

## ST. TAMMANY PARISH

MICHAEL B. COOPER  
PARISH PRESIDENT

**December 11, 2024**

Please find the following addendum to the below-mentioned **QUOTE**.

**Addendum No.:** 1

**Quote#:** 24-63-1

**Project Name:** Standard Lift Station

**Bid Due Date:** Thursday, December 19, 2024

### **GENERAL:**

---

- Quote Due Date has been pushed to **Thursday, December 19, 2024**, time and location remain the same

### **QUESTIONS:**

---

**Question 1.** The (pit) is that like a drying bed that the water is going to run off into another tank and will just leave the materials exposed to dry. If it isn't a drying bed, is it a holding tank / basin that will eventually have to be vac trucked out and hauled off. Is there an estimated amount to be hauled off at the end of the job? Can I get the address where the (pit) is located.

**Answer 1.** It is more of a tank / basin. Unfortunately, we are unable to estimate the amount for hauling off. Depending on how much is cleaned will determine how much is hauled off.

The address for the pit is listed under the scope of work section 2.1 # 3. – 176 Judge Tanner Blvd Covington, LA 70433.

### **End of Addendum # 1**
