VENDOR INQUIRY:

OUR QUESTION IS:

Will the successful bidder be responsible for any electrical work beyond plugging in the units to an existing standard 115v receptacle (NEMA 5-15)?

If electrical modifications, new circuits, or receptacle installations are required to accommodate these units, logic services can perform such work; however, we would need this requirement to be clarified in advance so it can be included in our proposal pricing.

We appreciate your guidance on this point to ensure full compliance and accurate pricing in our bid submission.

RESPONSE: NSU does not require any electrical work to be done for the installation of the fume hoods.

This addendum is hereby officially made a part of the referenced solicitation and should be attached to the bidder's proposal or otherwise acknowledged therein.
