**November 9, 2026**

**ADDENDUM #1**

**RFP Event No: 257** **Receipt Date: November 20, 2026 3:30 p.m.**

**Security System Equipment, Maintenance, Repairs, Replacement, Installation, etc. of an Existing Security Access and Video Management System for the Department of Safety and Security**

---

**Revision**

**Please remove the original MSRP pricing chart and replace it with the revised MSRP pricing chart attached in this Addendum No. 1 (ADD – Page 1-5).**

**Addition**

**Please see the attached Maintenance Price Schedule Tool, added per Addendum No. 1. The purpose of this tool is to assist proposers in calculating and submitting their cost proposals as part of the maintenance contract for this RFP. This plan is a modified version of the monthly/yearly maintenance plan included in the previous solicitation of this RFP (ADD – Page 6).**

**Questions & Answers**

**Question #1: The Master form shows out of date MSRP pricing can that be updated?**

**Answer: For inquiries regarding MSRP pricing, potential vendors should refer to the revised MSRP pricing included in this Addendum #1. MSRP is scheduled to change and is simply a sample used for scoring purposes, as these prices are highly dynamic and subject to market changes and supplier discounts. Vendors should use the provided MSRP simply as a tool to gauge the discounted rate off MSRP that they are proposing and for maintenance costs.**

**Question #2: When downloading the list, it does not show the labor cost lines?**

**Answer: The labor cost line items are located in Bridge under lines 101–105.**

**Question #3: I do not see a section to price out the monthly /yearly maintenance plan like the one in place as of now. Am I just not seeing? I see pricing for equipment and labor associated with new installations but not for the monthly maintenance plan?**

**Answer: Please refer to the attached Maintenance Price Schedule Tool included in this Addendum #1. This tool will allow proposers to calculate and provide their cost proposals for the maintenance portion of this RFP. The plan is a modified version of the monthly/yearly maintenance plan that was in place when the RFP was previously advertised.**

**Question #4: Could you please tell us the manufacturer(s) of the Parish's existing access control and video management systems?**

**Answer: All manufacture information for the Parish's current Access Control Management system (ACM) is in the RFP in section 1.1 Background, Goals, and Objectives.**

**Question #5: How many cameras and building sites are there?**

**Answer: Please refer to the location list provided in the RFP. The list does not identify every building equipped with cameras, as the list is extensive and exhaustive. Vendors should use the locations provided as a reference when preparing their proposals for scoring purposes.**

CYNTHIA LEE SHENG
PARISH PRESIDENT

MEGAN GRANTHAM
DIRECTOR

**Question #6: Would you be able to provide the award information for the predecessor contract to RFP Event #257 for Parish-wide security access control and video management equipment and maintenance, awarded approximately 2021–2022. Please include the prior RFP number, selected contractor, award resolution, executed contract, pricing, evaluation results, and subsequent amendments or extensions?**

**Answer: For the past award, vendors can visit Central Auction House and search for the archived RFP 0443, Security System Equipment, Maintenance, Repairs, Replacement, Installation, Etc. of an Existing Security Access and Video Management System. For any additional information not available on Central Auction House, a public records request will need to be submitted through the Parish website.**

***** PLEASE REMEMBER TO ACKNOWLEDGE ADDENDUM BY NUMBER WITH SUBMISSION *****

Sincerely,

Sean Dumas

Sean Dumas, Purchasing Specialist II
Jefferson Parish Purchasing Department

**RFP SUBMISSION:**

**Proposer must acknowledge all addenda on the signature page. Proposer acknowledges receipt of this addendum on the signature page by entering the number that has been assigned to this addendum.**

**This addendum is a part of the contract documents and modifies the original RFP documents and specifications. The contents of this addendum shall be included in the contract documents. Changes made by this addendum shall take precedence over the documents of earlier date.**

**Maintenance Price Schedule Totals**

1. Provide grand total from "EQUIPMENT PRICE LIST FOR NEW EQUIPMENT TO BE NSTALLED ON AN AS NEEDED BASIS"

## A.) TOTAL: _____

Note: (Provide unit pricing with installation for each piece of all equipment priced after proposed MSRP percentage discount)
Dynamic pricing will be used during the duration of the contract.)

2- *Using 'MAINTENANCE PROPOSAL AND CONTRACTORS SPECIFICATION", provide price per year maintenance of equipment.

Year One _____

Year Two _____

Year Three _____

## B.) TOTAL: _____

3. *Provide price per hour for an embedded technician to perform additional programming, access control and video software data input, updates and software clean-up, as needed, up to 500 hours per year for a total of 1500 hours.

Price per hour _____x 1500 hours = **C.) _____**

**A+ B + C = GRAND TOTAL _____**

Financial . Proposals are to be submitted per the instructions in section 1.13 in a separate sealed envelope and will not be included in the evaluation criteria.

* Each invoice for the maintenance contract, embedded technician services and new equipment installations shall include a brief written narrative describing the work accomplished during the invoice period showing man hours/labor cost by job position and work tasks being billed during the invoice period.

4. Incidentals will not be included in the cost proposal and will not be used for scoring this RFP. This list is to be used for all hardware, brackets, ties, etc. necessary for the installation of new video and/or a card access system on an as needed basis.
