Sewerage & Water Board of NEW ORLEANS

625 ST. JOSEPH STREET
NEW ORLEANS, LA 70165 • 504-529-2837 OR 52-WATER
www.swbno.org

Addendum No. 3

Date: 7/10/2025

Your reference is directed to **Contract Number:** 2025-SWB-51 (Contract 30266) for New 16" Sewer Force Main on Lafitte St. (N. Dorgenois St.-N. Galvez St.) & New 48" Sewer Force Main on N. Galvez St. (Conti St.-Lafitte St.) which is scheduled to open at **11:30 a.m. CST** on **July 11, 2025** for SWBNO Networks Engineering Department.

This addendum provides for the following:

- 1) Questions and Answers
- 2) Updated Due Date and Bid Opening
- 3) Specification Section 004113 Uniform Public Bid Form
- 4) Contract Drawing Sheet 3 of 32 Summary of Quantities

1) Questions and Answers

1. Ref. No. C742(51)(J)(D2): Install 48" DI Sewer Force Main.....it appears that the Unit of Measure is incorrect. It should be LF in lieu of LS.

C742(51)(J)(D2) had wrong unit of measure. Summary of Quantity (Sheet 3) and bid form has been revised.

2. The last (2) bid items did items did not make it to the revised bid form on addendum #2. The below items are missing.

Ref. No. C742(51) H: 20" Temporary Bypass Line

Ref. No. CSS-01: New 48" Linestop

C742(51)H and CSS-01 seemed to have dropped off. Bid form has been revised.

3. No clarification was given regarding allowable street closures for this project other than referring to the note which states that all street closures must be approved. Is the contractor to assume that a complete closures of N.Galvez will be granted for an extended duration, or should the contractor include the cost to remove and replace sections of N. Galvez St. required to install the 20" bypass line underground?

It is the contractor's responsibility to converse with the DPW traffic engineer and to submit an approve traffic control plan that allows the Contractor to perform their work. Any road or

lane closures shall be a part of the traffic control plan, including timeline and duration. If Contractor recommends that the by-pass line be buried, this shall be requested by the contractor and approved by the Engineer. The design is based on the bypass piping being installed above ground.

4. Will a closure for the Lafitte Greenway be granted for the duration of this project, or does the contractor need to make accommodations to keep this in service?

The contractor may request any needed closure of Lafitte Greenway to approved by Engineer and City of New Orleans.

5. Was the existing HDPE installed via slip-lining or open-cut excavation? What is the thickness of the existing HDPE?

The existing 48" HDPE line in the Galvez/Lafitte intersection was installed via open-cut. The exact thickness of the pipe is unknown.

6. Measurement and Payment Section FF (Unit Price No. DCR-1: Drainage Canal Rehabilitation): The description states: "The work consists of removing and replacing an existing top section of an under-ground drainage canal. This includes any and all proper removal and disposal of existing I-beams, steel plates, grout, wire mesh, bricks, and 6" reinforced concrete." Should the contractor include the cost for removal and disposal only of the items listed, or should the cost for furnishing and installation of new I-beams and steel plates be included? If new steel is required, what coating specification should be used?

The Drainage Canal Rehab (pay item DCR-1) will include removing the listed items, properly disposing listed items, furnishings replacement items per the plans, installation of replacement items per the plans. The steel shall be coated with Zinc (Hot-Dip Galvanized) coating (ASTM A123/A123M-15).

7. I am looking over the bidform and I seems there is no biditem for mobilization or for traffic control. Please consider adding these items to the bid form or the unit prices for everything else may be negatively affected.

There will not be specific pay items for Mobilization nor traffic control. These tasks shall be performed at no direct pay.

8. Addendum 2 reads as if the due date has been pushed back to 11:30. The specs that I attached says they will be due at 11:00 then opened and read at 11:30 which makes sense. Addendum 2 seems contradicting because it says bids will be opened at 11:30.

Please see updated Bid Due Date and Bid Opening Times.

2) Bid Due Date and Bid Opening Time

Bids are due on **July 18, 2025, at 11:00 a.m.** Any Bids received after the specified time will be rejected.

Bids will then be publicly opened and read on **July 18, 2025, at 11:30 a.m.** at Sewerage and Water Board of New Orleans, 625 St. Joseph Street, Purchasing Conference Room 131, New Orleans, Louisiana.

The above revisions shall be incorporated in and take precedence over any conflicting part of the original proposal documents. This addendum is hereby officially made a part of the referenced proposal.

Receipt of this addendum shall be acknowledged by inserting its number and date in the space provided on the Louisiana Uniform Public Works Bid Form.

This addendum consists of eleven (11) pages.

*** END OF ADDENDUM ***

LOUISIANA UNIFORM PUBLIC WORK BID FORM

UNIT PRICE FORM

TO: Sewerage & Water Board of New Orleans

625 St. Joseph St.
New Orleans, LA 70165

BID FOR: New 16" Sewer Force Main on Lafitte St. (N. Dorgenois St.- N. Galvez St.) & New 48" Sewer Force Main on Galvez St. (Conti St.-Lafitte St.)
Contract: 30266

NAME OF BIDDER: _____

UNIT PRICES: This form shall be used for any and all work required by the Bidding Documents and described as unit prices. Amounts shall be stated in figures and only in figures.

DESCRIPTION:	<u> x </u> Base Bid or <u> </u> Alt. # <u> </u>		REMOVAL AND DISPOSAL OF EXISTING PORTLAND CEMENT CONCRETE PAVEMENT	
REF. NO.	QUANTITY	UNIT OF MEASURE	UNIT PRICE	UNIT PRICE EXTENSION (Quantity times Unit Price)
C202(52)(C)	84	SY		

DESCRIPTION:	<u> x </u> Base Bid or <u> </u> Alt. # <u> </u>		REMOVAL AND DISPOSAL OF EXISTING SIDEWALK, DRIVEWAY, FOOT LAP (CONCRETE, BRICK, ASPHALT, ETC.)	
REF. NO.	QUANTITY	UNIT OF MEASURE	UNIT PRICE	UNIT PRICE EXTENSION (Quantity times Unit Price)
C202(52)D	175	SY		

DESCRIPTION:	<u> x </u> Base Bid or <u> </u> Alt. # <u> </u>		REMOVAL AND DISPOSAL OF EXISTING CURB (CONCRETE, ASPHALT, BRICK, ETC.)
