Supplier Inquiries and Responses

Q1) We would like to confirm that all required containers must be new, correct?

A1) All required containers must be new or refurbished.

Q2) Will the Board/University consider making that all equipment used to service the contract be required to be new? This would make it so that all bidders are bidding on the same services and the current vendor does not have an advantage over all others.

A2) All required containers must be new or refurbished. All other equipment (including collection vehicles) must be in good working condition in order to meet the requirements of the contract.

Q3) There appears to be 2 different amounts of containers, one set of numbers listed on page 1 (1.1) and one set listed on page 9 (2.4) – please clarify which numbers are the most accurate assessment for bidding purposes.

A3) The container quantities referenced on page 1 (1.1), along with the quantities included in the FEL Container & Collection Summary both in Attachment A- Front Load Containers (Solid Waste) and Attachment B -Front Load Containers (Mixed Recyclables) are the most current and up to date.

Q4) On page 9 (2.4) it discusses the possibility of reduced services during lower volume seasons. Has the University ever reduced services during those seasons? If so, what was it reduced to?

A4) We do typically reduce services in the summer season at the Residential Halls and Greek Life locations, but all buildings are subject to being reduced, upon request. See Attachment D-Reduced Summer- Front Load Containers (Solid Waste) and Attachment E - Reduced Summer- Front Load Containers (Mixed Recyclables) for locations that have been reduced in previous years, along with it's the associated reduction schedule.
