QUESTIONS & ANSWERS

Question #1: Can we have clarification on exactly what fixtures are to be replaced around the track and field area for both the sports lights and the flood lights? they are more lights around the track and field than the bid is calling for?

Answer: The requesting department stated there are, 63 Sport Lights – Model # ECO-OKIA-ASP03-1250W-57K-48V-SL (for field light poles), and 22 Security Lights – Model # ECO-MFD-08-200W-48V-50K (for field light poles and bleacher poles).

Question #2: The bid also calls for dimmable drivers, will there be a control panel installed for that? if so, where will it be installed?

Answer: The requesting department stated they do not need dimmable drivers. Lights will either be 100% on or 100% off.

Question #3: It says recycling by others? so, would the lights be left on site are would the contractor be responsible for the recycling? can they just be disposed of?
