QUESTIONS & ANSWERS:

Question 1. Per industry standard designs(using ASTM F1216) a fully deteriorated conduit, we feel a nominal 10.5mm thick CIPP product would perform adequately in this drain conduit. In order to level the playing field, we are requesting that an addenda be issued noting the minimum thickness CIPP liner the Parish will accept. The bid item could be written something similar to this:
Description 24" x 10.5mm minimum nominal thickness
Ref Quantity Unit of Measure
S-00001 160 Linear Foot

Answer 1. **Please refer to General Information #2.**
