Provide Labor, Materials and Equipment Needed to Supply and Install New Canopies at The Jefferson Performing Arts Center for The Jefferson Parish Department of General Services

Questions and Answers:

- 1) **QUESTION:** The height of the new canopies is to match the underside of the existing front porch ceiling. I measured this, and it is approximately 13'6". Please confirm.

ANSWER: As per section 5.0 – Quantities/Inspections:
Bidders must inspect the site and perform measurements to determine the required quantities of labor, materials, and equipment to complete this project.

- 2) **QUESTION:** The bid documents do not provide overall dimensions. The small canopy should be 10'X10' and the larger one should be 45'X20'X42'X20'. Please confirm.

ANSWER: As per section 5.0 – Quantities/Inspections:
Bidders must inspect the site and perform measurements to determine the required quantities of labor, materials, and equipment to complete this project.

- 3) **QUESTION:** The drawings do not include a lighting requirement, but we believe this is a code requirement. It is state, that if required, the parish would handle this with their in-house staff. Please confirm.

ANSWER: That is correct

- 4) **QUESTION:** The existing paving appears to have a coating on it. In order to construct the canopies, we will need to sawcut and excavate the existing paving and install new concrete footings. Would we be required to recoat the existing paving to match the existing? Please confirm.

ANSWER: Jefferson Parish will recoat the new and existing concrete as needed after the project.

- 5) **QUESTION:** The bid documents have conflicting notes in section 7.2 on sheet 3 of 6. At one point, it states that the canopy is to be "clear anodized," and later on, it says that all aluminum "shall match facility". Please let us know which is correct.

ANSWER: The new canopies shall match the existing building material.

It was indicated that the Notice to Proceed would be done in 2 phases. 1 to release the contractor to order the submittals and materials and a 2nd actually to perform the work and start the 60 clock. Please confirm.
