Subject: Lifetime Certification Request

To the Board Of Certification And Training For Solid Waste Management Operators, I have reviewed the minutes from a previous certification board meeting from October of 2010 regarding eligibility for lifetime certification. And it states, any member of the board of certification who has served at least two terms may request in writing a lifetime certification in all categories and classes of the certification and an exemption from all fees provided that the individual maintain the minimum required hours of certification, training at an association with and in the solid waste management profession. It also state that the operator must submit an application for re-certification and proof of 40 hours before the expiration of their certificates. With that being said, I feel that I have and will continue to meet these requirements, and would like for this letter to serve as my formal request for consideration. Thanks!

Terrance Stewart
