## ADDENDUM # 1

RE: Solicitation 40023-S23007 dated 28 July 2022  
Questions and Clarifications

1. I had my Ubiquiti distributor check with the manufacturer on the model# and quantities. No one with Ubiquiti will guarantee stock for any quantity. Is the current network Ubiquiti Equipment?  
**Answer:** Yes, our current equipment is Ubiquiti.
2. The U6-ENTERPRISE access point is still set to early access by Ubiquiti. It is not in full production yet. Is this the part you still want?  
**Answer:** We are aware that the U6-ENTERPRISE is in early production and is likely not available in quantities required. That is why both models are on the bid.
3. Will NTCC be entertaining bids where a vendor, instead of procuring the Ubiquiti equipment and simply selling them to NTCC outright, instead leases the equipment to NTCC as part of a managed service arrangement.  
This would allow our company to not only push out software updates, security patches, and hardware reboots to the WAPs, but can also have them replaced as the equipment nears end-of-life as part of our managed service agreement. This would be managed from our Ubiquiti controller that lives on our cloud that can manage the hardware without the need to manager other component parts of the network. Is this something NTCC would be open to in order to avoid a large initial upfront cost?  
**Answer:** At this time, NTCC is not looking for a lease of equipment or managed service agreement at this time.

THIS ADDENDUM IS HEREBY OFFICIALLY MADE A PART OF THE REFERENCED SOLICITATION.
