New Maintenance and Storage Facility
McNeese State University
Rowdy Drive and Touchdown Lane
Lake Charles, Louisiana
VSG Project No. 2456

Date Issued: October 22, 2026

NOTE: The following clarifications, changes, additions, or deletions to the Drawings and Specifications shall hereby be incorporated into the Contract Documents for the above referenced project. This addendum supersedes all contrary and conflicting information contained in previous Addenda, Drawings and Specifications and are hereby amended. Prime Bidders shall acknowledge receipt of all Addenda in the space on the Bid Form.

ADDENDUM ITEMS:

Item 1: Clarification: Sealed Concrete: (Clear) Basis of Design.
"Masterkure HD 300 WB". (in lieu of clear epoxy)

Item 2: Clarification: Pallet Rack Storage. Six shelves per section with a weight capacity of 2500 lbs per wire deck.

Item 3: Clarification: Furnish 1 Hyundai 36 volt electric forklift model no. 20BRP-9. Shall be used as a Basis of Design.

Contractor shall note that prior approval may be by manufacturers name only. Prior approvals are based on a cursory review of limited data submitted. Listing in this document does not guarantee final acceptance during the shop drawing review phase of the project. Contractor shall ensure that the products used in preparation of his proposal and proposed to be used on this project are equivalent to that specified in appearance, performance, size, color, finish, installation type, and shape. Any material found to not be equivalent to that specified will be rejected. Prior approval of one manufacturer does not automatically prior approve any subsidiary company, parent company and/or sister company and their associated products. Contractor shall take responsibility to ensure that dimensional criteria, materials, specified colors/finishes, installations or systems connected to the proposed product/manufacturer listed above are compatible. If changes from original design are required due to alternative manufacturer, Contractor assumes the responsibility to ensure proper layout, coordination, installation & operations of all affected systems, structure, etc. required.
