Linda Antoine, Director of Purchasing

Date 7/29/2024

2024 JULY 29

PROJECT NO: C24-0030

PROJECT NAME

ADDENDUM # 1

BID # 10325-TENNIS COURT

CLARIFICATIONS

1. *QUESTION - This bid is to basically just place the courts, lighting, and drains with no power or drainage connections. Is there future plans for a separate bid to finish the power, and a separate bid to finish the drainage? Also is the short bid turnaround time due to these items not being involved in this bid, or is something missing again?*
 - a. *RESPONSE – Correct this project is to place the courts, lighting, and drains. Connection of the electrical and drainage into the system will be addressed at a later stage.*
2. *QUESTION - Is there a soil report that we can use to submit for our Post Tension Engineered drawings?*
 - a. *RESPONSE – No there is no Geotech Report for this project.*
3. *QUESTION - Looking at the plans, I see two courts together making up one battery, and then a single court by itself. Is this correct?*
 - a. *RESPONSE – This is correct. The base bid consists of a two-court set and a single court (3 total courts). The alternate adding the additional courts consist of three two-court sets (6 total courts).*
4. *QUESTION - I also noticed that the specifications call out non-encapsulated cables. Typically, slab on grade is encapsulated to protect the cables from deteriorating or corroding over time. Just want to clarify if non-encapsulated cables are what is wanted.*
 - a. *RESPONSE – Please provide encapsulated cables in the bid.*

PRIOR APPROVALS

1. *Plexipave is an approved manufacturer for the court surface system.*
