Addendum 01

Supplier Inquiry and Response

Q1. Are suppliers required to bid all 10 line items, or may suppliers bid selected line items only?

A1. Yes. It is the intent of the University to award all items on the bid to the lowest responsible and responsive supplier for all items; however, the University reserves the right to not award all items if it's determined to be in the best interest of the university due to budgetary reasons. Regardless of which items are awarded, award can only be made to the overall lowest responsive and responsible bidder for all items.

Q2. The solicitation states that Items 7 and 8 require a technician on site at the time of installation. Is the awarded supplier responsible for providing this technician, or is LSU requesting manufacturer/supplier technical support only?

A2. The awarded supplier is required to supply the technician.

Q3. Are equivalent products accepted if they meet or exceed the listed certifications, IP ratings, dimensions, connector types, voltage requirements, and performance requirements?

A3. Equivalent products are accepted. All products must meet the written specifications. Products cannot exceed requirements as we have specified exactly what each activation needs.

Q4. For custom content, audio-synchronized content, Loop HQ, Pixel Controllers, and related control systems, is LSU requiring a specific manufacturer ecosystem, or may suppliers propose equivalent systems with supporting technical documentation?

A4. Suppliers may propose equivalent systems if all requirements are met with supporting technical documentation.

Q5. Is installation labor included in the scope, or is the scope limited to delivery of products plus technician support as specifically noted?

A5. The scope is limited to delivery plus technical support as specifically noted. A separate supplier has already been awarded the contract for installation.
