury's	11	total fund balance available projected for FY
12	report as of April 21st, 2025, for fiscal year	12	25 \$69,599,788. Total expenditures are
13	'25.	13	expected to be 32,956,274, which leaves an
14	Our total budget for the year is	14	expected fund balance availability of
15	\$54,314,106, with an approved projected	15	\$36,643,514.
16	expenditures of \$8,347,120. We don't have any	16	Are there any questions related to
17	pending approval from the board today, so	17	the Secretary of Treasury's report?
18	that's expecting your imbalance as well of \$45	18	MS. MANNING:
19	million. I'm sorry, we have projects under	19	So on page 2, the pending work group
20	review by the team of 2,950,000, which gives	20	amount is the same as the projected year-end
21	us a projected year imbalance of 43,016,985.	21	balance. Does that mean that the whole budget
22	I'll take you through each of the individual	22	has been earmarked?
23	categories that make up our total budget.	23	MS. VILLA:
24	If you go to the next page, our	24	Are you talking about the state
25	financial assistance program and our state	25	small business credit initiative? I don't
	Page 34		Page 36
1	small business credit initiative program	1	know what your page 2 is. So what's the
2	details within the Venture Capital Fund has a	2	title? Financial Assistance Program? Is that
3	total budget of \$6 million. Our Seed Capital,	3	the first thing listed?
4	\$6,115,000. Our collateral support,	4	MS. MANNING:
5	\$4,315,711. And our loan guarantee program of	5	Yes.
6	\$841,105. And the Micro Lending Program of	6	MS. VILLA:
7	\$450,000. So the board has approved the	7	Okay. So there's just nothing in
8	projects listed there throughout the year. As	8	front of the board for approval so that's
9	I said, we have no current pending board	9	why the board's already approved through
10	approval and none under review. So we have a	10	the course of year 2,000,879. We didn't have
11	projected year imbalance for what we're	11	anything in front of the board today to
12	considering our total financial assistance in	12	approve so that's why it was zero. And then
13	SSBCI of 15,337,894.	13	there's nothing currently that the team's
14	Go on to the next page. We have our	14	looking for.
15	Small Business Innovation Research Fund, which	15	MS. MANNING:
16	has a budget for FY 25 of 1,573,750 of which	16	Got it. I think I mixed my columns
17	1,052,500 has been expended and we have a	17	up with a zero and fifty million, so that made
18	balance of \$521,251 that's expected per year	18	a lot more sense.
19	end.	19	MS. VILLA:
20	If you go down to the next page,	20	Okay. No worries.
21	this is our capital outlay appropriation,	21	Any other questions? Great, thank
22	which the two categories there is our Economic	22	you all.
23	Development Award Program and our Economic	23	THE CHAIRMAN:
24	Development Site Readiness Program. And so	24	Entertain a motion to accept?
25	for FY 25 we have a budget for EDAP of	25	MR. DAVID:
	Page 35	23	Page 37

1	So moved.	1	MR. DAVID:
2	THE CHAIRMAN:	2	First of all, some of these are
3	Motion.	3	balloon payments. They're due at the end of
4	MR. JACKSON:	4	the year. Is that a big balloon payment
5	Second.	5	coming at the end?
6	THE CHAIRMAN:	6	MS. DALGO:
7	Second.	7	No, that one I believe is that loan
8	Any other discussion? Any comments	8	will be guaranteed. I can look at that for
9	from the public?	9	sure and get back with you on the next board
10	Hearing none, I'll take the "Aye."	10	meeting.
11	THE COMMISSION:	11	MS. RANEY:
12	Aye.	12	Typically, the loan term is longer
13	THE CHAIRMAN:	13	than our guarantee term.
14	Hearing no nay. Without objection.	14	MR. DAVID:
15	All right. The accountants report.	15	Okay. Thanks.
16	Ms. Dalgo, good morning.	16	THE CHAIRMAN:
17	MS. DALGO:	17	How do we come up with the
18	Good morning.	18	methodology for provisions of less than 100
19	I'm Crystal Dalgo. I'll be	19	percent? Based on our historical data over a
20	presenting to you the LEDC Accounting Status	20	number of years?
21	Report.	21	MS. RANEY:
22	First, we have the SSBCI 1.0	22	You're asking about the formula to
23	Guaranteed Loan Portfolio. And as of March	23	create what, Mr. AJ?
24	31, 2025, it consists of five loans and totals	24	THE CHAIRMAN:
25	\$1,155,439. And the allowance for the SSBCI Page 38	25	Well, anything less than 100
1	1.0 guaranteed loan losses is reflected at the	1	percent, I guess, which obviously we don't
2	current rate of 18 percent and is \$207,979.	2	have no problem with doing that. But we have
3	For the EDAP loan portfolio, we have	3	18 percent for the SSBCI, for example, and 15
4	two loans and as of March 31st, 2025, the	4	percent on the EDAP. That's based on
5	portfolio totals \$338,590. And the allowance		historical losses over a period of time or how
6	is reflected at the current rate of 15 percent	6	does that?
7	and is at \$50,788.	7	MS. RANEY:
8	On the next page, we have the LEDC	8	How is the 18 and 15 percent
9	Funds Guarantee Home Portfolio. It consists	9	derived?
10	of three loans. And as of March 31st, 2025,	10	MS. DALGO:
11	the portfolio totals \$2,411,689. And the	11	That would be from I mean, that's
12	allowance for this portfolio is reflected at	12	how we've always had the percentages based on,
13	the current rate of 18 percent and totals	13	I guess, not it was not a big payout
14	\$434,103.	14	guarantee that we didn't have to pay out.
15	Lastly, we have the SSBCI 2.0	15	MS. RANEY:
16	Guaranteed Loan Portfolio, and it consists of	16	Historical performance on defaults
17	nine loans. And as of March 31st, 2025, the	17	is how it was derived?
18	portfolio totals \$1,495,530. And the	18	MS. VILLA:
19	allowance for the SSBCI 2.0 Guarantee loan	19	Yeah, I'm thinking sorry, I was
20	loss is reflected at the current rate of 18	20	just looking at what AJ was looking, and say
21	percent and it is \$269,195.	21	for SSBCI 1.0 guaranteed loan losses there's
22	And that concludes my report. Do	22	an 18 percent calculation that we're doing for
23	you have any questions?	23	our reserve grants. So we've not had any
24	THE CHAIRMAN:	24	SSBCI. I'm trying to remember that we've
25	Questions? Comments? Page 39	25	experienced for 1.0.
	1 age 39		1 dgC +1

1	MS. DALGO:	1	that are in clawback. So they're
2	We've had one panel come in.	2	automatically risky.
3	MS. VILLA:	3	MR. VILLA:
4	So one small one, but it's usually	4	Yeah, those we already have a
5	historical information. I don't know that	5	workout agreement on for St. Martin Parish and
6	we've re-evaluated that, I would say, in the	6	City of Bastrop, we have those. But then we
7	last few years. I think we can get with the	7	have allowance for the loan losses, but again,
8	new CPA that's on board and ask for their	8	we've got experience. We have a recent loan
9	opinion as based on historical experience that		that was very significant that we had to
10	we've had to see if we need to adjust that.	10	completely write off.
11	Yeah. I think that that's something	11	MR. JACKSON:
12	we can ask them to do now that they're done	12	That percentage may actually need to
13	with the audit and they've got their first	13	go up. If you're having to claw back, the
14	year underneath them that they can help us	14	odds are
15	evaluate what that reserve should be going	15	MS. VILLA:
16	forward.	16	But if we but when I say claw
17	MR. JACKSON:	17	back or reduce their payment, we're not out
18	But we as those balances that are	18	anything, right? Because they're paying us
19	under guarantee go down, we also end up	19	back.
20	reducing those balances.	20	MR. JACKSON:
21	MS. RANEY:	21	As long as they are paying us back.
22	And on the flip side, if the loan is	22	MS. VILLA:
23	past due, depending upon how significantly	23	Yes, but we haven't had in my
24	past due it is, that reserve percentage may go	24	history of 13 years, we haven't had
25	up.	25	significant EDAPs that we weren't able to
	Page 42		Page 44
1	MS. VILLA:	1	recapture to some degree. My recollection is
2	Correct.	2	few and far in between. So I think that that
3	MR. JACKSON:	3	percentage is fine. But I would like to go
4	As long as you're lowering the	4	and have the CPA go and do that analysis for
5	reserves as the balances drop, I mean, it only	5	us. They've got the ability. They can do a
6	takes one to eat it up. I mean, we've got one	6	separate analysis for the board so we can
7	that's 18 percent of the portfolio, one that's	7	re-establish what those should be.
8	6.8, one that's 4. If any one of them went	8	MR. JACKSON:
9	bad the next day, I mean, that's 4 percent.	9	And that may be one where it's in
10	THE CHAIRMAN:	10	claw back, the bigger the allowance. We got
11	So we don't have much history on	11	stung really bad on the water.
12	SSBCI, it's just a step in the door, I guess	12	MS. VILLA:
13	the 18 percent. But on the EDAP, we have a	13	We did, yeah.
14	little more history. You think it's based on	14	But also market conditions, too,
15	historical losses of around 15 percent? Or	15	that you know now is the time for them to
16	we'll check on that perhaps?	16	consider that as well.
17	MS. VILLA:	17	THE CHAIRMAN:
18	Yeah, we can check on that one, too.	18	Absolutely. Very good.
19	EDAP we've got obviously a loan history with	19	I'm going to take a motion to accept
20	and we do have clawback provisions that are in	20	the accountant's report.
21	that agreement but sometimes even those	21	Any other discussion? All in favor,
22	clawback agreements	22	"Aye."
23	MR. JACKSON:	23	THE COMMISSION:
24	All of those are clawbacks, right?	24	Aye.
25	The EDAP loan losses, those are all on loans	25	THE CHAIRMAN:
	Page 43		Page 45

1	All opposed, "Nay."	1	MS. RANEY:
2	Any comments from the public?	2	I will. This was going to be
3	Thank you.	3	purposely at the end so I can do mic drop as
4	MS. DALGO:	4	we concluded.
5	Thank you.	5	MR. FLEIG:
6	THE CHAIRMAN:	6	You can say for the mic drop if you
7	All right, Mr. Fleig, president	7	prefer.
8	report.	8	MS. RANEY:
9	MR. FLEIG:	9	The board has patiently waited just
10	Okay. Thank you all again for your	10	as much as me and our team, even though half
11	time and your dedication to this board. We've	11	of our team is at the LVA convention in New
12	had a busy couple months since we last met.	12	Orleans today. We did get the final stamp of
13	I think, just to name a couple of	13	approval to complete our inspection, and that
14	the big projects, the Hyundai Motor Company,	14	we will be receiving the tranche tube. They
15	as you might have seen, announced a massive \$5	15	send their wires out on Wednesdays and
16	billion investment into Ascension Parish.	16	Fridays, so I'm hoping tomorrow, Friday, is
17	Thanks to a lot of work on Ascension Parish	17	our lucky day, otherwise we'll wait till next
18	resident Anne Villas' part. Thank you, Anne.	18	Wednesday. But we will receive another
19	But it is a game-changing project to produce	19	roughly \$32,859,059 to put in these programs.
20	green steel for their motor vehicles across	20	MR. FLEIG:
21	the southeast. And part of the reassuring	21	And we're ahead of schedule, right?
22	effort of American manufacturing in general.	22	I mean, at the end of the day
23	And so we're very proud to have that land	23	MR. RANEY:
24	here.	24	We're slightly ahead of schedule
25	We also announced recently the	25	because our last opportunity to call in that
	Page 46		Page 48
1	one-side project for a new LNG facility in	1	money was December 31, 2025.
2	Calcasieu Parish, which is the largest foreign	2	MS. VILLA:
3	direct investment in Louisiana's history, 17	3	I just want to commend publicly the
4	and a half billion dollar project.	4	team because I see firsthand the hard work
5	So some of these huge projects are	5	that Kelly and her team, Karla and Shemelda
6	exciting, they're real, the dollars, the	6	put, Marissa and Florian, I don't want to miss
7	investment is very real, it's transformational	7	anybody, and our accounting team, too, that
8	for their communities and big for the state.	8	support them, you know, with Molly and with
9	But this organization, this board, this body	9	Crystal. I mean, they are steadfast. I mean
10	is very much focused on small business and	10	every time Treasurer came back, which they did
11	creating more opportunities for more small	11	multiple times, and resubmissions had to be
12	businesses and supporting those small	12	done. I mean, they did it expeditiously, they
13	businesses.	13	communicated, and we uploaded the documents, I
14	So one of the projects that we've	14	signed off on the documents. I mean, just
15	been working in order to catalyze more small		commend the team. I can't tell you all how
16	business growth in Louisiana is with our	16	much I'm grateful for, how much I know this
17	friends from Newlab today, who you'll hear	17	board is grateful for what you all do behind
18	present in just a few moments about their	18	the scenes.
19	plans to invest in New Orleans.	19	So I just wanted to take that
20	In addition to that exciting	20	opportunity because we were slow out the gate
21	project, I don't want to steal Kelly's thunder	21	with U.S. Treasury, if you recall, because,
22	here, but we got some really exciting news	22	and Robin walked out, but Robin and legal
23	from US Treasury last week.	23	really worked hard to ensure that we had all
24	Vally do you wont to also a 1:441.		
24	Kelly, do you want to share a little	24	the documentation, all the legal things that
24 25	Kelly, do you want to share a little bit about that? Page 47	24 25	we needed to have to support this program. So Page 49

1 we were actually behind other states with 1 able to do in the past. So that's the 2 2 getting the initial funding done, but once we opportunity that we have with those dollars. 3 were out the gates, we were running. And this 3 And he kind of -- Josh kind of 4 team's done a great amount of work in a 4 mentioned, but we also were awarded, you know, 5 5 shorter period of time than our other states, the SBOP, the Small Business Opportunity 6 and then we're already receiving our second 6 Program. Yeah, we got that and we got our 7 tranche. 7 first tranche with that. So, I mean, we're 8 8 So, you know, thank you, and thank just doing a really lot of things in that 9 you again for all that you all do to support 9 space to really help develop and invest in the 10 these efforts. 10 ecosystem that we need to support our small 11 MR. FLEIG: 11 businesses, our entrepreneurs, and our 12 Thank you, Anne. 12 creators. 13 Yeah, we're super excited. It's not 13 MR. FLEIG: 14 only important because we get to write more 14 That's right. And one of the things 15 checks into Louisiana-based companies, but we 15 that we got told from Treasury and we got told 16 also get to earn interest on these dollars. 16 from other states that Louisiana was sort of 17 And so the sooner we can get these dollars 17 doing this the hard way and that we running a 18 into our accounts in Louisiana, the sooner 18 fund-of-funds program with multiple different 19 19 funds was complicated. And from an that we can begin to earn some interest to pay 20 20 for the administration of this program. So administrative perspective, it is more 21 it's critical. And we're six months ahead of 21 complicated to run it that way. It's just 22 22 schedule. So good job. much more of a regulatory burden to deal with 23 23 THE CHAIRMAN: making sure that all these guys are compliant 24 Do the feds send wires? I hope they 24 and doing the right thing. A lot of states 25 don't send checks. 25 went and just found, you know, one fund to Page 50 Page 52 1 1 MS. RANEY: kind of administer everything for the entire 2 The checks in the mail, right? 2 state. And I have been adamant that although 3 3 Isn't that always the story? They will send this is the harder way to do it, the purpose 4 the wire. 4 with this money is to catalyze and change 5 5 MR. FLEIG: culture. And that we need to write more small 6 6 The wires are working. We were checks and take more risks at an earlier stage 7 7 transferred some technical assistance money a in our high growth companies. And to do that, 8 8 couple weeks ago. So we know that the wire is we need more actors in the mix. And that's 9 9 working. what I'm most excited about. 10 10 MS. VILLA: Like, when Karla when was reading 11 And I just wanted to say something 11 our report today, we're seeing the volume 12 in addition to what Josh just said. We were 12 uptick, we're seeing the number of players 13 very fortunate last year during session to get 13 begin to write more and more of those checks. 14 language change that Treasury needed to have 14 And so we took the hard road, and I'm proud 15 15 us change so that we could earn interest on that that's the path we've taken, and the goal 16 16 the money as it sat there in Treasury. is to add more of those funds this year. 17 Because Treasury is fine with us doing it and 17 I will cede the rest of my time to 18 using it to administer the program, to use it 18 our guests from New England. 19 19 to help assist with other things that we, you THE CHAIRMAN: 20 know, maybe we're not doing. And so I think 20 Good morning. 21 that that's the opportunity that we now have 21 MS. BAYER: 22 is to reinvest that money, because we do have 22 Good morning. Thank you so much for 23 program administration dollars that they give 23 having us. We'll do some brief introductions, 24 24 and then I believe you all have a printout of us, but they -- we can also leverage that to 25 do better and bigger things that we weren't 25 a presentation in front of you as well. Page 53 Page 51

1 My name is Michelle Brechtels Bayer. 1 MS. BAYER: 2 2 I'm Vice President of Strategy with Newlab. Yes, so Newlab is a venture platform If it's useful to know a bit about 3 3 that exists and is formed through 4 me, my background is in chemical engineering. 4 public-private partnerships. So thank you to 5 5 Most of my research during my engineering days all of you and to Cam and the amazing partners 6 is in carbon capture and sequestration. I 6 that we've been working with in the state of 7 then moved to policy world, caught the policy 7 Louisiana to bring this platform to the state 8 8 and specifically, to the Gulf South where it's bug, where I moved to Washington, D.C. to 9 support the Office of Science and Technology 9 just so much tremendous opportunity to 10 Policy, which is a federal agency that sits in 10 diversify and build on the legacy industries 11 11 the White House to help wrangle all of the 12 agencies around very specific priorities that 12 So you'll see on the first slide, we 13 13 the president has to ensure that we are have a few existing Newlabs around the world. 14 utilizing our resources appropriately around 14 We started in 2016 in Brooklyn, New York, where really we were looking for a place to 15 15 critical policy areas. I then went on to 16 support the Science and Technology Policy 16 allow hard tech, deep tech innovators to build 17 Institute, and then I spent about six years 17 hard things, build rockets, build 18 working to build a startup in nuclear energy 18 semiconductor technologies, build things in 19 as a first employee and an operator, and then 19 wet labs and chemistry that you just can't do 20 20 joined the Newlab about four months ago. So in a city like New York. And so that's really 21 21 kind of how Newlab started. that's me. 22 22 MR. POOLE: About five years ago, we realized 23 23 Cam Poole, Energy and Innovation the model that we had been building was really 24 24 Manager at Greater New Orleans, Inc. So many special and something that we wanted to start 25 of you might know us as the Regional Economic 25 to expand to. And that's when we started Page 56 1 1 speaking with the state of Michigan and Development Organization and serving Southeast 2 Louisiana. Used to work under Josh Fleig 2 specifically Ford Motor Company in the city of 3 3 there before he became a treasurer back to the Detroit to look at how we could bring this 4 state. And over the last three years, one of 4 innovation ecosystem to Detroit in a way that 5 5 the constants in my journey at GNO, Inc., has could help to revitalize and really elevate 6 6 been working with Newlab to develop the the existing automotive sector there. So see 7 7 platform we're presenting to you all today. our facility in Detroit on that page. 8 8 I work across our research And then recently, this year is a 9 9 institutions in the state, within and outside big year for Newlab. We announced launching 10 10 globally into Riyadh, Saudi Arabia, this year. the 10 parish region of GNO, Inc., around 11 their research and workforce initiatives, 11 And as well, we are going to be launching in just a few days, not even weeks, but days, 12 12 serving our growing energy sector, LSU, ULL, 13 UNO and the like. I also have the pleasure of 13 Newlab New Orleans. And that's what we're 14 working with a number of small businesses that 14 going to talk about today. 15 15 are both here in the state but also looking to So on the second slide, you'll see, 16 16 the state as a unique opportunity to grow our mission really is to accelerate the 17 their business because we are that 17 commercialization of what we call critical 18 one-of-a-kind energy destination. 18 technologies that are important, not just 19 19 I'll just be representing some of globally, but are very important for specific 20 the partnership we've had with Newlab in 20 places. So you'll see a number of the 21 21 developing this platform and what we see is technologies listed here from energy, 22 22 the vision for a unique moment to grow both mobility, manufacturing, built environment 23 small and large business in the energy and 23 that we focus on. We use the word "critical" 24 24 industrial sectors of Louisiana through this as opposed to deep or hard which all of these 25 project. 25 words would work but because we truly believe Page 55 Page 57

1 there's an economic growth and economic impact 1 one of these companies it's looking to have a 2 2 potential for these technologies. So we hundred locations let alone 50, let alone 20. 3 3 aren't building dog walking apps, we're We are very specific about creating a 4 building hard things. 4 complementary global network around these 5 5 On the next slide, you'll see some critical technology areas where each place is 6 6 beautiful stats. But really what we're trying the best place to be innovating in that space. 7 to show here is the stats that matter to us 7 So we want the companies that we're 8 8 around helping these critical technology attracting to Louisiana to say I need to be in 9 9 companies scale and grow. So the startups Louisiana if I'm working on carbon management. 10 that we work with, we're ultimately trying to 10 I need to be in Louisiana if I'm working on 11 help them innovate faster, deploy faster, 11 decarbonization. And that is inherent to our 12 raise capital faster, and ultimately get their 12 model and making it work. 13 technologies from the lab and bench scale into 13 You'll see the other locations I 14 real built -- real-world environments, and 14 mentioned and some of the logos of our core 15 then ultimately to work with the corporates to 15 partners there. I won't go into the other 16 have their technologies deployed in the 16 locations here, but when we speak about 17 commercial environment. 17 Louisiana, you'll see a similar mix of public 18 You'll see some pictures of some 18 and private companies, entities that we are 19 very cool technologies that we've been able to 19 bringing to be the founding partners of each 20 20 work with. location. 21 21 On slide four, this is really kind And I didn't mention Montevideo, 22 22 of the crux of our model, which as I mentioned earlier just because we don't have a physical 23 23 hub there, but we do have a large team earlier, is inherently place-based. And that 24 place-based nature of our model is what helps 24 presence in Latin America. 25 to translate all of those stats you saw on the 25 Okay. So now let's talk about Page 58 Page 60 1 1 previous slide into economic impact. That's Newlab New Orleans, which we're so excited to 2 what we're looking to do here in Louisiana. 2 share with you all. And I believe on Monday, 3 3 So the three core pillars of our May 12th, will be the formal launch publicly model are infrastructure. So specific 4 4 of this initiative that LAIO has been working 5 5 infrastructure that is tailored to the with us and GNO, Inc., and many others. 6 6 startups that we are working to attract to the So, Newlab New Orleans, I guess on 7 7 place and help them scale their technologies. the next slide, slide 7, you'll see, it's 8 8 really all around kind of creating this Projects, so here we mean working 9 9 directly with commercial entities, be they ecosystem to establish a place for these types 10 10 of technologies to be attractive and scaled public or private, to connect them with 11 startups and help them deploy technology into 11 and grown and you'll see the founding partners 12 their product lines, et cetera. 12 that we've been working with for many years 13 And then finally, capital. We work 13 and the key founding partner from the private 14 with these startups to invest directly, but 14 side being Shell, but on the private side or 15 also through a syndicate of global investors 15 on the public side LED, City of New Orleans, 16 Greater New Orleans, Inc., Louisiana State 16 that we're able to bring to top-tier investors 17 that we're able to bring to investors in 17 University, and fuel the engine that sits 18 Newlab member companies. 18 within LSU. 19 19 On slide five, you'll see a map of The core areas on slide 8 that we 20 where we currently exist and you'll see the 20 have been developing through this long and 21 21 Gulf South region circled in a big circle. very intentional process with these partners 22 22 are listed here. Industrial power, maritime Here I'll just kind of speak a bit to, you 23 know, why the Gulf South and why we have this 23 and shipping, and carbon management. And 24 24 as such a critical place specifically for these initial focus areas also influence the

25

energy technology. You know, Newlab is not

Page 61

initial infrastructure that we're building out

25

Page 59

1 1 in our facility in New Orleans. return of investment that we'll see through 2 2 the programming in just the first few years. That facility, as you'll see on 3 3 slide 9, is in the Bywater District of New I would say the first thing is 4 4 Orleans, one of my favorite places to visit really about curating the best companies to 5 5 bring them to Louisiana through precision because of some great restaurants that I love 6 attraction mechanisms. Actually something 6 to go over there and eat at. But it's 7 actually at the former Naval Support Activity 7 we've been working on now for quite a while. 8 8 Complex. Newlab has a theme of often finding We have a fantastic cohort of initial startups 9 9 that will be sitting in our first facility. old but could be beautiful or once again 10 10 beautiful buildings to revitalize, like we did And creating that talent liquidity is really a reinvestment flywheel to track. I believe it 11 in the Brooklyn 80, or like we did in Michigan 11 12 was you, Megan, earlier, who said that first 12 Central. And we found a beautiful asset seed investment really helps to attract new 13 13 similar to that story in the Bywater District. 14 14 You'll see here a schematic of that companies. 15 15 site if you haven't been there, you might not Of course, creating high value jobs, 16 be too familiar with it, but we started 16 as these companies scale, you might just have 17 17 the first founder in the space, but ultimately construction this year on what we're calling 18 Phase One, which will really be centered 18 they'll be building out their teams in the 19 around these industrial-sized bays that will 19 state and creating economic development 20 20 opportunities through that. allow startups to build technologies and scale 21 21 them up within a contained environment. We'll And really I would say that probably 22 22 the key thing is actually the one in the also have lab spaces, as we have in all of our 23 23 middle, which is private leverage. So we've locations, and event spaces, places where 24 24 these companies can gather and share ideas, actually designed our model and our five year 25 25 plan to amplify the public investment that but ultimately build their technology, and Page 62 Page 64 1 1 then quickly get it into the real world we're seeding the platform with to be 2 environment to prototype, test, collect data, 2 sustainable through private investment after 3 3 and continue iterating. the first five years. So really engaging 4 In Phase Two, we'll actually be 4 deeply with not just Shell, but many other 5 5 looking to allow our service to scale into the corporate partners to ensure that Newlab will existing buildings that are on the site of the 6 6 be sustainable in the long term in Louisiana. 7 7 Old Navy Support Activity Complex in the first And then you'll see here, of course, 8 8 floor of one of the buildings. This is part increasing access to risk capital by having 9 of a larger redevelopment project for this 9 direct access to our global network of 10 10 investors, and finally, reducing the area. 11 I won't go into much detail on slide 11 dependency on legacy sectors and really 12 10, but the key thing that I want to mention 12 bringing the technology specialist areas in 13 here is this is not just a New Orleans 13 Louisiana into new energy technologies, into 14 initiative. This is a state of Louisiana 14 new areas of carbon management, power, and in 15 15 initiative. We are anchored in one city, but maritime. 16 we are activating access throughout the state 16 Slide 12, you'll see a number of the 17 that our startups can utilize as they, as 17 key stats that we are holding ourselves to to 18 real-world testing environments, in 18 achieve in that first five-year period. 19 19 partnership, but also for pilots with work Bringing, you know, building our team here, 20 corporate partners. 20 which we're really excited to work with all of 21 21 On slide 11, you'll see a number of you on as we establish the team and continue 22 areas how our programmatic engine is really 22 our partnership with the founding partners 23 working to attract and retain these high 23 that I mentioned earlier. Attracting startups 24 24 growth companies in priority sectors. So to the space to be retained here and to scale 25 you've listed a number of the outcomes, the 25 here. And then ultimately these Page 63 Page 65

1 commercialization outcomes that are probably 1 context we're trying to place Newlab in. 2 2 the most important piece is ensuring that once MS. GLOVER: 3 3 So thank you very much for your our startups land here, they're actually able 4 to have their own return on investment by 4 presentation. It's really interesting and 5 5 investing in Louisiana as a place, they will exciting to hear about y'all's investment in 6 New Orleans. 6 have opportunities to sell to existing 7 legislators to build their companies up. 7 I am curious that when people often 8 8 So I will pause there for questions. talk about energy that, well, yes, they do 9 9 I believe there's also appendix slides that talk about the Gulf South, they'll talk about 10 you might have. 10 this area, talk about the I-10 corridor that 11 MR. POOLE: 11 extends to Houston. I'm curious as to whether 12 I might just take the liberty of 12 Houston was researched, and if so, why was New 13 sort of alluding to the first set of companies 13 Orleans chosen over Houston? 14 that we started working with through Newlab. 14 MS. BAYER: 15 We received Department of Energy grants to 15 That's a great question. I assumed 16 16 recruit but also engage Louisiana-based we would get a question on that. 17 companies through an industry-led three-month 17 So I will admit that I was not part 18 program. So Shell, Motel, and Carpenter, 18 of the team at the time. I do believe that 19 alongside LSU, the fuel teams in GNO, engaged 19 Houston was looked at. I don't know if you 20 20 these companies. You may have come across were part of the team at the time. 21 other buzz from them of recent Encore C02, an 21 MR. POOLE: 22 22 LSU spin out, Baton Rouge based company has Yeah, we were trying to sell them 23 23 had tremendous success following that program the art here. And I will say this, Anne and 24 and through the NSF Engine partnership as 24 Josh also spent some time at the Global Energy 25 25 well. But relevant to the attraction Conference based in Houston where Louisiana Page 66 Page 68 1 1 companies and when GNO, Inc., from our point collectively endeavored a first big splash. 2 2 And we heard a lot of things that aligned from of view saw this working was now engaging 3 3 those companies after the program, we're industry and other people that came to visit 4 hitting a plus of 50 percent rate on them 4 Louisiana that aligned with what I've heard 5 5 already landing, teams on the ground, looking from you why we're the strategic location, 6 6 at local facilities, and then that pipeline which is the level of integration between 7 7 through the socialization across those partners and a lot of the partners invoked in 8 8 companies growing beyond the first nine this collaboration is unmatched state by 9 9 already. state, including energy states like Texas, 10 10 We have a lot of confidence and which we'd love to mess with further through 11 almost worry that this building will fill out 11 this project. 12 too quickly, which is a really good problem. 12 And, you know, I think our 13 We're talking about getting companies to come 13 alignment, like the ability for partners in 14 back to or establish themselves in Louisiana. 14 the state, something GNO, Inc., seriously 15 15 really like align on a common charge here, And also, I think a testament to that is some 16 16 of the first home bases of these not from the which I think for us we're leaning into the measures of success being population retention 17 state companies are actually in the Lafayette 17 18 and Acadiana region. So we also saw that this 18 and growth. Like, knowing that we can do that 19 19 was really essential to the regional together, we can achieve that mission together 20 20 partnerships we're all really trying to pursue and stay aligned. Industry sees that. 21 21 here and seeing that a facility somewhere I think actually it was quoted quite 22 22 directly in the woodside announcement that doesn't mean impact only there. 23 So that was just a number of things 23 your ROI is pretty clear here by virtue of 24 24 that through that pilot program really spoke that alignment. So it engaged in that Newlab to that recipe of success fitting the regional when they were reaching out to us as a wider 25 25 Page 69 Page 67

1 which is really going to anchor how they would 1 exploration. We're certainly pitching them on 2 2 that. leverage Newlab and the startup. So the Shell 3 3 We've heard that they've found that scope of work might be an example of that. 4 our ability to again connect those first nine 4 And I don't think we can share all the details 5 5 companies to they're using the right labs at beyond Shell's made an investment in a new 6 6 LSU and ULL now. That's a product of GNO, project in the state. And it's going to 7 Inc., working with them. They're not in our 7 involve working with a number of new 8 8 technologies that they've sort of diligence, 10-parish region, but we have a state mission 9 9 to grow the energy sector and the but they trust Newlab to better identify which 10 opportunities under that because it's an 10 companies will fit better in the state and 11 unprecedented opportunity right now to build 11 serve that project. 12 upon and achieve those population economic 12 Those decisions right now have been 13 goals. I think we're all -- we all share 13 done out of Houston to an extent. So what 14 here, at least not to speak on behalf of the 14 we're trying to also leverage right now is 15 board, but certainly economic development 15 breaking through the culture of that -- those 16 interest from GNO, Inc. types of decisions can be well-made here in 16 17 MS. GLOVER: 17 Louisiana, and I think further, Shell bringing 18 18 And so often what people in a new headquarters to New Orleans is also 19 Louisiana celebrate is our culture is so 19 indicative of them seeing that wave of change. 20 20 different from everyone else. And what that So I hate to shift culture back to 21 means is that sometimes when people come to 21 economics, but I think culturally in New 22 the state, they are not successful because our 22 Orleans, there has been a huge wave of 23 23 cultures are different from everyone else. I innovation. I loved hearing Boots 64 being 24 24 rightfully touted as a big mover in the SSBCI expect great success from you all. But what 25 challenges are you experiencing right now 25 space. And I think Newlab is rightfully Page 70 Page 72 1 1 because our challenges -- our culture is so fitting not just the energy context in the 2 2 state, but that cultural fabric of innovation different than everyone else that you are 3 3 trying to work through that we should be aware and doing it much more seriously here in the 4 of? 4 state that presents a unique moment. 5 5 MR. POOLE: MR. FLEIG." 6 6 I mean, culturally, I again, I Yeah, one of the things you guys 7 7 won't find in the deck here because the Newlab hesitate to speak on behalf of Newlab as much 8 8 as again someone who's been through this people are polite and kind, is this is 100 9 partnership so long for them. I think 9 percent about beating Houston, Texas, for the 10 10 culturally, from an economic lens, we know future headquarters of energy. Because we 11 that headquartered operations have migrated 11 lost, right? We lost the race for Exxon and 12 out of state, and whereas we have a large and 12 Shell and BP and on and on and on and on. 13 impressive stack of logos with world-class 13 It's 100 percent of those high paying jobs and 14 facilities operating in the state, we lost 14 the wealth has been driven to Houston. We're 15 15 some of those business services that really at a turning point. It's not a today or 16 16 tomorrow thing, but we'll see this play out drive corporate research and development. And 17 even before Newlab, I experienced it a lot in 17 for the next few decades and that the energy 18 trying to pitch investments in just four 18 landscape is changing. 19 19 universities along those lines. The innovators' dilemma inside of 20 MS. MANNING: 20 Shell and Exxon and BP is a very real 21 21 Sorry to interrupt. What sorts of challenge. We can build the headquarters for 22 business services? I just want to understand. 22 future energy from here, and the nexus of 23 MR. POOLE: 23 power and the nexus of wealth and the job 24 24 creation engine can be done here, but we have So those that might be managing a 25 particular corporate's innovation strategy, 25 to do something. It's not just going to Page 71 Page 73

1	happen because our food is good, right? It's	1	something like that.
2	going to happen because we invest in systems	2	MR. POOLE:
3	that can create more high-growth	3	Five.
4	technology-enabled companies in Louisiana.	4	MR. FLEIG:
5	This is an effort to be the future Houston,	5	Okay. So five and a half million
6	better food, better people but here in	6	from the city of New Orleans. Fuel, which is
7	Louisiana.	7	the big LSU's driven and National Science
8	MS. GLOVER:	8	Foundation grant, they're putting in \$15
9	So I have a question to that, and I	9	million. They're actually the largest
10	think this is more a Josh question, right? So	10	contributor to this because their missions are
11	I remember growing up and people saying like,	11	so overlapped. Fuel's mission is to
12	Baton Rouge and Austin, we're going to be in	12	commercialize new energy systems in Louisiana,
13	the same place, and we lost out, and we've	13	and that's what Newlab will be doing. And
14	gotten behind, and now we're kind of behind	14	then you have private partners on the other
15	Houston. So isn't that so in a statement,	15	side of the ledger balancing out that, you
16	I feel like what I hear is, we're trying to	16	know, roughly 25, 30 million dollar public
17	catch up with something we've lost out of. I	17	investment will be roughly the same dollars.
18	think it's great. But why not something like	18	Shell is the only one I think that we're
19	cyber security, which is like the future of	19	publicly allowed to talk about now because
20	the country regardless of pursuing that and	20	they basically paid for the right to be in the
21	trying to be first in that?	21	press release and edge out some of the other
22	MR. FLEIG:	22	oil and gas or chemical or energy companies in
23	I don't think it's a this or. I	23	this.
24	think it's a yes and.	24	But this is about building a system
25	Here's the reality. I think these	25	that will create the future of energy
	Page 74		Page 76
1	guys will be successful, and I'll talk a	1	headquarters in Louisiana, absolutely. And so
2	minute about our investment and the team's	2	I'm excited about bringing this blueprint,
3	investment in this, but there is not one	3	though, to other parts of the state,
4	solution. I think we need to do this times 50	4	replicating this and saying this is, I need
5	across all the regions of the state. And so,	5	the universities in, I need the cities in, I
6	if we could wave a magic wand, we'd have a	6	need the state needs to be part of this.
7	Newlab type of partnership across the state in	7	And then, more importantly, private industry
8	multiple industries that are important to the	8	needs to come in as well. And we know that
9	future of Louisiana.	9	the big oil and gas guys are not going to do
10	The reason I'm very keen on this	10	this themselves. They need people that can
11	project is I want it to serve as a blueprint	11	move quickly and invent things and invent
12	for what public-private partnerships could	12	things that can ultimately make money and
13	look like in innovation in Louisiana, in that	13	create jobs. So thank you guys.
14	this isn't an effort if you look at the	14	MS. RANEY:
15	balance sheet, this is effectively a \$50	15	Can I suggest for either you or
16	million five-year project-ish, right, I'm	16	Newlab to also present some of that to Baton
17	looking at you guys, and correct me if I'm off	17	Rouge chapter of Rotary, whose meetings are
18	on the numbers. But the state's commitment is	18	publicized. It's a this great way to get
19	actually fairly small in the big scheme of	19	information about what's successfully
20	things. It's about \$8 million over those five	20	happening in the state.
21	years, and we're asking the LEDC board for	21	MS. MANNING:
22	three off of the balance sheet of unallocated	22	Can I just clarify something? Is
23	funds. The additional dollars will come from	23	Newlab a non-profit or a for-profit
24	other LED sources. The city of New Orleans is	24	organization?
25	ponying up five and a half, six million,	25	MS. BAYER:
	Page 75	23	Page 77
		L	

1 Newlab is a for-profit organization. 1 utilize the technology and equipment that 2 2 MS. MANNING: we're providing to them. And then ultimately, 3 3 Okay. So we have seed money coming we're helping to --4 in from state because of the economic 4 MR. JACKSON: 5 5 development potential. Great. How does So you're providing more of the hard 6 6 Newlab make money? skills for those C level companies. Are they 7 MS. BAYER: 7 getting the soft skills? What's the secret 8 8 Primarily through advisory. So sauce that gets you faster to the A, B, and C 9 9 those pilot projects that I spoke about is our rounds? 10 primary source of revenue. We do operate our 10 MS. BAYER: 11 facility at a cost neutral structure. So what 11 It's actually more being able to 12 we're ultimately -- so essentially, there's a 12 move through the technology readiness level, 13 membership fee that startups and founders pay 13 kind of scale up faster, because as you're 14 to use the space, but it's essentially as low 14 able to test, collect data on your product 15 as we can make it, such as passing on the cost 15 development, and then get real feedback, 16 of rent, because we're trying to keep those 16 either through real -- how do you say, 17 barriers to entry incredibly low. Similarly, 17 regulatory sandbox environments, or working 18 we keep the barriers of entry to capital at 18 directly with corporates and pilots along your 19 zero. So really everything that we're doing, 19 TRL technology with maturation and scale. 20 20 from the startup's perspective, no dollars are It's really being able to much more quickly to 21 transferred really from them to us in terms of 21 get to a minimum viable product, and then get 22 22 revenue. It's our advisory work that we do that product on to market as opposed to you 23 23 with corporates to bring innovation know polishing your pitch. 24 24 Being in the environment, though, is opportunities to them. 25 25 MR. JACKSON: a way that you do develop those soft skills. Page 78 Page 80 1 1 We have you know a lot of founders who are So you had one slide that talked 2 2 about the accelerated effort to a Series A. building hard things sitting together in the 3 Series B, a Series C. Are you primarily 3 same place and that often does happen 4 taking absolute startups, seed stage? Are you 4 naturally. We do also invite folks who have 5 5 similar to, like, a Y-Combinator or that sort those skills and offerings into our spaces. 6 of thing? Do you buff them or? 6 So we'll have presentations, office hours, or 7 7 MS. BAYER: just opportunities to have IP lawyers or folks 8 8 We're not an accelerator or an like a white-collar leader who might want to 9 incubator. We have a very selective process 9 offer programming to come in and support 10 for membership. You know, they have to be 10 startups. 11 able to meet our physical space and they're 11 But we, ourselves, that's not the 12 within kind of the thesis of the technology 12 primary focus. The primary focus is helping 13 areas. And we do selectively invest in 13 them build the hard things smarter. And then 14 startups, but that's not a prerequisite 14 it's really faster. 15 15 requirement for being a Newlab member. I MR. POOLE: 16 wouldn't think of us like that. 16 I would just add, Josh and I had to 17 We also don't do programming like 17 contemplate this a lot, relevant to Newlab's 18 you would see in accelerator programs, you 18 fit, and I think what we recognize, and what 19 19 know, how to build a pitch deck, et cetera, Josh has been doing a lot of work in at least 20 right? The programming that we provide is how 20 from what I can see with our New Orleans-based 21 21 to work a CNC machine, that type of stuff. ESOs is that we have a lot of really great 22 22 Like, how do you actually build the hard entrepreneurial support organizations in the 23 things? So we have a fantastic team that we 23 state that do a lot of that stuff so the 24 24 call our product realization team that ensures question becomes so what are we missing in 25 that the startups working in our spaces can 25 that nexus of support that builds upon that Page 79 Page 81

1	foundation? What we've been focusing on is	1	we have members that actually, maybe the CEO
2	making sure the through roads between those	2	is sitting in Brooklyn and the CTO is sitting
3	ESOs to be left through the office hours,	3	in Detroit, and that just kind of happens as
4	through shared events and stuff, make sure	4	is necessary.
5	that torch is a bit clearer and that there's	5	But yeah, in standing up this new
6	also this isn't a moment of investing in	6	location, it's actually been so exciting
7	redundancy, but filling this gap that, again,	7	because it's really the first time we've had a
8	these other neighboring states and regions	8	true concentration around this incredibly, at
9	that are pursuing a lot of the same economic	9	least I come from the energy sector, right, so
10	objectives don't have yet.	10	it's probably the most exciting space to be
11	And I would also just add that,	11	innovating in right now. And so yes, we are
12	like, again, for my purview working with the	12	getting people coming in our doors at Brooklyn
13	first nine starters is that industry access	13	and we're saying, just give us a little bit of
14	that Newlab is able to shortcut through the	14	time, we'll put you on the waiting list,
15	credibility and the scopes of work is also	15	essentially, right, for New Orleans. There's
16	something that most even like Y-Combinators or	16	a lot of momentum and a lot of excitement.
17	advanced ESOs will, like, nationally can	17	Yeah, however we find them, you
18	offer, and that really accelerates that. And	18	know, we screen them, we understand if they're
19	the Shell example culminated in them I	19	a good fit for the community, the technology,
20	mean, this was sort of free work on y'all's	20	the infrastructure, and then we help to direct
21	part given the platform's not here yet, but a	21	them however we can.
22	startup that was engaged with Shell through	22	MR. JACKSON:
23	Newlab to do Louisiana-based projects that	23	Thank you.
24	Newlab's already invested in directly in	24	THE CHAIRMAN:
25	anticipation of knowing this thesis is so	25	Any other questions, comments?
	Page 82		Page 84
1	strong and that company I've met with a couple	1	MS. GLOVER:
2	times, Newlab in the room, only speaks to the	2	One last one. What's the membership
3	unique opportunity. He sees to move from	3	fee?
4	Boston down here alongside this platform	4	MS. BAYER:
5	opening. So I think that colors some of that.	5	For New Orleans, I actually I
6	MR. JACKSON:	6	don't know if you do, but I know in Brooklyn,
7	And last question, I promise. You	7	but it's usually like I would say it's
8	spoke to your process for finding companies	8	usually cheaper than your equivalent other
9	that fit the thesis is. How does that flow	9	type of, like, co-working type space, right?
10	work? Is there a group at your headquarters	10	So, for example, in Brooklyn I believe it's
11	that is screening worldwide? Do they show up	11	roughly \$350. If you were to go to, like, a
12	at Newlab in Brooklyn and you say, oh, you're	12	WeWork that doesn't even have a lab, you'd be
13	a better fit. You need to be to New Orleans.	13	paying \$450 or something like that. So we try
14	MS. BAYER:	14	to make it actually less expensive to be in
15	It's just a pretty organic. So	15	our space. But it's also tiered. So we have
16			different levels of membership where you can
10	folks can apply to a specific location, they	16	different levels of membership where you can
17	see, oh, I'm working on drones, I need to be	16 17	have just a desk, you can have a full space
17 18	** * *		have just a desk, you can have a full space where you can actually build out your own
17	see, oh, I'm working on drones, I need to be	17	have just a desk, you can have a full space
17 18	see, oh, I'm working on drones, I need to be in Michigan, and they go straight to that	17 18	have just a desk, you can have a full space where you can actually build out your own
17 18 19	see, oh, I'm working on drones, I need to be in Michigan, and they go straight to that team. Or yeah, they'll come to a Newlab	17 18 19	have just a desk, you can have a full space where you can actually build out your own private lab. It kind of depends on what level
17 18 19 20	see, oh, I'm working on drones, I need to be in Michigan, and they go straight to that team. Or yeah, they'll come to a Newlab event. However they discover us, or we	17 18 19 20	have just a desk, you can have a full space where you can actually build out your own private lab. It kind of depends on what level of infrastructure you're looking for.
17 18 19 20 21	see, oh, I'm working on drones, I need to be in Michigan, and they go straight to that team. Or yeah, they'll come to a Newlab event. However they discover us, or we discover them, we have a conversation about	17 18 19 20 21	have just a desk, you can have a full space where you can actually build out your own private lab. It kind of depends on what level of infrastructure you're looking for. MS. GLOVER: So the dollar range is, like, low hundreds to?
17 18 19 20 21 22	see, oh, I'm working on drones, I need to be in Michigan, and they go straight to that team. Or yeah, they'll come to a Newlab event. However they discover us, or we discover them, we have a conversation about what are your capability needs, right? Like,	17 18 19 20 21 22	have just a desk, you can have a full space where you can actually build out your own private lab. It kind of depends on what level of infrastructure you're looking for. MS. GLOVER: So the dollar range is, like, low
17 18 19 20 21 22 23	see, oh, I'm working on drones, I need to be in Michigan, and they go straight to that team. Or yeah, they'll come to a Newlab event. However they discover us, or we discover them, we have a conversation about what are your capability needs, right? Like, what types of infrastructure do you need access to? What types of potential corporate partners do you need access to? And sometimes	17 18 19 20 21 22 23	have just a desk, you can have a full space where you can actually build out your own private lab. It kind of depends on what level of infrastructure you're looking for. MS. GLOVER: So the dollar range is, like, low hundreds to? MS. BAYER: Depends on the size of the team,
17 18 19 20 21 22 23 24	see, oh, I'm working on drones, I need to be in Michigan, and they go straight to that team. Or yeah, they'll come to a Newlab event. However they discover us, or we discover them, we have a conversation about what are your capability needs, right? Like, what types of infrastructure do you need access to? What types of potential corporate	17 18 19 20 21 22 23 24	have just a desk, you can have a full space where you can actually build out your own private lab. It kind of depends on what level of infrastructure you're looking for. MS. GLOVER: So the dollar range is, like, low hundreds to? MS. BAYER:

1 invest in that same life cycle, so to speak, 1 right? So there you're pricing by square 2 2 foot. But it'll be different and we're happy of the entrepreneur. 3 3 to follow up with you when we have those So just wanted to let you all know 4 numbers on what it'll look like in New 4 that I actually was able to attend with Josh 5 5 Orleans. It's priced for the market. So New and with Paige, our chief business development 6 6 York is obviously a higher cost market. officer, to see the possibilities and what we 7 But it'll be priced for the market, 7 could have here in Louisiana. 8 8 THE CHAIRMAN: and then it depends on, as I said, the level 9 9 of physical space need. If it's just a single Very good. Anyone else? 10 desk, or if they're actually renting out, 10 I have a question. I believe Mr. 11 like, a larger space for a big team. 11 Yeager had an interest in the property. I 12 MS. VILLA: 12 believe he's deceased and his estate perhaps 13 13 took over. Has all that been worked out? I don't know if I need to wait for 14 public comment, but I just would like to say 14 MR. FLEIG: 15 that I had the opportunity in February to go 15 It has. I'm glad you brought this 16 with a small team from LED, Josh, myself, and up. You know, this is, for those of you that 16 17 Paige Carter, went up to Newlab, along with 17 are not familiar with the site, I think you do 18 our New Orleans partners and got to actually 18 have a picture of that site on your deck. 19 visit the Detroit Newlab facility, which is 19 Let's see. They are slide Number 9, I 20 20 exactly goes to what she was saying, depends believe. If you see the slide, it is the 21 on their needs, in which I thought was awesome 21 corner of the Industrial Canal and Mississippi 22 22 because maybe it's just I'm trying to develop River on the edge of the Bywater next to the 23 23 a proof of concept and I just need a space to Lower Ninth Ward. This is a million square 24 just kind of work on my schematics or whatever 24 foot structure that was owned by the Navy that 25 concept. And then I'm going to go to the next 25 the Navy abandoned after Katrina. You've had Page 88 1 1 level of membership because I actually do need this massive blighted property, which is 2 to have that working lab, and then I need this 2 sitting on some pretty amazing multimodal real 3 3 and that working lab, and then I go to the estate right here. There's rail on this site. 4 next level. So it was really cool to see the 4 You have access to the Industrial Canal pretty 5 5 space and how it was geared towards wherever easily. You can work with the Corps and 6 you were in that life cycle of a startup and 6 achieve access to the Mississippi River as 7 7 so I really like that. well. And then you've got pretty close 8 8 And then also just the opportunity proximity to Interstate 10 or 610. Not far 9 to bring their skill set and everything that 9 away. 10 they've done around mobility in Detroit 10 So, it's an amazing site that has 11 because, you know, Detroit is mobility and so 11 become an enclave for homeless encampments and 12 for what we could do in that space with our 12 all sorts of bad activity. And it's left a 13 creators and our entrepreneurs in the space of 13 pretty major part of the city blighted for a 14 energy, it goes directly with our strategic 14 very long time. The city owns the property, 15 15 plan, everything, you know, above with the and they were under a 99-year lease with Joe 16 energy space and the future does flow through 16 Yeager. Joe Yeager passed away last year, and 17 Louisiana when it comes to energy so I feel 17 they were already, before he passed away, was 18 like this is an asset that we'll be able to 18 actually already undergoing a transfer process 19 19 give those to support, not just ones that are over to Brian Gibbs Development Company. 20 here but ones that are elsewhere to relocate 20 Brian Gibbs now has full control of this site. 21 here, especially what New Orleans and the 21 Again, ownership is the city, but he has the 99-year ground lease on it. His group has 22 Baton Rouge region have been able to do with 22 23 Age to the Future and that large grant that we 23 been so kind to offer a zero-dollar ground 24 24 received from the federal government. And so lease on this space where Newlab will be 25 we just now, I mean, we're continuing to 25 located. So, in partnership with the city, Page 87 Page 89

that's part of their contribution as well, is space. because it's also going to redevelop a million square feet, or help to catalyze. HUD has come in and chipped in about \$150 million to kick off redevelopment of the two large main structures. The third building, I turn around here the third building, I guess, to this edge, if you look on the map to the because un about \$150 million to catalyze the third building, I guess, to this edge, if you look on the map to the burev right, is unprogrammed at this stage. And so I'm very interested in figuring out how we can build more of an innovation and comes to we are asking for this continuation of the state over the last 20 years, and this is just project will serve as a catalyst to kick off this entire kind of redevelopment project out there. THE CHAIRMAN: THE CHAIRMAN: THE CHAIRMAN: They three we off the balance sheet to and invested in this project. Second. Any other discussion? Any comments from the public? Any other discussion? Any comments from the public? THE CHAIRMAN: They three we off the balance sheet to and invested in this project. Second. Any other discussion? Any comments from the public? THE CHAIRMAN: They three we off the balance sheet to and invested in this project. Second. Any other discussion? Any comments from the public? And I in favor, "Aye." THE CHAIRMAN: They three we off the balance sheet to be unallocated. Any other discussion? Any comments from the public? They three well of the balance sheet to be unallocated. Any other discussion? Any comments from the public? They three well of the balance sheet to be unallocated. Any other discussion? Any comments from the public? They three well of the balance sheet to be unallocated. Any other discussion? Any comments from the public? They three well of the balance sheet to be unallocated. Any other discussion? Any other discussion? 3	I, KRISTIE GARRISON, Certified Court
4	Reporter in and for the State of Louisiana, the
5	officer as defined in Rule 28 of the Federal Rules
6	of Civil Procedure and/or Article 1434(B) of the
7	Louisiana Code of Civil Procedure, before whom this
	proceeding was taken, do hereby state on the Record:
9	That due to the interaction in the
1	spontaneous discourse of this proceeding, dashes
	() have been used to indicate pauses, changes in
1	thought, and/or talkovers; that same is the proper
1	
1	method for a Court Reporter's transcription of
	proceeding, and that the dashes () do not indicate
	that words or phrases have been left out of this
	transcript;
17	That any words and/or names which could not
18	be verified through reference material have been
19	denoted with the phrase "(spelled phonetically)."

Louisiana Code of Civil Procedure Article 1445 and 1446

Art. 1445. Submission to Witness; Changes; Signing When the testimony is fully transcribed the deposition shall be submitted to the witness for examination and shall be read to or by him, unless such examination and reading are waived by the witness and by the parties. Any changes in form or substance which the witness desires to make shall be entered upon the deposition by the officer with a statement of the reasons given by the witness for making them. The deposition shall then be signed by the witness unless the parties by stipulation waive the signing or the witness is ill or is absent from the parish where the deposition was taken or cannot be found or refuses to sign. If the deposition is not signed by the witness within thirty days of its submission to him, the officer shall sign it and state on the record the fact of the waiver or of the illness or absence of the witness or the fact of the refusal to sign together with the reason, if any, given therefor; and the deposition may then be used as fully as though signed unless on a motion to suppress under Article 1456 the court holds that

the reasons given for the refusal to sign require rejection of the deposition in whole or in part. A video deposition does not have to comply with the requirements of reading and signing by the deponents.

DISCLAIMER: THE FOREGOING CIVIL PROCEDURE RULES

ARE PROVIDED FOR INFORMATIONAL PURPOSES ONLY.

THE ABOVE RULES ARE CURRENT AS OF APRIL 1,

2019. PLEASE REFER TO THE APPLICABLE STATE RULES

OF CIVIL PROCEDURE FOR UP-TO-DATE INFORMATION.

VERITEXT LEGAL SOLUTIONS

Veritext Legal Solutions represents that the foregoing transcript is a true, correct and complete transcript of the colloquies, questions and answers as submitted by the court reporter. Veritext Legal Solutions further represents that the attached exhibits, if any, are true, correct and complete documents as submitted by the court reporter and/or attorneys in relation to this deposition and that the documents were processed in accordance with our litigation support and production standards.

Veritext Legal Solutions is committed to maintaining the confidentiality of client and witness information, in accordance with the regulations promulgated under the Health Insurance Portability and Accountability Act (HIPAA), as amended with respect to protected health information and the Gramm-Leach-Bliley Act, as amended, with respect to Personally Identifiable Information (PII). Physical transcripts and exhibits are managed under strict facility and personnel access controls. Electronic files of documents are stored in encrypted form and are transmitted in an encrypted

fashion to authenticated parties who are permitted to access the material. Our data is hosted in a Tier 4 SSAE 16 certified facility.

Veritext Legal Solutions complies with all federal and State regulations with respect to the provision of court reporting services, and maintains its neutrality and independence regardless of relationship or the financial outcome of any litigation. Veritext requires adherence to the foregoing professional and ethical standards from all of its subcontractors in their independent contractor agreements.

Inquiries about Veritext Legal Solutions'
confidentiality and security policies and practices
should be directed to Veritext's Client Services
Associates indicated on the cover of this document or
at www.veritext.com.
