**REBID: STORAGE RACK SYSTEMS AND STAINLESS STEEL STORAGE TANKS**

**Addendum 1**

**Inquiry 1**

Will the state law requirement for a LA Contractors license be in effect?

**Response 1**

No, this is not a construction project. Page 2 of the specifications states “No construction work (for example, and including but not limited to electrical, plumbing, mechanical) shall be conducted for this purchase.”

**Inquiry 2**

Can you provide which manufacturer / brand / model are these specifications were based on?

**Response 2**

The specifications are prepared based on the existing site needs and space requirements, but Steel Fixture Manufacturing Company or equivalent can be used as an example/model.

**Inquiry 3**

Clarify information on shelving (i.e. type of material steel used – stainless steel, cold rolled steel, aluminum, gauge of and material of shelves, actual type of shelf manufacturing, type of roll out extension arms for the pull out shelves, type of paint coating and process, how the shelves or if the shelves can be adjusted/moved)

**Response 3**

We do not have specific requirements for the type of steel and paint, etc. needed. The rack system will be stable enough so we can safely and easily slide out the individual tanks to remove the materials inside of them.

**Site Information**

Due to COVID-19, the LSU campus remains partially closed; therefore, an onsite visit will not take place. In lieu of this, see attached photos and link below for information on the site.
