QUESTIONS

1. Does the FM have the be installed in one bore as the drawings show?

The intention and design of the project is to horizontally directionally drill (HDD) the lengths shown. There are no restrictions which would require the contractor to make this one HDD, as long as the servitudes are abided by and the contractor's drill plan is pre-approved. Any additional materials (ARVs, etc) required by the contractor to do so, outside of what is shown, will not be paid for, at additional cost to the Owner, under the bid items.

If the contractor chooses to install the bore in a way that is not consistent with the project drawings, the contractor shall submit all drawings/calculations as specified within 818-2.3, Section C "Drawings and Calculations" to be approved by the Engineer.

2. If the bore can be done in multiple segments, will additional ARV's be required? Will these ARV's be paid by the unit price.

Yes, if the bore is done in multiple segments additional ARV's will be required. This shall be at no additional cost to the Owner. See question 1.

3. The plans call for DR-11 pipe to be used within the HDD. Is this sufficient for the length of bore?

DR-11 was determined to be sufficient for the length of the bore as shown in the plans.

4. Would 18" DR18 FPVC in lieu of 20" DR11 HDPE be approved for this project?

Please see section 818-3.1, 18" DR18 FPVC will not be approved for this project.

5. Can you provide the list of EBR approved SEDBE vendors?

The list of certified SEDBE vendors is attached. If there is a vendor on the LAUCP/DOTD list that is not on the EBR list they can typically be added within 48 hours by submitting the application at the link below.

<https://www.brla.gov/2901/Socially-and-Economically-Disadvantaged->

6. What is the engineers estimated budget for this project?

The Engineer's estimated cost cannot be provided at this time.

7. Can a KMZ file be shown with lat and long coordinates for the HDD Entry/Exit?

A KMZ with latitude and longitudinal coordinates has been provided and is available at the below link:

https://drive.google.com/drive/folders/10dB3B4xV9IFWeWOujQwy_LQ3gwFlbx86?usp=sharing

8. Would the client entertain the idea of setting up a rig in the middle of this HDD and dividing it into two HDDs? From there we could shoot the pilot and pull only then to turn the rig around and perform the same process.

See question 1.

9. Going under these wetlands we would like to be deeper than 20' in order to minimize inadvertent returns. Is this possible?

See question 1.

10. Can you provide the Plan Holders & Contractor Bidders list for the subject project?

The Mandatory Pre-Bid Sign-in sheet has been attached to this Addendum.

11. Part 1 LA Uniform PW Bid Form UCBF1-4 and Part 2 LA Uniform PW Bid Form UCBF1-4 are formatted differently. Please clarify as to which is the appropriate form to be used for bid submission.

Replace existing Uniform Construction Bid Form, Bidder's Organization, Corporate Resolution, Bid Bond (UCBF 1-4) and replace with the revised copy attached to this addendum.

12. Part 1 Bid Bond Form and Part 2 Bid Bond Form are formatted differently. Please clarify as to which is the appropriate form to be used for bid submission.

See question 11.

13. Does Part 1 Cover Sheet need to be uploaded and submitted with the Bid Submission Files? If so, please provide which upload is it to go into?

Part 1 Cover Sheet does not need to be submitted.

14. Is this project Federally funded? 7-3 Federal Aid Provisions were included in the specifications? Are these applicable on this project?

This project is not Federally Funded. Section 7-3 is not applicable for this project and has been removed.
