6. **Question:** Will Jefferson Parish consider equal products where the bag size, material, color, and performance meet or exceed the specification, but the pack out differs from the stated count per case, provided pricing is clearly stated in the Parish's requested unit of measure and total bag quantity is clear? Examples include 200 bags per box for items specified at 250 per case, or roll/cradle pack packaging for an item specified at 100 per case.

Answer: Please bid per quantities on the bid form.

7. **Question:** For item 0090, the solicitation lists a 43 x 47 black Glutton liner, 1.5 mil, reference SL4347150K / EJ-43471SK, packed 100 per case. Please confirm whether Jefferson Parish requires exactly 100 bags per case, or whether an equal 43 x 47, 1.5 mil black liner in alternate roll/cradle pack packaging may be considered if the total bag count and unit pricing are clearly stated.

Answer: Please bid per quantities on the bid form.

8. **Question:** For item 0100, the solicitation specifies 38 x 58 black polyethylene, 2 mil, 60 gallon, 100 per flat-pack case. Answer: Please bid per quantities on the bid form.

9. **Question:** For equal products, are the listed case-weight tolerances and hang-test values mandatory pass/fail requirements at bid submission, or may bidders provide manufacturer product data showing equivalent or superior performance prior to award if requested?

Answer: Please include product data/specs on bid form when quoting equal product.

10. **Question:** The bid is described as a three-year, as-needed requirements contract, and the General Conditions state that quantities listed are for bidding purposes only and actual requirements may be more or less. Are there any minimum release/order quantities by line item, or should bidders assume departments may place orders in quantities smaller than the estimated bid quantities during the contract term?
