- A. The Internet Service Provider (ISP) shall be required to provide advertised minimum download and minimum upload speeds of at least 100:20 Mbps. The broadband speed will be determined based on the Ookla speed test. The ISP shall provide all materials and labor cost associated with transmission media. At least annually, the ISP shall provide to the STPG evidence consistent with Federal Communications Commission

attestation that the grant recipient is making available the proposed advertised speed, or a faster speed.

- B. STPG prefers the method of underground installation. Proposals will be graded accordingly based upon the method used for installation (above ground/underground). Proposers should include a percentage between above ground and underground distribution media in the proposal. The proposals submitted with a larger percentage of underground transmission media will be scored higher than a proposal submitted with a lower percentage.
  - C. STPG will assist the internet provider with the costs associated with installation of the last mile infrastructure.
  - D. Consumer pricing offers must be comparable to urban area rates. The ISP shall offer broadband installation and service at prices consistent with offers to consumers in other areas of the state. Any other ISP shall ensure that the broadband service is priced to consumers at no more than the cost rate identified in this proposal, for the duration of the five-year service agreement. In calculating cost, the recipient may adjust annually, consistent with the annual percentage increase in the Consumer Price Index in the preceding year.
- Area of inaccordance with attachment "A-1" (Map), "A-2" (addresses listed) commit to serve all listed addresses
  - 100 mbps download 20 Mbps upload symmetrical based on ookla speed test data
  - Bill of Materials / Labor costs
  - Provide grant funds for last mile infrastructure
  - Services must be provided within 2 years
  - Pricing and installation offers must be comparable to urban area rates (RDOF rate compliance)
  - Access to parish government owned properties negotiable

Per the Final Rule for the ARPA funds:

"Recipients must require the service provider for a completed broadband infrastructure investment project that provides service to households to:

- Participate in the Federal Communications Commission's (FCC) Affordable Connectivity Program (ACP); or

- Otherwise provide access to a broad-based affordability program to low-income consumers in the proposed service area of the broadband infrastructure that provides benefits to households commensurate with those provided under the ACP.

Recipients must require providers to participate in or provide access to these programs through the life of the ACP. This requirement will no longer apply once the SLFRF-funded broadband infrastructure is no longer in use."

- 1) We must also require that the contractor has and maintains an active Unique Entity ID through SAM.gov. We are required to submit this to the US Treasury department. Please have the contractor include their UEI with the proposal response.
- 2) Reporting - We are required to provide quarterly reports to the Treasury with updated information based on the current status of the project. The contractor must submit this information to IT on a regular basis (either monthly or quarterly as long as it is submitted in enough time for review) which should be reviewed for accuracy, then sent to Finance to be included in the report. I have attached the “Broadband Infrastructure Location Data Template” that needs to be completed based on the planned project and then updated once the project is complete. All columns must be completed based on the requested criteria or I will not be able to submit it to the Treasury.

We will also need to report the information below updated on a quarterly basis.

## **PART IV: PERFORMANCE STANDARDS**

### **4.1 Performance Requirements**

*Omitted as not applicable to this RFP.*

### **4.2 Performance Measurement/Evaluation**

*Omitted as not applicable to this RFP*

## **PART V: GENERAL PROVISIONS**

### **5.1 Legibility/Clarity**

Responses to the requirements of this RFP in the formats requested are desirable with all questions answered in as much detail as practicable. The Proposer's response is to demonstrate an understanding of the requirements. Proposals shall be prepared providing a straightforward, concise description of the Proposer's ability to meet the requirements of the RFP. Each Proposer is solely responsible for the accuracy and completeness of its proposal.

### **5.2 Confidential Information, Trade Secrets, and Proprietary Information**

The designation of certain information as trade secrets and/or privileged or confidential proprietary information shall only apply to the technical portion of the proposal. The cost proposal will not be considered confidential under any circumstance. Any proposal copyrighted or marked as confidential or proprietary in its entirety may be rejected without further consideration or recourse.

For the purposes of this procurement, the provisions of the Louisiana Public Records Act (LSA-R.S. 44.1, *et. seq.*) will be in effect. Pursuant to this Act, all proceedings, records, contracts, and other public documents relating to this procurement shall be open to public inspection. Proposers are reminded that while trade secrets and other proprietary information they submit in conjunction with this procurement may not be subject to public disclosure, protections must be claimed by the Proposer at the time of submission of its Technical Proposal. Proposers should refer to the Louisiana Public Records Act for further clarification.

The Proposer must clearly designate the part of the proposal that contains a trade secret and/or privileged or confidential proprietary information as "confidential" in order to claim protection, if any, from disclosure. The Proposer shall mark the cover sheet of the proposal with the following legend, specifying the specific section(s) of his proposal sought to be restricted in accordance with the conditions of the legend:

*“The data contained in pages \_\_\_\_\_ of the proposal have been submitted in confidence and contain trade secrets and/or privileged or confidential information and such data shall only be disclosed for evaluation purposes, provided that if a contract is awarded to this Proposer as a result of or in connection with the submission of this proposal, the Parish of St. Tammany shall have the right to use or disclose the data therein to the extent provided in the contract. This restriction does not limit the Parish of St. Tammany’s right to use or disclose data obtained from any source, including the Proposer, without restrictions.”*

Further, to protect such data, each page containing such data shall be specifically identified and marked “CONFIDENTIAL”.

Proposers must be prepared to defend the reasons why the material should be held confidential. If a competing proposer or other person seeks review or copies of another proposer's confidential data, the Parish will notify the owner of the asserted data of the request. If the owner of the asserted data does not want the information disclosed, it must agree to indemnify the Parish and hold the Parish harmless against all actions or court proceedings that may ensue (including attorney's fees), which seek to order the Parish to disclose the information. If the owner of the asserted data refuses to indemnify and hold the state harmless, the Parish may disclose the information.

The Parish reserves the right to make any proposal, including proprietary information contained therein, available to Parish personnel, the Parish Council, or other Parish and state agencies or organizations for the sole purpose of assisting the Parish in its evaluation of the proposal. The Parish shall require said individuals to protect the confidentiality of any specifically identified proprietary information or privileged business information obtained as a result of their participation in these evaluations.

If your proposal contains confidential information, you should also submit a redacted copy along with your proposal. If you do not submit the redacted copy, you will be required to submit this copy within 48 hours of notification from the Procurement Department. When submitting your redacted copy, you should clearly mark the cover as such - “REDACTED COPY” - to avoid having this copy reviewed by an evaluation committee member. The redacted copy should also state which sections or information have been removed.

### **5.3.2 Proposer Inquiry Periods**

The Parish shall not and cannot permit an open-ended inquiry period, as this creates an unwarranted delay in the procurement cycle and Parish operations. The Parish reasonably expects and requires *responsible and interested* proposers to conduct their in-depth proposal review and submit inquiries in a timely manner.

An inquiry period is hereby firmly set for all interested Proposers to perform a detailed review of the proposal documents and to submit any written inquiries relative thereto. *Without exception*, all inquiries MUST be submitted in writing by an authorized representative of the Proposer, clearly cross-referenced to the relevant solicitation section (even if an answer has already been given to an oral question during a Pre-proposal Conference). The Parish is not responsible for a Proposer's failure to download any addenda documents required to complete an RFP.

## **5.11 Ownership of Proposal**

All materials (paper content only) submitted in response to this request become the property of the Parish. Selection or rejection of a response does not affect this right. All proposals submitted will be retained by the Parish and not returned to Proposers. Any copyrighted materials in the response are not transferred to the Parish.

## **5.12 Cost of Offer Preparation**

The Parish is not liable for any costs incurred by prospective Proposers or Contractors prior to issuance of or entering into a Contract. Any taxes, other than state and local sales and use taxes from which the Parish is exempt, shall be assumed to be included within the Proposer's cost.

## **5.15 Proposal Validity**

All proposals shall be considered valid for acceptance until such time an award is made, unless the Proposer provides for a different time period within its proposal response. However, the Parish reserves the right to reject a proposal if the Proposer's acceptance period is unacceptable and the Proposer is unwilling to extend the validity of its proposal.

## **5.16 Prime Contractor Responsibilities**

The selected Proposer shall be required to assume responsibility for all items and services offered in his proposal whether or not he produces or provides them. The Parish shall consider the selected Proposer to be the sole point of contact with regard to contractual matters, including payment of any and all charges resulting from the contract.

## **5.17 Use of Subcontractors**

Each Contractor shall serve as the single prime contractor for all work performed pursuant to its contract. That prime contractor shall be responsible for all deliverables referenced in this RFP. This general requirement notwithstanding, Proposers may enter into subcontractor arrangements. Proposers may submit a proposal in response to this RFP, which identifies subcontract(s) with others, provided that the prime contractor acknowledges total responsibility for the entire contract.

If it becomes necessary for the prime contractor to use subcontractors, the Parish urges the prime contractor to use Louisiana vendors, including small and emerging businesses, a small entrepreneurship or a veteran or service-connected disabled veteran-owned small entrepreneurship, if practical. In all events, any subcontractor used by the prime should be identified to the Parish.

Information required of the prime contractor under the terms of this RFP, is also required for each subcontractor and the subcontractors must agree to be bound by the terms of the contract. The prime contractor shall assume total responsibility for compliance.

#### **5.18 Written or Oral Discussions/Presentations**

Written or oral discussions may be conducted with Proposers who submit proposals determined to be reasonably susceptible of being selected for award; however, the Parish reserves the right to enter into an Agreement without further discussion of the proposal submitted based on the initial offers received. Any such written or oral discussion shall be initiated by the Parish.

Any commitments or representations made during these discussions, if conducted, may become formally recorded in the final contract.

Written or oral discussions/presentations for clarification may be conducted to enhance the Parish's understanding of any or all of the proposals submitted. Any such written or oral discussions/presentations shall be initiated by the Parish. Proposals may be accepted without such discussions.

#### **5.19 Acceptance of Proposal Content**

The mandatory RFP requirements shall become contractual obligations if a contract ensues. Failure of the successful Proposer to accept these obligations shall result in the rejection of the proposal

#### **5.20 Evaluation and Selection**

All responses received as a result of this RFP are subject to evaluation by the Evaluation Committee for the purpose of selecting the Proposer with whom the Parish shall contract.

To evaluate all proposals, a committee whose members have expertise in various areas has been selected. This committee will determine which proposals are reasonably susceptible of being selected for award. If required, written or oral discussions may be conducted with any or all of the Proposers to make this determination. Any such written or oral discussions shall be initiated by the Evaluation Committee.

Results of the evaluations will be provided by the Evaluation Committee to the Procurement Director. Written recommendation for award shall be made for the Proposer whose proposal, conforming to the RFP, will be the most advantageous to the Parish, price and other factors considered.

The committee may reject any or all proposals if none is considered in the best interest of the Parish.

## **5.21 Contract Negotiations**

If for any reason the Proposer whose proposal is most responsive to the Parish's needs, price and other evaluation factors set forth in the RFP considered, does not agree to a contract, that proposal shall be rejected and the Parish may negotiate with the next most responsive Proposer. Negotiation may include revision of non-mandatory terms, conditions, and requirements. The Procurement Department must approve the final contract form and issue a purchase order, if applicable, to complete the process.

## **5.22 Contract Award and Execution**

The Parish reserves the right to enter into a contract without further discussion of the proposal submitted based on the initial offers received.

The RFP, including any addenda, and the proposal of the selected Contractor will become part of any contract initiated by the Parish.

Proposers are discouraged from submitting their own standard terms and conditions with their proposals. Proposers should address the specific language in the sample contract in Attachment "B" of this RFP and submit any exceptions or deviations the Proposer wishes to negotiate. The proposed terms will be negotiated before a final contract is entered. Mandatory terms and conditions are not negotiable.

If the contract negotiation period exceeds thirty (30) days or if the selected Proposer fails to sign the contract within **ten (10) calendar** days of delivery of it, the Parish may elect to cancel the award and award the contract to the next-highest-ranked Proposer.

Award shall be made to the Proposer with the highest points, whose proposal, conforming to the RFP, will be the most advantageous to the Parish, price and other factors considered.

The Parish intends to award to a single Proposer.

In accordance with Louisiana Law, all corporations (See LA R.S. 12:26.1) and Limited Liability Companies (See LA R.S. 12:1308.2) must be registered and in good standing with the Louisiana Secretary of State in order to hold a contract.

## **5.23 Acknowledgment and Waiver of Protest Rights**

Proposer shall execute an Acknowledgment and Waiver (the "Waiver") (Attachment "C") and shall produce same to the Parish along with its proposal. Such Waiver shall state that Proposer has read this RFP and the Waiver, and understands that the Parish's obligations under this RFP are not dictated by Louisiana Public Bid Law or the Louisiana Procurement Code. As such, Proposer understands that it is provided no opportunity for protest and waives all such rights.

## **5.24 Notice of Intent to Award**

Upon review and approval of the evaluation committee's and agency's recommendation for award, the Procurement Department will issue a "Notice of Intent to Award" letter to the apparent successful Proposer. A contract shall be completed and signed by all parties concerned on or before the date indicated in the "Schedule of Events." If this date is not met, through no fault of the Parish, the Parish may elect to cancel the "Notice of Intent to Award" letter and make the award to the next most advantageous Proposer.

The Procurement Department will also notify all unsuccessful Proposers as to the outcome of the evaluation process. The evaluation factors, points, evaluation committee member names, and the completed evaluation summary and recommendation report will be made available to all interested parties after the "Notice of Intent to Award" letter has been issued.

## **5.25 Insurance Requirements**

The Contractor shall comply with all insurance requirements of the Parish as contained in Attachment "D". All policies of insurance shall meet the requirements of the Parish prior to the commencing of any work. The Parish has the right, but not the duty, to approve all insurance policies prior to the commencing of any work. Contractor shall furnish the Parish with certificates of insurance effecting coverage(s) required by the RFP (see Attachment "D"). The certificates for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf. The certificates are to be received and approved by the Parish before work commences. The Parish reserves the right to require complete certified copies of all required policies, at any time.

The Parish shall determine whether a delay or failure results from an Act of God or force majeure based on its review of all facts and circumstances. The parties shall use reasonable efforts, including but not limited to, use of continuation of operations plans (COOP), business continuity plans, and disaster recovery plans, to eliminate or minimize the effect of such events upon the performance of their respective duties under this Contract.

If within thirty (30) days after receipt of such notice, the Contractor shall not have corrected such failure or, in the case of failure which cannot be corrected in thirty (30) days, begun in good faith to correct such failure and thereafter proceeded diligently to complete such correction, then the Parish may, at its option, place the Contractor in default and the contract shall terminate on the date specified in such notice.

### Certificate of Insurance Instructions

The below information is intended to guide Contractors on what information is needed to be listed on the Certificate of Insurance. All Insurance limit requirements can be found in Attachment D.

- **Certificate Holder** – STPG must be listed as the certificate holder, and it must include our address of: P.O. Box 628, Covington, LA 70434
  - Reason: the certificate holder is where cancellations of coverage, or updated certificates are mailed. If a vendor terminates a policy, we will be notified.
- **Additional Insured** – We must be named as an additional insured so that if there is a lawsuit against the vendor for a project, their coverage will cover STPG as well if we are named in the lawsuit.
  - We must be named in the Description of Operations box – reason: there could be other additional insureds, and we want to have no doubt that we are one of the additional insureds.
  - We must be named as additional insured on the following coverages: General liability, Auto Liability, Umbrella/Excess Liability, Environmental/Pollution Liability.
  - Professional Liability policies do not allow for an additional insured by most carriers.
- **Project Name & Contract #** - We need this listed in the Description of Operations, again so that if there is a lawsuit, we have proof that coverage was active for that project.
- **Waiver of Subrogation** – This can either be listed in the Description of Operations or checked off in the appropriate columns.

From the Insurance Requirement form:

*Waiver of Subrogation: The Provider's insurers will have no right of recovery or subrogation against the Parish of St. Tammany, it being the intention of the parties that all insurance policy(ies) so affected shall protect both parties and be the primary coverage for any and all losses covered by the below described insurance.*

- **Owners Protective Liability (OPL) or (OCP)** – Certificate of Insurance for OCP names St. Tammany Parish Government as the Insured and the Certificate Holder.
- Sample of Certificate of Insurance (COI) can be found on page 2.
- Please refer to this section in the package labeled “Insurance Requirements” for limits required for this project

Any questions regarding insurance requirements please contact the Risk Department at 985-898-5226 or email [riskman@stpgov.org](mailto:riskman@stpgov.org)

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the

Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided*, That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon

contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

**2. DAVIS-BACON ACT,** as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of \$10,000,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

### **3. COMPLIANCE WITH THE CONTRACT WORK HOURS AND SAFETY STANDARDS ACT.**

(1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of \$27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

(3) *Withholding for unpaid wages and liquidated damages.* The Parish shall upon its own action or upon written request of an authorized representative of the Department of Labor or U.S. Treasury withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act,

which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of this section.

(4) *Subcontracts*. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (b)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (4) of this section.

#### **4. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT**

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such, the contractor is required to verify that none of the contractor's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

## Change Summary for Q2 2023 P&E Reporting

There are three notable changes to the system for the Q2 2023 reporting cycle. These are:

**1. Fabric ID# and FCC Provider ID#**

All broadband location files will now be required to include standardized FCC Identifiers. This includes the Fabric ID # (Broadband Serviceable Fabric Locations) and FCC Issued Provider ID #s.

**2. Location Template Requirement**

All broadband projects will now be required to provide location data files, not just completed projects. The existing options to answer “No” to the question of “Do you have a broadband location file to upload?” and providing an explanation will continue to be available for recipients who need it.

**3. Location Template Bulk Upload**

All broadband location data files will now be uploaded using the bulk upload process within the P&E report. Recipients will use the broadband location data template as in previous quarters but will be expected to load it through the new process. Instructions will be provided within the report screen itself. This template can be found on the [Recipient Compliance and Reporting Responsibilities](#) page and is available for [download](#).

Additional information can be found in the guidance starting on page 38.

## Section I. Reporting Basics

### a) Overview

This document provides information on using Treasury's Portal to submit the required Coronavirus State and Local Fiscal Recovery Funds (SLFRF) Project and Expenditure (P&E) reports for the July 2023 submission deadline, covering the quarter ending June 30, 2023. It is a supplement to the Compliance and Reporting Guidance ([Reporting Guidance](#)), which contains relevant information and guidance on the reporting requirements.

Additionally, you should visit Treasury's [SLFRF home page](#) for the latest guidance and updates on programmatic and reporting topics, as well as information on Treasury's [final rule](#), which took effect on April 1, 2022. Recipients and stakeholders are also encouraged to consult the [Overview of the Final Rule](#), which provides a summary of final rule provisions for informational purposes, along with the [Final Rule FAQs](#), and to visit the Final Rule section below for more details.

Each SLFRF recipient is required to submit periodic reports with current performance and/or financial information including background information about the SLFRF projects that are the subjects of the reports; and financial information with details about obligations, expenditures, direct payments, and subawards.

If you have any questions about the SLFRF program's reporting requirements, please contact us by email to [SLFRF@treasury.gov](mailto:SLFRF@treasury.gov).

### b) What is Covered in this User Guide?

This User Guide contains detailed guidance and instructions for SLFRF recipients in using Treasury's Portal for submitting the Project and Expenditure reports. All recipients must submit the required reports via Treasury's Portal. This guide is not comprehensive and is meant to be used in conjunction with the documents mentioned above.

This User Guide provides detailed instructions to help recipients enter and submit the following:

- Project data
- Subrecipient/Beneficiary/Contractor data
- Subaward/Direct Payment data
- Expenditure data
- Project and Expenditure Bulk Upload Templates

### c) Designating Staff for Key Roles in Managing SLFRF Reports User Designations

SLFRF recipients are required to designate at least one individual to each of the following three roles in managing reports for their SLFRF award. Recipients must make the required designations prior to accessing Treasury's Portal. The required roles are as follows:

- **Account Administrator** for the SLFRF award has the administrative role of maintaining the names and contact information of the designated individuals for SLFRF reporting. The Account Administrator is also responsible for working within your organization to determine its designees for the roles of Point of Contact for Reporting and Authorized Representative for Reporting and providing their names and contact information via Treasury's Portal.

Finally, the Account Administrator is responsible for making any changes or updates to the user roles as needed over the award period. Treasury recommends that the Account Administrator identify an additional individual to serve as the Account Administrator to provide continuity in the event of staff changes, vacations, or other absences.

- **Point of Contact for Reporting** is the primary contact for receiving official Treasury notifications about reporting on the SLFRF award, including alerts about upcoming reporting, requirements, and deadlines. The Point of Contact for Reporting is responsible for completing the SLFRF reports. The recipient is able to designate more than one individual as a Point of Contact for Reporting.
- **Authorized Representative for Reporting** is responsible for certifying and submitting official reports on behalf of the SLFRF recipient. Treasury will accept reports or other official communications only when submitted by the Authorized Representative for Reporting. The Authorized Representative for Reporting is also responsible for communications with Treasury on such matters as extension requests and amendments of previously submitted reports. The official reports may include special reports, quarterly or annual reports, interim reports, and final reports.

Some key items to note:

- Each designated individual must register with either Login.gov or ID.me for gaining access to Treasury’s Portal.
- If you have not previously registered an account, you should register through [Login.gov](https://login.gov). This [link](#) includes further instructions. The following links provide additional information:

- **Note:** if you are a Non-Entitlement Unit of Local Government (NEU), you should register using the Login.gov process linked above.
- Users who have previously registered through ID.me may continue to access Treasury’s Portal through that method. This [link](#) includes further instructions.
- An individual may be designated for multiple roles. For example, the individual designated as the Point of Contact for Reporting may also be designated as the Authorized Representative for Reporting.
- The recipient may designate at least one individual for all three roles.
- Multiple individuals can be designated for each role.
- An organization may make changes and updates to the list of designation individuals whenever needed. These changes must be processed by the Account Administrator.

- The designated individuals' names and contact information will be pre-populated in the "Recipient Profile" portion of the recipient's SLFRF reports, and recipients will be able to update the information, if necessary.

Recipients should refer to [Appendix A](#) for guidance on designating individuals for the three roles. Treasury also posted a series of webinars with instructions, as noted below:

- [Account Creation and Login](#) - creation of account in Treasury's Portal through ID.me or Login.gov
- [User Roles](#) - assignment and updates of user roles in Treasury's Portal

Please contact [SLFRF@treasury.gov](mailto:SLFRF@treasury.gov) for additional information on procedures for registering an account.

## Section II. Navigation and Logistics

### a) Login to Landing Page and Portal Navigation

After logging into Treasury’s Portal, the landing page (see Figure II – 1) will appear listing Treasury’s Office of Recovery Programs-administered program(s) for which your organization may be eligible.

Figure II - 1 Landing Page

From the landing page, select *Go to Your Reports* or *Compliance Reports* on the left side panel to be taken to a list of options for the programs you have access to under the Report Selection section.

At this time, you may select the SLFRF Project and Expenditure report.

Each listed report constitutes a link to that specific report’s online forms. Selecting a report from the landing page will open the first in a series of screens.

To begin completing a specific report, click on *Provide Information* for the given report. Refer to the [Reporting Guidance](#) for details about each type of required report for submittal.

The Navigation Bar (see Figure II - 2) on the left of Treasury’s Portal will allow you to freely move between screens.

Figure II - 2 Navigation Bar

## b) Helpful Tips/Shortcuts for Submitting Data to Treasury’s Portal

Treasury’s Portal leads you through a series of online forms that, when completed, will fulfill your reporting obligations. While navigating through Treasury’s Portal and submitting required information, users will have the option of manually entering data directly into Treasury’s Portal or providing information via a bulk upload file that includes all relevant information in a Treasury approved process and format.

### 1) Bulk File Upload Files

Recipients can use the bulk upload function to provide required information in the modules listed here:

- Project Overview
- Subrecipients/Beneficiaries/Contractors
- Subawards/Direct Payments
- Expenditures
- Tax Offset Provision

When using the bulk upload, recipients must provide the required information in specified formats and use the Treasury approved templates for each respective bulk upload. Recipients can download the templates separately or as a single zip file from selections available at the bottom of the “Introduction/Bulk Templates” screen (see Figure II - 3). Modules accepting bulk upload files are clearly marked in Treasury’s Portal and identified in later sections of this user guide. The individual templates are available from relevant screens throughout the portal (see Figure II-4).

**Introduction and Bulk Upload Templates**

SLFRF recipients will complete the required sections of the Project and Expenditure Report using the left navigation bar to complete the relevant sections.

Use the following link to access the 'User Guide' for a reference.

[User Guide](#)

**Bulk Uploads**  
 SLFRF recipients may choose to provide the data required by the Project and Expenditure Report using the bulk upload process. The following five (5) components allow the bulk upload process:

- Project
- Subrecipient/Beneficiary/Contractor
- Subaward/Direct Payment
- Expenditure
- Tax Offset Provision

**Expenditure Category Requirements and Bulk File Upload**  
 Expenditure Categories must be used to categorize each project as noted in the Reporting Guidance. Certain Expenditure Categories will require programmatic data, in addition to project standard information. Recipients have the option of entering data manually or utilizing the bulk file upload capability. Please note each Expenditure Category is aligned to a unique bulk file upload template. You may also refer to Appendix C of the User Guide for Expenditure Category programmatic data requirements and template alignment.

Recipients may choose to provide data in bulk. To do so, the recipient must:

1. Download the 'Bulk Data Import' template for the component (project, subrecipient, subaward, expenditure, tax offset provision)
2. Complete the file, configuring the data in template format provided by Treasury, and the date in the template format provided by Treasury
3. Submit the completed 'Bulk Data Import' file using the data upload feature in the Treasury's portal.

Recipients should refer to the Project and Expenditure Report User Guide for additional details to upload information.

Below are the 'Bulk Data Import' templates. Recipients can download a zip file containing all of the 'Bulk Data' component templates.

**Bulk Upload Templates**  
 Select a tab to access the appropriate 'Bulk Data' templates.

Please see [Appendix B](#) – Bulk File Upload Overview for complete guidance on using this important function.

All bulk file templates download in the .xls format, but these files must be converted to .csv format to properly upload. When you click the upload button you will be directed to an upload screen. You can either choose to add files or drag and drop files to initiate the bulk

upload (see Figure II - 5). Refer to [Appendix B](#) for additional instructions to submit bulk upload files.

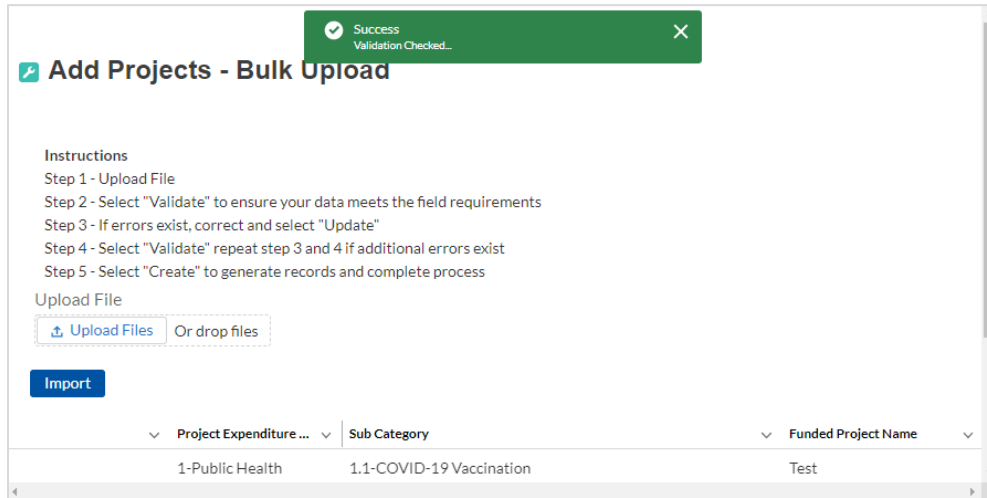

Figure II - 5 Successful Bulk Upload Template

Treasury’s Portal will reject the file if an incorrect template, data format, or file format other than .csv is used for upload. Treasury’s Portal will display an error message on screen if the bulk data upload file contains errors. If you receive an error message, you will need to correct the errors either in the bulk upload file or on screen and re-submit the corrected version.

There are four common Bulk File Upload errors as described below:

- **Blank Required Data:** When a required field is left blank within your bulk upload file, the specific bulk upload file row and cell number will be provided on the screen. In the example below, the user left “Name” blank and the error is located in Column X, Row 8 (see Figure II - 6).

Figure II - 6 Blank Required Data Error

- **Invalid Data:** Invalid data includes any type of data (numeric or text) that does not meet the requirements set forth in the Help Text within each bulk upload template. In the example below, the user made an error pertaining to the “Completion Status” and the error is located in Column F, Row 8 (see Figure II - 7).

Row	Column	Field	Value	Error Message
8	F	Completion_Status__c	*****	(Completion_Status__c): Completion Status: bad value for restricted picklist field: *****

Project Expenditure Category	Sub Category	Funded Project Name	Customer Project
1-Public Health	1.1-COVID-19 Vaccination		123456789

Figure II - 7 Invalid Data Error

- Duplicate Data:** Duplicate data includes any type of data (numeric or text) that is repeated in the same column when the Help Text within a bulk upload template requires a unique entry. For example, unique numbers should be provided for the project identification number. In the example below, the user made an error pertaining to the “Project Identification Number” and the error is in Column E, Row 8 (see Figure II - 8).

Download - Export Errors Update

Row	Column	Field	Value	Error Message
8	E	Project_Identification_Number__c	123456789	(Project_Identification_Number__c): 123456789 is already in use

Project Expenditure Category	Sub Category	Funded Project Name	Customer Project
1-Public Health	1.1-COVID-19 Vaccination		123456789

Figure II - 8 Duplicate Data Error

- Non-existent Reference:** This instance would include uploading data that references other records that do not yet exist or have not been previously uploaded into Treasury’s Portal. For example, uploading a subaward template that is filled out correctly, but references subrecipient identification (ID) records that have not been uploaded to the “Subrecipient/Beneficiaries/Contractors” module. This will result in an error and any pre-requisite data must be uploaded first in order for the reference to work. In this example the non-existent data is the Project ID Number field located in Column D, Row 8 (see Figure II - 9).

## 2) Manual Data Entry

Manual data entry requires you to provide inputs as instructed on the screen. Manual inputs are described in detail below for each section of this user guide.

**Note:** An asterisk ( \* ) indicates a required field. Entry into the field is required before you can save or proceed to the next screen.

Your inputs will be subject to validation by Treasury’s Portal to ensure that the data provided is consistent with expected format or description (e.g., entering “one hundred” instead of 100). If a given data entry fails a validation rule, Treasury’s Portal will display an error for you to address.

You will not be able to submit manually entered data that does not satisfy the data validation rules.

## 3) Narrative Boxes

When filling out detailed narratives, you are encouraged to type out responses in a word processing application (such as Microsoft Word) to minimize grammatical errors, track word count, and concisely answer all required narrative details. You can then copy and paste the final written narratives directly into the text boxes.

The text boxes (see Figure II - 10) can be expanded by clicking and dragging the icon in the bottom-right corner.

#### 4) Corrections and Resubmissions

In the event a file is uploaded, or information is entered into Treasury’s Portal, the information will be accepted by Treasury’s Portal as a record.

After a recipient’s submission has been certified and submitted in the system by the Authorized Representative for Reporting, it can be corrected in Treasury’s Portal by selecting the *Unsubmit* button. Recipients may unsubmit, then resubmit, their Project and Expenditure Report any time before the reporting deadline (see Figure II - 11).

The screenshot shows a 'Submitted' status at the top. Below it, the 'Report Information' section lists the following details:

- Report Name: SLT-0035 - Interim Report - 2021
- Report Type: Project and Expenditure Report
- Report Period: Quarter 1 2022 (January-March)
- Reporting Period Start Date: 1/1/2022
- Reporting Period End Date: 3/31/2022
- Submission Deadline: 12/5/2023 12:00 PM
- Allocated Amount: \$1,250,000.00

At the bottom of the form, there is a button labeled 'Unsubmit' which is highlighted with a red rectangular box.

### Section III. Reporting Requirements

#### a) Reporting Requirements by Recipient

For the SLFRF program, reporting requirements vary by recipient type, as shown in the table below. Detailed instructions for completion and submission of each report are covered in Part 2 of the [Reporting Guidance](#).

Tier	Recipient	Interim Report	Project and Expenditure Report	Recovery Plan Performance Report
1	States, U.S. territories, and metropolitan cities and counties with a population that exceeds 250,000 residents	By August 31, 2021, or 60 days after receiving funding if funding was received by October 15, with expenditures by category.  <i>Note: NEUs were not required to submit an Interim Report</i>	By January 31, 2022, and then the last day of the month after the end of each quarter thereafter	By August 31, 2021, or 60 days after receiving funding, and annually thereafter by July 31
2	Metropolitan cities and counties with a population below 250,000 residents that are allocated more than \$10 million in SLFRF funding, and NEUs that are allocated more than \$10 million in SLFRF funding			
3	Tribal Governments that are allocated more than \$30 million in SLFRF funding		By April 30, 2022, and then annually thereafter	
4	Tribal Governments that are allocated less than \$30 million in SLFRF funding			
5	Metropolitan cities and counties with a population below 250,000 residents that are allocated less than \$10 million in SLFRF funding, and NEUs that are allocated less than \$10 million in SLFRF funding			

Note: Based on the period of performance, reports will be collected through April 30, 2027.

The total SLFRF allocations across all sources for a given jurisdiction are used to identify that jurisdiction's Reporting Tier, beginning in April 2022. Treasury may reach out to jurisdictions to update Reporting Tiers.

## **b) Project and Expenditure Report Requirements**

### **1) Quarterly Reporting**

The following recipients are required to submit quarterly Project and Expenditure Reports:

- States and U.S. territories
- Metropolitan cities and counties with a population that exceeds 250,000 residents
- Metropolitan cities and counties with a population below 250,000 residents that are allocated more than \$10 million in SLFRF funding
- NEUs that are allocated more than \$10 million in SLFRF funding
- Tribal Governments that are allocated more than \$30 million in SLFRF funding

For recipients who completed their first quarterly reporting in the April 2022 cycle, their first Project and Expenditure Report covered the period from March 3, 2021 to March 31, 2022 and was required to be submitted to Treasury by April 30, 2022.

The subsequent quarterly reports will cover one calendar quarter and must be submitted to Treasury by the last day of the month following the end of the period covered. Quarterly reports are not due concurrently with applicable annual reports.

### **2) Annual Reporting**

The following recipients are required to submit annual Project and Expenditure Reports:

- Tribal Governments that are allocated less than \$30 million in SLFRF funding
- Metropolitan cities and counties with a population below 250,000 residents that are allocated less than \$10 million in SLFRF funding
- NEUs that are allocated less than \$10 million in SLFRF funding.

For these recipients, the initial Project and Expenditure Report covered the period from March 3, 2021 to March 31, 2022 and was required to be submitted to Treasury by April 30, 2022. The subsequent annual reports will cover one calendar year and must be submitted to Treasury by April 30 each year.

## **c) Key Concepts for Reporting**

The following concept structure applies to all report types:

### **1) Expenditure Categories**

- For each project, recipients will be asked to select the appropriate Expenditure Category based on the scope of the project (as described in Appendix 1 of the [Reporting Guidance](#)). Projects should be scoped to align to a single Expenditure Category.

- The Expenditure Categories are important not only for tracking projects and expenditures, but also because for certain Expenditure Categories you will need to provide additional programmatic data. You will see them referred to regularly throughout the Reporting Guidance and in this User Guide with “EC” followed by a number.
- The 83 Expenditure Categories provide a flexible method to categorize projects. Each Expenditure Category could include many different programs and activities.
- [Appendix C](#) includes the full list of the 83 Expenditure Categories,<sup>1</sup> which refers to the detailed level. For instance, EC 1 is the Project EC Group “Public Health,” and EC 1.1 is the Project EC “COVID-19 Vaccination.”
- Each recipient is required to report **obligations** and **expenditures** by project according to the corresponding Expenditure Category (EC). As noted in the [Reporting Guidance](#), there are a wide range of eligible uses of the SLFRF funds, and Treasury must be able to track how funds are used by recipients for oversight and transparency purposes. In addition, States, U.S. territories, and metropolitan cities and counties with a population over 250,000 also need to provide the **adopted budget** for each project. These terms are defined as:
  - An **obligation** is an order placed for property and services, contracts and subawards made, and similar transactions that require payment.
  - An **expenditure** is the amount that has been incurred as a liability of the entity (the service has been rendered or the good has been delivered to the entity).
  - The **adopted budget** is the budget adopted for each project by a recipient associated with SLFRF funds. Recipients will enter the Adopted Budget based on information that exists currently in the recipient’s financial systems and the recipient’s established budget process. Treasury understands that recipients may use different budget processes. For example, a recipient may consider a project budgeted once a legislature has appropriated funds; whereas another recipient may consider a project budgeted at the moment the funds have been obligated.
  - Please note that Treasury is not approving or pre-approving projects or budgets. Treasury will use this information to better understand the intended impact, identify opportunities for further engagement, and understand the recipient’s progress in program implementation. Treasury is also collecting additional descriptive information about the budget process to better understand the context of recipients’ budget processes.

## 2) Projects

- A project is defined as a grouping of closely related activities that together are intended to achieve a specific goal or are directed toward a common purpose.
- These activities can include new or existing services, funded in whole or in part by the SLFRF award.
- Within this broad definition, recipients have flexibility to define their projects in a way that provides the greatest clarity on the work which will be performed.

---

<sup>1</sup> Included in Appendix 1 of the [Reporting Guidance](#)

- Each project must align to only **one** Expenditure Category. Projects break down an Expenditure Category into more detail.
- Recipients are required to define projects at a sufficient level of granularity to be able to do any programmatic reporting that is required.
- For each Expenditure Category recipients use funding for, one or more projects may be reported.
- For each project, recipients will need to track obligations and expenditures, as well as subrecipients and any subawards made.

Figure III - 1 depicts the relationship between EC and multiple projects.

Figure III - 1 Relationship between Expenditure Categories and Multiple Projects

### 3) Relationships Between Project Components

When entering project information, it is important to understand how the separate components of information relate to each other. Treasury’s Portal for compliance reporting is organized by modules, each of which is a project component: project entry, subrecipient entry, subaward entry, and expenditure entry. Each of these modules are linked to prior modules. Initial entry of information should follow these steps to reduce errors or data issues. After initial entry of information, users can go directly to any module to update and edit information throughout the life of the project.

- Step 1: The first step in entering a new project is specifying the EC. While all ECs require entry of a baseline set of details, additional fields will appear in this module and in others

depending on program requirements as described in the Reporting Guidance and this User Guide. Examples of fields collected include, but are not limited to, project name, project identification (ID), total obligations, total expenditures, earned and expended program income, status of completion, and project description.

- Step 2: Enter subrecipient/beneficiary/contractor information. This information includes subrecipient/beneficiary/contractor name, unique entity identifier (UEI), tax identification number (TIN), entity type, address, and email.
- Step 3: Enter subaward or direct payment information. Entering a subaward or direct payment will require on-screen selection of a previously entered project and subrecipient/beneficiary/contractor. This aligns subaward funding to the project and the EC. Other information collected in this module includes subaward number, place of performance address, subaward amount, period of performance start and end dates, and a description of the subaward and its underlying eligible use.
- Step 4: Enter expenditures. Expenditures are entered in one of three categories: (1) Expenditures<sup>2</sup> Greater Than or Equal to \$50,000, (2) Aggregate Expenditures Less Than \$50,000, and (3) Payments to Individuals.
  - Expenditures for Awards Greater Than or Equal to \$50,000: Entering expenditures for awards greater than or equal to \$50,000 will require on-screen selection of a previously entered subaward number, which will auto-populate the project and subaward information details. Other information collected for this type of award includes expenditure start and end dates, and expenditure amount.
  - Aggregate Expenditures Less Than \$50,000: Entering expenditures for awards less than \$50,000 will require on-screen selection of a previously entered project. Other information collected for this type of expenditure include subaward type, total period obligation amount and total period expenditure amount.
  - Payments to Individuals: Entering expenditures for awards categorized as payments to individuals will require on-screen selection of a previously entered project. Other information collected for this type of expenditure include subaward type, total period obligation amount and total period expenditure amount.

---

<sup>2</sup> Expenditures includes contracts, grants, loans, transfers, or direct payments.

## Section IV. Project and Expenditure Report

The Project and Expenditure Report provides information on projects funded, expenditures, and contracts and subawards greater than or equal to \$50,000, and other information required from recipients. Multiple modules or “screens” will help recipients navigate through the Project and Expenditure Report in Treasury’s Portal as follows:

- a) Introduction/Bulk Templates
- b) Recipient Profile
- c) Project Overview
- d) Subrecipients/Beneficiaries/Contractors
- e) Subawards/Direct Payments
- f) Expenditures
- g) Recipient Specific
- h) Tax Offset Provision
- i) Certification

The following sections describe the reporting steps and information to be collected in each module.

### a) Recipient Profile

Upon login, you will be directed to the Recipient Profile page, which is intended to verify relevant information in Treasury’s Portal. On this screen, you will review and confirm key information on your organization, and input information required for the Project and Expenditure Report. The Recipient Profile information for States, U.S. territories, counties, metro cities, and Tribal governments will be pre-populated from the SLFRF Application file. The NEU information will be populated based on the information States collected from the NEUs and provided to Treasury.

- 1) Review and confirm your Recipient Profile prepopulated from your SLFRF Application file or for NEUs, information provided by your State (see Figure IV – 1).
- 2) Verify the names and contact information for individuals the recipient has designated for key reporting roles for the SLFRF program displayed on the screen (see Figure IV - 2).
- 3) Refer to the instructions in [Appendix A](#) if there are updates associated with reporting roles or contact [SLFRF@treasury.gov](mailto:SLFRF@treasury.gov).

Figure IV - 3 Budget Approval and Obligation

Treasury requires descriptive information about budget processes to support analysis of adopted budget information. Treasury is collecting adopted budget information to better understand the intended impact of recipient projects, identify opportunities for further engagement, and understand the recipient’s progress in program implementation. Treasury is requesting this descriptive information to inform these efforts.

Treasury is not approving or pre-approving projects or budgets. Treasury also recognizes that recipients may adjust project budgets over time, and recipients will have the ability to reflect these changes in future reporting.

If the answer is “No” to any of these two questions, move on to step 7 below.

\* Is the Recipient Registered in SAM.Gov?

### b) Project Overview

Recipients are required to enter all projects funded through SLFRF funds as part of their Project and Expenditure Report. Once projects are entered, they are viewable on the Project Overview screen and can be updated in future reporting periods.

#### 1) Key Considerations

There are a couple of things to keep in mind when planning and executing your project inventory entry:

- **No Projects Available Option:** If your jurisdiction has not yet identified any projects to report, please know that Treasury encourages you to identify projects as soon as possible for your jurisdiction’s uses of SLFRF funds.

In the event recipients have no projects available for entry, an option has been included on the Project Overview screen to allow recipients to indicate this status to Treasury in lieu of adding projects. Selecting this option will require providing a written explanation and may result in additional compliance follow-up from Treasury. Note: this option will not appear if projects are already entered in the system.

To utilize this option, on the Project Overview screen (See Figure IV - 8):

1. For the question “Does your jurisdiction have projects to report as of this reporting period?”, select “My jurisdiction has projects to report” or “My jurisdiction does NOT have projects to report”.
2. If no projects will be reported, provide a narrative describing the reason(s) your jurisdiction does not have approved projects at this time in the text field provided.

Figure IV - 8 No Projects Available Option

- **Manual versus Bulk Upload Entry:** There are two ways to enter project information – manual data entry and bulk upload. Bulk upload templates are specific to the project’s expenditure category group. Recipients may upload information for multiple projects within the same expenditure category group template simultaneously. [Appendix B](#) provides step by step instructions for using the bulk upload option.

Due to the different data collected across expenditure categories, you cannot use the same bulk upload template from one expenditure category group to another.

- **Non-Infrastructure and Infrastructure Projects Programmatic Data:** Treasury requests various programmatic data or impact measures for projects in several non-infrastructure (i.e., projects in EC 1 – 3) and infrastructure projects (i.e., projects in EC 5). The programmatic data can be provided via manual project entry or via bulk upload templates. [Appendix B](#) provides step by step instructions for using the bulk upload option for projects with programmatic data. [Appendix D](#) provides additional detail on the programmatic data requested by EC. Treasury recognizes that some programmatic data may not be available until a project starts.
- **Infrastructure Projects with expected total cost over \$10M:** Information for infrastructure projects with expected total cost over \$10 million must be entered manually at this time in Treasury’s Portal. [Appendix D](#) provides additional detail on the programmatic data requested by EC.

When creating infrastructure projects via bulk upload, you will be required to re-open those project records to manually complete fields related to costs over \$10M.

Recipients should refer to [Appendix C](#) when planning your project inventory entry, as it includes a table identifying which ECs require the programmatic data. The table also maps each EC to its appropriate bulk upload template.

All projects, regardless of Expenditure Category, require a set of “standard” data fields. Some of these fields, such as project name and project ID, are static and do not change across reporting periods. Other fields, such as status of completion and total obligations, will change across reporting periods.

## 2) Project Overview Screen Layout

On the Project Overview Screen, recipients can view previously established projects and enter new projects (see Figure IV - 9). The screen displays the total number of projects. The screen also displays the following for each project entered: project name, recipient project ID, total obligations, total expenditures, expenditure category, project status, obligation status, and expenditure status. To go directly to a project to edit or add information, click the colored status button for that project.

For Project Status, the green check icon indicates all required fields have been answered, including programmatic data. For Obligations Status and Expenditure Status, this status indicates that at least one subaward or expenditure entry has been made. The Project Status icon is also used to reopen the project record and/or edit the project's data fields.

For Project Status, the yellow pencil icon indicates certain required fields have not been answered and require confirmation. For Obligations Status and Expenditure Status, the status indicates that the sum of all obligation or expenditure amounts associated with the project included at the subaward and expenditure level do not equal that project's total obligations or expenditures.

For Project Status, the red pencil icon indicates that not all required fields have been answered. For Obligations Status and Expenditure Status, this indicates that no subaward or expenditure entries have been made.

To add a new project from this screen, click the *Add New Project* button. You may need to refresh your browser screen to see your previous new entries.

- 5) Select the completion status of the project from the drop-down list. Options are:
  - Not started
  - Completed less than 50%
  - Completed 50% or more
  - Completed

Note: selecting Cancelled will display a text field to enter the reason for cancelling the project. If you are selecting to cancel a previously reported project, please be aware that you will need to revise the project’s total cumulative obligations, and total cumulative expenditures to \$0.00, and make corresponding adjustments to any subawards or expenditures associated to that project.

- 6) *For States, U.S territories and metropolitan cities and counties with population over 250,000*, enter the adopted budget for the project.
  - Note that if you selected that your budget is considered at the point of obligation, adopted budget and total dollar value of obligations for each project would be the same
- 7) Enter the total dollar value of current period obligations for this project. If funds have not been obligated during the current reporting period, enter “0”.

- Note – Recipients should ensure that Current Period Obligations are less than or equal to Cumulative Obligations for each project. Treasury’s Portal will otherwise return an error.
- 8) Enter the total dollar value of cumulative obligations for this project. If funds have not been obligated for this project, enter "0".
- 9) Enter the total dollar value of current reporting period expenditures for this project. If expenditures have not been made during the current reporting period, enter "0".

- 10) Enter the total dollar value of cumulative expenditures for this project. If expenditures have yet to be made for this project, enter "0".
  - Note – Recipients should ensure that Cumulative Expenditures are less than or equal to Cumulative Obligations for each project. Treasury’s Portal will otherwise return an error.
- 11) Provide a description for the project between 50 to 1,000 words. Each project description should be 3-5 sentences with an overview of the project, which includes a description of the project’s purpose, the population being served, the desired outcome from the project, and how this outcome is being measured (along with any current data on progress towards the desired outcome). For broadband projects, the project description should also include a complete list of counties where households, businesses, and community anchor institutions that are to be served by the broadband project are located.
- 12) If the project earns income or has expended that income, enter the total dollar value of program income earned and program income expended in the fields of the same name, respectively. This field is optional.
- 13) If the project is in an EC which requires additional programmatic data, additional fields will display on the screen. Please see [Section IV.e](#) below for more information on providing programmatic data and [Appendix D](#) for more information on the programmatic indicators themselves.

#### d) Update previously reported projects

Certain data fields may be updated in Treasury’s Portal. In addition, if additional programmatic data is needed, the Project Overview screen will show a yellow pencil icon. Recipients must validate all the previously reported entries to ascertain that they properly reflect the Expenditure Categories aligned with the final rule and the project aligned to them (refer to [Appendix E](#)). Please note Treasury’s portal will not accept submissions unless all project entries reflect Expenditure Categories aligned with the final rule. Recipients should:

- 1) Click on the project icon on the Project Profile screen.
- 2) Once the project information displays, confirm the information on the screen, including the Project Expenditure Category Status and the Project Expenditure Category.
- 3) Provide answers to the programmatic data relevant to the EC, if applicable.

## e) Provide Programmatic Data for Projects

### Overview

As noted above, projects in several ECs require programmatic data in addition to the standard project information covered above and as described in Part B.3.i and B.3.j of the Reporting Guidance. [Appendix D](#) provides additional detail on the measures and information required, by Expenditure Category. This information should be provided at the project-level (e.g., disaggregated by project if the recipient has multiple projects in a single EC).

Programmatic data can be provided via the manual project entry process described above, or in some cases via bulk upload using the Expenditure Category-specific templates, described in [Section IV.g](#) and [Appendix B](#).

For example, to manually enter a new project in Expenditure Category 3.1 (see Figure IV - 15) Public Sector Workforce: Payroll and Benefits for Public Health, Public Safety, or Human Services, the recipient should:

- 1) Follow steps 1 – 12 in [Section IV.c.1](#) above.
- 2) Answer the question “Does this project include a capital expenditure?” (Y/N) (see Figure IV - 16)
- 3) Provide answers to the Public Health and Negative Economic Impact questions (see Figure IV - 16)

- 4) Populate the programmatic data field for “Number of government FTEs responding to COVID-19 supported under this authority” (see Figure IV - 16).
- 5) Once all of the above information is entered, click *Add Project*.
- 6) Click the *Next* button to proceed to the following screen.

If entering projects via bulk upload, recipients should populate the programmatic data columns contained in the appropriate EC’s bulk upload template. [Appendix C](#) provides a helpful table mapping each Expenditure Category to the bulk upload template recipients should use if inputting or updating projects via the bulk upload method.

Additional Information Regarding Certain Programmatic Data

In addition to programmatic data or impact measures for projects for specific Expenditure Categories as noted in [Appendix D](#), Treasury requests information for the following Expenditure Categories:

- 1) Project Demographic Distribution (applicable to Public Health and Negative Economic Impact ECs: EC 1.1-2.37) - recipients must report whether certain types of projects are targeted to impacted and disproportionately impacted communities. Recipients will be asked to respond to the following (see Figure IV - 17):
  - What Impacted and/or Disproportionately Impacted population does this project primarily serve? Please select the population primarily served, based on list included in [Appendix G](#).
  - If this project primarily serves more than one Impacted and/or Disproportionately Impacted population, please select up to two additional populations served, based on list included in [Appendix G](#). If the project does not serve more than one Impacted and/or Disproportionately Impacted population, click “None”.
  - If a project primarily serves an Impacted and/or Disproportionately Impacted population under an “Other” category, add the relevant information in the narrative.

- 2) Public Health and Negative Economic Impact: For projects reported under the Project Expenditure Categories EC1: Public Health, EC2: Negative Economic Impact and EC3: Public Health-Negative Economic Impact: Public Sector Capacity, provide:
  - Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced
  - Brief description of how a recipient’s response is related and reasonably proportional to a public health or negative economic impact of COVID-19 (see Figure IV - 18)
    - Between these two fields above, recipients should provide enough information to identify the type of enumerated eligible use being provided within the EC (e.g., kinship care support services), the public health or economic impact experienced, who the program and/or service is being provided to, and what services are being provided (e.g., respite resources). For enumerated eligible uses (other than certain capital expenditures, as discussed below), recipients are not required to provide substantive documentation that the response is related

and reasonably proportional in the Project and Expenditure Report.

3) **Capital Expenditures:** For projects reported under the Project Expenditure Categories EC1: Public Health, EC2: Negative Economic Impact and EC3: Public Health-Negative Economic Impact: Public Sector Capacity, provide answers to the following questions (refer to Figure IV - 19):

- Does this project include a capital expenditure?
- If “Yes”:
  - i. What is the total expected cost of the capital expenditure, including pre-development costs, if applicable?
  - ii. Type of capital expenditure, based on the following enumerated uses (as noted in [Appendix H](#))
- If the answer is “No”, include a zero for the expected total cost of the capital expenditure
- For recipients (other than Tribal governments) investing in projects with total expected capital expenditures for an enumerated eligible use of \$10 million or more, as well as projects with total expected capital expenditures for an “other” use of \$1 million or more, provide a written justification. (This field was required starting with the July 2022 reporting.)
- For projects with total expected cost of the capital expenditures of over \$10 million, provide labor reporting as outlined for infrastructure projects on pages 25, 27, and 28 of the Reporting Guidance. (These fields were required starting with the July 2022 reporting.)

\* Does this project include a capital expenditure?

4) **Evidenced-based questions** (only applicable to States, U.S. Territories, and metropolitan cities and counties with population over 250,000): For relevant ECs identified in [Appendix C](#) with an asterisk (“\*”), provide the following information in regards to use of evidence. Appendix 2 of the Reporting Guidance provides further details. See Figure IV-20.

- Identify the dollar amount of the total project spending that is allocated towards evidence-based interventions.
- Is a program evaluation of the project being conducted?

Figure IV - 20 Evidence-based questions

5) **Premium Pay** (EC 4.1 and EC 4.2): If EC 4.1 or 4.2 is selected as the project expenditure category, recipients will need to provide additional data, as reflected in Figure IV - 21:

- Sectors Designated as Essential Critical Infrastructure
- Number of workers to be served (cumulative for the project)
- Premium Pay Narrative
- Number of workers to be served with premium pay in K-12 schools (cumulative)

Figure IV - 21 Premium Pay Additional Questions

**Note** - Recipients that are either creating or supporting a Premium Pay program should reference the final rule and the Overview of the Final Rule for information regarding this eligible use. Also, Premium Pay is not an eligible use after April 10, 2023 (funds provided can still be used for work performed before this date).

- **Sectors designated as essential critical infrastructure sectors:** Recipients should refer to the list of sectors below when providing information for this question. Recipients may also refer to this list of sectors on the Subaward screens (see [section IV.g](#)) to answer the question: *Employer sector for all subawards to third-party employers (i.e., employers other*

than the State, local, or Tribal government). If a recipient selects “other”, please describe the additional non-public sector that the recipient’s chief executive (or equivalent) designated consistent with the requirements of the final rule.

- **Premium Pay Narrative:** Recipients must submit a written justification to Treasury describing how the premium pay or grant is responsive to eligible workers performing essential work during the public health emergency for groups of workers that do not meet one of the two criteria below:
  1. Eligible worker receiving premium pay is earning (with the premium included) at or below 150 percent of their residing state or county’s average annual wage for all occupations, as defined by the Bureau of Labor Statistics Occupational Employment and Wage Statistics, whichever is higher, on an annual basis; or
  2. Eligible worker receiving premium pay is not exempt from the Fair Labor Standards Act overtime provisions.

- 6) **Infrastructure Projects Programmatic Data (EC 5):** Programmatic data is requested for Infrastructure projects in addition to data uploaded by bulk template.
- a. **For Water and sewer projects (EC 5.1-5.18):** Recipients will provide information associated with water and sewer projects (see Figure IV - 22), under EC 5.1 through 5.18 when the project starts. Recipients are not required to provide the information if the project has not started. When the “Status of Completion” field is marked “Not Started”, the additional questions required for water and sewer projects will not display. Recipients should consider this guidance when entering the following data:
- Projected/actual construction start date
  - Projected/actual initiation of operations date
  - Location Type
  - Location Details
  - Public Water System (PWS) ID Number
  - National Pollutant Discharge Elimination System (NPDES) Permit Number
  - Median Household Income of service area

- b. **Broadband (EC 5.19-5.21):** Recipients will provide information associated with broadband projects according to the guidance outlined below. Beginning with the July 2022 reporting period, recipients are required to provide planned information, even if the project is marked as “Not Started.” Recipients are required to provide actual information once the project is fully completed; fields that capture actual information will otherwise be optional until the project is fully completed. Beginning in the July 2023 reporting period, recipients are required to provide Fabric ID# and Provider ID#'s for all broadband locations and need to include standardized FCC Identifiers. [Location templates](#) will also need to be included for all broadband projects. This information will be uploaded to portal using the bulk upload process. Recipients should consider this guidance when entering the following data (see Figure IV - 23):

Overall Project Information

Recipients must provide information for these projects, regardless of whether the project has started. In the “Project Description” narrative section, as referenced above, recipients should provide additional information regarding the broadband project, including:

1. A complete list of counties where households, businesses, and community anchor institutions that are to be served by the broadband project are located.  
The geographic information provided in the Project Description in the form of a list of counties, in conjunction with other data regarding the broadband project such as subrecipient information, may be used by Treasury to review broadband projects to ensure that funds are spent on eligible uses consistent with the final rule.
2. Projected/actual construction start date
3. Projected/actual initiation of operations date
4. Do you have a broadband location file to upload?
  - If yes, upon creation Broadband locations will require additional data via bulk upload. Click on the project status  icon after creation to add location data.
  - If no, please explain reasons for not having a location file.
5. Is the project designed to, upon completion, reliably meet or exceed symmetrical 100 Mbps download and upload speeds?
  - If the project is not designed to reliably meet or exceed symmetrical 100 Mbps download and upload speeds, explain why not, and
  - Confirm that the project is designed to, upon completion, reliably meet or exceed 100 Mbps download speed and between at least 20 Mbps and 100 Mbps upload speed, and be scalable to a minimum of 100 Mbps download speed and 100 Mbps upload speed.
6. Is the project designed to provide service to households?
  - If yes, confirm that the service provider for the project participates, or will upon completion of the project, either participate in the Federal Communications Commission (FCC) Affordable Connectivity Program (ACP) or otherwise provide access to a broad-based affordability program that provides benefits to households commensurate with those provided under the ACP to low-income consumers in the proposed service area of the broadband infrastructure.

#### Detailed Project Information: Planned versus Actual

*Planned: Recipients will provide detailed planned information associated with broadband projects even if the project is “Not Started.”*

*Actual: Recipients will provide detailed actual information associated with broadband projects when the project is completed. When the “Status of Completion” field is marked with a status other than “Completed”, the actuals are optional.*

**Broadband Project Design Details:** For each project, the recipient will provide the following information related to the design of the project: (7) the technology types planned and used, (8) the total miles of fiber deployed, (9) the total number of funded locations served by speed (pre-SLFRF investment), (10) the total number of funded location served by speed (post-SLFRF investment), and (11) the total number of funded locations served by type.

7. Broadband Project Technology Type: select all technology types that apply from the following list (“Fiber”, “Coaxial Cable”, “Terrestrial Fixed Wireless”, “Other”)
  - If Technology Type is “Other,” specify what other types of technologies are being used in the buildout to locations covered by this project
8. Total Miles of Fiber Deployed: provide the number representing the total miles of fiber the project is designed to deploy or has deployed
9. Total Number of Funded Locations Served by Speed (pre-SLFRF investment): provide the number of locations the project is designed to serve in the fields listed below. A location is defined as a business or residential location at which fixed mass market broadband Internet access service is, or can be, installed.<sup>3</sup>
  - Total number of funded locations served (cumulative for the project)
  - Total cumulative number of funded locations served receiving below 25/3 Mbps (pre-SLFRF Investment)
  - Total cumulative number of funded locations served receiving 25/3 Mbps or greater but less than 100/20 Mbps (pre-SLFRF Investment)

If the sum of the two items in (8), total locations receiving below 25/3 Mbps and total locations receiving 25/3 Mbps or greater but less than 100/20 Mbps is not equal to the number provided for the total number of funded locations to be served by the project, explain in the text box provided.
10. Project Design Buildout Speeds: provide the following information related to the planned buildout standards for speeds that will be provided as a result of the project receiving SLFRF investment.
  - Total Number of Funded Locations by Speed (post-SLFRF investment): provide the number of locations the project is designed to serve and actually served in the fields listed below (cumulative for the project).
    - a. Total cumulative number of funded locations receiving minimum 100/100 Mbps
    - b. Total cumulative number of funded locations receiving minimum 100/20 Mbps and scalable to minimum 100/100 Mbps
  - Provide the sum of the three speed categories above that will be available following the SLFRF investment (9). The sum of the counts provided in (9) should equal the total number of locations provided above.
11. Total Number of Funded Locations by Type<sup>4</sup>: provide information about the locations the project is designed to serve, including by the following location types:
  - a. Residential
    - a. Total Housing Units
  - b. Business
  - c. Community Anchor Institution

The sum of the counts provided in (10) should equal the total number of locations provided above. If the sum of Residential locations, Business locations, and Community Anchor Institution locations is not equal to the number provided for the total number of funded locations to be served by the project, please explain in the text box provided.

Treasury has determined location type categories according to guidance issued by the FCC in [Establishing the Digital Opportunity Data Collection; Modernizing the FCC Form 477 Data Program](#). Each location should be classified as one of three types: *Residential*, *Business*, or *Community Anchor Institution*. Please note that beginning October 2022 recipients will also capture each location as a unique latitude/longitude point.

Definitions to be used for classifying each location by type, as well as the definition for Housing Unit, can be found below.

- **Residential Location**: A residential location is defined by the FCC as a location that is or contains “housing units” or “group quarters” based on the U.S. Census Bureau’s definition of these terms.<sup>5</sup> For all locations identified as “residential,” the Recipient must also document the total number of “housing units” at that location.
- **Housing Unit**: A housing unit is defined by the Census Bureau as a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied (or if vacant, is intended for occupancy) as separate living quarters. Separate living quarters are those in which the occupants live and eat separately from any other persons in the building and which have direct access from the outside of the building or through a common hall. Multiple housing units in a single structure at a single street address or latitude/longitude point, such as apartment buildings, must be reported in a single record. Recipients should include the number of units of the building in the Number of Housing Units field. Please note that beginning October 2022, recipients will be required to provide latitude/longitude information that conforms with location information in the FCC’s Broadband Serviceable Location Fabric (Fabric)<sup>6</sup> and should report multiple housing units in a single structure in a single record with a single latitude/longitude consistent with the data in the Fabric.

While the Census Bureau does not classify group quarters, such as college dormitories, as housing units, the FCC has determined to include group quarters in the definition of residential structures, which is a departure from the previously-used definitions, because they believe this will be more consistent with the intention of the Broadband DATA Act.<sup>7</sup>

<sup>7</sup> Third Report and Order, 36 FCC Rcd 1126, 1175 para. 127.

- **Business Location**: A business location is defined as a non-residential structure on a property without residential locations that would expect to demand internet access services.<sup>8</sup> Recipients should only report the locations of businesses that they would expect to demand mass market broadband Internet access service, which typically are small businesses. Recipients should not report the locations of larger businesses that purchase or would be expected to purchase dedicated high-capacity transmission services, such as business data services (also known as special access).

For purposes of deciding what business locations “count,” recipients should consider the nature of the service offered to the location. A “small business” would typically subscribe to mass market “best efforts” broadband Internet access service.<sup>9</sup> This does not mean the business actually is subscribing to this service, but rather this is a location where the carrier is commercially offering mass market broadband Internet access service to end users and would provide this type of service if the customer requested it, with no charges or delays attributable to the extension of the network of the provider. This includes the initiation of fixed broadband internet access service through routine installation that can be completed not later than 10 business days after the date on which the service request is submitted.<sup>10</sup>

- **Community Anchor Institution**: A community anchor institution means an entity, such as a school, library, health clinic, health center, hospital or other medical provider, public safety entity, institution of higher education, public housing organization,<sup>11</sup> or community support organization that facilitates greater use of broadband service by vulnerable populations, including, but not limited to, low-income individuals, unemployed individuals, children, the incarcerated, and aged individuals.

Starting in the July 2023 Project and Expenditure (P&E) Reporting, all projects will be required to complete FCC required information. The following location-specific data is required for each project in the format described below. For each location served by a project, the recipient must collect from the subrecipient and submit the following information to Treasury using the [Broadband Bulk Upload Template](#) on the [SLFRF website](#) that includes the following information (see [Appendix I](#) for further details on these fields). The predetermined file format also requests project-level data be provided at the top of the file; project-level information provided in this file should match the information provided in the portal.

- The corresponding Fabric ID from the FCC Broadband Serviceable Location Fabric for the location
- Latitude/longitude at the structure where service will be installed

- **Process for Capturing Latitude/Longitude Data:** The highly preferred and Treasury-encouraged method for generating latitude/longitude data for each location to which service is to be installed is through the use of a commercially available GPS-encoded device physically present at the location. More guidance regarding this preferred method, Geolocation with GPS in the Field, can be found in [Geolocation Methods](#).

The latitude/longitude data for each location to which service is designed to be installed should be situated at the structure that is the broadband serviceable location.

### Speed and Latency

To ensure broadband infrastructure investments meet current and future cases and to promote consistency across federal agencies, Treasury adopts the compliance standards and testing protocols for speed and latency established and used by the Commission in multiple contexts, including the Connect America Fund and the Rural Digital Opportunity Fund.<sup>12</sup> In order to demonstrate continued compliance with these standards, subgrantees must perform speed and latency tests from the customer

---

<sup>12</sup> See, e.g., Connect America Fund, WC Docket No. 10-90, Order, 33 FCC Rcd 6509 (WCB/WTB/OET 2018) (Performance Measures Order); Connect America Fund, Order on Reconsideration, WC Docket No. 10-90, 34 FCC Rcd 10109 (2019) (Performance Measures Reconsideration Order).

premises of an active subscriber to a remote test server at an end-point consistent with the requirements for a Commission-designated IXP.<sup>13</sup>

In addition, 95 percent of latency measurements during testing windows must fall at or below 100 milliseconds round-trip time.<sup>14</sup> This approach ensures a connection that supports reasonably foreseeable real-time applications. In the limited circumstance where even a fiber deployment cannot achieve this latency threshold (for example in a remote territory), Treasury may expand the latency threshold for specific broadband infrastructure investments at the request of a recipient.

- 7) Infrastructure Projects with total expected costs over \$10M: Recipients entering infrastructure projects with total expected costs over \$10 million are required to respond to four questions manually. If you expect a project to exceed \$10 million over its lifetime, it is strongly recommended to complete the reporting in advance to avoid future retroactive reporting burden and project-associated expenses.

As noted, on page 34 for projects reported under the Project Expenditure Categories EC1: Public Health, EC2: Negative Economic Impact and EC3: Public Health-Negative Economic Impact: Public Sector Capacity, where the total expected capital expenditure is over \$10 million, recipients will also provide labor reporting as outlined below.

Recipients are required to provide the following additional information:

Select “Yes” or “No” response to Certification question for Davis-Bacon Act: *Do you intend to certify that “all laborers and mechanics employed by contractors and subcontractors in the performance of the project are paid wages at rates not less than those prevailing, as determined by the U.S. Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code (commonly known as the “Davis-Bacon Act”), for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the civil subdivision of the State (or the District of Columbia) in which the work is to be performed, or by the appropriate state entity pursuant to a corollary state prevailing-wage-in-construction law (commonly known as “baby Davis-Bacon Acts”)?*
  2. If response is “No”, enter the following information in the revealed questions:
    - i. The number of employees of contractors and sub-contractors working on the project;
    - ii. The number of employees on the project hired directly;
    - iii. The number of employees on the project hired through a third party;
    - iv. The wages and benefits of workers on the project by classification; and

**8) Revenue Replacement:** Information previously provided as part of prior reporting will display in this screen. **Recipients must enter information in the required revenue replacement fields prior to submission of the Project and Expenditure Report, even if they have no projects to report.**

As outlined in the final rule, recipients had the option to make a one-time election to either calculate revenue loss according to the formula outlined in the final rule or elect a "Standard Allowance" of up to \$10 million, not to exceed the award allocation, to spend on government services throughout the period of performance. Recipients were asked to make this election during the April 2022 reporting deadline.

Based on recipient feedback and in anticipation of additional questions related to the revenue loss election, **Treasury has decided to keep this portion of the reporting portal open for recipients in upcoming reporting cycles, which will permit recipients to update their prior revenue loss election, as appropriate. Upon update, the prior revenue loss election will be superseded.** Treasury expects to keep this portion of the reporting portal open through the April 2023 reporting period in order to provide an

opportunity for annual reporters to take advantage of this flexibility. Recipients continue to be required to employ a consistent methodology across the period of performance (i.e., choose either the standard allowance or the regular formula), and may not elect one approach for certain reporting years and the other approach for different reporting years.

### Standard Allowance

For recipients electing the “Standard Allowance”, Treasury will presume that up to \$10 million in revenue, not to exceed the award allocation, has been lost due to the public health emergency and recipients are permitted to use that amount to fund “government services.” Please note that electing the standard allowance does not change a recipient’s total allocation. **Note:** Recipients who answered “Yes” or “No” for the Standard Allowance election in prior reporting cycles will have their prior answers displayed in their January 2023 Project and Expenditure Reports, and it will be editable. Recipients who want to maintain their current election need not make any changes. However, if a recipient previously elected to calculate revenue loss or elected the standard allowance but would like to update that election, Treasury’s Portal will allow recipients to supersede their prior election and instead take the standard allowance or calculate lost revenue using the formula in the final rule, respectively. Refer to Figure IV - 28.

The following questions will display in the screen for all recipients, including those with total allocations of \$10 million or less; as noted, your prior responses will be displayed:

- Is your jurisdiction electing to use the standard allowance of up to \$10 million, not to exceed your total award allocation, for identifying revenue loss? Yes/No (Please note electing the standard allowance does not change your total allocation).
- If “Yes” is selected, recipients will enter further information to indicate to Treasury the amount of revenue loss the recipient is electing under the standard allowance, as noted in Figure IV-28.<sup>16</sup>

When entering the amount of revenue loss a recipient is electing under the standard allowance, recipients should note the following:

- If a recipient’s total allocation is \$10 million or greater, the recipient may enter in the amount of revenue loss the recipient is electing up to \$10 million.

---

<sup>16</sup> In many instances, a recipient with a total allocation below \$10 million may choose to use its full allocation as revenue loss funds. For example, a recipient with a \$9 million allocation may elect the standard allowance and use \$9 million for the revenue loss eligible use category.

In other instances, a recipient with an allocation below \$10 million may choose to attribute less than its full award to revenue loss. For example, a recipient with a \$9 million allocation may have obligated or expended funds for a project under another eligible use category (e.g., COVID-19 Vaccination) before the \$10 million standard allowance was announced by Treasury. In that case, the recipient could report the project under the COVID-19 Vaccination eligible use category, and then choose to attribute the rest of its allocation to the revenue loss standard allowance. Alternatively, this recipient could recategorize its previously obligated funds under the revenue loss eligible use category (EC 6.1) to account for them all under revenue loss.

Recipients with allocations greater than \$10 million may also determine to use the full \$10 million as revenue loss, or there may be similar considerations that cause the recipient to take less than the \$10 million standard allowance.

- If a recipient's total allocation is less than \$10 million, the recipient may enter in the amount of revenue loss the recipient is electing up to your total allocation.

### Description of Services

Recipients will also be given a textbox to describe what the funds are being used for under revenue replacement. Treasury requests that descriptions provide explanations that details what type of specific eligible government services are being supported with the funds. The textbox for entering these details is designed to take *at least* 250 characters as part of the description of services. For example, a useful description might of how revenue replacement funds were used might read like the following:

*“Revenue replacement funds are being used to maintain current levels of services of the local government, including the salaries of three firefighters and the related operations and maintenance fees associated with the department’s emergency vehicles. Additional funds were used to maintain and service streetlamps in the downtown area, as well as a project to rebuild the sidewalks of the commercial district.”*

#### Revenue Replacement Key Inputs

\* Is your jurisdiction electing to use the standard allowance of up to \$10 million, not to exceed your total award allocation, for identifying revenue loss?

Yes

If a recipient's total is \$10 million or greater, the recipient may enter in the amount of revenue loss the recipient is electing up to \$10 million.

If a recipient's total allocation is less than \$10 million, the recipient may enter in the amount of revenue loss the recipient is electing up to your total allocation.

### Calculating revenue loss according to the formula

For recipients calculating revenue loss according to the formula, note that the final rule permits recipients to choose whether to use calendar or fiscal year calculation dates. Recipients must use the same calculation time frame (calendar or fiscal year) throughout the award period. For the January 2023 reporting period, recipients will complete the revenue loss fields for 2022 if information is available. Recipients will also confirm their Base Year Fiscal Year End Date and their decision to calculate Actual General Revenue by calendar year or fiscal year.

Please note that Base Year Fiscal Year End Date is the end date of the most recent full fiscal year prior to the public health emergency (i.e., last full fiscal year before January 27, 2020), which for many recipients likely will be the fiscal year ending in 2019. Figure IV - 29 provides the screen recipients will complete.

## h) Subrecipients, Beneficiaries, or Contractors

The Subrecipients, Beneficiaries, or Contractor Profile documents the information about each subrecipient, contractor, or beneficiary that has received at least one Subaward, Contract, or Direct Payment obligation of federal funding greater than or equal to \$50,000 to execute projects supporting the SLFRF program. Please note that projects entered under EC 6.1 Provision of Government Services and EC 6.2 Non-federal match for other Federal Programs are not required to enter Subrecipient, Subaward, or Expenditures (for a subaward) information. Please see Final Rule FAQ 13.14 for more information.

In addition, individual persons receiving direct payment of federal funds are not required to be reported in this module. They should be reported in aggregate under the Payments to Individuals section of the Expenditures module.

The Subrecipients, Beneficiaries and Contractors module allows users to enter data manually or leverage the bulk file upload capability. For bulk-upload instructions specific to this submodule, see [Appendix B](#). You can download the bulk file template for use in submitting the required data via bulk upload. When ready to submit the data, use the upload button (see Figure IV - 31).

Figure IV - 31 Subrecipient/Beneficiaries Bulk Upload Icon

**Note:** When using the bulk file upload capability, the Subrecipient bulk upload must be completed prior to beginning the data entry for the Subawards module.

If you choose to individually enter records, follow the instructions below.

- 1) Enter the Entity Type you are creating a record for. This can be Subrecipient, Contractor, and/or Beneficiary. At least one type must be chosen. Up to three may be specified.
- 2) Enter the relevant Subrecipient, Beneficiary, or Contractor information in each of the required fields (see Figure IV - 32). Recipients must enter a Unique Entity Identifier (UEI) for subrecipients. Recipient must also provide a UEI for Contractors. Recipients only need to provide the TIN for Beneficiaries.

Note: Recipients should be aware that the federal government transitioned from the use of DUNS starting in April 2022. Active SAM.gov registrants will have their UEI assigned and viewable within SAM.gov.

## j) Expenditures

In the Expenditures tab, recipients will provide information for each contract, grant awarded, loan issued, transfer made to other government entities, or direct payment greater than or equal to \$50,000. Additionally, aggregate reporting is required for contracts, grants, transfers made to other government entities, loans, and direct payments that are less than \$50,000.

As mentioned above, obligations and expenditures made directly to individuals, regardless of dollar amount, should be included in aggregate reporting.

If aggregated expenditures linked to a project equal the total Expenditures reported for that project, the Expenditures status box on the My Projects screen is changed to 'Complete'. Please note that projects entered under EC 6.1 Provision of Government Services and EC 6.2 Non-federal match for other Federal Programs are not required to enter Subrecipient, Subaward, or Expenditures (for a subaward) information. Please see Final Rule FAQ 13.14 for more information.

The Expenditures reporting module allows users to enter data manually or leverage the bulk file upload capability. For bulk-upload instructions specific to this submodule, see [Appendix B](#).

If you do not use the bulk upload function, follow the steps listed below.

- 1) To report new expenditures under a specific subaward, enter the subaward number. The Project Name associated with the subaward will auto populate.
- 2) Enter the following:
  - Expenditure Start Date
  - Expenditure End Date
  - Expenditure Amount
- 3) Enter narrative for Administrative Costs, if applicable.
- 4) Click the *Create Expenditure* button to submit the record. Repeat Steps 1 through 3 to report additional sub-award expenditures. Proceed to the next segment once all sub-award expenditures are reported.

### a. Expenditures for Awards Greater Than or Equal To \$50,000

For expenditures for awards greater than or equal to \$50,000, fill out the "Expenditures for Awards > \$50,000" box (see Figure IV - 41). Project name and subaward will be selected to link each expenditure to the appropriate entries. Note that the Project name is automatically

### k) Tax Offset Provision (Only for States and U.S. Territories)

States and U.S. Territories must complete the tax offset reporting fields as outlined below and in Section C (11) of the [Reporting Guidance](#).

For each reporting year, in the quarterly reporting cycle occurring 90 days after the end of the recipient's fiscal year, States and U.S. territories will report certain items related to the Tax Offset Provision. For example, if a recipient's fiscal year ends September 30, 2022, reporting on the Tax Offset Provision for fiscal year 2022 will be due in January 2023. Tax offset reporting for FY21 is closed. If you need to make updates to your previously reported information, please contact [SLFRF@treasury.gov](mailto:SLFRF@treasury.gov). The requested fiscal year for the January 2023 reporting period is fiscal year 2022, for recipients with a fiscal year end date of September 30, 2022.

As indicated in the final rule, Treasury is implementing a tiered approach to reporting on the Tax Offset Provision, which is described below. Although Treasury is implementing a tiered approach to reporting, recipients should maintain records to support their compliance with the Tax Offset Provision.

The terms "reporting year," "baseline," "covered change," "covered period," "net reduction in total spending," and "tax revenue" are defined in the final rule, 31 CFR § 35.3. For purposes of calculating a net reduction in total spending, total spending for the fiscal year ending 2019

should be reported on an inflation-adjusted basis, consistent with the final rule. Similarly, for purposes of calculating baseline tax revenue, tax revenue for the fiscal year 2019 should be reported on an inflation-adjusted basis, consistent with the final rule.

For purposes of reporting actual tax revenue for the requested fiscal year and baseline tax revenue for the fiscal year ending 2019, (a) if available, recipients should report information using audited financials and (b) recipients may provide data on a cash, accrual, or modified accrual basis, but must be consistent in their approach across all reporting periods. Similarly, for purposes of calculating a net reduction in total spending, recipients should report data using audited financials where available.

Recipients will first answer a series of summary questions to determine the tiering of their tax offset reporting: Depending on your answers to these questions, the portal will reveal fields needed in five sections, referred to as parts, using the following logic. The requested fiscal year for the January 2023 reporting period is fiscal year 2022, for recipients with a fiscal year end date of September 30, 2022. See Figure IV – 44.

- Q1: Do you have revenue-reducing covered change(s) to report for the requested fiscal year and for future fiscal years?
  - If no, recipients have no further reporting requirements in the tax offset section.
  - If yes, recipients will complete **part 1** and additional fields.
- Q2: Is the aggregate value of your revenue-reducing covered change(s) for the requested fiscal year less than the de minimis?
  - If yes, recipients will complete **parts 1 and 2**, and no further reporting is required in the tax offset section.
  - If no, recipients will complete **parts 1, 2** and additional fields.
- Q3: Do you have a reduction in net tax revenue for the requested fiscal year, meaning that actual tax revenue for the requested fiscal year is less than baseline tax revenue?
  - If yes, recipients will complete **parts 1, 2, and 3** and additional fields.
  - If no, recipients will complete **parts 1, 2, and 3**, and no further reporting is required in the tax offset section.
- Q4: Do you have revenue-increasing covered change(s) and/or covered spending cuts to report for the requested fiscal year?
  - If yes, recipients will complete **parts 1, 2, 3, and 4**.
  - If no, recipients will complete the Revenue Reduction Cap **part 5 in addition to parts 1, 2, and 3**.

**Ineligible Activities: Tax Offset Provision**

For each reporting year, in the quarterly reporting cycle occurring 90 days after the end of the recipient's fiscal year, States and territories will report certain items related to the Tax Offset Provision. For example, if a recipient's fiscal year ends June 30, 2022, reporting on the Tax Offset Provision for fiscal year 2022 will be due in October 2022.

Tax offset reporting for FY21 is closed. If you need to make updates to your previously reported information, please contact [SLFRF@treasury.gov](mailto:SLFRF@treasury.gov)

Figure IV - 44 Tax Offset Provision Screen

1) Reporting Part 1: Revenue-Reducing Covered Changes (Figure IV - 45)

For each reporting year, a recipient must report the value of covered changes that the recipient predicts will have the effect of reducing tax revenue in a given reporting year (revenue-reducing covered changes), similar to the way it would in the ordinary course of its budgeting process. The value of these revenue-reducing covered changes may be reported based on estimated values produced by a budget model, incorporating reasonable assumptions, that aligns with the recipient government's existing approach for measuring the effects of fiscal policies, and that measures relative to a current law baseline. The revenue-reducing covered changes may also be reported based on actual values using a statistical methodology to isolate the change in year-over-year revenue attributable to the covered change(s), relative to the current law baseline prior to the change(s). Estimation approaches should not use dynamic methodologies that incorporate the projected effects of the policies on macroeconomic growth. In general and where possible, reported values should be produced by the agency of the recipient government responsible for estimating the costs and effects of fiscal policy changes. Recipients must maintain records regarding the identification and predicted effects of revenue-reducing covered changes.

- a. If no, a recipient has no revenue-reducing covered changes to report, no additional reporting is required.
- b. If yes, complete the grid or upload the spreadsheet with the name of each revenue-reducing covered change and the value of the revenue-reducing covered change for

FY21 through FY27. Please note that Tax offset reporting for FY21 is closed. Recipients will not be able to enter covered changes for FY21. If you need to make updates to your previously reported information, please contact [SLFRF@treasury.gov](mailto:SLFRF@treasury.gov).

The statute defines ‘covered period’ to run through the last day of the fiscal year in which all funds received have been expended or returned to, or recovered by, the Secretary of the Treasury. The grid/template will allow users to enter covered changes through FY27; recipients who need to report for later fiscal years may do so in coordination with Treasury.

**Revenue-Reducing Covered Changes**

For each reporting year, a recipient must report the value of covered changes that the recipient predicts will have the effect of reducing tax revenue in a given reporting year (revenue-reducing covered changes), similar to the way it would in the ordinary course of its budgeting process. Please note that recipients providing revenue-reducing covered changes it predicts will have the effect of reducing tax revenue in a future fiscal year will be able to provide actual figures in the reporting period following the end of each fiscal year.

2) Reporting Part 2: Baseline Revenue and De Minimis Threshold (Figure IV- 46)

Baseline Revenue: Recipients must determine whether the aggregate value of the revenue-reducing covered changes in the reporting year is less than one percent of baseline revenue (the de minimis threshold). Baseline has the meaning defined in the final rule, 31 CFR 35.3.

- a. Enter Baseline Revenue in the system table. The system will auto calculate the de minimis threshold, aggregate value of revenue-reducing covered changes, and indicate if the aggregate value of the Revenue-Reducing Covered Change(s) for the requested fiscal year is less than one percent of Baseline Revenue.
  - If the aggregate value of the recipient’s revenue-reducing covered changes in the reporting year is less than the de minimis threshold, then no additional reporting is required.

- If the aggregate value of the recipient’s revenue-reducing covered changes in the reporting year is greater than the de minimis threshold, then recipient must complete part 3.

**Baseline Revenue and De Minimis Threshold**

Recipients must determine whether the aggregate value of the revenue-reducing covered changes in the reporting year is less than one percent of baseline revenue (the de minimis threshold). Baseline has the meaning defined in the Final Rule, 31 CFR 35.3.

3) **Reporting Part 3: Actual Tax Revenue and Reduction in Net Tax Revenue (Figure IV - 47)**

Actual tax revenue is the tax revenue received by the recipient government in the reporting year. Tax revenue has the meaning defined in the final rule, 31 CFR 35.3.

The reduction in net tax revenue is equal to baseline revenue minus actual tax revenue in each reporting year. If this value is zero or negative, there is no reduction in net tax revenue.

- a. Enter Actual Tax Revenue for the requested fiscal year in the system table. The system will auto calculate whether there has been a reduction in net tax revenue and indicate if actual tax revenue is equal to or greater than baseline revenue.
  - If a recipient’s actual tax revenue is equal to or greater than baseline revenue, then no additional reporting is necessary.
  - If a recipient’s actual tax revenue is less than baseline revenue, then recipient must complete part 4.

### Actual Tax Revenue and Reduction in Net Tax Revenue

#### Actual Tax Revenue

Actual tax revenue means the tax revenue received by the recipient government in the reporting year. Tax revenue has the meaning defined in the Final Rule, 31 CFR 35.3.

#### Reduction in Net Tax Revenue

The reduction in net tax revenue is equal to baseline revenue minus actual tax revenue in each reporting year. If this value is zero or negative, there is no reduction in net tax revenue.

#### 4) Reporting Part 4: Revenue-increasing Covered Changes and Covered Spending Cuts (Figure IV- 48)

**Revenue-increasing Covered Changes:** If a recipient has revenue-reducing covered changes, the aggregate value of which exceed the de minimis threshold, and its actual tax revenue does not exceed baseline tax revenue, a recipient must report the value of covered changes that have had or that the recipient predicts will have the effect of increasing tax revenue in a given reporting year (revenue-increasing covered changes), similar to the way it would in the ordinary course of its budgeting process. The value of these revenue-increasing covered changes may be reported based on estimated values produced by a budget model, incorporating reasonable assumptions, that aligns with the recipient’s existing approach for measuring the effects of fiscal policies, and that measures relative to a current law baseline. The revenue-increasing covered changes may also be reported based on actual values using a statistical methodology to isolate the change in year-over-year revenue attributable to the revenue-increasing covered change(s), relative to the current law baseline prior to the change(s). Estimation approaches should not use dynamic methodologies that incorporate the projected effects of the policies on macroeconomic growth. In general and where possible, reporting should be produced by the agency of the recipient responsible for estimating the costs and effects of fiscal policy changes. Recipients should maintain records regarding revenue-increasing covered changes and estimates of such changes.

**Covered Spending Cuts:** Recipients may cut spending in certain areas to pay for revenue-reducing covered changes, up to the amount of the recipient’s net reduction in total spending. To calculate the amount of spending cuts that are available to offset a reduction in tax revenue, the recipient must first consider whether there has been a reduction in total net spending, excluding Fiscal Recovery Funds (net reduction in total spending). As defined in the Final Rule, 35 CFR 35.3, net reduction in total spending is measured as the recipient government’s total spending for a given reporting year excluding Fiscal Recovery Funds, subtracted from its total spending for its fiscal year ending in 2019, adjusted for inflation using the Bureau of Economic Analysis’s Implicit Price Deflator for the gross domestic product of the United States for that reporting year. If that calculation yields a positive value, there has been a net reduction in total spending; if it yields zero or a negative value, there has not been a net reduction in total spending. If there has been no net reduction in total spending, a recipient will have no spending cuts to offset a reduction in net tax revenue.

Next, a recipient must determine and aggregate the value of spending cuts in each “reporting unit.” “Reporting units” are departments, agencies, or authorities of the recipient’s government. For each reporting unit, the recipient must report (1) the amount of the reduction in spending in the reporting unit for the reporting year relative to its inflation-adjusted FY 2019 level, (2) the amount of any Fiscal Recovery Funds spent in the reporting unit in the reporting year, and (3) the amount by which the reduction in spending in the reporting year exceeds the Fiscal Recovery funds spent in the reporting unit in the reporting year. If a recipient has not spent amounts received from the Fiscal Recovery Funds in a reporting unit, the full amount of the reduction in spending counts as a covered spending cut and may be included in the aggregate value of spending cuts. If the recipient has spent amounts received from the Fiscal Recovery Funds, such amounts generally would be deemed to have replaced the amount of spending cut, and only reductions in spending above the amount of Fiscal Recovery Funds spent on the reporting unit would be eligible to offset a reduction in net tax revenue. Only such amounts above the amount of Fiscal Recovery Funds spent on the reporting unit should be included in the aggregate value of spending cuts.

To align with existing reporting and accounting, the Final Rule considers the department, agency, or authority from which spending has been cut and whether the recipient government has spent amounts received from the Fiscal Recovery Funds on that same department, agency, or authority. Some commenters on the interim final rule argued that the methodology for identifying offsetting spending cuts at the department, agency, or authority level was too restrictive, but as discussed in the final rule, Treasury maintained the approach of requiring this reporting at the department, agency, or authority level. Recipients are encouraged to define reporting units in a manner consistent with their existing budget process and should, to the extent possible, report using the same reporting unit in each reporting year. Spending cuts must be reported relative to FY 2019 spending levels, adjusted for inflation, and excluding Fiscal Recovery Funds from reporting year spending levels. Recipients should maintain records regarding spending cuts.

- a. Complete grid or upload spreadsheet with the name of each revenue-increasing covered change and the value; enter in the aggregate value of revenue-increasing covered change(s).
- b. Complete grid or upload spreadsheet of specific spending cuts and the corresponding “reporting unit”, including the name of the reporting unit, description of the spending cut, the amount of the reduction in spending in the reporting unit for the reporting year relative to its

inflation-adjusted FY 2019 level, the amount of any Fiscal Recovery Funds spent in the reporting unit in the reporting year, and the amount by which the reduction in spending in the reporting unit in the reporting year exceeds the Fiscal Recovery Funds spent in the reporting unit in the reporting year, if at all. Enter the aggregate value of covered spending cuts.

c. Enter the net reduction in total spending for the fiscal years shown in the system table.

In the actual tax revenue and reduction in net tax revenue table, the system will auto calculate the values shown.

- If the aggregate value of revenue-reducing covered changes minus the total of (aggregate value of revenue-increasing changes + aggregate value of covered spending cuts) is negative or equal to zero, the system will indicate that no additional reporting is required.
- If the amount is positive, the system will indicate the need to review part 5.

**Revenue-Increasing Covered Changes and Covered Spending Cuts**

If a recipient has revenue-reducing covered changes, the aggregate value of which exceed the de minimis threshold, and its actual tax revenue does not exceed baseline tax revenue, a recipient must report the value of covered changes that have had or that the recipient predicts will have the effect of increasing tax revenue in a given reporting year (revenue-increasing covered changes), similar to the way it would in the ordinary course of its budgeting process.

**Covered Spending Cuts**

Recipients may cut spending in certain areas to pay for revenue-reducing covered changes, up to the amount of the recipient’s net reduction in total spending. To calculate the amount of spending cuts that are available to offset a reduction in tax revenue, the recipient must first consider whether there has been a reduction in total net spending, excluding Fiscal Recovery Funds (net reduction in total spending). Then, a recipient must determine and aggregate the value of spending cuts in each reporting unit.

5) Reporting Part 5: Revenue Reduction Cap (Figure IV - 49)

The “revenue reduction cap,” along with the calculation in Part 3, ensures that recipient governments can use organic revenue growth to offset the cost of revenue-reducing covered changes. If, based on the calculations completed so far, a recipient has not yet demonstrated how its revenue-reducing covered changes were offset by non-SLFRF sources, the reporting portal will auto-calculate the revenue reduction cap, which will be the lesser of the following two amounts:

- Reduction in Net Tax Revenue (baseline tax revenue minus actual tax revenue)
- Aggregate Value of revenue-reducing covered changes minus (total of (aggregate value of revenue-increasing changes + aggregate value of covered spending cuts)). The system will auto populate the fields shown in the table based on previous entries and confirm the recipient’s revenue reduction cap for the fiscal years shown.

### I) Official Certification

On this screen, the Authorized Representative for Reporting (ARR) will be asked to certify information pertaining to the Project and Expenditure Report. By certifying this submission, the ARR is confirming that all reported information is accurate and approved for submission (see Figures IV - 50 and IV - 51).

Users who are not designated as an ARR will not be able to certify and submit.

1. On the Certification screen, validate that the review section project overview status is free of system identified errors. Figure IV - 50 indicates that an error has been identified with the expenditure status. Figure IV - 51 shows a clean status, and the system will allow submission of the report.

By signing here, the Authorized Representative for Reporting certifies that for applicable infrastructure projects over \$10 million, as identified in this report, all laborers and mechanics employed by contractors and subcontractors in the performance of such project are paid wages at rates not less than those prevailing, as determined by the U.S. Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code (commonly known as the "Davis-Bacon Act"), for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the civil subdivision of the State (or the District of Columbia) in which the work is to be performed, or by the appropriate state entity pursuant to a corollary state prevailing-wage-in-construction law (commonly known as "baby Davis-Bacon Acts").

By signing here, the Authorized Representative for Reporting certifies that for applicable infrastructure projects over \$10 million, as identified in this report, the project(s) include(s) project labor agreement(s), meaning (a) pre-hire collective bargaining agreement(s) consistent with section 8(f) of the National Labor Relations Act (29 U.S.C. 158(f)).

Your sub-award and expenditure entry indicates use of loans with maturity beyond the end of the SLFRF program. Please note that SLFRF funds can ONLY be used for the cost of the projected cost of the loan.

Treasury requires you to estimate the subsidy cost using one of the two allowable approaches, outlined in FAQ 4.11 on our website, for estimating the cost of the loan. Treasury will require additional documentation and information in future reporting periods on such loans. This guidance also applies to revolving loan funds. For loans maturing prior to 12/31/2026, or where there is planned forgiveness, unanticipated payment of principal or interest received on loans must be reported a program income. Program income may be applied to other eligible uses during the period of performance, provided that it is obligated by 12/31/2024. Any program income that is not obligated by 12/31/2024 must be returned to Treasury.

\* I acknowledge the requirements for using SLFRF funds for loans with extended maturities and/or revolving loan funds

## Section V. Editing and Revising Your Data

This section provides instructions for recipients who seek to provide updates or revisions to information submitted as part of previous Project and Expenditure Reports. Please note that, unless initiated by Treasury staff, recipients will not have the ability to make any edits to submitted reports after the report deadline. All edits or changes must be reflected in the next available report.

There are two ways to edit Project and Expenditure Report data:

- **Manual Entry** – using the Treasury Portal’s web-based forms to edit or change fields individually.
- **Bulk Upload** – using the bulk upload functionality in the different report modules to upload a file that updates many different existing records at one time.

### a) Manual Entry

#### 1) Projects

To edit data on the Project Overview page, recipients should click on the icon for the project under the “Project Status” column. See figure V - 1

Expendi... ▾	Expenditure ... ▾	Project Status

Doing so will reopen the “Edit Project” window whereby edits or changes can be entered into the available fields (see Figure V-2). Recipients must **SAVE** the project for the edits or changes to be accepted.

Figure V- 2 Edit Project Window

Recipients also have the ability to delete any new projects that have been created during the current reporting cycle by clicking the “Delete Project” button in the “Edit Project” window. Deleting a project will automatically also delete any subawards and/or expenditure records associated with the project.

**Note:** Recipients will NOT be able to delete projects submitted as part of prior reports. In order to remove SLFRF funding from a previously reported project, recipients must follow the steps below:

- In the project’s Status to Completion field, select “Cancelled”.
- Edit the project’s Total Cumulative Obligations and Total Cumulative Expenditures to be \$0.00.
- Make corresponding edits to any associated Subawards by editing the “Subaward Amount (Obligation)” field to equal \$0.00.
- Create offsetting entries for any associated Expenditures or Aggregate Obligations/Expenditures so that the balance of expenditures equals \$0.00.

## 2) Subrecipient/Contractors/Beneficiaries

Recipients also have the ability to edit previously entered Subrecipient/Beneficiary/Contractor information by clicking on the “View/Edit” button as displayed in Figure V-3 below.

Figure V- 3 Edit Subrecipient Information

Recipients will be able to edit identifiers such as the UEI. Subrecipient identifying information, including UEI, should be entered or updated, as DUNS numbers are no longer being used as a valid identifier.

### 3) Subaward/Direct Payment

Similarly, for editing previously entered Subaward/Direct Payments data, recipients will need to click on the “Show Information” button for a particular record.

Please note that editing the “Subaward Amount (Obligations)” field will trigger a requirement to provide a written explanation for the change. The explanation field should briefly explain the nature of the underlying change.

### 4) Expenditures

Starting with the July 2022 report, records created in the Expenditures module during prior reporting periods will not be editable. Recipients will need to make any changes to the total amount of obligation or expenditure by creating new records for the current reporting period in either positive or negative amounts.

#### b) Bulk Upload

Similar to bulk uploading new data (as described in Appendix B), recipients have the ability to edit multiple records at one time by using the bulk upload templates for the Projects Overview, Subrecipient/Beneficiary/Contractor, and Subaward/Direct Payments modules.

The steps to make these edits using bulk upload templates are as follows:

- 1) Populate the identifier field in the relevant Bulk Upload Template for the records you want to edit. Make sure that in each template, the identifiers correspond with records that currently exist in the system. You can use the “Download as CSV” function below every module to easily view your record’s identifiers in Excel. The unique identifier for each module is as follows:

- Project Overview: “Project ID”
- Subrecipient/Beneficiary/Contractor: “ID”
- Subaward/Direct Payments: “Subaward ID”

**Note:** as described above, Expenditure records created in past reporting periods will not be editable in the current Project and Expenditure report. New records need to be created, entering either positive or negative values, to change the total amounts.

- 2) Once the identifier is populated for the records you want to edit, fill in the rest of template both with fields that are being edited, and fields that are not changing. **IMPORTANT:** Editing with bulk upload replaces data in the entire record, not just the fields you want to edit. So, if you leave any fields blank in your upload template, they will be blank in the system.
- 3) After completing the bulk upload template that includes edits, upload the file normally based on the modules you are uploading for. The instructions are as described in Appendix B. Validate your data to ensure it is accurate and can be uploaded.

- 4) After uploading your edits, check your records within Treasury's Portal to ensure data was uploaded correctly. Edits can subsequently be made manually as well if additional changes need to be made.

## Appendix A – Designating SLFRF Points of Contact by SLFRF Account Administrators

This section provides a brief instruction for SLFRF Account Administrators on accessing Treasury’s Portal to provide the names and contact information of officials to be designated as your organization’s points of contact for the SLFRF award(s). The following pages provide step-by-step guidance. See FAQ Section B for commonly asked questions/answers on this topic.

Note- the screens noted below may be subject to change.

### Section A: Instructions

#### Step 1

You must be registered in the ID.me or Login.gov system to access Treasury’s Portal. If you have questions about registering in ID.me or Login.gov, please email [SLFRF@treasury.gov](mailto:SLFRF@treasury.gov).

#### Step 2

Once you are registered in ID.me or Login.gov, click on the link in the email you received requesting the POC designations. If you do not have the email link, please email us via [SLFRF@treasury.gov](mailto:SLFRF@treasury.gov) and we will provide the link.

#### Step 3

The link will take you to the Treasury Portal “State, Local, and Tribal Support” landing page as shown below. Once on that page, click on the *Go to Your Reports* button at the bottom left of the screen, as indicated in by the red box below.

Figure A - 1 State, Local and Tribal Support Landing Page

#### Step 4

The green *Go to Your Report* button will take you to the Submissions and Compliance page as shown below. Once on that page, click on the three-line navigation icon at the top left of the screen. The red box indicates the icon.

Figure A - 2 My Compliance Reports

**Step 5**

After clicking on the three-line navigation icon, a drop-down menu will appear on the top left of the screen as shown below. Please click on “Account” from the drop-down menu, as shown by the red box below.

## Section B: Questions and Answers

### Who is authorized to designate the Account Administrator, the Point of Contact for Reporting, and the Authorized Representative for Reporting for my organization’s SLFRF’s award?

Treasury requests that each SLFRF should follow its own decision-making procedures in making the three designations for each award.

### What is the deadline for making the designation?

Treasury requests that users of Treasury’s portal make the three designations as soon as possible to enable your organization to submit required reports.

### What are the responsibilities for each of the three designated roles?

The required roles are as follows:

- **Account Administrator** for the SLFRF award has the administrative role of maintaining the names and contact information of the designated individuals for SLFRF reporting. The Account Administrator is also responsible for working within your organization to determine its designees for the roles of Point of Contact for Reporting and Authorized Representative for Reporting and providing their names and contact information via Treasury’s Portal. The Account Administrator can also view and submit reports. Finally, the Account Administrator is responsible for making any changes or updates as needed over the award period. We recommend that the Account Administrator identify an individual to serve in his/her place in the event of staff changes.

- **Point of Contact for Reporting** is the primary contact for receiving official Treasury notifications about reporting on the SLFRF award, including alerts about upcoming reporting, requirements, and deadlines. The Point of Contact for Reporting is responsible for completing the SLFRF reports but cannot certify and submit these reports.
- **Authorized Representative for Reporting** is responsible for certifying and submitting official reports on behalf of the SLFRF award recipient. Treasury will accept reports or other official communications only when submitted by the Authorized Representative for Reporting. The Authorized Representative for Reporting is also responsible for communications with Treasury on such matters as extension requests and amendments of previously submitted reports. The official reports may include special reports, monthly reports, quarterly reports, interim reports, and final reports.

**May my organization designate one individual for multiple roles?**

Yes, an individual may be designated for multiple roles. For example, the individual designated as the Account Administrator can also be designated as the Authorized Representative for Reporting or Point of Contact for Reporting. It is also acceptable for an organization to designate one individual for all three roles however it should also adhere to any applicable rules on personnel checks and balances.

**May my organization designate more than one individual per role?**

Yes, you may designate more than one person per each role but are encouraged to limit the number of users assigned to each role.

**May my organization change the designations from time to time?**

Yes, an organization may make changes and updates to the list of designation individuals whenever needed.

**Must each of the designated individuals register for using Treasury’s Portal?**

Yes, everyone designated for any of the roles must register with ID.me or Login.gov before they will be given access to Treasury’s portal. Please contact us at the email address below for more information and guidance on registering with ID.me or Login.gov. If you are already registered with ID.me, you do not have to register to Login.gov to access your reports.

**Additional Questions or Additional Assistance?**

If you have additional questions about accessing or using Treasury’s portal to provide the designees’ names and contact information, please send us an email via [SLFRF@treasury.gov](mailto:SLFRF@treasury.gov).

### c) Template Description

Each of the bulk file upload templates contains instructions on how to populate the respective fields within each file. When adding content to each template, please follow the “Help” text, which will provide what is and isn’t permitted for each cell. Each Module in the web application provides a link to download the template. All templates have the same structure as described below:

Row 1: Template Version

Row 2: Template Name

Row 3: Instructions: Brief description of the template constraints.

Row 4: Field IDs: Column identifiers

Row 5: Required or Optional: This field specifies if the field is optional or required. When the column is required, and a recipient does not provide the required data, the system will not accept any record or allow the file to be uploaded. NOTE: Due to system constraints, some required fields that are conditional based on the Expenditure Category are marked as optional in the bulk upload templates.

Row 6: Field Name: Brief description of each Field or Column

Row 7: Field Help Text: Provides a description of the column. There are 2 types of fields, 1). an open value either text or numbers and 2). A predefined list of pick list values:

- Open Value: Any text or number. Text for State name or a Number that represents amounts. Most text types are free formats, the only expectation is for Dates, each column that represents a date describes the accepted format. For any number field, it is not required to add “,” to represent thousands or it is not required to add “\$” to represent currency. Only add decimal “.” when needed.
- Pick List: A Predefined list of values that is accepted by the system. When the column is a pick list, row 7 provides the list of options that the system accepts. End users should “copy and paste” the valid value for each record. If the respondent provides a value that is not in the predefined pick list, the system will not accept the file. Responses should not contain double quotes

Row 8: Data that recipient submits. Row 8 is where recipients insert specific data to submit. The system accepts 1 or many rows.

*The following is special guidance for each row or set of rows:*

- Do not change the content of rows 1 to 7.
- Rows 4 to 7 provide metadata of each data element or column of the information that recipients will provide.
- Add your data beginning in row 8, column B.

#### **d) Bulk Upload Process**

The upload process includes the following steps:

- 1) Download the template from the link provided in the web application section of the module.
- 2) Open the template in Microsoft Excel.
- 3) Add data starting with row 8, column B of the applicable template.
- 4) When you finish adding your data for row 8, repeat on additional rows as required.
- 5) Save the template as a .CSV file and change the name of the file if needed.
- 6) Click the Bulk Upload link to open the Bulk Upload box (see Figure B - 1).

Figure B - 1 Bulk Upload Pop Up

- 7) Attach the saved .CSV file by clicking on “Upload Files”, alternatively drag the file to the designated area.
- 8) A message will appear confirming that your file is uploaded (see Figure B-2). Click “Done”.

Figure B - 2 File Upload Message

- 9) File will be listed at the bottom of the bulk upload window (see Figure B-3).

Figure B - 3 File Added to Bulk Upload Portal

- 10) Click “Validate” to have the system verify that your bulk upload does not have errors.
- 11) If the system validation finds errors in your bulk upload, it will return the screen with the list of the errors (see Figure B-4). From here, update on the screen by manually typing in your corrections in the Value column, or restart the process with a corrected bulk upload file.
- 12) In cases when it may be preferable to work from a master list of errors, click the *Download – Export Errors* link, highlighted in red box, to download a spreadsheet detailing all errors in the bulk upload file. Once your errors are corrected, click “update”. The system will once again check your upload for errors.

Row	Column	Field	Value	Error Message
8	B	Project_Expenditure_Category__c	<input type="text"/>	(Project_Expenditure_Category__c) : Project Expenditure Category Group is required.
8	C	Sub_Category__c	<input type="text"/>	(Sub_Category__c) : Project Expenditure Category is required.
8	D	Name	<input type="text"/>	(Name) : Project Name is required.

Figure B - 4 Listing of Bulk Upload Errors

13) If the system validates that the bulk upload has no errors, it will return the same screen as Figure B - 5 with instead the option to “Create” (see Figure 75). Click the “Create” button.

**e) Bulk Upload Creation Steps**

The collective bulk file upload process is contingent upon end-users following the below steps to ensure successful submission.

**Note:** All data submitted via the bulk upload functionality must be submitted as a .CSV file.

**f) CSV Guidance**

Refer to the following link for descriptions of the CSV format.

[https://en.wikipedia.org/wiki/Comma-separated\\_values](https://en.wikipedia.org/wiki/Comma-separated_values)

**g) Specific CSV characteristics**

- The date format is: MM/DD/YYYY. Example:  
1. 06/22/2021
- All currency values are numeric. It is not required to add “,” for thousand or millions.

- All currency values should not contain a “\$” sign. The file will be rejected if a “\$” is included in the data entry.
- Once you’ve saved the excel spreadsheet as a .csv file, do not re-open the file. Re-opening the file will cause excel to possibly revert to an .xls type file and leading zeros or other issues may occur.

**h) Upload Template Description**

Each data element and/or column in the CSV files is described below:

- Index No: Reference number for the data element. For internal use only.
- Defined term: Column Short description.
- Definition: Column long description or definition.
- CSV Column Name: The column header name that must be used in the CSV file.
- Required: Indicates if the column is required or not required.
- List Value: The content of the column is from a list of predefined values. This is valid for some of the columns. The list is provided for all cases. Most of the cases is N/A which means that the type is ether String or Numeric.
- Data type: Specify the data type of the column. The options are: Numeric, Text, Date and Pick List.
- Max Length: Indicates the maximum length in characters that is allowed for each column.

## Appendix C – Expenditure Categories and Template Mapping

The Expenditure Categories (EC) listed below must be used to categorize each project as noted in the [Reporting Guidance](#). The term “Expenditure Category” refers to the detailed level (e.g., 1.1 COVID-10 Vaccination). When referred to at the summary level (e.g., EC 1) it includes all Expenditure Categories within that summary level.

For the table below, the following legend applies.

\*Denotes areas where recipients must identify the amount of the total funds that are allocated to evidence-based interventions (see Use of Evidence section above for details). Please note the evidence-based questions are only applicable to States, U.S. Territories, and metropolitan cities and counties with population over 250,000.

^Denotes areas where recipients must report on whether projects are primarily serving disproportionately impacted communities (see Project Demographic Distribution section above for details)

The Programmatic Data column indicates which Expenditure Categories have associated programmatic data, in addition to the project standard information. More information on each EC’s programmatic data is contained in Appendix C and in the [Reporting Guidance](#).

## EC 6.1 and 6.2

There is no additional programmatic data required for EC 6.1 Revenue Replacement or EC 6.2 Non-federal match for other Federal Programs and there is no bulk upload template option. For EC 6.2, recipients should note the program name and assistance listing of the other federal program that is being matched in the project description.

In addition, note that projects reported under EC 6.1 and EC 6.2 do not have subawards, so recipients will not report subrecipients, subawards, expenditures (for subawards or in aggregate). Entry screens for EC 6.1 and 6.2 will have the following fields greyed out and unavailable for entry: Subrecipient module, Subaward Module, Expenditure Module.

In situations where recipients have changed a project’s expenditure category to EC 6.1 or EC 6.2, a warning sign will appear on the Project Overview page for the Obligation and Expenditure statuses for that project if subaward, and/or subaward/aggregate expenditure records exist. Functionality is available by clicking on the warning sign to efficiently delete any associated records created in the Subaward or Expenditure module for that project.

## EC 7.1 – 7.2

There is no additional programmatic data required for the following ECs:

- EC 7.1 Administrative Expenses
- EC 7.2 Transfers to Other Units of Government

## Appendix E - Expenditure Categories

Treasury’s final rule provides greater flexibility and simplicity for recipients to fight the pandemic and support families and businesses struggling with its impacts, maintain vital services amid revenue shortfalls, and build a strong, resilient, and equitable recovery. As such, recipients started to report on a broader set of eligible uses and associated Expenditure Categories (EC), starting with the April 2022 Project and Expenditure Report. The table below includes the new Expenditure Categories, as well as a reference to previous Expenditure Categories used for reporting under the interim final rule.

The Expenditure Categories (EC) listed below must be used to categorize each project. The term “Expenditure Category” refers to the detailed level (e.g., 1.1 COVID-19 Vaccination). When referred to as a category (e.g., EC 1) it includes all Expenditure Categories within that level.

\*Denotes areas where recipients must identify the amount of the total funds that are allocated to evidence-based interventions (see Use of Evidence section above for details). Please note the evidence-based questions are only applicable to States, U.S. Territories, and metropolitan cities and counties with population over 250,000.

^Denotes areas where recipients must report on whether projects are primarily serving disproportionately impacted communities (see Project Demographic Distribution section above for details)

- a. What Impacted and/or Disproportionately Impacted population does this project primarily serve? Please select the population primarily served.
- b. If this project primarily serves more than one Impacted and/or Disproportionately Impacted population, please select up to two additional populations served.

For this question the following options are available.

<sup>22</sup> Low-income households and communities are those with (i) income at or below 185 percent of the Federal Poverty Guidelines for the size of the household based on the most recently published poverty guidelines by HHS or (ii) income at or below 40 percent of Area Median Income for its county and size of household based on the most recently published data by HUD.

<sup>23</sup> For Disproportionately Impacted households, these programs are Temporary Assistance for Needy Families (“TANF”), Supplemental Nutrition Assistance Program (“SNAP”), Free- and Reduced-Price Lunch (“NSLP”) and/or School Breakfast (“SBP”) programs, Medicare Part D Low-Income Subsidies, Supplemental Security Income (“SSI”), Head Start, Special Supplemental Nutrition Program for Women, Infants, and Children (“WIC”), Section 8 Vouchers, Low-Income Home Energy Assistance Program (“LIHEAP”), and Pell Grants.

<sup>24</sup> For educational services and other efforts to address educational disparities, Treasury will recognize Title I eligible schools as disproportionately impacted and responsive services that support the school generally or support the whole school service as eligible. “Title I eligible schools” means schools eligible to receive services under section 1113 of Title I, Part A of the Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. 6313), including schools served under section 1113(b)(1)(C) of that Act.

## Appendix J – Frequently Asked Questions

### 1.1. What records must be kept by governments receiving funds?

Financial records and supporting documents related to the award must be retained for a period of five years after all funds have been expended or returned to Treasury, whichever is later. This includes those which demonstrate the award funds were used for eligible purposes in accordance with sections 602(c) and 603(c) of the Social Security Act, Treasury’s regulations implementing those sections, and Treasury’s related guidance.

### 1.2. What reporting will be required, and when will the first report be due?<sup>25</sup>

Recipients are required to submit an interim report, project and expenditure reports, and annual Recovery Plan Performance Reports as specified below, regarding their utilization of Coronavirus State and Local Fiscal Recovery Funds.

Interim reports: States (defined to include the District of Columbia), territories, metropolitan cities, counties, and Tribal governments were required to submit one interim report. The interim report was required to include a recipient’s expenditures by category at the summary level and for states, information related to distributions to non-entitlement units of local government were also required to be included in the interim report. The interim report covered activity from the date of award to July 31, 2021 and was due to Treasury by August 31, 2021 or 60 days after receiving funding if funding was received by October 15, 2021. Non-entitlement units of local government were not required to submit an interim report.

Project and Expenditure reports: State (defined to include the District of Columbia), territorial, metropolitan city, county, and Tribal governments are required to submit project and expenditure reports. This report includes financial data, information on contracts and subawards greater than or equal to \$50,000, types of projects funded, and other information regarding a recipient’s utilization of award funds.

Reports are required quarterly for the following recipients:

- States and U.S. territories
- Tribal governments that are allocated more than \$30 million in SLFRF funding
- Metropolitan cities and counties with a population that exceeds 250,000
- Metropolitan cities and counties with a population below 250,000 that were allocated more than \$10 million in SLFRF funding and NEUs that are allocated more than \$10 million in SLFRF funding

The initial project and expenditure report for quarterly recipients was due January 31, 2022 and covered the period of March 3, 2021 to December 31, 2021. The subsequent quarterly reports will cover one calendar quarter and must be submitted to Treasury by the last day of the month that follows the end of each calendar quarter.

Reports are required annually for the following recipients:

- Tribal governments that are allocated less than \$30 million in SLFRF funding

---

<sup>25</sup> This question was updated on November 15, 2021

- Metropolitan cities and counties with a population below 250,000 that are allocated less than \$10 million in SLFRF funding and NEUs that are allocated less than \$10 million in SLFRF funding

The initial project and expenditure report for annual filers was due April 30, 2022 and covered the period of March 3, 2021 to March 31, 2022. The subsequent annual reports must be submitted to Treasury by April 30 each year.

The reports will include the same general data as those submitted by recipients of the Coronavirus Relief Fund, with some modifications to expenditure categories and the addition of data elements related to specific eligible uses.

Recovery Plan Performance Reports: States (defined to include the District of Columbia), territories, and metropolitan cities and counties with a population that exceeds 250,000 residents are also required to submit an annual Recovery Plan Performance Report to Treasury. This report will include descriptions of the projects funded and information on the performance indicators and objectives of each award, helping local residents understand how their governments are using the substantial resources provided by the SLFRF program. The initial Recovery Plan Performance Report covered activity from date of award to July 31, 2021 and was due to Treasury by August 31, 2021 or 60 days after receiving funding. Thereafter, the Recovery Plan Performance Reports will cover a 12-month period and recipients are required to submit the report to Treasury within 30 days after the end of the 12-month period. The second Recovery Plan Performance Report will cover the period from July 1, 2021 to June 30, 2022 and must be submitted to Treasury by July 31, 2022. Each annual Recovery Plan Performance Report must be posted on the public-facing website of the recipient. Local governments with fewer than 250,000 residents, Tribal governments, and non-entitlement units of local government are not required to develop a Recovery Plan Performance Report.

Please see the [Compliance and Reporting Guidance](#) for more information.

### **1.3. Once a recipient has identified a reduction in revenue, how will Treasury track use of funds for the provision of government services?**

The ARPA establishes four categories of eligible uses and further restrictions on the use of funds to ensure that Fiscal Recovery Funds are used within the four eligible use categories. The final rule implements these restrictions, including the scope of the eligible use categories and further restrictions on states or territories using SLFRF funds to offset a reduction in a recipient's net tax revenue resulting from changes in state or territory law and deposits into pension funds for recipients other than Tribal governments.

Consistent with the broad latitude provided to recipients to use funds for government services to the extent of the reduction in revenue due to the pandemic, recipients will be required to submit a description of services provided. These services can include a broad range of services but may not be used directly for pension deposits (except for Tribal governments), contributions to reserve funds, or debt service. Recipients may use sources of funding other than Fiscal Recovery Funds to make deposits to pension funds, contribute to reserve funds, and pay debt service, including during the period of performance for the Fiscal Recovery Fund award.

For recipients using Fiscal Recovery Funds to provide government services to the extent of reduction in revenue due to the pandemic, the description of government services reported to Treasury may be narrative or in another form, and recipients are encouraged to report based on their existing budget processes and to minimize administrative burden. For example, a recipient with \$100 in revenue replacement funds available could indicate that \$50 were used for personnel costs and \$50 were used for pay-go building of sidewalk infrastructure.

In the Project and Expenditure report, recipients using revenue loss funds for the provision of governments services may report projects under Expenditure Category 6.1. Recipients using revenue loss funds for non-federal match may report projects under Expenditure Category 6.2. Recipients using revenue loss funds for non-federal match should include the Program Name and Assistance Listing of the other federal program that is being matched in the project description.

In addition to describing the government services provided to the extent of reduction in revenue, all recipients other than Tribal governments will also be required to indicate that Fiscal Recovery Funds are not used directly to make a deposit in a pension fund. Further, recipients subject to the tax offset provision will be required to provide information necessary to implement this provision. Treasury does not anticipate requiring other types of reporting or recordkeeping on spending in pensions, debt service, or contributions to reserve funds.

These requirements are further detailed in the guidance on reporting requirements for the Fiscal Recovery Funds available [here](#).

#### 1.4. What is the Assistance Listing and Catalog of Federal Domestic Assistance (CFDA) number for the program?

The [Assistance Listing](#) for the Coronavirus State and Local Fiscal Recovery Funds (CSLFRF) was published May 28, 2021 on SAM.gov. This includes the final Assistance Listing number for the program, 21.027.

The assistance listing includes helpful information including program purpose, statutory authority, eligibility requirements, and compliance requirements for recipients. The Assistance Listing number is the unique 5-digit code for each type of federal assistance, and can be used to search for program information, including funding opportunities, spending on usaspending.gov, or audit results through the Federal Audit Clearinghouse.

To expedite payments and meet statutory timelines, Treasury issued initial payments under an existing Assistance Listing number. If you have already received funds or captured the initial Assistance Listing number in your records, please update your systems and reporting to reflect the final Assistance Listing number 21.027. **Recipients must use the final Assistance Listing number for all financial accounting, audits, subawards, and associated program reporting requirements.**

To ensure public trust, Treasury expects all recipients to serve as strong stewards of these funds. This includes ensuring funds are used for intended purposes and recipients have in place effective financial management, internal controls, and reporting for transparency and accountability.

Please see the [final rule](#) and the [Compliance and Reporting Guidance](#) for more information.

**1.5. If a recipient has not received funding as of October 15, 2021 but received funding before the end of December 31, 2021, what are the reporting requirements?**

Treasury recognizes that recipients will need sufficient time to gather the information and determine how to allocate funds in accordance with the interim final rule. As such, recipients that have received funding between October 16, 2021 and December 31, 2021 were not required to submit an Interim Report.

However, recipients in this circumstance are subject to quarterly reporting (those in Reporting Tiers 1, 2, or 3) were required to submit a Project and Expenditure Report by January 31, 2022.

Recipients that are not subject to quarterly reporting were required to submit a Project and Expenditure Report by April 30, 2022.

Recipients must submit a Recovery Plan (if applicable) within 60 days of receiving funding.

**1.6. Does the \$10 million threshold for metropolitan cities and counties with population less than 250,000 and the \$30 million threshold for tribes apply to funds received or the total allocation?**

The reporting threshold is based on the total allocation expected under the SLFRF program, not the funds received by the recipient as of the time of reporting. Recipient reporting tiers will be displayed in the reporting portal. If you believe there is an error with the reporting tier or application of the \$10 million (for metropolitan cities and counties with a population below 250,000 residents) or \$30 million (for tribes) thresholds, please email [SLFRF@treasury.gov](mailto:SLFRF@treasury.gov).

**1.7. How should a recipient report funds if funds were received as multiple entity types (e.g., a county and an NEU, or county and a city)?**

When receiving funds as multiple entity types, a recipient's total SLFRF allocations across all sources will be used to identify that recipient's reporting tier.

A recipient's reporting tier is available for review in the Treasury's Portal and on the Treasury website prior to the reporting deadline. If you believe there is an error in your reporting tier or allocation amount, please email [SLFRF@treasury.gov](mailto:SLFRF@treasury.gov).

**1.8. The guidance covering submission of the Recovery Plan indicates that in addition to submitting a PDF version of the Recovery Plan recipients must also upload a project inventory file and input other programmatic data. Is this no longer required?**

Beginning in July 2022, Treasury started collecting certain data fields previously associated with the Recovery Plan in the Project & Expenditure report. Recipients are still required to upload a PDF version of their Recovery Plan and post this version on easily discoverable webpage on the public-facing website by July 31. Recipients are encouraged to use the suggested template posted in the [www.treasury.gov/SLFRPReporting](http://www.treasury.gov/SLFRPReporting) website when preparing the Recovery Plan template.

**1.9. How should recipients report if the population threshold changes during the reporting period?**

The population threshold is determined by Treasury at award date and will not change during the reporting period. A recipient's reporting tier will be available for review in the reporting portal.

**1.10. How do Recipients identify what Reporting Tier they are in?**

A list of all SLFRF Recipients and their corresponding Reporting Tiers is published on the Treasury website [www.Treasury.gov/SLFRPReporting](http://www.Treasury.gov/SLFRPReporting)

In addition, Recipients will be able to find their Reporting Tier after logging into the Treasury Reporting Portal and selecting the Project and Expenditure Report record. The Reporting Tier will be displayed as part of the Recipient Profile.

**1.11. Can records be edited or updated after submission? How do I report changes?**

Interim Report: No changes will be allowed after the initial submission. Any updates will be captured when the first Project and Expenditure Report is submitted.

Project and Expenditure Report: Recipients will have an opportunity to reopen and provide edits to their submitted Project and Expenditure Reports anytime before the reporting deadline. Recipients will then be required to re-certify and submit the report again to properly reflect any edits made. After the reporting deadline, unless prompted by Treasury staff, recipients will not be able to edit their submitted report. Any changes or revisions will need to be reflected in the next Project and Expenditure report. See Section V of this User Guide for instructions on how to do that.

Recovery Plan: Similarly, Recipients will be allowed to reopen and provide an update of their submitted Recovery Plan report record anytime before the reporting deadline. They should also provide concurrent updates to the publicly posted version.

Recipients will then be required to re-certify and submit the report again to properly reflect any edits made.

**1.12. How do recipients correct or edit pre-populated information or project information in Treasury’s Portal?**

In the event that information presented in Treasury’s Portal requires correction, recipients should email [SLFRF@treasury.gov](mailto:SLFRF@treasury.gov) and provide the necessary edits.

**1.13. Is there any possibility of extension for the reporting deadlines for individual recipients?**

Generally, no. The data submitted by recipients will be used internally for oversight purposes and to fulfill Treasury’s transparency and legal obligations. Late submissions undermine the efficiency and timeliness of these processes. Recipient submissions after the reporting deadline will be considered as late, and recipients will be asked to provide a date by which the delayed reporting will be submitted so that Treasury can plan for incorporating the data. Treasury’s own reporting may highlight those recipients whose reports were not received by the deadline. If there are any changes to the overall reporting deadlines, they will be communicated to the relevant impacted recipients.

**1.14. Is there a penalty for not submitting timely reports?**

A record of late reporting could lead to a finding of non-compliance, which could result in development of a corrective action plan, or other consequences.

**1.15. What is meant by Date of Award?**

The Date of Award is the day the recipient certifies the funding.

**1.16. When are recipients subject to the quarterly reporting?**

Recipients are required to provide quarterly reporting if they are in Reporting Tiers 1, 2, or 3 (see Section III.b). If applicable, reporting will start in the period funds were received and certified and will be required for all quarters thereafter.

Please note, submission of the April 2022 Project and Expenditure report was required for all recipients, including those reporting quarterly and annually.

**1.17. How should interest or principal received from loans made with SLFRF Funds be treated?**

The Project and Expenditure Report includes fields for reporting on program income at the Project level. Interest received on loans made with SLFRF funds should be tracked as program income (See 2 CFR § 200.1 *Program income*). Any program income that comes in by December 31, 2024 can be recycled by the recipients on eligible projects.

Notwithstanding the above, if a recipient uses revenue loss funds to fund a loan, whether or not the maturity of the loan is after December 31, 2026, repayments on such loans are not subject to program income rules.

**1.18. Will there be a way to capture and tally a total award amount that includes program income for ensuring all funds are spent or that any funds that need to be returned are?**

Yes, since Program Income is being collected, Treasury will use the information reported to determine total allowable obligations and expenditures. That information will be made available in the Treasury portal for Recipients as part of future enhancements. Please note, interest earned on advances of federal funds is not considered program income and is not subject to these reporting requirements. (See 2 CFR § 200.1 *Program income*.)

**1.19. Are Recipients required to collect a DUNS number for each of their subrecipients?**

As of April 2022, the Dun & Bradstreet D-U-N-S number is no longer the official identifier for doing business with the U.S. Government. All recipients and each of their subrecipients are required to obtain through SAM.gov registration, a Unique Entity Identifier (UEI) number.

Note: Entities that are beneficiaries are NOT required to register in SAM.gov and are not required to provide a UEI. For beneficiaries that are required to be identified in the Project and Expenditure Report, recipients may use the Taxpayer Identification Number (TIN).

**1.20. Who are beneficiaries and are recipients required to report for them?**

A subrecipient is an entity that receives a subaward to carry out a project funded by Fiscal Recovery Funds on behalf of a recipient. Individuals or entities that are direct beneficiaries of a project funded by Fiscal Recovery Funds are not considered subrecipients. Households, communities, small businesses, nonprofits, and impacted industries are all potential beneficiaries of projects carried out with SLFRF funds.

The terms and conditions of Federal awards flow down to subawards to subrecipients, requiring subrecipients to comply with all requirements of recipients such as the treatment of eligible uses of funds, procurement, and reporting requirements.

Beneficiaries are not subject to the requirements placed on subrecipients in the Uniform Guidance, including audit pursuant to the Single Audit Act and 2 CFR Part 200, Subpart F or subrecipient reporting requirements.

The distinction between a subrecipient and a beneficiary, therefore, is contingent upon the rationale for why a recipient is providing funds to the individual or entity. If the recipient is providing funds to the individual or entity for the purpose of carrying out a SLFRF program or project on behalf of the recipient, the individual or entity is acting as a subrecipient. Acting as a subrecipient, the individual or entity is subject to subrecipient monitoring and reporting requirements. Conversely, if the recipient is providing funds to the individual or entity for the purpose of directly benefitting the individual or entity as a result of experiencing a public health impact or negative economic impact, the individual or entity is acting as a beneficiary. Acting as a beneficiary, the individual or entity is not subject to subrecipient monitoring and reporting requirements.

Similar to reporting under the Coronavirus Relief Fund (CRF), information on both beneficiaries and subrecipients will be collected in a single form in the Project and Expenditure Report.

**1.21. Do recipients who have projects under Expenditure Category 6.1 "Provision of Government Services" need to report on Subrecipients, Subawards, and Expenditures?**

Recipients who have projects categorized under EC 6.1 "Provision of Government Services" are not required at this time to report on the subrecipients, subawards, and expenditures (for subawards or in aggregate) information. Please see Final Rule FAQ 13.14 for more information.

**1.22. How should a Recipient report the Subaward's "Place of Performance" address if the work was performed over a broad area and no specific address is available?**

For the Subaward module, if a specific address is not available for a Subaward, you can enter the corresponding Subrecipient's address or the nearest headquarters of your jurisdiction in the required address fields.

**1.23. Do jurisdictions need to have committed or dedicated funding received by the August 31, 2021 deadline or 60 days after receiving funding for the initial Recovery Plan?**

No. Funding does not need to be committed or dedicated by the time the initial Recovery Plan is submitted. The Recovery Plan should include planned uses of funds and projects to the extent known at the time the Recovery Plan is submitted. Updates can be provided in subsequent Recovery Plans and Project and Expenditure reports.

**1.24. Will the data recipients submit be made publicly available?**

Yes, Treasury will make the data submitted by recipients publicly available. The content and timing of release is still under development. Treasury encourages recipients to make their data directly available through their own websites. Tier 1 recipients, States, territories, and metropolitan cities and counties with a population greater than 250,000, are reminded that they need to post the Recovery Plan on their public website by the date the report is transmitted to Treasury.

**1.25. What reporting is required if no SLFRF funding was used for the activities covered by the Required Performance Indicators noted in Part 2 C.2. of the Reporting Guidance related to the Recovery Plan?**

A recipient only needs to report on mandatory performance indicators if funds were used for that purpose / Expenditure Category.
