Addendum No. 3

Date: 12/3/2024

Your reference is directed to **Contract Number:** 2024-SWB-100 (Contract 2154) for 24" Waterline Replacement Decatur St. (Dumaine St. – Governor Nicholls St.) St. Peter St. (Chartres St. – Royal St.) which is scheduled to open at **11:30 a.m. CST** on **December 11, 2024** for SWBNO Engineering Department.

This addendum provides for the following:

- 1) Questions and Responses
- 2) Updated Bid Form (Pages 4-16)

-
1. C702(54)(A)(3) MANHOLE REPAIR OR VERTICAL ADJUSTMENT UP TO GRADE 6" REUSING EXISTING METAL CASTING has a similar description to item CF-375 MANHOLE REPAIR OR VERTICAL ADJUSTMENT UP TO 6" REUSING EXISTING METAL CASTINGS. In the DPW standard specifications, item C702(54)(A)(3) has a description of "Adjust Manhole or Drop Inlet **over** 6" with Brick and Mortar" and the unit of measure is foot height. Please advise of the difference in scope of these two items.

Item C702(54)(A)(3) and Item CF -375 are essentially the same item. Use the description for Item CF-375 under Part III Special Items in section 01200 for scope of work.

2. Extra Item 11- 24" line stop. This item has a quantity of 1 lump sum. There are 6 each line stops shown on the drawings. Please verify that the contractor should include 6 line stops that will be paid for as 1 lump sum

Extra Item 11 24" Line Stop shall be bid per lump sum and includes the 24" water line stops as shown on the plans.

3. C701(59) Reinforced Concrete Wye has a unit of LF on the bid form. The same item has a unit of EA in the specifications. Please clarify the measurement and payment for this item.

Reinforced Concrete Wye (15") Class IV shall be bid per each.

4. Section 701.08 indicates that tie-ins to existing drainage structures shall be included in the linear footage of reinforced concrete pipe. Please verify that all drainage tie-ins to existing structures shall be measured and paid under Extra item 14 "tie to existing drainage structure."

CONFIRMED, tie ins to existing drainage structures shall be paid for under Extra Item 14.

5. Item C742(59) New Sewer House connection from main to back of curb includes installation of a wye in the sewer main. There are 50 of these sewer house connections, but only 6 point repairs. Will the point repairs required to install a wye in the sewer main be incidental to this item?

Point repairs are to be made as required based on the CCTV report prior to the CIPP lining. Wyes are included in the cost of Item C742(59) but are to be used only if required.

6. Will the contractor be responsible for the cost to bag parking meters along the work area for the duration of the project?

NO.

7. In the Parking and Traffic Control Section, it states: "1. The Contractor's personal vehicles shall not be parked adjacent to the project site, in the work zones or on detour routes. "Please confirm that the contractor will not be allowed to park in the closed sections of the streets, and they must arrange for offsite parking/shuttling for their employees.

CONFIRMED

8. Section 2.15 states: "The vibration monitoring is option and be performed at the Contractor's discretion. There shall be no direct payment for vibration monitoring services." It is stated that vibration monitoring is required in other sections of the specification. Is vibration monitoring required for the duration of this project, and will the contractor be responsible for the cost for this?

The contractor is responsible for coordination of vibration monitoring. Vibration monitoring will be paid for by the owner.

9. There does not appear to be a bid item for the 24" valve vaults. Please advise.

Vaults will not be used on this project, however, the valve stem will require a vertical concrete pipe and steel cover per the SWB standard drawings and specifications

10. I know the inquiry deadline has passed but can you Clarify the difference in work for Items C702(54)(A)(1), C702(54)(A)(3) and CF375.

C702(54)(A)(1), adjust manhole or drop inlet up to 6" reusing metal casting and C702(54)(A)(3) manhole repair or vertical adjustment up to 6" reusing metal casting and will be in the measurement and payment section under C702 and the specifications are as per the General Specifications for Street Paving, 2015 Edition, Department of Public Works. CF375 manhole repair or vertical adjustment up to 6" reusing existing metal castings is included under SECTION 3.16 - CATCH BASIN AND MANHOLE REPAIRS AND VERTICAL ADJUSTMENTS

11. I know the deadline for questions has passed but Section 3.01 and 3.02 of the bid documents both indicate there is no direct payment for Signs and Barricades or Mobilization. However, There are pay items for this work. Please clarify if these items will be removed from the proposal form or will they will remain pay items.

This was detailed in Addendum 2, SECTION C713 TEMPORARY SIGNS, BARRICADES AND PAVEMENT MARKINGS; SECTION C727 MOBILIZATION; SECTION C729 TRAFFIC SIGNS AND DEVICES; SECTION EXTRA ITEM 17 – DE-MOBILIZATION; SECTION EXTRA ITEM 18 – RE-MOBILIZATION.

12. Also, is there a minimum amount of business days the Sewer & Water Board can postpone a bid?

Addendum sent out within 72 hours of bid opening forces the extension to a week. Questions will not be accepted after Wednesday, December 4, 2024 12:00 PM.

The above revisions shall be incorporated in and take precedence over any conflicting part of the original proposal documents. This addendum is hereby officially made a part of the referenced proposal.

This addendum consists of sixteen (16) pages.
