

ST. TAMMANY PARISH

MICHAEL B. COOPER
PARISH PRESIDENT

August 8, 2022

Please find the following addendum to the below mentioned RFQ.

Addendum No.: 1

RFQ#: 22-3-4

Project Name: Engineering Services for New Water Well and New Elevated Water Storage Tanks

RFQ Due Date: Wednesday, August 31, 2022

GENERAL INFORMATION:

The timeline specified in the sample scope provided in the RFQ shall be disregarded as this abbreviated time frame is due to project constraints. Final Plans and Specifications must be submitted no later than November 1, 2022, to the Department of Utilities. Final Plans & Specifications shall be reviewed and markups addressed in order to deliver completed documents to LDH by November 15, 2022, including the completed LDH application. Department of Utilities will expedite all reviews and will make every effort to return reviewed documentation within 3 days but no more than 5 days. The Department of Utilities may forgo specific submittal milestones in order to expedite project design.

QUESTIONS & ANSWERS:

Question 1: For Item #2: "Minimum design experience in similar project for at least 15 consecutive years", if a firm is less than 15 years old but a substantial portion of their staff have greater than 15 years of relevant experience, would the Parish consider the Consultant firm to meet this qualification?

Answer 1: Yes

ST. TAMMANY PARISH

MICHAEL B. COOPER
PARISH PRESIDENT

Question 2: For Item #8: “The firm must have local office within 30 miles of metropolitan area”, what does the Parish consider as the “metropolitan area”? Specifically, for a firm based in downtown New Orleans, would the Parish consider the Consultant firm to meet this qualification?

Answer 2: Yes
