WTAA 24103 ADDENDUM # 1-ROADWAY IMPROVEMENT BID 10332

**Southern University and A & M College
Southern Agricultural Research and Extension Center
Southern University Campus
Purchasing Department
Mrs. Linda Antoine, Director
Baton Rouge, LA 70807**

Mrs. Linda Antoine:

Attached are questions that were brought out during the mandatory pre-bid conference held this morning, conducted By Facilities Manager Mr. Ervin Antoine.

- The Question on the type of asphalt (Type #3). The asphalt construction should be "Level 1" as provided in Section 502 of the project specifications. The references to "Type III" on the typical sections of the plan drawings should be changed to "Level 1".
- Yes, the entire road from B. A. Little Drive to the Hog Clinic (approx. 1400') be milled down by 2"?
- We will defer to the University whether or not to disseminate the budget or cost estimate to prospective bidders. We have tabulated our opinion of probable construction cost internally.
- Entrance and exiting, we will defer to the University for a response.
- The existing width of James L. Hunt will be maintained and the other portion of the width called for on the plans will govern.
- At the transition of asphalt and gravel at the end of the road near the Hog Clinic, the turtle back road elevation will be at the level of the asphalt surface and then follow the elevations as indicated on the plan drawings.
- The new asphalt will join the emergency road at the west end per the plans.

Mrs. Antoine, we look forward to continuing to work with you on the completion of the bidding process.

W. T. Winfield

Sincerely,
WTAA ENGINEERS, ENGINEERS, LLC
W. T. Winfield, Manager
