Scope of Work/Services

The scope of services shall include a turnkey maintenance operation which requires Contractor being able to maintain operation and completion of work ordered by Code Compliance and Enforcement without direct supervision, overseeing or management by Code Compliance and Enforcement. Such remedial work by Contractor includes the cutting of grass, brush, other unhealthy vegetation, and removal and disposal of such debris and removal, loading and hauling of junk and debris pursuant to either Bureau of Administrative Adjudication Orders, Court Judgments or work orders as authorized by the Jefferson Parish Code of Ordinances Section 19-21.

When grass is cut by Contractor, pursuant to Code Compliance and Enforcement authorizing such, the cited properties will be expected to have a finish cut height of 1 ½ inches and not to exceed 2 ½ inches in height. The said cited properties whereupon Code Compliance and Enforcement will authorize the removal of vegetation and junk and debris include, but are not limited to, occupied, vacant, residential and commercial properties, including lots with and without improvements.

Types of work contemplated under this contract include clearing, cutting of grass, removing and disposing of all cited vegetation and debris located in or upon any lot, place or sidewalk abutting same, promptly upon notification by the Department of Code Compliance and Enforcement. The authorized work can only commence after Contractor verifies the correct location and the measurements of each lot to square number and street boundaries. Authorized work will **NOT** include the cutting, destroying, and removing of weeds or grass or deleterious, unhealthful growth, trash, debris, refuse, discarded or noxious matter, growing within the limits of the right of way and easement areas of drainage canals and roadway medians.

The Jefferson Parish Department of Code Compliance and Enforcement establish right of way lines and limits of work lines, and shall designate trees, shrubs, plants, and other items to remain. The Contractor shall preserve all items designated to remain, along with

performing the work in such manner as to avoid damage or destruction of sign posts, barricades, fences, guard rails, utility appurtenances, etc.

In the event of interruption of utility services as a result of accidental breakage of public or private lines, the contractor shall promptly notify the proper authority and/or property owner, and shall cooperate with said authority and property owner until the service is restored. Whenever necessary, the Contractor shall furnish, at his own expense, all technical assistance such as electricians, plumbers, etc., necessary to restore service as soon as possible.

All equipment necessary to satisfactorily perform the work shall be furnished and maintained by the contractor. The Jefferson Parish Department of Code Compliance and Enforcement reserves the right to reject poorly performing equipment and require that they be replaced or supplemented as may be necessary to accomplish the desired results. The apparent low bidder will be required to furnish the Jefferson Parish Department of Code Compliance and Enforcement with a written equipment inventory list verifying that they have equipment listed on the Minimum Equipment List, Attachment "A" prior to the signing of the contract. The Jefferson Parish Department of Code Compliance and Enforcement reserves the right to inspect the condition of bidder's equipment, proof of equipment availability and insurance. Award of contracts will be contingent upon these factors.

All work shall be done in the manner normally required in good trade and practice as determined by Code Compliance and Enforcement. Contractor and their crews must be prepared to complete the authorized work when reporting to each job site including having all necessary and proper equipment and materials as specified in the respective work order. Further, each crew must be equipped with a measuring device which must be used to confirm square footage of properties. Contractor making sure they have all necessary equipment prior to arriving at the job site and beginning the authorized work is essential to promptly completing authorized work. If Contractor is not prepared with said equipment and materials when arriving to the job site on three (3) or more occurrences within a 12-month period then \$100.00 liquidated damages will be incurred for any other occurrences thereafter.

Contractor may have occasion to interact with public and should conduct himself in a professional and tactful manner and be able to properly communicate with the public and Code Compliance and Enforcement staff.

Contractor must provide adequate personnel to perform all work herein. Apparent low bidder must verify minimum equipment within ten (10) days of notification. Evidence shall be in the form of title or executed lease agreement.

Unless specifically permitted in the contract with the Parish of Jefferson, the prime contractor shall not contract with any other party for furnishing any of the work herein contracted without the ratification by Jefferson Parish Council.

Definitions and Specifications:

TRIMMING – Grass areas around any and all fixed objects. These areas shall be cut to a one (1) inch height and twelve (12) inch distance around all objects.

EDGING – All locations where grass areas meet surface paving, whether it is concrete, asphalt, brick, or some other material paving type. Edging equipment shall be such that a clean, sharp line along the hard surface/grass interface shall remain upon completion of edge.

BRUSH – Scrub vegetation with a diameter of 1 ½ inches or less.

STRIKE FORCE CREW – A crew for immediate response. When the strike force crew is requested by the Parish and a work order issued accordingly, the associated work shall be completed within twenty-four (24) hours of issuance of the work order by the Parish.

CUT BY OWNER- If property has been cut by the owner, there will be no cost billable to the Parish of Jefferson.

The specifications in this section will be divided into two (2) major classifications. **Regular Issue Properties**, and **Repeat Offender Properties**, with or without improvements.

Regular Issue Property – Contractor will be required to cut grass, weeds, brush, and all other unhealthy vegetation to a finished height of 1 ½ inches, not to exceed 2 ½ inches. Also, Contractor will be required to clear vegetation from fence lines, trimming and edging, raking of vegetation, and loading and hauling of debris. At approximately 1,200 properties annually for bidding purposes only (roughly 60-80 properties per week during peak season) these properties must be completed within seven (7) calendar days of issuance of the work order from the Jefferson Parish Department of Code Compliance and Enforcement. Contractor must have photographic evidence as described herein of each property both before and after work order is completed. All clippings and debris must be removed from property. The cleaning of sidewalks and driveways are necessary to complete the job.

Pricing for Regular Issue Property will be broken down into six (6) all-inclusive categories at a per square foot price. Categories for Regular Issue are as follows: (1) 8 to 30 inches in height and under 10,000 square feet; (2) 8 to 30 inches in height and between 10,001 and 30,000 square feet; (3) 8 to 30 inches in height and 30,001 square feet and over; (4) over 30 inches in height and 10,000 square feet and under; (5) over 30 inches in height and between 10,001 and 30,000 square feet; and (6) over 30 inches in height and 30,001 square feet and over.

The phrase all-inclusive as it pertains to properties encompasses the following requirements: cutting of grass, removal of debris, clearing of vegetation from fence lines, pruning of ornamentals and raking of vegetation. Trimming and edging will be separately priced per linear foot when applicable.

Loading and hauling of debris will be separately priced by the cubic yard. Contractor will be required to repair any gouging and rutting of loading zone.

With the exception of when the Contractor is cutting properties on the Repeat Offender list, prior to mobilization, Contractor shall obtain a work order from the Jefferson Parish Department of Code Compliance and Enforcement which includes:

- 1) A map indicating the location of property;
- 2) Photographs of the property;
- 3) An authorization to cut vegetation and/or remove junk and debris;
- 4) An estimate of the grass/weed height, an estimate of square footage of property, an estimate of the right of way if it requires cutting, and possible equipment needed for completion of the remediation.

Contractor shall not proceed with any work unless all of the above-mentioned items are obtained. If there is a discrepancy regarding property dimensions, Contractor shall advise the Jefferson Parish Department of Code Compliance and Enforcement before proceeding with work. A field inspection by the Department will be necessary before proceeding. Approval before each cut will be required on all repeat offenders. Upon submission of each invoice, a copy of the completed authorization to cut form must be included with all required documentation that is normally required for payment.

After a work order is issued and/or when maintaining a repeat offender property, the Contractor must evaluate the condition and grass height and document such height upon arrival to site. Documentation prior to Contractor initiating the remedial work includes taking pictures of the property including but not limited to pictures of the over height grass as verified by a measuring stick or pole. See attachment A AND "Photograph" Section of this bid. If different portions of the grass on the same job site meet different criteria of height (i.e. portion of grass are measuring from 8 to 30 inches and other portions of grass are measuring 30 inches and over), then the invoice for work performed must be billed in accordance with the majority grass height. However, in no case shall a cut take place wherein the majority grass height is less than the 8-inch threshold. Furthermore, if Contractor estimates the over height portion of grass is between 50 to 55% of the job site, the Contractor shall contact the Jefferson Parish Department of Code Compliance and Enforcement for review and approval prior to cut. Finally, an invoice will be null and void if the Contractor performs grass cutting services and the portion of over height grass is less than 50 to 55% of the job site/cited property.

The Parish performs inspections and the Department of Code Compliance and Enforcement authorizes all work orders, should said inspections reveal poor work performance by the contractor, then said contractor, upon notification shall immediately

employ all necessary means to restore the area to a neat and acceptable appearance. Contractor is responsible for preserving all objects that are designated to remain.

Repeat Offender Property – All provisions in the bid, including but not limited to the “Scope of Work/Services” section, applies to Repeat Offender Property except where specifically excluded. This category is all inclusive and will be priced per square foot. This work shall include all labor and equipment necessary to mow or cut all grass, weeds, and other vegetation within the designated work area limit. This includes all trimming, the removal of debris, and the cleaning of sidewalk and driveway area necessary to complete the job. The said area shall present a neat and acceptable appearance at all times within the time limit of the contract. All clippings and debris must be removed from property, and pruning of ornamentals.

The Contractor must evaluate the condition and grass height of the repeat offender property upon arrival to site and document. If property measures 30 inches or over in grass height, the invoice for the work performed may be billed at the regular issue property billing rate of 8 to 30 inches according to the size of the property pursuant to the terms set forth herein.

Additional pricing in this category can be instituted for loading and hauling if debris exceeds 3 cubic yards, but only with the express permission of the Jefferson Parish Department of Code Compliance and Enforcement. Contractor must contact the Department for review and shall not proceed without written approval.

Repeat Offender Cuts – Properties that are cut more frequently in the growing season. For bid purposes, the 2023 Repeat Offender List consisted of approximately seven hundred fifty (750) properties.

At the Parish’s discretion, there will be two (2) procedures for handling Repeat Offender Cuts:

- 1) Contractor manages the Repeat Offender List – except for the first work order of the year no additional work orders will be issued by Code Compliance and Enforcement but Contractor is required to maintain the repeat offender properties in compliance with the following provisions. Repeat offender properties shall be routinely cut such that there is no more than a three-week timeframe (unless otherwise specified by Department) between cuts during the growing season. However, in no case shall a cut take place where the majority of the grass height is less than the 8-inch threshold. If Contractor estimates the over height portion of grass to be between 50 to 55%, the Contractor shall contact the Jefferson Parish Department of Code Compliance and Enforcement for review and approval prior to cut. An invoice will be null and void if the Contractor performs grass cutting services and the portion of over height grass is less than 50 to 55% of the job site/cited property.

- 2) The Department of Code Compliance and Enforcement manages the Repeat Offender List. The properties to be cut will be released on at least a weekly basis and shall be cut in seven (7) calendar days from the receipt of the work order.

APPLICABLE TO ALL SECTIONS:

The Parish will not furnish free dump site. Contractor must dispose of vegetation and debris at his expense.

The Parish does not pay for travel time to and from job site, nor mobilization charges.

If property has been cut by owner there will be no cost billable to Jefferson Parish and such must be documented by Contractor when declining to cut property.

Herbicides are not a part of this contract and shall not be used by the Contractor.

The contract may be utilized by Jefferson Parish Community Development or other Parish Departments requiring these services during this contract period.

The contractor shall provide its staff with a thorough understanding of the policies and procedures of the Jefferson Parish Department of Code Compliance and Enforcement.

Contractor shall have the technology and information systems capability to provide suitable management data and documentation to meet operational and program compliance needs, and on which contractor's staff is well trained.

Contractor shall provide an electronic tracking system and database for abated and invoiced properties. The system must be accessible through an on-line login to Jefferson Parish staff members. Jefferson Parish will make data (i.e. maps and property description) from the Parish management system and database available to the selected contractor.

The Contractor's electronic tracking system and database shall include the following:

- Detailed description as identified by the Parish of work performed and cost of same for each property.
- Supporting documentation of services provided, including but not limited to, sufficient "before" photographs to demonstrate the need for the work and sufficient "after" photographs to demonstrate the work performed. See also "Photograph" Section of this Bid.
- Real-time technology demonstrating the project's work flow, including photographs.
- Export option for the Parish of Jefferson to obtain and retrieve data electronically.

Contractor is responsible to maintain all communications and any documentation related to work performed under the contract for a period of five (5) years following the expiration of the contract.

Liquidated Damages

Each bidder must have the capacity to complete all issued jobs within seven (7) calendar days of being notified in writing, or by phone, by the Jefferson Parish Department of Code Compliance and Enforcement.

Time is an essential condition to the contract. Should Contractor fail to complete a job within seven (7) calendar days after issuance of the work order then Contractor shall pay to the Parish, as liquidated damages and not as a penalty, \$25.00 per job for every day in which work has not been completed. Should Contractor fail to timely cut qualified repeat offender properties then Contractor shall pay to the Parish, as liquidated damages and not as penalty, \$25.00 per job for every day in which the work has not been completed. This amount shall be deducted from the Contractor's pay estimate.

If a strike force crew is included in a work order then immediate response is required. When the strike force crew is requested by the Parish and a work order issued accordingly, the associated work shall be completed within twenty-four (24) hours of issuance of the work order by the Parish and if not done so then Contractor shall pay to the Parish, as liquidated damages and not as a penalty, \$100.00 per job for every day in which work has not been completed.

Contractor must ensure that they have all necessary equipment prior to arriving at the job site and beginning the authorized work. Such preparedness is essential to promptly completing authorized work. If Contractor is not prepared with said equipment and materials when arriving to the job site on three (3) or more occurrences within a 12-month period then \$100.00 liquidated damages will be incurred for any other occurrences thereafter.

The Parish may grant an extension of time to the contractor for unusual circumstances, such as inclement weather, which are beyond the control of the contractor, and could not reasonably be foreseen by the contractor prior to bidding. However, the Contractor can not unilaterally postpone the contracted work – Contractor must first obtain approval from Code Compliance and Enforcement. Nevertheless, request of time extensions after the fact can be considered only for unforeseeable and unavoidable acts of God and such extension request must be made in writing to the Jefferson Parish Department of Code Compliance and Enforcement within twenty-four (24) hours following the event occasioning the delay. The Department of Code Compliance and Enforcement shall be the sole judge of the validity of any claims for extension of time.

Apart from any extension of time for unavoidable delays, no payment or allowance of any kind shall be made to the contractor as compensation for damages because of hindrance or delay for any cause in the progress of the work, whether such delay be avoidable or

unavoidable. Contractor will not be granted "blackout dates" and other operations of the Contractor besides the instant contracted work will not be considered when determining extensions and/or liquidated damages.

Successful bidders must be easily contacted by phone or email for work assignments each and every day between 8:00 am and 8:00 pm.

Weekly schedule of jobs must be submitted to the Jefferson Parish Code Compliance and Enforcement in advance.

inspections review poor work performance by the contractor, then said contractor upon notification, shall immediately employ all necessary means to remedy the issue. Further, said departmental inspections do not relieve the contractor of his responsibility to police the area as often as necessary to accomplish the desired results.

Within twenty-four (24) hours of the completion of a job, the contractor is to notify the Jefferson Parish Department of Code Compliance and Enforcement that the job is completed.
