Approximate areas and acreage are shown in Attachment A. Areas and acreages provided in Attachment A are included for information only and are not intended to be representative of exact extents and areas.

1.2 Maintenance Seasons

There shall be two maintenance seasons for the purpose of this contract. Low maintenance season shall be from October 1st through February 28th. High maintenance season shall be from March 1st through September 30th. During the *low maintenance season*, the contractor should provide one cut every two months for the bid items listed. The contractor should attempt to maintain sixty (60) days between completion and beginning of cuts to maximize beneficial use of the bid items. During the *high maintenance season*, the contractor should provide one cut every month for the bid items listed. The contractor should attempt to maintain thirty (30) days between completion and beginning of cuts to maximize beneficial use of the bid items. Contractors are not to exceed the total number of cuts allowed by reducing the number of days in between cuts.

1.3 Scheduling Work

The contractor shall notify the City Parish representative the bid item and day in which the contractor intends to perform the service. This notification should be emailed to the Department representative no later than the last Friday of the preceding month for which the service is to be performed. This information will be used by the Field Inspector to schedule his inspections for the month. If there are deviations from the schedule, the contractor shall provide notice to the Department representative. In accordance with the noise ordinance, work is allowed between the hours of 7:00 am and sunset on weekdays and Saturdays.

1.4 Methods of Operation

- A. The contractor shall submit to the Department representative a list of supervisors who have authority and control over work crews and who will be present with each crew while work is performed. These supervisors shall be so identified to the Department representative and shall have authority to order equipment operators to correct deficient work or to stop mowing operations should unsafe conditions be encountered or if ordered by the Department representative to do so. All of contractor's supervisors shall be equipped with mobile telephones, and the contractor shall provide the Department representative with all the supervisors' mobile phone numbers.
- B. The contractor shall mow as close as practicable to all fixed objects exercising extreme care not to damage equipment, structures, fences, concrete drives, or any portion of the pump station site. Trimming to remove vegetation around such objects shall be required of the contractor as indicated.

- C. The contractor shall trim around all fixed objects including, but not limited to, curbs, sidewalks, parking areas, turf edges, guard rails, sign posts, fence lines, or other structures. Trimming shall be performed within **twenty four (24) hours** of mowing and must be performed at each site visit. Edging along curbs and sidewalks shall be such that a clean, sharp line at a minimum depth of **one (1) inch** shall remain after completion of work in order to retard the continued growth of grass. **Repeated failure to trim or edge curbs and sidewalks at each scheduled service will result in a 50 percent reduction in total payment for that site.** The Department representative shall have the final determination and the amount will be deducted at the end of the month from the location per-cut price.
- D. The contractor should utilize herbicides when necessary to remove weed growth in graveled areas, along concrete pathways, around structures, and others areas as needed. Any vegetation treated with herbicide shall be removed by hand or mechanical means to ground level after the manufacturer's suggested time period to affect plant growth has elapsed. The contractor must have the appropriate Material Safety Data Sheets (MSDS) relevant to the herbicides used.

1.5 Mowing

Mowing shall be performed in accordance with requirements specified in all provisions and specifications herein. For purposes of mowing, all references to acres are approximate and no pay adjustment due to acreage variation shall be considered. Payment shall be made based on the per cut prices provided with the bid.

Lot Boundaries: As defined below, all mowable areas within the lot boundary, extending from right-of-way to tree line or fence line as applicable. Any overhanging branches, vegetation or trees, up to two (2) inch caliper, which may hinder or prohibit mowing to the tree line or right-of-way line shall be removed or cut back to the tree line or lot boundary by the contractor at no direct pay. Tree trimming is a minor component of the scope of work/services and will account for no more than 5% of the work in this contract.

Fence lines: Fence lines should be maintained inside and outside of the lot boundaries as required.

Mowable areas are defined as all of the grassed or vegetative areas of the pump station within lot boundaries as defined. Mowable areas do not apply to graveled or concreted sections of the lot boundaries.

Mowable vegetation is defined as any tree, vegetation, brush, etc. which is two inches (2") or less in diameter, measured five inches (5") above the ground.

Catch basins and Drainage culverts: The contractor shall perform the mowing operation in such manner to prevent the buildup of debris including, but not limited to grass clippings on catch basins and drainage culverts. Should the mowing operation deposit grass clippings on catch basins, the contractor shall be required to remove such from the entrance to the catch basin by hand or other methods. Any debris blocking the desired flow of water should be removed from drainage ways.

Equipment: The contractor shall have in operation at all times, sufficient equipment of the type required to perform the work within the time specified.

Mowing Height: The contractor shall be closely monitored by the Department representative to ensure mowing is at the required cutting height as indicated. When mowing and litter and trash collection are performed concurrently, litter and trash collection shall precede each mowing and collection of any material made visible by mowing shall follow each cut.

Mowers shall be adjusted for a cutting height of **two to three inches (2-3")** for the following areas:

- a) The area around scale house, the guard house and the office buildings located at the Renewable Energy Center.
- b) The area around the buildings and garbage can storage areas at the Irene Road location.
- c) The sloped portion of the concrete reinforced embankment on the northern edge of the Renewable Energy Center property

Mowers shall be adjusted for a cutting height of **six inches (6")** for all open areas not specified for lower cutting height.

1.6 Mowing Equipment

Rotary mowers may be utilized in the mowing of the open service areas. Sickle mowers, side mounts, flail or boom mowers may be used to mow around culverts, sign post, wet areas, and ditches, etc., if approved by the Owner's Representative.

All rotary mowers must be equipped with safety chains, to prevent damage to property by flying debris from under the mower.

Other types of grass-cutting equipment may be used, provided they have been approved by the Owner's Representative prior to use.

1.7 Litter and Trash Collection

The area to be cleaned shall include all areas within the lot boundaries. Litter and trash collected and piled or bagged on the lot shall be removed by the contractor by close of business on the same work day. Litter and debris is defined as all loose debris or rubbish, including, but not limited to, paper, cardboard, glass, empty containers, tires, treads, fallen trees and shrubs, and loose wood, etc., found within the lot boundary, that is not a component part of the facility or its attachments or appurtenances.

Contractor is required to pick up all litter within the site boundaries. Contractor shall not blow or otherwise direct grass clippings or trimmings into roadways, parking lots, or other vehicular use areas. All litter, trash and debris shall be collected prior to mowing, so as to avoid cutting and/or spreading such matter. Contractor is required to immediately pick up any litter that is cut up during mowing. Litter and debris collected during site servicing should be removed when the maintenance crew leaves the site. Litter and trash removal is a minor component of the scope of work/services and will account for no more than 5% of the work in this contract.

Contractor is responsible for general site clean-up after storms but will not be responsible for damages and excessive debris pick-up caused by hurricanes or other natural disasters.

1.8 Safety Requirements

The importance of safety in the performance of maintenance mowing activities cannot be overemphasized. To that end, the contractor shall conduct his operation in a manner such that the safety and convenience of the public is regarded as of prime importance. The City-Parish reserves the right to stop the contractor from working or to order any piece of equipment taken off the project, should it be determined that minimum safety standards are not being met. The following specific safety considerations shall be observed at all times:

- D. When mowing immediately adjacent to travel lanes or neighboring properties, mowers shall operate such that any discharge from the mowers shall be directed away from the travel lanes or neighboring properties.

1.9 Work Prosecution

The contractor shall notify the Department representatives prior to beginning work and shall submit to the Department representative a daily work report in accordance with the following section.

SOCIALLY AND ECONOMICALLY DISADVANTAGED BUSINESS ENTERPRISE INCLUSION

The City-Parish's Socially and Economically Disadvantaged Business Enterprise Program ("the Program") is made part of this contract and incorporated hereto as if copied in extensor. For these services, the EBR Parish Purchasing office has directed a review of the scope of work and has established a minimum SEDB goal of 8% of the contract amount.

PART I – POLICY/ COMPLIANCE

(A) The City-Parish strongly encourages the acquisition of goods and services from and direct participation of Socially and Economically Disadvantaged Business Enterprise ("SEDBE"). The term Socially and Economically Disadvantaged Business ("SEDB") shall have the meaning set forth in the City-Parish's Socially and Economically Disadvantaged Business Enterprise Certification Program.

The Program is a race and gender-neutral program intended to provide additional contracting and procurement opportunities for certified small, disadvantaged, woman-owned, minority-owned, veteran-owned, and service-disabled veteran-owned business enterprises by encouraging contractors who receive City-Parish contracts to use good-faith efforts to utilize such certified entities in the performance of those contracts. The City-Parish desires to achieve, to the greatest extent possible, commercially meaningful and useful participation by SEDBs. By providing equitable opportunities for SEDBs, the City- Parish derives multiple benefits, including contributing to the economic vitality of our communities and ensuring a broader selection of competitively priced goods and services.

Contractor should present a responsible plan that provides for participation of qualified SEDBs. Participation shall be counted toward meeting the contract goals only by business entities certified under the City-Parish's Socially and Economically Disadvantaged Business Enterprise Certification Program. The direct participation goal can be achieved through direct ownership, joint venture participation, owner/operator agreements, or subcontract agreements for participation.

If the Contractor does not meet the full SEDB goal, then written documentation must be provided showing their good faith efforts to secure SEDB participation, the unavailability of potential SEDB firms, and provide justification as to why such goals cannot be met that is found to be acceptable to the SEDB Liaison Officer.

(B) **FAILURE TO COMPLY WITH SEDB REQUIREMENTS:** All City-Parish contract performers (Prime Contractors, Subcontractors, etc.) are hereby notified that failure to carry out the SEDB obligation, as set forth, shall constitute a breach of contract. The breach of contract will be reviewed by City-Parish which may result in termination of the contract or other remedies deemed appropriate for the given situation.

(C) **SUBCONTRACTS:** All Prime Contractors, and Subcontractors, hereby shall include the following clauses in all contracts that offer further subcontracting opportunities.

The Contractor or Subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The Contractor shall carry out applicable requirements of City-Parish's Socially and Economically Disadvantaged Business Enterprise Program in the award and administration of City-Parish contracts. Failure by the Contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient (City-Parish) deems appropriate.

The Prime Contractor agrees to pay each Subcontractor under this contract for satisfactory performance of its contract prior to submitting an invoice to the City-Parish for request for payment. This payment will be documented on the Contractor's Monthly Report form that is submitted with each payment request. The Prime Contractor agrees further to return retainage payments to each Subcontractor within 14 days after the Subcontractor's work is satisfactorily completed. Any delay or postponement of payment from the above referenced time frame may occur only for good cause. This clause applies to both SEDB and non-SEDB Subcontractor(s).

(D) AWARD OF SEDB SUBCONTRACTS: The Contractor shall, no later than three (3) business days from the award of a contract, execute formal contracts or purchase orders with the SEDB (s) included on Form 1.

(E) COUNTING SEDB PARTICIPATION: City-Parish will count SEDB participation toward overall and contract goals as provided in City-Parish's Socially and Economically Disadvantaged Business Enterprise Program ("the Program"). City-Parish will only count SEDB participation by those SEDBs performing commercially useful functions. City-Parish Purchasing Division will not count the participation of SEDB Subcontractors toward a Contractor's final compliance with its SEDB obligations on a contract until the amount being counted has actually been paid to the SEDB.

The Contractor may count its entire expenditure to SEDB manufacturers (i.e., a supplier that produces goods from raw materials or substantially alters them before resale). The Contractor may count sixty percent (60%) of its expenditures to SEDB suppliers that are not manufacturers, provided that the SEDB supplier performs a commercially useful function in the supply process.

A Contractor shall not count the value of any payment made to an SEDB for work that was further subcontracted out by the SEDB to a non-SEDB.

PART II – PROCEDURE TO DETERMINE QUALIFICATION STATEMENT OR PROPOSAL COMPLIANCE

(A) ELIGIBILITY OF SEDBs: To be counted toward the participation Goals pursuant to the Program, an SEDB must be certified by the City-Parish at the time a bid or proposal is submitted. The fact that an SEDB is certified does not necessarily mean that it has the qualifications and experience for the type of work required by any particular Contract. The responsibility for determining whether an SEDB has the qualifications and experience for the type of work required by the Contract rests with the Contractor. To be deemed an SEDB certified entity, firms must complete the City-Parish's certification process. Only SEDB certified firms under the City-Parish at the time the Bid opening will count toward the SEDB goal.

(B) REPORTING FORMS 1, 1A, AND 2: The following fully completed forms shall be furnished to the City-Parish on a monthly basis. The forms shall have all blank spaces filled in completely and correctly. These forms are as follows:

FORM 1 – SEDB RESPONSIVENESS FORM (copy attached): It is the obligation of the Respondent to make good faith efforts to meet the SEDB goal. Respondents can demonstrate their good faith efforts either by meeting the contract goal or by documenting good faith efforts taken to obtain SEDB participation. The Form 1 shall accurately detail the work proposed by the Respondents to be performed by Respondent and all entities participating in the project and, if it is a bid or proposal, the percent value of that work. If a Respondent is unable to fully meet the SEDB goal of this contract, the Respondent shall submit a Form 2 form and all documentation demonstrating the good faith efforts made to comply with the SEDB requirements.

FORM 1A - REQUIRED PARTICIPATION QUESTIONNAIRE FORM (copy attached): Form 1A shall accurately detail the work to be performed by each and every firm participating in the project. A Form 1A must be submitted for the Contractor and for each Subcontractor included on Form 1. In addition, each participating SEDB firm must submit a current letter of SEDB certification along with its Form 1A.

FORM 2 - Good Faith Efforts (copy attached): Form 2 is only required when the prime firm is unable to fully meet the SEDB contract goal. Form 2 shall provide documentation of good faith efforts made to obtain SEDB participation. Form 2 must be accompanied by supporting documentations such as, but not be limited to, phone logs, facsimiles, and e-mail correspondence with potential SEDB firms. Further explanation of good faith efforts may be found in the Instructions for Form 2. It is up to City-Parish or its Designee to make a fair and reasonable judgment whether a Respondent made adequate good faith efforts to achieve the contract goal.

FORM 3 - Monthly Utilization/Participation SEDB Report (copy attached): Form 3 shall be submitted to the Field Engineer along with monthly payment requests and shall accurately represent the amount paid to SEDB Subcontractors during that invoice period. This form must be submitted with every monthly invoice regardless of the amount of payment or lack of payment. The form shall be signed by the Contractor and the SEDB Subcontractor(s) if payment has been made for that month. SEDB participations will not be counted toward the Contractor's commitment until payment has been rendered to the SEDB. Failure to submit the required reports may result in withholding of payment or partial payments to the Contractor until the required forms are submitted.

Form 2
Good Faith Efforts
INSTRUCTIONS

If required, attach a completed Form 2 and supporting documents to establish that Good Faith Efforts were undertaken to secure SEDB participation:

The following is a list of types of actions which you should consider as part of the Contractor's good faith efforts to obtain SEDB participation. It is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases.

- A. Conducting market research to identify small business contractors and suppliers and soliciting through all reasonable and available means the interest of all certified SEDBs that have the capability to perform the work of the contract. This may include attendance at pre-bid and business matchmaking meetings and events, advertising and/or written notices, posting of Notices of Sources Sought and/or Requests for Proposals, written notices or emails to all SEDBs listed in the City's directory of transportation firms that specialize in the areas of work desired (as noted in the SEDB directory) and which are located in the area or surrounding areas of the project. The Contractor should solicit this interest as early in the acquisition process as practicable to allow the SEDBs to respond to the solicitation and submit a timely offer for the subcontract. The Contractor should determine with certainty if the SEDBs are interested by taking appropriate steps to follow up initial solicitations.
- B. Selecting portions of the work to be performed by SEDBs in order to increase the likelihood that the SEDB goals will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units (for example, smaller tasks or quantities) to facilitate SEDB participation, even when the Contractor might otherwise prefer to perform these work items with its own forces. This may include, where possible, establishing flexible timeframes for performance and delivery schedules in a manner that encourages and facilitates SEDB participation.
- C. Providing interested SEDBs with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation with their offer for the subcontract.
- D. Negotiating in good faith with interested SEDBs. It is the Contractor's responsibility to make a portion of the work available to SEDB subcontractors and suppliers and to select those portions of the work or material needs consistent with the available SEDB subcontractors and suppliers, so as to facilitate SEDB participation. Evidence of such negotiation includes the names, addresses, and telephone numbers of SEDBs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional Agreements could not be reached for SEDBs to perform the work.
- E. A Contractor using good business judgment would consider a number of factors in negotiating with subcontractors, including SEDB subcontractors, and would take a firm's price and capabilities as well as contract goals into consideration. However, the fact that there may be some additional costs involved in finding and using SEDBs is not in itself sufficient reason for a Contractor's failure to meet the contract SEDB goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the Contractor of the responsibility to make good faith efforts. Prime contractors are not, however, required to accept higher quotes from SEDBs if the price difference is excessive or unreasonable.

Form 2
Good Faith Efforts
INSTRUCTIONS Continuation

- F. Not rejecting SEDBs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The contractor's standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations (for example union vs. non-union status) are not legitimate causes for the rejection or non-solicitation of bids in the contractor's efforts to meet the project goal. Another practice considered an insufficient good faith effort is the rejection of the SEDB because its quotation for the work was not the lowest received. However, nothing in this paragraph shall be construed to require the Contractor to accept unreasonable quotes in order to satisfy contract goals.
- G. Contractor's inability to find a replacement SEDB at the original price is not alone sufficient to support a finding that good faith efforts have been made to replace the original SEDB. The fact that the contractor has the ability and/or desire to perform the contract work with its own forces does not relieve the contractor of the obligation to make good faith efforts to find a replacement SEDB, and it is not a sound basis for rejecting a prospective replacement SEDB's reasonable quote.
- H. Making efforts to assist interested SEDBs in obtaining bonding, lines of credit, or insurance as required by the recipient or contractor.
- I. Making efforts to assist interested SEDBs in obtaining necessary equipment, supplies, materials, or related assistance or services.
- J. Effectively using the services of available minority/women/veteran community organizations; minority/women/veteran contractors' groups; local, State, and Federal minority/women/veteran business assistance offices; and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and placement of SEDBs.

Guidance for Removal and/or Substitution of a SEDB Firm

Prime contractor must receive prior written consent from the City -Parish before terminating a SEDB subcontractor listed in response to the City-Parish Purchasing Division solicitation (or an approved substitute SEDB firm). This includes, but is not limited to, instances in which a prime contractor seeks to perform work originally designated for a SEDB subcontractor with its own forces or those of an affiliate, a non-SEDB firm, or with another SEDB firm. All requests must be accompanied by documentation of good faith efforts to maintain the SEDB commitment percentage on the total contract value.

The City-Parish Purchasing-SEDBE Division may provide written consent only if it agrees that the prime contractor has Good Cause to terminate the SEDB firm. Good Cause includes the following circumstances:

1. The listed SEDB subcontractor fails or refuses to execute a written contract;
2. The listed SEDB subcontractor fails or refuses to perform the work of its subcontract in a way consistent with normal industry standards. Provided, however, that good cause does not exist if the failure or refusal of the SEDB subcontractor to perform its work on the subcontract results from the bad faith or discriminatory action of the prime contractor;
3. The listed SEDB subcontractor fails or refuses to meet the prime contractor's reasonable, nondiscriminatory bond requirements.
4. The listed SEDB subcontractor becomes bankrupt, insolvent, or exhibits credit unworthiness;
5. The listed SEDB subcontractor is ineligible to work on public works projects because of suspension and debarment proceedings or applicable state law;
6. The City-Parish Purchasing Division has determined that the listed SEDB subcontractor is not a responsible contractor;
7. The listed SEDB subcontractor voluntarily withdraws from the project and provides to the City of Baton Rouge and Parish of East Baton Rouge Purchasing Division written notice of its withdrawal;
8. The listed SEDB is ineligible to receive SEDB credit for the type of work required;
9. A SEDB owner dies or becomes disabled with the result that the listed SEDB contractor is unable to complete its work on the contract;
10. Other documented good cause that the City-Parish Purchasing Division determines compels the termination of the SEDB subcontractor. Provided, that good cause does not exist if the prime contractor seeks to terminate a SEDB it relied upon to obtain the contract so that the prime contractor can self-perform the work for which the SEDB contractor was engaged or so that the prime contractor can substitute another SEDB or non- SEDB contractor after contract award.
11. Before transmitting to the City-Parish Purchasing Division its request to terminate and/or substitute a SEDB subcontractor, the prime contractor must give notice in writing to the SEDB subcontractor, with a copy to the City-Parish Purchasing Division, of its intent to request to terminate and/or substitute, and the reason for the request.
12. The prime contractor must give the SEDB five days to respond to the prime contractor's notice and advise the City-Parish Purchasing Division and the contractor of the reasons, if any, why it objects to the proposed termination of its subcontract and why the City-Parish Purchasing Division should not approve the prime contractor's action. If required in a particular case as a matter of public necessity (e.g., safety), the City-Parish Purchasing Division may provide a response period shorter than five days.
13. In addition to post-award terminations, the provisions of this section apply to pre-award deletions of or substitutions for SEDB firms put forward by offerors in negotiated procurements.
14. After Good Cause is demonstrated by the Contractor and approved by the Purchasing Division, the contractor must make good faith efforts to replace a SEDB that is terminated with another certified SEDB, to the extent needed to meet the contract goal.
15. In this situation, we will require the prime contractor to provide copies of new or amended subcontracts, or documentation of good faith efforts. If the contractor fails or refuses to comply in the time the City-Parish Purchasing-SEDBE Division specified, our contracting office will issue an order stopping all or part of payment/work until satisfactory action has been taken. If the contractor still fails to comply, the contracting officer may issue a termination for default proceeding.
