  - C) Purchases shall not be artificially divided to avoid the requirements of this section when recurring requirements for same products are known.

### 30. INDEMNIFICATION AND LIMITATION OF LIABILITY

Neither party shall be liable for any delay or failure in performance beyond its control resulting from acts of God or force majeure. The parties shall use reasonable efforts to eliminate or minimize the effect of such events upon performance of their respective duties under the contract.

The Contractor shall be fully liable for the actions of its agents, employees, partners or subcontractors and shall fully indemnify and hold harmless the State from suits, actions, damages and costs of every name and description relating to personal injury and damage to property caused by the Contractor, its agents, employees, partners or subcontractors, in the performance of the contract without limitation; provided, however, that the Contractor shall not indemnify for that portion of any claim, loss or damage arising hereunder due to the negligent act or failure to act of the State.

The Contractor shall indemnify, defend and hold the State harmless, **without limitation**, from and against any and all damages, expenses (including reasonable attorneys' fees), claims judgments, liabilities and costs which may be fully assessed against the State in any action for infringement of a United States Letter Patent with respect to the products, materials or services furnished by the Contractor under its bid response and the contract, or of any copyright trademark, trade secret or intellectual property right, provided that the State shall give the Contractor: (i) prompt written notice of any action, claim or threat of infringement suit, or other suit, (ii) the opportunity to take over, settle or defend such action, claim or suit at the Contractor's sole expense, and (iii) assistance in the defense of any such action at the expense of the Contractor. Where a dispute or claim arises relative to a real or anticipated infringement, the State may require the Contractor at its sole expense, to submit such information and documentation, including formal patent attorney opinions, as the Commissioner of Administration shall require.

The Contractor shall not be obligated to indemnify that portion of a claim or dispute based upon: (i) The State's unauthorized modification or alteration of the products or materials; (ii) The State's use of the products or materials in combination with other products or materials not furnished by the Contractor; (iii) The State's use of the products or materials in other than the specified operating conditions and environment.

In addition to the foregoing, if the use of any item(s) or part(s) thereof shall be enjoined for any reason or if the Contractor believes that it may be enjoined, the Contractor shall have the right, at its own expense and sole discretion as the State's exclusive remedy to take action no later than six months after the issuance of an injunction in the following order of precedence: (i) to procure for the State the right to continue using such item(s) or part(s) thereof, as applicable; (ii) to modify the component so that it becomes non-infringing equipment of at least equal quality and performance; or (iii) to replace said item(s) or part(s) thereof, as applicable, with non-infringing components of at least equal quality and performance, or (iv) if none of the foregoing is commercially reasonable, then provide monetary compensation to the State up to the dollar amount of the product or material. Any injunction that is issued against the State which prevents the State from utilizing the Contractor's product in excess of six months and for which the Contractor has not obtained for the State or provided to the State one of the alternatives set forth in the foregoing sentence is cause for the State to terminate the contract. In the event of such termination, the State will not be obligated to compensate the Contractor for any costs incurred by the Contractor.

For all other claims against the Contractor where liability is not otherwise set forth in the contract as being "without limitation", and regardless of the basis on which the claim is made, the Contractor's liability **for direct damages, shall be the greater of \$100,000, the dollar amount of the products or materials, or two times the charges for services rendered by the Contractor under the contract.** Unless otherwise specifically enumerated herein mutually agreed between the parties, neither party shall be liable to the other for special, indirect or consequential damages, including lost data or records, even if the party has been advised of the possibility of such damages. Neither party shall be liable for lost profits, lost revenue or lost institutional operating savings.

The State may, in addition to other remedies available to it at law or equity and upon notice to the Contractor, retain such monies from amounts due to the Contractor, or may proceed against the performance and payment bond, if any, as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against them.

**31. ASSIGNMENT**

The Contractor shall not assign any interest in the contract by assignment, transfer or novation without prior written consent of the State. This provision shall not be construed to prohibit the Contractor from assigning his bank, trust company, or other financial institution any money due or to become due from approved contracts without such prior written consent. Notice of any such assignment or transfer shall be furnished promptly to the State.

**32. RIGHT TO AUDIT**

The State Legislative auditor, federal auditors and internal auditors of the Division of Administration, or others so designated by the DOA, shall have the option to audit all accounts directly pertaining to the contract for a period of five years from the date of final payment or as required by applicable State and Federal Law. Records shall be made available during normal working hours for this purpose.

**33. TERMINATION FOR NON-APPROPRIATION OF FUNDS**

The continuation of the contract is contingent upon the continuation of an appropriation of funds by the Legislature to fulfill the requirements of the contract. If the Legislature fails to appropriate sufficient monies to provide for the continuation of a contract or if such appropriation is reduced by the veto of the Governor or by any means provided in the Appropriations Act or Title 39 of the Louisiana Revised Statutes of 1950 to prevent the total appropriations for the year from exceeding revenues for that year or for any other lawful purpose and the effect of such reduction is to provide insufficient monies for the continuation of the contract, the contract shall terminate on the last day of the fiscal year for which funds were appropriated.

**34. WAIVER CLAUSE**

Waiver of any breach of any term or condition of the contract shall not be deemed a waiver of any prior or subsequent breach. No term or condition of the contract shall be held to be waived, modified, or deleted except by the written consent of both parties.

**35. SEVERABILITY**

If any term or condition of the contract or the application thereof is held invalid, such invalidity shall not affect other terms, conditions or applications which can be given effect without the invalid term, condition or application; to this end, the terms and conditions of the contract are declared severable.

**36. CODE OF ETHICS**

The Contractor acknowledges that Chapter 15 of Title 42 of the Louisiana Revised Statutes (La. R.S. 42:1101 et. seq., Code of Governmental Ethics) applies to the Contracting Party in the performance of products/services called for in the Contract. The Contractor agrees to immediately notify the State if potential violations of the Code of Governmental Ethics arise at any time during the term of the Contract.
