April 15, 2025

ADDENDUM NO. 1

**CITY OF BATON ROUGE
PARISH OF EAST BATON ROUGE
DEPARTMENT OF TRANSPORTATION AND DRAINAGE
ROAD REHABILITATION DIVISION**

TO: ALL BIDDERS

**SUBJECT: SALES TAX STREET AND ROAD REHABILITATION
PROGRAM PROJECT 19-7
HOLLYWOOD ST (AIRLINE TO SCENIC) &
EVANGELINE ST (AIRLINE TO BATON ROUGE AVE
CITY-PARISH PROJECT NO. 24-CR-ST-0009**

Bid Date: Thursday, May 1st, 2025 @ 2:00PM

The following Addendum change is being made to the Invitation to Bid and shall take precedence over any conflicting part of the original contract documents:

**PART 1 - UNIFORM CONSTRUCTION BID FORMS & PART 2 – SPECIAL
PROVISIONS AND CONTRACT DOCUMENTS**

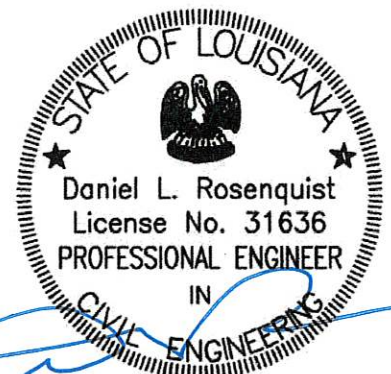

UNIT BID FORMS – Replace the 6 Unit Price Forms with the 7 attached bearing the revised date of 4/15/2025. The revised Unit Price Forms reflects the decrease in quantity of cold planing due to removing it from Evangeline St and the increase of concrete patching and curbing. The revised Unit Price Forms also reflect the addition of an Adjusting Drain Manholes, Inlets, and Junction Boxes item. Items changed include 1122100, 1152208, 1152308, 1197100, 2020700 & 7021000.

SPECIAL PROVISIONS – Replace SP Page 40 & 43 with the revised ones attached. The revised SP Pages reflects the decrease in quantity of cold planing from Evangeline St and the increase of concrete patching. The revised SP Pages also reflects the addition of a new construction note.

This addendum is hereby officially made a part of the reference invitation to bid.

**FAILURE TO INDICATE RECEIPT OF THIS ADDENDUM ON BID
FORM MAY BE CAUSE FOR THE BID TO BE REJECTED.**

Dan Rosenquist, P.E.

CONSTRUCTION NOTES PROJECT NO. 24-CR-ST-0009	
1	The CONTRACTOR is required to clean all catch basins on the project prior to acceptance at NO DIRECT PAY.
2	Trackless tack is required for use as the curing membrane in the asphalt paving operation.
3	All concrete work such as curb and gutter, PC concrete driveway and handicap curb ramps shall be completed prior to the asphalt paving.
4	After paving is complete, the ENGINEER will evaluate areas holding water. The CONTRACTOR will be required to take steps to eliminate standing water in gutter lines, basin entrances, turnouts, crossings, travel lanes, intersections and other areas determined by the ENGINEER at NO DIRECT PAY.
5	Most handicap ramps on this project can be matched to a type on LADOTD STANDARD PLAN PED-01. It is the intent of this construction note to establish payment for ramps which do not match a type on the standard plan. All of the established types on PED-01 draw limits of payment boundaries around ramp elements such as landings, sloped ramp and curbing connections to sidewalks, detectable warning flares, detectable warning pads and driveway aprons. All work within this boundary is to be paid as 1 EACH under ITEM 1198300 HANDICAP CURB RAMPS. On ramps not matching a type on PED-01, a limit of payment boundary is to be drawn around these same previously described elements and the work within this new boundary is to be paid as 1 EACH under ITEM 1198300 HANDICAP CURB RAMPS. All remaining work outside of the new limit of payment boundary shall be paid under appropriate items.
6	All flaggers shall be qualified in accordance with LADOTD TTC-00(B).
7	ITEM S-1 LEVEL 1 ASPHALT CONCRETE MIX shall comply with all requirements of SECTIONS 502 and 503 of the LADOTD SUPPLEMENTAL SPECIFICATIONS PART V ASPHALT PAVEMENTS (08/18) and LADOTD publication "APPLICATION OF QUALITY ASSURANCE SPECIFICATIONS FOR ASPHALT CONCRETE MIXTURES".
8	Material transfer vehicle REQUIRED.
9	The CONTRACTOR shall supply the ENGINEER with a weekly schedule detailing the following week's daily operations every Friday by 5 pm.
10	On concrete roads that are overlaid and require patching, the surface shall be milled down to expose the surface of the concrete. The depths specified in the cold planing table are estimated for bidding purposes.
11	The CONTRACTOR shall station the project every 100 feet or as otherwise directed by the ENGINEER at NO DIRECT PAY.
