**CLARIFICATION:**

1. Question: Within the information provided regarding the budget is a statement regarding additional funding outside of grant monies. Given this is an RFP and not a grant, can you provide additional context regarding this statement and what is being asked for: "In addition to a narrative describing how the applicant's proposal will address each of these requirements, the proposal must also include a budget describing the associated costs. An explanation and sufficient demonstration that at least twenty-five percent (25%) of the funds expended to achieve this proposal are from sources other than from the grant request must be provided."

Answer: Each organization is asked to provide an explanation and sufficient demonstration of how they will cover 25% of the program cost with funds other than what is being awarded by NOLA Public Schools. This requirement is to ensure that NOLA Public Schools is not the sole source of funding for programs/projects awarded through the funding source of this RFP, our System Wide Needs Program. A narrative explanation along with a detailed budget outlining program costs should be provided.

2. Question: Regarding the budget, how will the \$8,000 per candidate be awarded? Can you provide further clarification regarding the allocation of the funding? Will funding be awarded based on the projected number of recruits or on completers?

Answer: NOLA Public Schools is investing in programs that recruit, prepare, and place teachers into New Orleans public schools. Funding will be awarded based on the projected number of recruits. Payments will be made based on the number of teachers placed in New Orleans public schools.
