1. The designation of certain information as trade secrets and/or privileged or confidential proprietary information shall only apply to the technical portion of the Proposal.  2. For the purposes of this procurement, the provisions of the Louisiana Public Records Act (La. R.S. 44.1 et. seq.) shall be in effect. Pursuant to this Act, all proceedings, records, contracts, and other public documents relating to this procurement shall be open to public inspection. Proposers are reminded that while trade secrets and other proprietary information they submit in conjunction with this procurement may not be subject to public disclosure, protections must be claimed by the Proposer at the time of submission of its Technical Proposal. Proposers should refer to the Louisiana Public Records Act for further clarification.
 3. If Proposer is claiming any portion of its proposal as confidential, proprietary, or protected, Proposer must complete the required sections of Part 6: Claim of Business Confidentiality of Attachment H, Proposal, and submit with Proposer's proposal a redacted copy of Proposer's proposal, which must be clearly marked as such.
 4. If the Proposer does not submit the redacted copy, it will be assumed that any claim to keep information confidential is waived.
 5. Proposers must be prepared to defend the reasons why the material should be held confidential. By submitting a proposal with data, information, or material designated as containing trade secrets and/or privileged or confidential proprietary information, or otherwise designated as "confidential", the Proposer agrees to indemnify and defend (including attorney's fees) the State and hold the State harmless against all actions or court proceedings that may ensue which seek to order the State to disclose the information.
 6. The State reserves the right to make any proposal, including proprietary information contained therein, available to OSP personnel, the Office of the Governor, or other State Agencies or organizations for the sole purpose of assisting the State in its evaluation of the proposal. The State shall require said individuals to protect the confidentiality of any

specifically identified proprietary information or privileged business information obtained as a result of their participation in these evaluations.

7. Additionally, any proposal that fails to follow this section and/or La. R.S. 44:3.2.(D)(1) shall have failed to properly assert the designation of trade secrets and/or privileged or confidential proprietary information and the information may be considered public records.

O. Evaluation and Selection. A consensus-based evaluation process shall be used to evaluate responses. The State Evaluation Committee will determine which proposals are reasonably susceptible of being selected for award. If required, written or oral discussions may be conducted with any or all of the Proposers to make this determination. The committee reserves the right to make an award recommendation without further discussion of the proposal submitted based on the initial offers received.

P. Written or Oral Discussions/Presentations.

1. The State, at its sole discretion, may require all Proposers who submit proposals determined to be reasonably susceptible of being selected for the award to provide an oral presentation of how they propose to meet the Using Agency's objectives.
2. Any commitments or representations made by the Proposer during these discussions, if conducted, may become formally recorded in the final contract.
3. Written or oral discussions/presentations for clarification may be conducted to enhance the State's understanding of any or all of the proposals submitted. Proposals may be accepted without such discussions.
4. The State reserves the right to adjust the original scores based on the information received in the oral presentations, if conducted, using the original evaluation criteria. The cost score will remain unchanged.

Q. Best and Final Offers (BAFO).

If conducted, the Proposers selected to participate will receive written notification of their selection, with a list of specific items to be addressed in the BAFO along with instructions for submittal. The BAFO negotiation may be used to assist the State in clarifying the scope of work or to obtain the most cost effective pricing available from the Proposers.
2. The written invitation to participate in a BAFO will not obligate the State to enter into a contract.

R. Notice of Intent to Award.

1. The "Notice of Intent to Award" letter is the notification of the award of the contract. However, the "Notice of Intent to Award" is contingent upon successful negotiation of a final contract and approval by the Division of Administration, Office of State Procurement.
2. The State will also notify all unsuccessful Proposers as to the outcome of the evaluation process. The proposals received (except for that information appropriately designated as confidential in accordance with La. R.S. 44.1 et. seq.) along with the evaluation factors, points, evaluation committee member names, and the completed evaluation summary and recommendation report are public record and shall be made available, upon request, to all interested parties after the "Notice of Intent to Award" letter has been issued.
3. Any person aggrieved by the proposed award has the right to submit a protest by using the process described in Attachment F, Protest Information. Issuance of the "Notice of Intent to Award" letter starts the protest period.

S. Contract Negotiations.

1. This RFP, including any addenda, and the Proposal of the selected Contractor will become part of any contract initiated by the State. The mandatory RFP requirements shall become

contractual obligations. The State reserves the right to contract for all or a partial list of supplies and/or services offered in the Proposal.

2. Negotiation may include revision of any non-mandatory terms or conditions included in Part 5: Proposed Modifications to Sample Contract of Attachment H, Proposal, pricing, and clarification of the scope of work.
3. If for any reason, after final evaluation and issuance of the Intent to Award letter, the responsible Proposer whose proposal is most advantageous to the State's needs, price and other evaluation factors set forth in this RFP considered, does not agree to a contract, that proposal shall be rejected and the State may negotiate with the next most advantageous responsible Proposer.
4. If the contract negotiation period exceeds 30 days or if the selected Proposer fails to sign the contract within seven calendar days of delivery of it, the State may elect to cancel the award and award the Contract to the next most advantageous responsible Proposer.
5. OSP must approve the final Contract to complete the process.

T. Secretary of State Requirements.

All eligible vendors are encouraged to become certified. Qualification requirements and online certification are available at: <https://smallbiz.louisianaeconomicdevelopment.com>.
- B. If a Proposer is not a certified small entrepreneurship as described herein, but plans to use certified small entrepreneurship(s), Proposer shall include in their proposal the names of their certified Veteran Initiative or Hudson Initiative small entrepreneurship subcontractor(s), a description of the work each will perform, and the dollar or percentage value of each subcontract.

Agreements between a Proposer and a certified LaVet or Hudson Initiative subcontractor in which the certified LaVet or Hudson Initiative subcontractor promises not to provide subcontracting quotations to other Proposers shall be prohibited.
- E. In performing its evaluation of proposals, the State reserves the right to require a non-certified Proposer to provide documentation and information supporting a good faith subcontracting plan. Such proof may include contracts between proposer and certified Veteran Initiative and/or Hudson Initiative subcontractor(s).

- F. If a Contract is awarded to a Proposer who proposed a good faith subcontracting plan, the Using Agency, the Louisiana Department of Economic Development (LED), or the Office of State Procurement (OSP) may audit Contractor to determine whether Contractor has complied in good faith with its subcontracting plan. The Contractor must be able to provide supporting documentation (i.e., phone logs, fax transmittals, letter, e-mails) to demonstrate its good faith subcontracting plan was followed. If it is determined at any time by the Using Agency, LED, or the OSP Director that the Contractor did not in fact perform in good faith its subcontracting plan, the Contract award or the existing Contract may be terminated.

The Contractor will provide plans and protocols for asbestos abatement, mold remediation, and other hazardous material removal. Environmental and Industrial Hygiene monitoring services may be requested for indoor air, outdoor air, water, or occupational environments. Environmental sampling services may be requested for materials suspected of containing asbestos, lead, mold, or other potential hazards. Environmental air permitting services may be requested as per state and federal requirements, including Clean Air Act Part 70 programs and permits such as those described in the Louisiana Department of Environmental Quality (LDEQ) LAC 33:III.311, which may involve permit application, submittal, and compliance determinations. In the rare instance of a natural or manmade disaster, the Contractor will develop/design clean up procedures for biological, radioactive, and hazardous materials. The Contractor will provide support during emergency situations, such as a large spill or release, through collecting sample information/data, assisting with regulatory notifications, and compiling and/or reviewing of waste manifest for cleanup and/or disposal. The Contractor will provide Phase I Environmental Site Assessments for properties prior to purchase by the University.

II. Goals and Objectives

The LSU Health Sciences Center – New Orleans (LSUHSC-NO) desires for the Contractor to provide solutions to develop specifications for hazardous material removal, and to provide environmental sampling/monitoring, occupational exposure monitoring, and Environmental and Industrial Hygiene consulting services. In addition, LSUHSC-NO desires for the Contractor to provide clean-up consulting services and, in rare cases, emergency response support services following natural or manmade disasters.

Services will be provided to, but will not be limited to, all LSUHSC – NO properties and campuses.

III. Background

The LSU Health Sciences Center – New Orleans (LSUHSC-NO) is committed to providing a safe and healthy environment for all faculty, staff, students, and visitors; and conducting its mission in compliance with all applicable environmental health and safety laws and regulations. We conduct safety assessments and inspections. We identify, evaluate and control hazards. A contractor has provided Environmental and Industrial Hygiene consulting services on an as needed basis for over twenty years to assist us in providing a safe and healthy environment.

IV. Deliverables

All services will be requested “as needed”. The Contractor, and all required qualified personnel, shall respond to each LSUHSC-NO Task Order on-site in a timely manner, but no later than five business days. Project reports shall be submitted to LSUHSC no later than 21 days from the completion of all project field work. In the event emergency services are required, the Contractor shall respond as soon as reasonably possible, but at least within 6 hours of emergency request. Part 7: Electronic Vendor Payment Solution

In an effort to increase efficiencies and effectiveness as well as be strategic in utilizing technology and resources for the State and Contractors, the State intends to make all payments to Contractors electronically. The LaCarte procurement card will be used for purchases of \$5,000 and under, and where feasible, over \$5,000. Contractors will have a choice of receiving electronic payment for all other payments by selecting the Electronic Funds Transfer (EFT). If you receive an award and do not currently accept the LaCarte card or have not already enrolled in EFT, you will be asked to comply with this request by choosing either the LaCarte Procurement Card and/or EFT. You may indicate your acceptance below.

The **LaCarte** Procurement Card uses a Visa card platform. Contractors receive payment from state agencies using the card in the same manner as other Visa card purchases. Contractors cannot process payment transactions through the credit card clearinghouse until the purchased products have been shipped or received or the services performed.

For all statewide and agency term contracts:

- Under the LaCarte program, purchase orders are not necessary. Orders must be placed against the net discounted products of the contract. All contract terms and conditions apply to purchases made with LaCarte.
- If a purchase order is not used, the Contractor must keep on file a record of all LaCarte purchases issued against this contract during the contract period. The file must contain the particular item number, quantity, line total and order total. Records of these purchases must be provided to the Office of State Procurement on request.

EFT payments are sent from the State's bank directly to the payee's bank each weekday. The only requirement is that you have an active checking or savings account at a financial institution that can accept Automated Clearing House (ACH) credit files and remittance information electronically. Additional information and an enrollment form is available by contacting the Office of Statewide Reporting & Accounting Policy at DOA-OSRAP-EFT@la.gov.

To facilitate this payment process, you will need to complete and return the EFT enrollment form.

If an award is made to your company, please check which option you will accept or indicate if you are already enrolled.
